Summary of Revenue Changes

Senate Bill 283 appropriates $16,100,000 General Fund to three agencies to address workforce shortages in education. This includes the following funding for the 2023-25 biennium:

- Appropriates $15 million to the Oregon Department of Education (ODE), this includes $10 million for apprenticeship and mentorship grants and $5 million for the Safe School Culture Grant program.

- Appropriates $795,000 to Legislative Policy and Research Office (LPRO), this includes $300,000 for the Task Force on Substitute Teachers and $495,000 for the Task Force on Statewide Educator Salary Schedules.
- Appropriates $305,000 to the Teacher Standards and Practices Commission (TSPC), this includes $205,000 to establish the statewide portal for jobs in education and $100,000 for the conversion of teaching licenses into substitute teaching licenses.

Summary of Education Subcommittee Action

Senate Bill 283 provides funding to support strategies to address the needs of Oregon's education workforce shortage issues. The Subcommittee recommended $16.1 million of one-time General Fund appropriations to three agencies to implement the provisions of the bill.

Oregon Department of Education

The bill requires ODE to develop a plan to establish and maintain a statewide data system on the education workforce in Oregon and creates a steering committee to assist the Department with this task. The bill also requires ODE to administer an annual survey of educators on their experiences working in Oregon schools, and to make information on survey results available to school district boards and administrators and to the Legislature in an easily accessible format.

Senate Bill 283 also includes a one-time appropriation of $15 million General Fund to ODE to establish two grant programs. Of the funding, $10 million will provide grant awards to promote registered apprenticeships for education and to promote the beginning teacher and administrator mentorship program. The remaining $5 million will be distributed as grant-in-aid for the Safe School Culture Grant program. These grants will be distributed biennially to school districts participating in the program, to develop a network of instructors who are certified in nonviolent crisis intervention methods. Districts participating in the program will be required to report the number of new certified instructors that have been certified in nonviolent crisis intervention methods.

Legislative Policy and Research Office

The bill establishes the Task Force on Statewide Educator Salary Schedules and the Task Force on Substitute Teachers. To provide the necessary support to the task forces, LPRO will utilize three full-time, limited duration positions (2.00 FTE), including one senior Legislative Analyst to serve as the task forces' subject matter expert and coordinator; one Research Analyst for management of administrative data and related technical analyses; and one Committee Assistant to provide clerical support and record task force meetings. The cost of these positions, including related Services and Supplies, is included in a one-time appropriation of $695,000 General Fund. These positions will end once the task forces sunset on December 31, 2024.

The Task Force on Substitute Teachers is directed to conduct a cost savings analysis that will require external expertise. For this work, an additional one-time appropriation of $100,000 General Fund is provided to contract with a third-party to conduct the required cost savings analysis.

Teacher Standards and Practices Commission

The bill provides a one-time appropriation of $305,000 General Fund to TSPC. This funding includes $205,000 General Fund for TSPC to develop a plan to establish and maintain a statewide jobs portal for education, which TSPC would maintain permanently once established. To develop the plan for the jobs portal, TSPC anticipates needing one part-time, limited duration Operations and Policy Analyst 4 position (0.50 FTE) to oversee the development and maintenance of the jobs portal and workforce database. Also included is $100,000 General Fund for the conversion of teaching licenses into substitute teaching licenses. This conversion will allow retired teachers to convert their teaching licenses into substitute teaching licenses within three years of retirement at no cost.

Summary of Capital Construction Subcommittee Action

Senate Bill 1040 requires DELC to establish and administer by rule a pilot program for child care micro centers. DELC must prepare a report to a legislative committee related to early learning and care by September 15, 2025, and the pilot program sunsets on January 2, 2026.

To perform the necessary work required by the bill, a one-time General Fund appropriation of $224,931 is provided to DELC to establish a limited duration Operations and Policy Analyst 3 position (0.88 FTE). Summary of Revenue Changes

The General Fund appropriations and Lottery Funds adjustments included in SB 5506 are within the level of resources projected in the May 2023 state economic and revenue forecast published by the Department of Administrative Services, Office of Economic Development. Other Funds expenditure limitations are adjusted to support capital projects funded with bond proceeds; satisfy debt service obligations; make payments from statutory accounts capitalized with General Fund or other revenue sources; expend American Rescue Plan Act (ARPA) State Fiscal Recovery Funds carried over from the 2021-23 biennium; rebalance the level of revenues dedicated for the Oregon Health Plan; and make other expenditures for agencies that rely on Other Funds revenue, within forecasted amounts. The measure increases Federal Funds expenditure limitations to account for federal Medicaid match; transfer ARPA Capital Projects Funds from the Department of Administrative Services to the Oregon Business Development Department; and recognize legislatively approved federal grants.

Department of Administrative Services

The Subcommittee approved modifying the scope of the $5 million General Fund grant to the Grande Ronde Hospital Foundation authorized in HB 5202 (2022) from the purchase of hospital equipment to capacity building health initiatives that will further develop and expand care in the community and region. In addition, the Subcommittee approved modifying the eligible uses of the $7.9 million General Fund grant for the United We Heal Training Trust's Rebuild Child Care Plan approved in HB 5202 (2022) to include child care provider capital grants of up to $14,000 for in-home providers and up to $70,000 for child care centers; equipment grants of up to $3,000 per provider; an accounting shared services pilot program; training, coaching, and mentorship for new providers; sub-awards for developing new black, indigenous, people of color (BIPOC)-focused child care centers; and administrative and operating costs.

As part of the behavioral health package, the Subcommittee approved $2.9 million General Fund, on a one-time basis, for DAS to reimburse local governments, community mental health programs established under ORS 430.620, and providers for payment of awards, settlements and expenses that are: 1) incurred in civil actions arising out of the provision of services pursuant to ORS 161.365 and 161.370; 2) become payable on or after the effective date of this 2023 Act; and 3) exceed insurance coverage available to the local government, community mental health program, or provider.

An additional part of the behavioral health package is a one-time General Fund appropriation of $100,000 to DAS to collaborate with county governments and community mental health programs established under ORS 430.620 to study barriers that prevent local governments, community mental health programs and providers from obtaining insurance coverage for liability arising out of the provision of services pursuant to ORS 161.365 and 161.370.

BUDGET NOTE

By February 1, 2024, the Department of Administrative Services shall submit a report to the Joint Committee on Ways and Means and an appropriate committee or interim committee of the Legislative Assembly with recommended solutions and a timeline for how to insure against liability arising out of the provision of services pursuant to ORS 161.365 and 161.370 for the purposes of community restoration or to restore fitness to proceed, or other behavioral health services required under a court order. The recommended solutions may include establishing an insurance pool for counties, community mental health programs and providers.

The budget includes a General Fund appropriation of $832,000 to DAS for the payment of legal services incurred as a result of SB 1584 (2022) and billed by the Department of Justice utilizing the 2023-25 Attorney General rate. An appropriation of $4 million General Fund is for payment of court-awarded compensation, reimbursement of reasonable attorney fees, and other costs associated with wrongful conviction claims. SB 1584 (2022) created a procedure for filing a petition for compensation for wrongful conviction and establishes criteria to file a claim against the State of Oregon to receive compensation at a statutorily set rate for every year spent in prison for wrongful conviction.

The Subcommittee approved a one-time General Fund appropriation of $2.4 million for deposit into the Universal Representation Fund, and a corresponding one-time increase of $2.4 million Other Funds expenditure limitation for disbursement from the Fund to Oregon Worker Relief, for legal services through the Universal Representation Program. The Subcommittee approved a separate one-time General Fund appropriation of $4.3 million for deposit into the Universal Representation Fund, and a corresponding one-time increase of $4.3 million Other Funds for disbursement from the Fund to Oregon Worker Relief, for services through the Universal Representation Program.

The measure includes an increase of $167,008 General Fund to support a permanent full-time Operations and Policy Analyst 2 position (0.75 FTE) in the DAS Chief Financial Office for grant administration due to the cumulative impact of legislation appropriating funds to the Department to distribute as grants to other entities. The Subcommittee also approved a one-time General Fund appropriation of $300,000 to DAS Enterprise Asset Management to contract for an independent audit of land purchases by the Oregon Liquor and Cannabis Commission from fiscal years 2019 through 2023.

Also included is a $537,447 increase in Other Funds expenditure limitation and authorization for three Payroll Analyst positions (3.00 FTE) for DAS Enterprise Goods and Services to provide Shared Financial Services with staffing resources to address increasing workload from new client agencies.

To provide temporary financial assistance to agricultural workers who lose work or wages because of extreme heat or smoke, a one-time $1 million General Fund appropriation is included for the Oregon Worker Relief Climate Change Fund. Oregon Worker Relief is required to report quarterly to DAS on the expenditure of funds.

In addition, a $250,000 General Fund appropriation is approved on a one-time basis for Home Share Oregon to provide grants to individuals participating in the home-sharing program to expand access to affordable housing.

The measure includes a one-time $1 million General Fund appropriation for DAS to distribute to the Willamette Career Academy to fund regional career and technical education programs provided by the Academy. The Subcommittee also approved an increase in Federal Funds expenditure limitation of $156.8 million for the purpose of transferring available American Rescue Plan Act (ARPA) Capital Projects Funds to the Oregon Business Development Department for broadband infrastructure programs.

An increase of $508,034 Other Funds is included for debt service costs associated with the repayment of General Obligation bond proceeds approved in HB 5005 (2023) that will be issued before the end of the biennium to support DAS projects; an additional increase of $50,000 Other Funds is included for the cost of issuance of the bonds. The Subcommittee also approved $1.4 million in additional Lottery Funds debt service for repayment of lottery bonds that will be issued before the end of the biennium.

The Subcommittee also approved one-time General Fund appropriations to DAS to distribute according to the following purposes:

Public Employees Retirement System

The Subcommittee approved a Lottery Funds expenditure limitation increase of $7.3 million for the allocation of net sports betting revenue dedicated to the Employer Incentive Fund (EIF) to reconcile to the May 2023 Department of Administrative Services - Office of Economic Analysis revenue forecast. With this adjustment, the Public Employees Retirement System's Lottery Funds total is $28.5 million, which is sufficient for another EIF application period during the 2023-25 biennium.

Department of Revenue

The Subcommittee approved a one-time increase of $14 million Other Funds for the Department of Revenue (DOR) to spend Article XI-Q bond proceeds for Phase 2 of the Electronic Valuation Information System (ELVIS) project. The ELVIS project replaces a 20-plus year-old system for the Property Tax Division's assessment and valuation programs. Phase 1, completed in 2021-23, addressed DOR's central assessment work for communications, transportation, and utility company properties. Phase 2 is directed at the appraisal of large industrial properties with over $1 million of machinery and equipment which DOR is required to appraise. Related to the ELVIS project, the Subcommittee also approved increases of $265,000 Other Funds for the cost of issuance for the Article XI-Q bonds, approximately $2.4 million General Fund for 2023-25 debt service on those bonds, and $100,000 General Fund for system training.

An increase of $1.2 million General Fund, $81,129 Other Funds, and eight permanent positions (5.66 FTE) are also included for implementing HB 3235 (2023), which establishes a new refundable $1,000 tax credit for personal income tax returns for filers with a dependent under the age of six years old. The positions approved are one Operations and Policy Analyst 2 for outreach and education, four Public Service Representative 3 positions to respond to taxpayer questions and inquiries, one Revenue Supervisor 2 to maintain supervisor to staff ratios, and two Administrative Specialists to validate credit compliance on tax returns. Funding is also available for changes to the agency's information systems to implement the tax credit.

Secretary of State

The Subcommittee approved a $538,735 Other Funds expenditure limitation increase and the establishment of two permanent full-time positions (2.00 FTE) to support the operations of the Corporation Division. An Operations and Policy Analyst 4 position is established to ensure the Division's forms are available online. Currently, over 20 forms are frequently used by customers that are not available online. An Operations and Policy Analyst 3 position is established to use data from critical functions, such as business registrations and Uniform Commercial Code filings, to make recommendations designed to enhance the Division's activity forecasting, use of resources, and better manage risk.

Increases totaling $73,319 General Fund and $174,962 Other Funds expenditure limitation are included to accommodate changes to the compensation plans for management positions. While most of the Executive Branch had adopted these comprehensive changes to the classifications of management positions earlier in the biennium, the Secretary of State did not adopt these changes until late 2022 and therefore the cost of these compensation plan changes was not included in the agency's requested budget. The changes affect nine positions in the Administrative Services, Elections, and Archives Divisions.

The budget also includes an increase of $325,474 General Fund to continue a full-time limited duration Program Analyst 3 position (1.00 FTE) responsible for staffing the Translation Advisory Council created in HB 3021 (2021). The position will continue and expand upon this work in the 2023-25 biennium.

An ongoing General Fund appropriation of $215,670 was approved to make permanent the Eastern Oregon apprenticeship support position (1.00 FTE) in the Apprenticeship and Training Division. The measure also includes $37,407 General Fund for services and supplies in the Commissioner's Office and reestablishes an Administrative Specialist 1 position (1.00 FTE) for the Department of Transportation's Heavy Highway Project. Additionally, the Subcommittee approved the transfer of approximately $5.1 million Other Funds from the Wage Security Fund to the agency's primary budget structure for Other Funds expenditure limitation to account for where the funds will be expended.

Department of Consumer and Business Services

A one-time General Fund appropriation of $6.3 million was approved to reauthorize unspent funding for the Department of Consumer and Business Services Fire Hardening Grant Program formed as part of the Wildfire Recovery Initiative adopted in the 2021 session. The Fire Hardening Grant Program incentivizes residential and commercial fire hardening for rebuilding and repairing dwellings and other structures that were destroyed or damaged in the 2020 wildfires. The reauthorized grant funds will be made available to 2021 wildfire survivors in addition to the 2020 survivors. Of the $6.3 million, $300,000 is available to counties for program administration.

ECONOMIC AND COMMUNITY DEVELOPMENT

Department of Veterans' Affairs

The Subcommittee approved one-time Lottery Funds expenditure limitation of $220,000, available from the Veterans' Services Fund, for the Department of Veterans' Affairs to study and make recommendations for policy proposals on the tax treatment of military pensions.

BUDGET NOTE

The Oregon Department of Veterans' Affairs shall provide a report detailing its study of the tax treatment of military pensions and recommendations for related policy proposals. The report shall be submitted to the Emergency Board and interim committees of the Legislature related to veterans by September 2024.

Housing and Community Services Department

General Fund in the amount of $5 million is included to pair with Low Income Fast Track (LIFT) bond proceeds to incentivize homeownership development in rural areas and foster greater density in urban areas. The historical average subsidy for LIFT homes for purchase has been $70,000 per home. This investment will be able to subsidize approximately 71 new affordable homes that are financed with LIFT Article XI-Q bond proceeds.

Other Funds expenditure limitation is increased by $50 million related to lottery bonds authorized for issuance to preserve an estimated 1,075 units of existing affordable housing. This can include publicly supported affordable housing, properties with federal project-based rental assistance contracts, rent subsidies, manufactured dwelling parks, and properties undergoing recapitalization. Other Funds expenditure limitation was increased by $525,793 for cost of issuance associated with these bonds, and Lottery Funds debt service limitation was increased by $2.5 million as a result of this investment.

The agency's General Fund appropriation for debt service was increased by $26.5 million to reflect the issuance of $600 million in general obligation bonds authorized for issuance to finance the creation of affordable housing, and by $4.3 million for cost of issuance. Of the $600 million in bonds, $440 million is associated with the LIFT Housing Program, issued pursuant to Article XI-Q of the Constitution, with $350 million intended for an estimated 2,953 affordable rental housing units, and $90 million is set aside for projects to finance home ownership, estimated to fund 383 homes. General Obligation bonds of $160 million will also finance the construction of an estimated 1,067 units of permanent supportive housing (PSH). Once occupied, each PSH unit requires an ongoing operating subsidy of $20,000 for wrap around services to households, and $20,000 for rental assistance, per biennium. Other Funds expenditure limitation was further increased by $29,000 attributable to debt service adjustments on outstanding bonds.

General Fund in the amount of $216,349 is appropriated to support a permanent Policy Analyst 3 position (0.88 FTE) to accommodate workload implications relating to HB 2071, which has the effect of expanding the Oregon Affordable Housing Tax Credit to lenders of limited equity homeownership cooperatives.

In addition to the adjustments to HCSD's budget, a $39 million General Fund special purpose appropriation is made to the Emergency Board for allocation to the HCSD to pay longer-term rental assistance for people rehoused after homelessness. This amount would expand rehousing efforts from the 1,650 households included in HB 5019 and SB 5511, to an additional estimated 700 households statewide, with no less than 25% of the funds set aside for distribution by culturally responsive organizations. HCSD must report to the Emergency Board on details of a framework for longer term rental assistance associated with these initiatives, which includes the following information in each continuum of care: the estimated number of households served; the average amount of rental assistance assumed and the length of time such assistance will be provided; eligibility criteria and subsequent income verification measures undertaken by the service providers administering rental assistance; and associated services and plans to leverage other federal or state benefits with the goal of reducing the amount of or need for longer-term rental assistance services. The department will also provide information on accountability measures for its service delivery partners. Long term rental assistance is not assumed to be part of the calculation for ongoing service needs for the 2025-27 biennium.

Oregon Business Development Department

Increased expenditure limitation of $50 million Other Funds was approved for OBDD for the expenditure of net lottery revenue bond proceeds deposited in the Child Care Infrastructure Fund established in HB 3005 (2023). The monies in the fund are to be used by the Department to provide loans and grants for allowable costs expended for early child care infrastructure activities. For the administration of the Child care Infrastructure Fund, an increase in Lottery Funds expenditure limitation of $534,259 and the establishment of three positions (2.13 FTE) was approved. The total funding includes position costs of $430,159 and program related services and supplies expenditures of $104,100, including $25,000 for attorney general costs for contract reviews.

Adjustments to the agency's nonlimited Other Funds expenditures were approved for net lottery revenue bond proceeds of $30 million to be deposited in the Special Public Works Fund from authorized bond issuance in the upcoming 2023-25 biennium. The Special Public Works Fund provides loan and grant funding to eligible municipalities for planning, design, and construction of essential public infrastructure including utilities and facilities essential to industrial growth, commercial enterprise, and job creation.

The Subcommittee approved an increase of $10 million Other Funds for the Infrastructure Division to allow the department to provide grants for levee projects from the net proceeds of lottery revenue bonds authorized to be issued and deposited in the fund during the upcoming biennium.

Approved increases in Other Funds expenditure limitation totaling $43.3 million were made for the distribution of grants funded by the issuance of lottery revenue bonds for economic development capital projects as follows:

Lottery Funds expenditure limitation is increased by $4 million for the payment of debt service related to lottery bonds anticipated to be issued in the 2023-25 biennium for capitalization of the Special Public Works Fund and the Child Care Infrastructure Fund. An Other Funds expenditure limitation of $1.1 million was established for OBDD for the payment of debt service costs from the proceeds of bond reserves, interest earnings, and bond refinancing activities on bonds issued in prior biennia. An increase in Other Funds expenditure limitation of $1.6 million was also approved for the payment of costs associated with the issuance of lottery revenue bonds associated with specific infrastructure projects, Child Care Infrastructure Fund capitalization, Special Public Works Fund capitalization, and grant funding from the Cultural Resources Economic Fund.

Increased Other Funds expenditure limitation of $3 million was approved from the Cultural Resources Economic Fund for OBDD to distribute a grant to the Native Arts and Cultural Foundation for renovations to the Center for Native Arts and Cultures.

The Subcommittee approved multiple General Fund appropriations to OBDD for the distribution of grants to cultural venues in specified amounts. A one-time General Fund appropriation of $1 million to OBDD is included for a grant to Literary Arts, Inc. to fund a portion of a $12 million renovation of the organization's newly purchased 14,000 square foot headquarters at 716 S.E. Grand in Portland.

A total of $15.1 million Lottery Funds was provided to OBDD on a one-time basis for local governments as grants for various infrastructure projects supporting economic development. The individual projects and funding include: City of Estacada New Wastewater Facility project, $2.4 million; Port of Morrow, South Morrow County Water and Transportation Infrastructure Development, $2.5 million; Harney County Industrial Improvements: B Street Extension, $2.25 million; City of Waldport Industrial Park Sewer expansion, $2.2 million; Wheeler County Industrial Development, $2.4 million; City of Lowell Water Treatment Plant Upgrades, $306,420; Illinois Valley Fire District Extension of Water & Sewer Lines, $984,500; City of Port Orford Water Recycling project, $750,000; and Tillamook County Shilo Levee Rehabilitation, $1.3 million.

In anticipation of the issuance of general obligation bonds for the seismic rehabilitation program at OBDD, expenditure limitation of $150 million Other Funds was included for program grants: $100 million for public school buildings and $50 million for emergency services facilities. An increase in expenditure limitation of $1.5 million was approved for the payment of costs associated with the issuance of the bonds. In addition, the Subcommittee approved an

increase in the General Fund appropriation to OBDD in the amount of $12.6 million for the payment of debt service obligations related to the issuance of bonds for the seismic rehabilitation program.

The measure also includes several technical adjustments to OBDD's budget. First, expenditure limitation of $287,800 Other Funds which was established in error for the transfer of American Rescue Plan Act State Fiscal Recovery Funds is reduced. This is offset by an increase in the agency's general Other Funds appropriation in the same amount.

Other Funds expenditure limitation of $166,476 and authority for three positions (0.88 FTE) are transferred from the Business, Innovation, and Trade Division to the Operations Division where the positions were intended to be budgeted. The offsetting adjustments net to zero agencywide.

A technical adjustment is included to resolve statutory expenditure limitation conflicts between Other Funds expenditure limitation from the University Innovation Research Fund that arose between SB 4 (2023) and SB 5524 (2023), the agency's budget bill, with no net change in overall expenditure limitation from the fund. The expenditure limitation from the fund provided in SB 4 is reduced by $10 million and the expenditure limitation associated with the fund in SB 5524 is increased by $10 million.

The measure includes another technical adjustment to resolve conflicts between Lottery Funds expenditure limitation supporting Small Business Development Centers that arose between HB 3410 (2023) and SB 5524 (2023) with no net change in overall expenditure limitation or program support. The expenditure limitation from the fund provided in HB 3410 is reduced by $3 million and the expenditure limitation supporting Small Business Development Centers in SB 5524 is increased by $3 million.

An adjustment is made to correct an error in OBDD's primary budget bill, SB 5524. This change reduces expenditure limitations from the Broadband Fund as provided in section 7 of the agency's budget bill related to American Rescue Plan Act (ARPA) Capital Projects Funds and includes language that appropriately provides expenditure limitation for only the portions in the Broadband Fund that are from ARPA Capital Projects revenue, as multiple sources of revenue are comingled in the fund. The revised language also updates the amount of expenditure limitation to reflect the total amount of ARPA Capital Projects Funds anticipated to be transferred by the Department of Administrative Services in the upcoming biennium, as the funding that was anticipated to be transferred in the prior biennium was not transferred due to the statutorily defined uses of funds deposited in the Broadband Fund being in conflict with federal guidance on the expenditure of the ARPA Capital Projects monies. These conflicts are anticipated to be resolved with the adoption of HB 3201 (2023) which contains provisions aligning the stated uses of the fund with federal guidance.

Oregon Liquor and Cannabis Commission

Two positions (1.76 FTE) and $496,133 Other Funds expenditure limitation are added to the Oregon Liquor and Cannabis Commission (OLCC) budget to improve information technology security and data privacy. An Information Specialist 8 will monitor and remediate threats to OLCC systems, networks and devices, and a Principle Executive Manager D position will develop systems, policies and procedures to improve security, as well as coordinate with state and licensee stakeholders who want access to data.

Other Funds expenditure limitation in the amount of $16.5 million is included for bonds reauthorized for the OLCC's information technology systems for the warehouse management system, and licensing and enforcement systems. The total approved project cost is $27 million, and bonds for this purpose were

approved in the 2021-23 biennium but the entire approved amount was not issued. The $16.5 million represents the balance of project costs remaining. Cost of issuance on this amount, as well as bonds reauthorized for the liquor warehouse and conveyer system, is $977,217, and associated debt service for the biennium is $9.5 million. These bonds are supported by revenue from liquor sales.

EDUCATION

Department of Early Learning and Care

To establish the Imagination Library of Oregon program for providing a free book each month to eligible Oregon children from birth to age five, the Subcommittee approved a General Fund appropriation of $1.7 million to the Department of Early Learning and Care (DELC). The Department will contract with an Oregon-based non-profit organization to manage the program.

For DELC to provide technical assistance to child care providers seeking to access the Child Care Infrastructure Fund (CCIF), the Subcommittee approved $186,943 General Fund, $216,168 Federal Funds expenditure limitation, and two positions (1.75 FTE) to design, coordinate and implement the CCIF technical assistance program, focused on ensuring that child care providers – particularly those who historically have not had access to funding – can access and navigate the CCIF administered by the Oregon Business Development Department. For grants to nonprofit entities that have experience in providing technical assistance to child care providers, the Subcommittee approved an appropriation of $5 million General Fund to the Department. The grant program is intended to support child care business owners as they navigate local county/city zoning requirements related to child care, and to provide resources specifically to ensure that the nine federally recognized Tribes within Oregon's borders can navigate the system with their sovereignty in mind.

The Employment Related Day Care program provides consistent, quality child care to eligible low-income families while they are working or attending school. To improve the cost per case rate paid to child care providers in this program, the Subcommittee approved $15 million General Fund.

The Subcommittee approved $401,243 General Fund and $1.6 million Federal Funds expenditure limitation to create two new Investigations Specialist positions (1.84 FTE) to improve agency response to complaints; convert three limited duration Compliance Specialist 2 positions (3.00 FTE) to permanent positions; convert one limited duration Program Analyst 4 position (1.00 FTE) to permanent in the Baby Promise program; and convert one limited-duration Program Analyst 4 position (1.00 FTE) to permanent in the Spark quality recognition and improvement program.

To bring the system to scale statewide and support its continued development for and use by educators, the Subcommittee approved $4.8 million Other Funds expenditure limitation and the establishment of 10 permanent positions (10.00 FTE). This amount includes $2 million for procurement of an online learning platform.

Funding for the purchase of the online learning platform is provided on a one-time basis in the 2023-25 biennium; any future costs related to licensing and maintenance of this system are assumed to be ongoing.

The Subcommittee approved an increase in Other Funds expenditure limitation for the High School Graduation and College and Career Readiness Fund of $14.7 million. The source of Other Funds is the Statewide Education Initiatives Account of the Fund for Student Success.

The Department of Education administers a statewide education plan for African American/Black students who are in early childhood through post-secondary education programs. To increase the grants that may be awarded through this plan, the Subcommittee approved an increase in Other Funds expenditure limitation of $5 million on an ongoing basis. The source of Other Funds is the Statewide Education Initiatives Account of the Fund for Student Success.

To support school districts in teaching migrant students and English Language Learners and improving their educational success in Oregon schools, the Subcommittee approved $748,833 Other Funds expenditure limitation, $1.5 million Federal Funds expenditure limitation, and the establishment of eight permanent positions (7.68 FTE) for the Department of Education to create a new migrant and multilingual education team. The source of Other Funds is the Statewide Education Initiatives Account of the Fund for Student Success; the source of Federal Funds is federal COVID-19 relief funding from the Elementary and Secondary School Emergency Relief program, available on a one-time basis in the 2023-25 biennium.

The Subcommittee approved $100 million Other Funds expenditure limitation for the Oregon School Capital Improvement Matching program. The proceeds of the sale of Article XI-P general obligation bonds authorized in HB 5005 (2023) will be used for grants to school districts that can match the grant with proceeds of locally issued bonds for the construction and improvement of school district buildings and property.

The Subcommittee approved $15 million Other Funds expenditure limitation for lottery bond proceeds authorized in HB 5030 (2023) for deposit into the Connecting Oregon School Fund (COSF) for expanding internet connectivity in schools and maximizing the use of available federal resources. The agency will use COSF to provide state grants to school districts, education service districts, and public charter schools that are successful in applying for federal E-rate funding from the Universal Service Administrative Company (USAC) for special construction projects. These projects will provide new or improved existing internet connectivity for schools in which the federal E-Rate funding would typically provide between 60-80% of project costs. ODE will provide state grants for up to 10% of project costs which will leverage an additional matching federal contribution, which may enable sufficient funding to pay for the entire cost of the project. State funding will be allocated through a formula that prioritizes schools based on income levels; rural and remote areas of the state; and the current type of internet connectivity and download speeds.

A total of $1.1 million Other Funds expenditure limitation was approved for the cost of issuance of general obligation bonds (HB 5005) and lottery bonds (HB 5030). These include the costs for bonds issued for the Oregon School Capital Improvement Matching program (Article XI-P bonds), projects for the Oregon School for the Deaf (Article XI-Q bonds) and Broadband Connecting Oregon Schools grants (lottery bonds). An Other Funds expenditure limitation of approximately $8 million was established for debt service on bonds sold in prior periods.

The Subcommittee approved an increase of $42.4 million General Fund and a reduction of $42.4 million Lottery Funds in the State School Fund. This change reflects the final balance of available Lottery Funds usage across the state budget and maintains the total State School Fund budget of $10.2 billion for the 2023-25 biennium.

The East Multnomah Outreach, Prevention, and Intervention program, operated by the City of Gresham, provides culturally responsive outreach, prevention, and intervention programs to prevent youth violence and to empower youth to be successful members of the community. To continue state support for this program, the Subcommittee approved $2 million General Fund on a one-time basis for the 2023-25 biennium.

The Subcommittee approved an increase of $146.3 million Other Funds expenditure limitation for the Student Investment Account in the Fund for Student Success. This increase brings expenditure limitation in this account to 50% of the estimated revenues available for distribution in the Fund for Student Success for 2023-25.

Higher Education Coordinating Commission

The Subcommittee approved a one-time $100,000 General Fund appropriation for the Higher Education Coordinating Commission (HECC) to distribute to the Oregon State University Institute of Natural Resources to convene a statewide water conference to facilitate learning and relationship-building between sectors, identify research needs, and develop a statewide research and learning agenda. The program was established in SB 762 (2021) to reduce the risk of wildfires, assist in the creation of fire-adapted communities, and engage youth and young adults in workforce training. In addition, the Subcommittee approved a corresponding Other Funds expenditure limitation increase of $10 million for expenditures from the Oregon Conservation Corps Fund.

HB 2049 (2023) established the Oregon Cybersecurity Center of Excellence. The measure established three Funds to provide resources to the Center: (1) the Oregon Cybersecurity Center of Excellence Operating Fund; (2) the Oregon Cybersecurity Workforce Development Fund; and (3) the Oregon Cybersecurity Grant Program Fund. The measure provided $2.5 million General Fund to be deposited into the Operating Fund for startup costs for the Center; $2.15 General Fund to be deposited into the Workforce Development Fund to support specified education and training programs; and $250,000 General Fund for the Grant Program Fund to provide assessment, monitoring, incident response, and competitive grants to government bodies for cybersecurity-related goods and services. After review of HB 2049 (2023), it was determined that Other Funds expenditure limitations are required to spend out of these three Funds. Other Funds expenditure limitation of $5 million was approved for the second phase of the Financial Management Information System (FAMIS) project. The second phase will include the replacement of two additional legacy information systems: ETPL (Eligible Training Provider List System), and PCSVets (Private Career Schools and Office of Degree Authorization). The project replaces multiple out-of-date existing systems with one IT platform that consolidates HECC's data to provide students and job seekers with better access to assistance, while improving security and reporting functions. This information systems modernization project is financed with the proceeds from the sale of Article XI-Q Bonds. HUMAN SERVICES

Commission for the Blind

Oregon Commission for the Blind's information technology (IT) infrastructure update and alignment project was originally approved in the 2019-21 biennium. The goals of the project are to establish a case management system and transfer IT support from a contractor to Department of Administrative Services (DAS) IT services. The measure increases General Fund by $952,421 to implement the second phase of the project, which includes ongoing maintenance and system support and cloud hosting, and to support the cost of DAS IT helpdesk services and state data center costs. The agency will provide a project status update to the Legislative Fiscal Office, including the projected project completion date, prior to the 2025 legislative session.

The budget increases Federal Funds expenditure limitations for the Commission for the Blind by $234,260 to fund the upward reclassification 36 rehabilitation instructor and counselor positions to vocational rehabilitation specialist positions. The Department of Administrative Services Chief Human Resources Office conducted a position analysis of the commission's rehabilitation instructors and vocational rehabilitation counselors and determined the work conducted by these positions was consistent with the vocational rehabilitation specialist classification.

Department of Human Services

The Subcommittee approved a General Fund appropriation of $20.9 million to the Department of Human Services (DHS) to phase out the temporary food and shelter services being provided to 300 individuals pursuing a case by U.S. Citizenship and Immigration Services. The funding includes $10.8 million to cover food and shelter costs for nine months, during which time DHS will work with Multnomah County and community-based organizations to fully transition these individuals out of short-term shelter and into long-term community-based housing and wrap around services. The appropriation includes $9.8 million General Fund for Multnomah County to coordinate services and contract with community-based organizations. Also included is $377,564 for five limited-duration positions (1.90 FTE) in DHS Self-Sufficiency for program administration, including four Public Service Representative 4 positions and one Program Analyst 2 position. The Subcommittee adopted the following related budget note:

BUDGET NOTE

The Department of Human Services is directed to present to the Human Services Subcommittee of the Joint Committee on Ways and Means during the 2024 regular legislative session on (1) the status of efforts to transition the current caseload of 300 individuals (as of June 5, 2023) into

community-based housing and wrap-around services, (2) the number of similarly-situated individuals who have arrived in Oregon in need of like services, and (3) efforts to connect those individuals with community-based organizations and resources.

The budget includes $6.8 million General Fund and Federal Funds expenditure limitation of $3.4 million for the Department of Human Services to make permanent a 5% occupancy rate enhancement first approved in 2021-23 due to the COVID-19 pandemic, and to reflect a new methodology for calculating the rates paid to behavior rehabilitation service providers. This new methodology will connect provider payment rates to data from the U.S. Bureau of Labor Statistics and the Consumer Price Index to account for inflation. The funding provided is in addition to the $2.9 million General Fund included in the Department of Human Services budget bill (HB 5026). A corresponding rate adjustment is supported for behavior rehabilitation services funded in the Oregon Youth Authority's budget.

BUDGET NOTE

The Department of Human Services is directed to conduct a comprehensive rate and wage study across home and community-based service delivery systems, with a focus on providers of in-home and residential care to individuals receiving services through the Office of Developmental Disabilities Services and the Office of Aging and People with Disabilities and provide a written report on the findings and recommendations to the Joint Committee on Ways and Means or Emergency Board no later than September 2024. The report shall provide an analysis of (1) the findings of the wage and rate study; (2) the different required qualifications to provide services in a particular setting; the different service delivery models and service requirements for the service delivery model; and the levels of acuity among recipients of the services provided; and (3) the costs and benefits of recommendations designed to standardize the compensation of direct care workers across programs and service delivery models.

The Subcommittee also approved a one-time General Fund appropriation of $2.5 million to DHS for assistance to Afghan refugees. SB 5561 (2021 second special session) appropriated $18.2 million General Fund to DHS on a one-time basis for a 12-month package of support for up to 1,200 Afghan individuals and families paroled into the United States through the U.S. State Department's Afghan Placement Assistance Program, including funds for short-term food and shelter, case management services, rental assistance, culturally specific food assistance and interpretation classes. The $2.5 million appropriated by the Subcommittee for 2023-25 represents the anticipated unspent amount from the 2021-23 biennium, which the measure disappropriates.

An increase of $350,000 General Fund is included for the Intellectual and Developmental Disabilities program to support legal reviews of guardianship pleadings through Disability Rights Oregon. The Subcommittee also approved Other Funds expenditure limitation of $264,000 for DHS debt service payments.

The measure also includes a General Fund appropriation of $3.6 million for implementation of SB 104 (2023) related to agency with choice services for individuals served by the DHS Office of Developmental Disabilities Services. This increase serves as a necessary correction to the fiscal amendment adopted for SB 104 and does not represent additional program funding.

Long Term Care Ombudsman

The Subcommittee approved $300,000 in Other Funds expenditure limitation for the Long Term Care Ombudsman to administer a grant from Asante Hospital Systems to increase access to public guardian services.

Oregon Health Authority

The Subcommittee approved a $20 million General Fund increase in the Oregon Health Authority (OHA) for local community investment in public health modernization. Included are 10 permanent full-time positions (6.66 FTE) to assist in administering the funds. This increase adds to a $30 million General Fund increase in OHA's budget bill (SB 5525) for public health modernization.

The budget includes a General Fund decrease of $98.3 million to recognize savings to the Oregon Health Plan based on greater than anticipated revenue forecasted from the intergovernmental transfer agreement with Oregon Health and Science University. Also included are increases of $241 million Other Funds and $344.4 million Federal Funds to utilize the federal match associated with the additional revenue.

Insurer's tax revenue collected by the Department of Consumer and Business Services exceeded prior forecasts, requiring an Other Funds expenditure limitation increase for OHA of $34.9 million as the funds are transferred to support the Oregon Health Plan, while allowing for a $34.9 million decrease to reflect the savings to the General Fund.

OHA's primary budget bill (SB 5525) includes a General Fund investment for expansion of the 9-8-8 system and mobile crisis response. Upon the passage of HB 2757 (2023), a new tax on telephone lines of $0.40/line will generate revenue for the program. The new revenue reflects an increase of $32.9 million Other Funds. The original $39.6 million General Fund investment included in SB 5525 is decreased in SB 5506 by $26.4 million to reflect the savings resulting from the new tax, while leaving some of the original investment in place to accommodate program start-up and account for the timing of new tax revenue that will not be available until April 2024.

The budget includes a $2 million General Fund investment to supplement health care interpreter services in the Central Services Division.

The Subcommittee approved a $1.5 million General Fund investment for the Prescription Drug Monitoring Program (PDMP) integration with provider electronic health records systems for the 2023-25 biennium. The PDMP integrates information collected by the Public Health Division and makes it available at the point of care by physicians to ensure that patients are not receiving unnecessary prescriptions for opioids and other narcotics, helping to prevent drug addiction and overdoes.

To recognize, support, and promote initiatives that contribute to the advancement of equity and inclusion at the Oregon State Hospital, the budget includes $1.9 million General Fund. This funding will support the establishment of 10 positions (7.50 FTE) for training; cultural linguistic, and identity-affirming needs and supports; and other activities to support an inclusive and welcoming culture. Also included are increases of $426,651 General Fund and $103,882 Other Funds, a reduction of $97,153 Federal Funds, the abolishment of six positions (6.00 FTE) across multiple divisions, and the creation of six positions (5.01 FTE) to realign diversity, equity, and inclusion efforts agencywide.

The budget includes a one-time increase of $4.9 million General Fund, $8,631 Other Funds, $1.6 million Federal Funds, and seven positions (5.25 FTE) to improve mental health programs by strategically investing in jail diversion and civil commitment programs.

The budget includes $1.8 million General Fund for debt service on general obligation bonds for capital projects approved for the Oregon State Hospital (OSH). Public Defense Services Commission

The Subcommittee approved, on a one-time basis, a General Fund appropriation of $1.5 million to the Public Defense Services Commission to contract with Disability Rights Oregon (DRO) for civil court-appointed counsel at state expense for qualified individuals when the estate of the protected person is insufficient to pay the expense of a private counsel (SB 578, 2021). The appropriation provides funding to support for three provider attorneys ($1.2 million), one provider investigator ($156,817), and an administrative charge of five percent ($74,639). Of note is that the Commission has yet to adopt any policies or procedures related this program, including those needed to determine the financial eligibly requirements for participation.

The measure includes a one-time increase of $1 million Other Funds for the potential receipt from the Criminal Justice Commission of a subgrant from the Edward R. Byrne Memorial Justice Assistance Grant.

The Subcommittee adopted the following budget note related to the Case Financial Management System information technology project:

The Commission's reports to the Legislature shall include: (a) updates on project scope, schedule, budget, and total cost of ownership; (b) current project risks, likely impacts, and mitigation strategies; (c) independent quality assurance reporting; (d) stakeholder/provider involvement in the planning and governance of the project; and (e) other information that helps inform the Legislature on the status of the project or issues that have arisen as the result of the project. The Commission is to follow the Joint Stage Gate or a similar disciplined process related to information technology projects, including development of key artifacts and independent quality assurance oversight.

LEGISLATIVE BRANCH

Legislative Administration Committee

To support the third phase of the Capitol, Accessibility, Maintenance, and Safety (CAMS) project, the budget includes an increase of $19.1 million General Fund for debt service and $1.9 million Other Funds for the cost of issuance on $215 million in general obligation bonds authorized in HB 5005 (2023). CAMS III will continue seismic upgrades and other improvements to the 1938 Capitol rotunda. Added to the project are the replacement of the Capitol's nine elevators, the fire alarm systems in the House and Senate wings and their integration with the new system in the rotunda, and the chamber sound systems, including outdated wiring to member desks on the House floor.

NATURAL RESOURCES

Department of Agriculture

The Subcommittee approved a one-time General Fund appropriation of $312,100 in the Oregon Department of Agriculture (ODA) to support survey and treatment of the vine mealybug. This pest presents a substantial threat to wine grapes in many production regions worldwide, and it was first identified in Oregon in 2021. Vine mealybug directly impacts vines and fruit and is also a key vector of leafroll virus in grapevines. Both the vine mealybug and leafroll virus cause economic damage in vineyards once established. A monitoring study conducted by ODA in 2022 found that Oregon's vine mealybug population is confined to commercial vineyards within a small area of Jackson County. In a budget note for HB 5002 (2023), ODA has been directed to report to the Legislature during the 2024 legislative session on the status of the agency's surveillance and treatment against the Japanese beetle and other emerging pests, such as the vine mealybug.

The budget also includes a one-time General Fund appropriation of $1 million to increase funding for the Wolf Depredation Compensation and Financial Assistance Grant Program. This program administers grants to counties that have created and implemented a county wolf depredation compensation program.

Department of Energy

The Subcommittee approved several investments and adjustments for the Oregon Department of Energy (ODOE) related to recommendations from a legislative workgroup on climate and energy issues. Unless otherwise noted, these investments are approved on a one-time basis and include the following:

- $20 million General Fund for deposit into the Community Renewable Investment Fund, established in HB 2021 (2021), to provide grants for planning and developing projects that advance community renewable energy and energy resilience. Additionally, $20 million Other Funds expenditure limitation was provided for expenditures from the Fund.
- $10 million General Fund for deposit into the Rooftop Solar Incentive Fund, established in HB 2618 (2019) for issuance of rebates and administration of the Solar and Storage System Rebate program which incentivizes the purchase, construction or installation of solar electric systems and paired solar and storage systems. Additionally, $10 million Other Funds expenditure limitation was provided for expenditures from the Fund. The related program sunset has been extended to January 2, 2029, in HB 3049 (2023).
- $200,000 General Fund for Oregon's share of upfront monies for a proposal to establish a regional hub intended to move towards producing green hydrogen fuels.

- Due to the extension of the Solar and Storage System Rebate program, as well as the Heat Pump Deployment program, the months for seven related limited duration positions have been increased by 4.48 FTE so they may continue to support the programs throughout the 2023-25 biennium. These positions are established in the Department's policy packages 205 and 206. The positions are funded by the programs, and expenditure limitation is already included in the agency's budget. Only a technical adjustment shifting $900,292 Other Funds expenditure limitation from special payments to personal services is needed.
- $451,606 General Fund is provided for establishment of a permanent, full-time Business Operations Manager 3 (0.88 FTE) and related services and supplies. This position will provide management, oversight, and support for the various new programs established in ODOE's Energy Development Services division.

Additionally, the budget includes $513,354 Other Funds expenditure limitation for establishment of a limited duration Procurement and Contracting Specialist 3 (0.88 FTE), a limited duration Human Resources Analyst 2 (0.88 FTE), position related services and supplies, and 12 additional months for an existing Operations and Policy Analyst 2, bringing it to 1.00 FTE. All three positions are in the Administrative Services division. The additional staff capacity is intended to address workload from the cumulative effect of policy bills passed during this legislative session, inclusive of climate initiatives, which approved over $45 million in various programs and established 19 positions for the Department.

SB 1536 (2022) directs ODOE to complete a cooling study and submit a report to the Legislature no later than September 15th, 2023. The bill provided $500,000 as a one-time General Fund appropriation for the study. The Subcommittee approves reappropriation of the remaining $300,000 General Fund that will revert at the end of the 2021-23 biennium. The reappropriation of these funds is necessary to complete the report, which has been contracted through a third party.

Lastly, $5.1 million Federal Funds expenditure limitation and establishment of one permanent, full-time Economist 4 position (1.00 FTE) is provided in support of the State Energy Program grant, awarded to the Department by the U.S. Department of Energy, and made possible through the Infrastructure Investment and Jobs Act. The position establishment makes permanent an existing limited duration position for delivery of the grant over the performance period, which will be at least five years. The position provides additional support for energy planning, policy, and program development, coupled with education, outreach and technical assistance for Oregonians. ODOE received approval to apply for the grant during the December 2022 meeting of the Emergency Board.

Department of Environmental Quality

The measure includes Other Funds expenditure limitation of $5 million to expend a portion of the proceeds from $10 million in general obligation bonds approved through HB 5005 (2023). The bond proceeds will replenish the Orphan Site Account which is used to fund investigations and cleanup at sites where parties who are responsible for the pollution are unknown, unable, or unwilling to perform cleanup at the site. The Orphan Site Account is also used to meet Oregon's obligations at federally funded Superfund sites. Oregon must contribute at least 10% of the Environmental Protection Agency's cleanup costs and pay 100% of long-term maintenance costs at Superfund sites. The Department typically spends the proceeds over two consecutive biennia before making another request for additional Orphan Site bonds. Other Funds expenditure limitation is also increased by $333,333 for the cost of issuing $10 million in general obligation bonds in May 2024, and $1.8 million General Fund is provided for debt service payments.

Interest earnings on general obligation bond proceeds produced $54,000, which is available to offset General Fund debt service payments. The Subcommittee approved establishment of an Other Funds expenditure limitation of $54,000 to apply these interest earnings towards debt repayment.

Department of Fish and Wildlife

The Subcommittee approved a one-time General Fund appropriation of $1 million for the Department of Fish and Wildlife to pay for a third-party assessment of state-owned fish hatcheries. In its 2023-25 request budget, the Department discussed many agency initiatives to prepare for the impacts of climate change and ocean acidification, including initiation of a climate vulnerability assessment of Oregon's fish hatcheries. This investment provides funding to procure an assessment providing fish hatchery information including, but not limited to climate vulnerability. The Subcommittee provided the following instruction to the Department regarding the assessment:

BUDGET NOTE

The Department of Fish and Wildlife is directed to procure a third-party assessment of the operations, sustainability, and climate vulnerability of state-owned fish hatcheries. The department shall present a detailed and thorough report which must, at a minimum, include the following:

- Funding models and financial sustainability of state-owned hatchery operations, including consideration of facility maintenance costs.
- An economic cost-benefit analysts that includes:
    - The total agency costs associated with producing hatchery fish at each facility.
    - The estimated economic benefits associated with production of hatchery fish.
- A summary of how the ecological impacts and benefits of hatchery programs on wild fish are incorporated into federal and state planning and policy making.
- Climate vulnerability for a sample set of state-owned hatcheries. This assessment should include:
    - The projected impact of climate change on the ability of each hatchery to rear and release fish.
    - The likely impact of climate change on the viability of, and need (augmentation and conservation) for hatchery programs.
    - Recommendations to mitigate these impacts through hatchery program changes, such as the species of fish released, and other measures.

During the 2024 legislative session, the Department is directed to provide an update on the status of this report to the Joint Committee on Ways and Means. The Department shall present a completed report during the 2025 session.

The Subcommittee also approved a one-time General Fund appropriation of $100,000 to pay for anticipated Department of Justice costs related to contested water rights cases and protest resolution. This likely increase in legal expense is related to an agency effort to reduce the backlog of protests concerning water rights and transfers. Additionally, a shift of $957,216 General Fund from the Fish Division to the Habitat Division rebalances statewide drought package investments approved and funded in the Department's budget bill (SB 5509).

The measure includes a one-time General Fund increase of $238,271 for the payment of debt service associated with bonds authorized to finance $2.5 million of capital renewal and improvement projects on non-hatchery related facilities. The Subcommittee also approved $40,000 Other Funds expenditure limitation for the cost of issuance related to the bonds. The $2.5 million Other Funds expenditure limitation is provided in the Capital Construction bill (HB 5006).

Other Funds expenditure limitation of $13.8 million is included to expend lottery bond proceeds authorized to be issued for infrastructure projects improving fish and wildlife passage. Proceeds in the amount of $8.8 million will be deposited into the Fish Passage Fund (ORS 497.139) for fish passage projects, and proceeds in the amount of $5 million will be deposited into the Oregon Conservation and Recreation Fund (ORS 496.252) for wildlife passage projects. This investment is included in the statewide drought package. An additional $181,834 Other Funds expenditure limitation is included for the cost of bond issuance, and due to the sale scheduled in March 2025, debt service costs will not occur during the 2023-25 biennium.

The Subcommittee approved position authority to continue three limited duration positions (3.00 FTE) first approved in 2021-23. Positions include a Facilities Engineer 3 (1.00 FTE), a Construction Project Manager 1 (1.00 FTE), and an Engineering Technician 2 (1.00 FTE). The positions support a capital improvement and renewal project which was approved and financed with $5 million in Article XI-Q bonds in 2021. Funding for the position comes from the bond proceeds, which have six-year limitation.

Department of Forestry

The Subcommittee established a $12 million Other Funds expenditure limitation for the Oregon Department of Forestry (ODF) for the purchase of a new multi-mission capable aircraft from the net proceeds of General Obligation bonds anticipated to be issued in the upcoming biennium. The new aircraft is intended to replace the agency's current aircraft that has been in service for 36 years and has been increasingly in need of repairs and is subject to unexpected down time. The aircraft will perform missions that include fire start detection, air attack, large fire direct and logistical support, firefighter transportation, search and rescue, and disaster relief. Agency defined requirements for the new aircraft include twin turbine engines, high fixed wing, type certified at purchase, infrared and night vision equipped (or compatible platform), short take-off and landing performance, minimum 10-passenger capacity, 8,000 foot single-engine service ceiling, cargo rail system, and opening in flight rear cargo door.

Other Funds expenditure limitation increases totaling $5.1 million for ODF were approved for the expenditure of general obligation bond proceeds for capital improvement projects and bond cost of issuance related to bonds approved for issuance in the upcoming biennium. The agency's General Fund appropriation for debt service is increased by $1.5 million and debt service expenditure limitation is increased by $1.1 million Other Funds for the payment of anticipated debt service on bonds approved to be issued in the upcoming biennium for capital improvement projects, the second construction phase of the agency's Toledo facility, and purchase of the new multi-mission aircraft and hanger renovation/replacement.

Additionally, the General Fund appropriation made to ODF for the Fire Protection division is reduced by $1.9 million to adjust the ongoing budget of the agency due to the decision to not continue the catastrophic fire insurance coverage through Lloyds of London.

Department of Geology and Mineral Industries

In the Department of Geology and Mineral Industries, $381,097 General Fund and $37,097 Other Funds supports the establishment of two positions (1.50 FTE) and associated services and supplies to expand the Oregon Mapping Program. This investment was included in the statewide drought package and seeks to create an integrated Oregon Mapping Program through inclusion of a sampling program for water and mineral resources. The two positions include a permanent, full-time Natural Resource Specialist 4 (0.75 FTE) and a permanent, full-time Natural Resource Specialist 2 (0.75 FTE) established in the Geologic Survey and Services division.

Department of Land Conservation and Development

The measure makes a technical adjustment to allow funds appropriated to the Department of Land Conservation and Development (DLCD) in HB 3409 (2023) for the Community Green Infrastructure Grant Program to be deposited in the Community Green Infrastructure Fund established in the same bill. The technical adjustment also includes $6.5 million in Other Funds expenditure limitation to allow DLCD to expend moneys from the Community Green Infrastructure Fund.

The measure appropriates $3 million General Fund to DLCD for continued work on climate friendly and equitable communities. Of this funding, a one-time appropriation of $2.7 million will be used to provide financial assistance to local governments to adopt climate-friendly areas, work on parking reform and management, engage in equitable community engagement, and perform other work related to this program. The remaining $309,078 General Fund would be used to hire one permanent, full-time Planner 4 position to work on this program.

Department of State Lands

Increased Other Funds expenditure limitation of $18.8 million was approved for the Department of State Lands for expenditure of monies allocated from the Polychlorinated Biphenyls Remediation and Restitution Account and deposited in the Abandoned and Derelict Vessel Fund established by HB 2914 (2023). This fund was created to address the growing number of vessels that are left without authorization on public or private land, or in state or other waters, often sinking, actively polluting or obstructing a waterway, and possibly endangering life or property.

The Department of State Lands was provided with an increase in expenditure limitation of $500,000 Federal Funds to expend earmarked grant funding from the U.S. Department of Housing and Urban Development for the planning and initial project costs for redevelopment of Shutters Landing (aka Shutter Creek site) in association with the creation of the Elliott State Research Forest and its related research infrastructure. The total funding earmarked was $4 million; however, the requested expenditure limitation increase is limited to anticipated expenditures in the upcoming biennium, with expenditure limitation for the remaining amount to be requested in future biennia.

Oregon Watershed Enhancement Board

Increased expenditure limitation of $4.1 million Other Funds was approved for the Oregon Watershed Enhancement Board for the expenditure of net lottery revenue bond proceeds deposited in the Community Drinking Water Enhancement and Protection Fund, and bond issuance costs. The fund and associated program provide grants to water suppliers and serve rural communities, communities experiencing lower incomes, or in low population areas to protect, restore, or enhance sources of drinking water as established by HB 2010 (2023) as a part of the water and drought package.

Parks and Recreation Department

Increased expenditure limitation of $10.2 million Other Funds was approved for the Parks and Recreation Department, Community Support and Grants program, for the expenditure of $10 million in net proceeds from issuance of lottery revenue bonds for the Oregon Main Street program and $155,705 for costs associated with the issuance of the bonds.

Water Resources Department

A one-time General Fund appropriation of $100,000 to the Water Resources Department (WRD) was approved for the pass through of funding to Portland State University, Oregon Consensus, to continue current facilitation of the Tribal Water Task Force. This supports engagement between Oregon's nine

federally recognized Tribes and the Water Resources Department on issues related to water supply, watershed management, and water distribution, including matters related to water rights held or claimed by Tribes.

The Subcommittee approved an increase of $10 million Other Funds expenditure limitation for making grants and loans from lottery bond proceeds deposited into the Water Supply Development Fund established under section 3, chapter 784, Oregon Laws 2013. Water Supply Development grants and loans are made to evaluate, plan, and develop in-stream and out-of-stream water development projects that repair or replace infrastructure to increase the efficiency of water use; provide new or expanded water storage; improve or alter operations of existing water storage facilities in connection with newly developed water; create new, expanded, improved, or altered water distribution, conveyance, or delivery systems in connection with newly developed water; allocate federally stored water; promote water reuse or conservation; provide streamflow protection or restoration; provide for water management or measurement in connection with newly developed water; and, determine seasonally varying flows in connection with newly developed water.

Increased expenditure limitation of $50 million Other Funds was approved for the purpose of making grants and loans for irrigation modernization projects from lottery bond proceeds deposited into the Water Supply Development Fund. The funding is intended to leverage federal funding associated with Natural Resource Conservation Service authorized watershed plans, U.S. Bureau of Reclamation WaterSmart grant recipients, or U.S. Environmental Protection Agency grant recipients that are eligible to be on the Oregon Department of Environmental Quality's Intended Use Plan; and to provide public benefits in each category of benefits described in ORS 541.673. For projects involving surface water rights where the project conserves water, the intent is for priority to be given to projects that legally protect a portion of the conserved water instream commensurate with the amount required under the approach described in ORS 537.470.

The Water Resources Department expenditure limitation is increased by $5 million Other Funds to allow the agency to distribute a grant to the City of West Linn for replacement of a water line crossing the Interstate 205 bridge (Abernathy Bridge). The grant funding is from the net proceeds of lottery revenue bonds authorized to be issued for the project.

An increase of $700,425 Other Funds expenditure limitation supports the payment of bond issuance costs related to lottery revenue bonds authorized to be issued in the upcoming biennium for Water Supply Development, Irrigation Modernization, and the West Linn Abernathy Bridge waterline replacement projects. Lottery Funds debt service expenditure limitation is increased by $2.6 million for the payment of debt service obligations related to Lottery revenue bonds authorized to be issued in the upcoming biennium.

These positions are all supported with revenue from the Fire Insurance Premium Tax.

Department of State Police

Based on the May 2023 state economic and revenue forecast, the measure includes a one-time General Fund appropriation of approximately $2.2 million to backfill an expected Measure 76 Lottery Funds revenue shortfall for the Department of State Police Fish and Wildlife Division.

The Subcommittee also approved Other Funds expenditure limitation of $676,814 for the cost of issuance on $55.1 million in Article XI-Q bonds for three major Oregon State Police construction projects: expansion of the Central Point Office, construction of a new forensic laboratory and medical examiner's office, and a patrol area command office in Springfield. Bonds will be issued in October 2023. New debt service totaling $5.7 million General Fund was approved for the Department's planned 2023-25 bond issues.

Oregon Military Department

The Subcommittee approved an increase in Other Funds expenditure limitation of $140,030 for the cost of issuance on $8.4 million in Article XI-Q bonds for the Oregon Military Department. Two projects at the Owen Summers building in Salem will utilize these bond proceeds. The amount of $2.9 million will fund the armory service life extension project, and $5.5 million is to address seismic-related issues. Bonds will be issued in May 2024. New debt service totaling $982,730 General Fund was approved for the Department's planned 2023-25 bond issues. An Other Funds debt service expenditure limitation was established for $721,000 to use Other Funds savings to offset the need for General Fund to pay for debt service on outstanding general obligation bonds.

Oregon Youth Authority

The Subcommittee approved $12.6 million General Fund, $201,478 Other Funds expenditure limitation, and $8.3 million Federal Funds expenditure limitation to make permanent a 5% occupancy rate enhancement, first approved in 2021-23 due to the COVID-19 pandemic, and to reflect a new methodology for calculating the rates paid to behavior rehabilitation service (BRS) providers. This new methodology will connect provider payment rates to data from the U.S. Bureau of Labor Statistics and the Consumer Price Index to account for inflation. The funding provided is in addition to the $4.5 million of General Fund included in the Authority's budget bill (SB 5541) and is based on an estimated capacity of 249 behavior rehabilitation service beds in the community. A corresponding rate adjustment is supported for behavior rehabilitation services funded in the Department of Human Services' budget.

An increase in Other Funds expenditure limitation of $694,516 supports the cost of issuance on $46.1 million in Article XI-Q bonds for the Oregon Youth Authority. Bond proceeds will support continued renovation of living spaces and other facilities at MacLaren, Rogue Valley, Tillamook, Camp Riverbend, and other capital improvements, and will fund the Juvenile Justice Information System modernization project. Bonds will be issued in October 2023, May 2024, and March 2025. New debt service totaling $4.3 million General Fund was approved for the Department's planned 2023-25 bond issues.

To support the Juvenile Justice Information System (JJIS) modernization project, the Subcommittee approved $7.7 million Other Funds expenditure limitation. The Other Funds revenue for this expenditure is from the proceeds of Article XI-Q bonds issued for the project. Also approved for JJIS is a one-time General Fund appropriation of $3.4 million for the non-bondable costs of the project. Finally, an Other Funds debt service expenditure limitation was established for $56,000 to use Other Funds savings to offset the need for General Fund to pay for debt service on outstanding General Obligation bonds.

TRANSPORTATION

Department of Aviation

The budget reclassifies a Construction Project Manager 3 to a Policy Planning and Development Manager 3 in the Department of Aviation to properly reflect the position's responsibilities within the agency's System Action Program. To fund the cost of this reclassification, a Grounds Maintenance Worker 1 position is reduced from 14.23 months to 7.98 months.

Department of Transportation

The measure increases the Oregon Department of Transportation (ODOT) budget by $1 million General Fund on a one-time basis to augment the Great Streets program, which is primarily funded with $50 million of transportation funds received through the federal Infrastructure Investment and Jobs Act. The program funds different types of projects, including intersection improvements, bicycle facilities, sidewalks, corridor refinement and planning, street trees and furnishings, lighting, lane reductions and reconfigurations, and traffic calming and speed reduction features.

Additional General Fund is appropriated one-time to ODOT in the following amounts:

- $2 million to the City of Independence for the Chestnut Street Bridge in the City of Independence
- $2 million to the City of Independence for Western Interlock off-site transportation improvements in the City of Independence
- $1.5 million to the Klamath County Economic Development Association for the Klamath Northern Railroad
- $3 million for pedestrian access improvements along SW Hall Boulevard
- $5 million to the Malheur County Development Corporation for the Treasure Valley Intermodal Facility project, also known as the Treasure Valley Reload Center

The Subcommittee also approved increases to Other Funds expenditure limitation to support projects funded by lottery revenue bonds. These increases include:

- $20 million for the Port of Hood River for the Hood River - White Salmon Interstate Bridge
- $20 million for Multnomah County for the Earthquake Ready Burnside Bridge project
- $5 million for the City of Bend for the Hawthorne Avenue Pedestrian and Bicycle Overcrossing

Cost of issuance associated with these bonds collectively totals $514,349 Other Funds, and no debt service for these projects is anticipated in the 2023-25 biennium.

The Legislature authorized a total of $1 billion in general obligations bonds to support a portion of Oregon's costs related to the Interstate 5 Bridge Replacement project, a shared venture with the State of Washington. Other Funds expenditure limitation totaling $250 million is associated with the first issuance of bonds in the 2023-25 biennium, with $250 million in each of the successive three biennia, which matches the State of Washington's $1 billion commitment and will help leverage federal funding for a portion of construction and design costs. Other Funds expenditure limitation for cost of issuance of the 2023-25 bonds totals $1.8 million.

Relating to child care; creating new provisions; and amending ORS 329A.280, 329A.330, 329A.390, 329A.430, 329A.500 and 455.030.

Be It Enacted by the People of the State of Oregon:

NOTE: Sections 1 through 3 were deleted by amendment. Subsequent sections were not renumbered.

SECTION 4. ORS 329A.280 is amended to read:

329A.280. (1) A person may not operate a child care facility, except a facility subject to the registration requirements of ORS 329A.330, without a certification for the facility from the Office of Child Care.

(2) The Early Learning Council shall adopt rules for the certification of a family child care home caring for not more than 16 children. Rules may be adopted specifically for certified child care facilities operated in a single-family dwelling or other dwelling. Notwithstanding fire and other safety regulations, the rules that the council adopts for certified child care facilities shall set standards that can be met without significant architectural modification. **The rules may establish reasonable requirements for landlords of tenants who operate a family child care home.** In adopting the rules, the council may consider and set limits according to factors including the age of children in care, the ambulatory ability of children in care, the number of the provider's children present, the length of time a particular child is continuously cared for and the total amount of time a particular child is cared for within a given unit of time. **Rules may not take into consideration the provider's children when establishing capacity or adult to child ratio requirements if the children are between 10 and 12 years of age, unless a child has special needs or disabilities and requires a level of care that is above normal for the child's age.** The rules must require compliance with the provisions of ORS 329A.600.

(3) In addition to rules adopted for and applied to a certified family child care home providing child care for not more than 16 children, the council shall adopt and apply separate rules appropriate for any child care facility that is a child care center.

(4) Any person seeking to operate a child care facility may apply for a certification for the facility from the Office of Child Care and receive a certification upon meeting certification requirements.

(5) A facility described in ORS 329A.250 (5)(d) may, but is not required to, apply for a certification under this section and receive a certification upon meeting certification requirements.

SECTION 5. ORS 329A.330 is amended to read:

329A.330. (1) A provider operating a family child care home where care is provided in the family living quarters of the provider's home that is not subject to the certification requirements of ORS 329A.280 may not operate a child care facility without registering with the Office of Child Care.

(2) A child care facility holding a registration may care for a maximum of 10 children, [*including*] **excluding** the provider's own children **if the children are between 10 and 12 years of age, unless a child has special needs or disabilities and requires a level of care that is above normal for the child's age**. Of the 10 children:

(a) No more than six may be younger than school age; and

(b) No more than two may be 24 months of age or younger.

(3)(a) To obtain a registration, a provider must apply to the Office of Child Care by submitting a completed application work sheet and a nonrefundable fee. The fee shall vary according to the number of children for which the facility is requesting to be registered, and shall be determined and applied through rules adopted by the Early Learning Council under ORS 329A.275. The fee shall be deposited as provided in ORS 329A.310 (2). The office may waive any or all of the fee if the office determines that imposition of the fee would impose a hardship on the provider.

(b) Upon receipt of an initial or renewal application satisfactory to the office, the office shall conduct an on-site review of the child care facility under this section. The on-site review shall be conducted within 30 days of the receipt of a satisfactory application.

(4) The office shall issue a registration to a provider operating a family child care home if:

(a) The provider has completed a child care overview class administered by the office;

(b) The provider has completed two hours of training on child abuse and neglect issues;

(c) The provider is currently certified in infant and child first aid and cardiopulmonary resuscitation;

(d) The provider is certified as a food handler under ORS 624.570; and

(e) The office determines that the application meets the requirements of ORS 181A.200, 329A.030 and 329A.250 to 329A.450 and the rules promulgated pursuant to ORS 181A.195, 181A.200, 181A.215, 329A.030 and 329A.250 to 329A.450, and receives a satisfactory records check, including criminal records and protective services records.

(5) Unless the registration is revoked as provided in ORS 329A.350, the registration is valid for a period of two years from the date of issuance. The office may not renew a registration of a provider operating a family child care home unless the provider:

(a) Is currently certified in infant and child first aid and cardiopulmonary resuscitation;

(b) Has completed a minimum of eight hours of training related to child care during the most recent registration period;

(c) Is certified as a food handler under ORS 624.570; and

(d) When applicable, has complied with the requirements of ORS 329A.600 prior to imposing an expulsion.

(6) A registration authorizes operation of the facility only on the premises described in the registration and only by the person named in the registration.

(7) The Early Learning Council shall adopt rules:

(a) Creating the application work sheet required under subsection (3) of this section;

(b) Defining full-time and part-time care;

(c) Establishing capacity and adult to child ratio requirements, which must be established without taking into consideration the provider's children if the children are between 10 and 12 years of age, unless a child has special needs or disabilities and requires a level of care that is above normal for the child's age;

[*(c)*] **(d)** Establishing under what circumstances the adult to child ratio requirements may be temporarily waived; and

[*(d)*] **(e)** Establishing health and safety procedures and standards on:

(A) The number and type of toilets and sinks available to children;

(B) Availability of steps or blocks for use by children;

(C) Room temperature;

(D) Lighting of rooms occupied by children;

(E) Glass panels on doors;

(F) Condition of floors;

(G) Availability of emergency telephone numbers; and

(H) Smoking.

(8) The office shall adopt the application work sheet required by subsection (3) of this section. The work sheet must include, but need not be limited to, the following:

(a) The number and ages of the children to be cared for at the facility; and

(b) The health and safety procedures in place and followed at the facility.

(9)(a) If the Office of Child Care determines that it is necessary to protect the health and safety of the children for whom a child care facility is to provide care, the office may impose a condition on the facility's registration that is reasonably designed to protect the health and safety of children. The office may impose a condition during the application process for an initial registration, during the application process for a renewal of a registration or at any time after the issuance of a registration.

(b) Except as provided in paragraph (c) of this subsection, when the office imposes a condition on a child care facility's registration, the facility shall be afforded an opportunity for a hearing consistent with the provisions of ORS chapter 183.

(c)(A) If the office finds a serious danger to the health and safety of the children receiving care at a child care facility, the office shall notify the facility of the specific reasons for the finding and may impose an emergency condition on the facility's registration without a hearing.

(B) If the facility demands a hearing within 90 days after the office notifies the facility of the emergency condition, a hearing consistent with the provisions of ORS chapter 183 must be granted to the facility as soon as practicable after the demand and the agency shall issue an order consistent with the provisions of ORS chapter 183 confirming, altering or revoking the order imposing the emergency condition.

(10) The office, upon good cause shown, may waive one or more of the registration requirements. The office may waive a requirement only if appropriate conditions or safeguards are imposed to protect the welfare of the children and the consumer interests of the parents of the children. The office may not waive the on-site review requirement for applicants applying for an initial registration or renewal of a registration.

(11) The Early Learning Council, by rule, shall develop a list of recommended standards consistent with standards established by professional organizations regarding child care programs for child care facilities. Compliance with the standards is not required for a registration, but the office shall encourage voluntary compliance and shall provide technical assistance to a child care facility attempting to comply with the standards. The child care facility shall distribute the list of recommended minimum standards to the parents of all children cared for at the facility.

(12) In adopting rules relating to registration, the Early Learning Council shall consult with the appropriate legislative committee in developing the rules to be adopted. If the rules are being adopted during a period when the Legislative Assembly is not in session, the Early Learning Council shall consult with the appropriate interim legislative committee.

SECTION 6. ORS 329A.390, as amended by section 4, chapter 90, Oregon Laws 2022, is amended to read:

329A.390. (1) Whenever an authorized representative of the Office of Child Care is advised or has reason to believe that child care that is subject to regulation by the office is being provided without a certification, registration or record, the authorized representative may visit and conduct an investigation of the facility at any reasonable time to determine whether the facility is subject to the requirements of ORS 181A.200, 329A.030 and 329A.250 to 329A.450.

(2) At any reasonable time, an authorized representative of the Office of Child Care may conduct an investigation of any certified or registered child care facility or program recorded under ORS 329A.255 to determine whether the child care facility or program is in conformity with ORS

181A.200, 329A.030 and 329A.250 to 329A.450 and the rules promulgated pursuant to ORS 181A.195, 181A.200, 181A.215, 329A.030 and 329A.250 to 329A.450.

(3) An authorized representative of the Office of Child Care shall conduct an investigation of any certified or registered child care facility, of any program recorded under ORS 329A.255 or of any other child care facility that is subject to regulation by the office if the office receives a serious complaint about the child care facility or program.

(4) Complaints, including but not limited to serious complaints, made by individuals or entities regarding certified or registered child care facilities, [*regulated subsidy facilities,*] **subsidized care facilities,** preschool recorded programs or school-age recorded programs may be received and investigated by the Office of Child Care. The name, address and other identifying information about the individual or entity that made the complaint may not be disclosed.

(5) Any state agency that receives a complaint about a certified or registered child care facility, [*a regulated subsidy facility,*] **a subsidized care facility,** a preschool recorded program or a school-age recorded program shall notify the Office of Child Care about the complaint and any subsequent action taken by the state agency based on that complaint.

(6) A director or operator of a child care facility, [*a regulated subsidy facility,*] **a subsidized care facility,** a preschool recorded program or a school-age recorded program shall permit an authorized representative of the Office of Child Care to inspect records of the facility or program and shall furnish promptly reports and information required by the office.

(7) In conducting an investigation under this section, the office may:

(a) Take evidence;

(f) Issue subpoenas; and

(g) Inspect the premises of the facility under investigation.

(8) The Office of Child Care may share information regarding investigations or inspections conducted under this section with other public entities when the office determines that sharing the information would support the health or safety of children in child care.

(9) The Office of Child Care shall make a reasonable attempt to identify any child care facility or person or place providing child care about which the office receives a complaint, including but not limited to a serious complaint, if the complaint includes, but is not limited to, any of the following information:

(a) The name of a child in the care of the child care facility or person or place providing child care, or the child's parent;

NOTE: Sections 7 and 8 were deleted by amendment. Subsequent sections were not renumbered.

SECTION 9. ORS 329A.500, as amended by section 73, chapter 631, Oregon Laws 2021, and section 25, chapter 27, Oregon Laws 2022, is amended to read:

329A.500. (1) As used in this section, "family" means any individual who is responsible for the care, control and supervision of a child.

(2) The Early Learning Council shall adopt rules for the operation of the Employment Related Day Care subsidy program and for other subsidy programs administered by the Department of Early Learning and Care.

(3) The rules adopted under this section must support equitable access to a supply of diverse subsidized care facilities that meet the needs of families, as those needs are defined by the council by rule, including:

(a) Cultural diversity;

(b) Linguistic diversity;

(c) Racial and ethnic diversity; and

(d) Diversity of subsidized care facility types.

(4) The rules adopted under this section must provide that:

(a) A child's eligibility to participate in the Employment Related Day Care subsidy program must be based on:

(A) The household income of a child's family; and

(B) Any other criteria established by the council.

(b) A child must be able to receive care that:

(A) Meets the child's developmental, disability and neurodiversity needs; and

(B) Enables the child's family to complete activities that relate to family well-being, which may include the family's work hours, education hours, commute time, study time and other activities that support family well-being.

(c) Payment to subsidized care facilities must be**:**

(A) Based on enrollment instead of attendance.

(B) Made by the department each month by a date specified by the Early Learning Council by rule or, if paid on a date later than the date specified by rule, paid in an amount that includes an additional nine percent of the amount due unless the additional amount is not required to be paid under exceptional circumstances, as identified by rule.

(d) A child's family may qualify for an incentive if the family voluntarily chooses a subsidized care facility that participates in the quality recognition and improvement system established under ORS 329A.261. A fair representation of the recipients who qualify for incentives must be families with children who are from underserved racial, ethnic or minority populations. In addition, subsidized care facilities that participate in the quality recognition and improvement system may receive financial incentives under the subsidy programs in accordance with criteria established by rule.

(e) A child care facility is not eligible to be a subsidized care facility and to receive a reimbursement under the subsidy program unless each subject individual described in ORS 329A.030 (10)(d) who operates, resides in or may have unsupervised contact with children at the subsidized care facility that provides or will provide subsidized care to the person's child is enrolled in the Central Background Registry under ORS 329A.030.

(f) A subsidized care facility may be eligible to receive a higher rate of reimbursement or other financial incentives for:

(A) Participating in quality improvement measures;

(B) Providing culturally or linguistically specific or appropriate care;

(C) Providing evening, overnight or weekend care;

(D) Providing care to children with a diagnosed disability;

(E) Providing infant or toddler care;

(F) Providing care to a population that has been identified as historically having an inadequate child care facility supply; or

(G) Providing any other specialized care that justifies a higher rate of reimbursement.

(5) Taking into account the availability of funds, the rules adopted under this section:

(a) Must establish a sliding scale for copayment, with the requirement that a copayment may not exceed seven percent of the household income of the child's family.

(b) Must provide that eligibility to participate in the Employment Related Day Care subsidy program:

(A) May not be based on the citizenship or legal status of a child or a child's family; and

(B) Shall, for a child who met the initial eligibility requirements prescribed under subsection (4) of this section, continue for a minimum of 12 months from the date of initial eligibility unless the child's family leaves this state or requests a termination of benefits or for any other reason identified by the council. Rules adopted under this subparagraph shall give priority to families receiving temporary assistance under the temporary assistance for needy families program described in ORS 412.006.

(c) May provide that a determination of eligibility to participate in the Employment Related Day Care subsidy program consider the availability of family to attend to the child, regardless of the family's physical presence.

(6) In developing rules under this section, the council shall consider policies for increasing the stability and continuity of a child's access to a family's preferred child care facility.

(7) Rules adopted by the council under this section establish minimum requirements pertaining to the Employment Related Day Care subsidy program and may not be construed to preempt, limit or otherwise diminish the applicability of any policy, standard or collective bargaining agreement that provides for an increased subsidy or a subsidized care facility reimbursement amount under state or federal law.

(8)(a) The council shall work to meet federal recommendations for income eligibility and market access in regard to the Employment Related Day Care subsidy program administered by the council.

(b) Notwithstanding any provision of this section or any rule adopted by the council pursuant to this section, the laws and regulations applicable to any federal funds shall govern when any aspect of child care is funded by federal funds.

SECTION 10. ORS 455.030 is amended to read:

455.030. (1) Subject to any requirement for approval by the appropriate advisory boards, the Director of the Department of Consumer and Business Services may adopt, amend or repeal rules for carrying out the responsibilities of the Department of Consumer and Business Services to develop, implement, administer and enforce a program that relates to the state building code or a specialty code. Except as otherwise provided by this section, the director shall be subject to ORS chapter 183 in the adoption, amendment or repeal of regulations authorized by, and in the issuance of orders in contested cases arising under, this chapter.

(2)(a) In addition to the notice requirements of ORS 183.335, notice of a public hearing on adoption, amendment or repeal of a specialty code shall be given to the governing bodies of all municipalities and the **Department of Early Learning and Care for any specialty code that may affect a child care provider.** Notice shall state that copies of the proposed action may be obtained from the department.

(b) The notice of proposed rule change shall include a finding by the advisory board that the added cost, if any, is necessary to the health and safety of the occupants or the public or necessary to conserve scarce resources.

(c) The director shall maintain a roster of individuals who wish to be notified of any changes to or interpretations of the Low-Rise Residential Dwelling Code. Subscribers to the list may be charged a reasonable amount necessary to defray the cost of maintaining the list and advising the subscribers of changes in the code.

(3) The director is not required to publish or distribute those parts of a specialty code of regulations adopted by reference. However, the director shall publish with a specialty code and annually thereafter a list of places where copies of those parts of the specialty code adopted by reference may be obtained together with the approximate cost thereof. The director shall file one copy of the rule with the Secretary of State. All standards referred to in any specialty code or any of the

modifications thereto need not be so filed. All standards and specialty codes referred to in the specialty code shall be kept on file and available for inspection in the offices of the department.

(4) Any interested person may propose amendments to the state building code, which proposed amendments may be either applicable to all municipalities or, where it is alleged and established that conditions exist within a municipality or some municipalities that are not generally found within other municipalities, amendments may be restricted in application to such municipalities. Amendments proposed to the state building code under this subsection shall be in conformity with the policy and purpose prescribed by ORS 455.020. The justification and the particular circumstances requiring the proposed amendments shall be fully stated in the proposal. The director shall submit all proposed amendments to the appropriate advisory board. The board shall review and report its recommendations to the director on the amendments within 180 days after the date of submission by the director.

(5) The director, with the approval of the advisory board, may adopt or modify and adopt any amendments proposed to the director under subsection (4) of this section. The director shall, within 30 days after the date of receipt of the recommendations of the advisory board, notify the person proposing the amendments of the adoption, modification and adoption or denial of the proposed amendments. Upon adoption, a copy of each amendment shall be distributed to the governing bodies of all municipalities affected thereby.

(6) The director shall from time to time make or cause to be made investigations, or may accept authenticated reports from authoritative sources, concerning new materials or modes of construction intended for use in the construction of buildings or structures, or intended for use in other activity regulated by the state building code, and shall, where necessary, propose amendments to the code setting forth the conditions under which the materials or modes may be used, in accordance with the standards and procedures of this chapter.

SECTION 11. The amendments to ORS 455.030 by section 10 of this 2023 Act apply to any actions that are first proposed on or after the effective date of this 2023 Act.

Summary of Revenue Changes

House Bill 2468 appropriates $304,611 General Fund and $389,847 Other Funds to the Department of Human Services (DHS) to make changes to the Provider Pay system to determine business days since payment to Employment Related Day Care providers, calculate the penalty payment, create audit records, and support accounting changes and standard data interface maintenance. Federal Funds revenue is increased by $59,293 for DHS staffing costs to implement the measure. Associated Other Funds expenditure limitation is also included to allow the agency to expend funds.

Summary of Human Services Subcommittee Action

House Bill 2468 authorizes the Early Learning Council (ELC) to adopt rules for reasonable requirements for landlords of tenants who operate a certified family child care home. The measure also requires ELC to adopt rules establishing a timeline to issue payments to Employment Related Day Care (ERDC) providers and establishes a nine percent penalty on the amount due for late payments. In order to implement the late payment penalty provision of the bill, DHS will need to make changes to the Provider Pay (PP) system, the payment system used by the state to pay ERDC providers. The penalty provision will require new functionality for the PP system to determine the business days since payment, calculate the penalty payment, create audit records, and support table changes for the accounting. Additionally, the accounting interface would also require standard interface maintenance to account for the new penalty payment.

The PP system is managed within Shared Services, which provides several support functions to both Oregon Health Authority and DHS, including information technology, financial services, budget, facilities, and procurement. A General Fund appropriation increase of $203,550 is made to Services and Supplies within DHS Self-Sufficiency Programs (SSP) to support the changes.

Payments to ERDC providers is budgeted as Other Funds within SSP. An increase of $233,280 Other Funds expenditure limitation is provided to SSP, which is the estimated amount of penalty payments that will be made by the program. The funding will be passed through from the Department of Early Learning and Care. For staffing support within DHS, $101,061 General Fund is appropriated for one permanent part-time Operations and Policy Analyst 3 (0.25 FTE) to facilitate the IT system changes and support reporting, as well as one permanent full-time Accountant 1 (0.50 FTE) for testing review and configuration to facilitate reconciliation of general ledger accounts. The remaining General Fund is budgeted within the State Assessments and Enterprise-wide Costs unit (SAEC), along with $4,703 Other Funds expenditure limitation, and $59,293 Federal Funds expenditure limitation. Remaining Other Funds expenditure limitation is passed through to Shared Services within the DHS to cover the staffing costs and related Services and Supplies. The pass-through results in a “double budgeting” for the positions. Additionally, DHS uses a cost-allocation model for these positions, consisting of General Fund, Other Funds, and Federal Funds, which are budgeted within SAEC.

(c) Racial and ethnic diversity; and

(d) Diversity of subsidized care facility types.

(b) Must provide that eligibility to participate in the Employment Related Day Care subsidy program:

(A) May not be based on the citizenship or legal status of a child or a child's family; and

(B) Shall, for a child who met the initial eligibility requirements prescribed under subsection (4) of this section, continue for a minimum of 12 months from the date of initial eligibility unless the child's family leaves this state or requests a termination of benefits or for any other reason identified by the council. Rules adopted under this subparagraph shall give priority to families receiving temporary assistance under the temporary assistance for needy families program described in ORS 412.006.

(c) May provide that a determination of eligibility to participate in the Employment Related Day Care subsidy program consider the availability of family to attend to the child, regardless of the family's physical presence.

(6) In developing rules under this section, the council shall consider policies for increasing the stability and continuity of a child's access to a family's preferred child care facility.

(7) Rules adopted by the council under this section establish minimum requirements pertaining to the Employment Related Day Care subsidy program and may not be construed to preempt, limit or otherwise diminish the applicability of any policy, standard or collective bargaining agreement that provides for an increased subsidy or a subsidized care facility reimbursement amount under state or federal law.

(8)(a) The council shall work to meet federal recommendations for income eligibility and market access in regard to the Employment Related Day Care subsidy program administered by the council.

AN ACT

Relating to child eligibility to participate in Employment Related Day Care subsidy program; creating new provisions; and amending ORS 329A.500.

Be It Enacted by the People of the State of Oregon:

SECTION 1. ORS 329A.500 is amended to read:

329A.500. (1) As used in this section, "family" means any individual who is responsible for the care, control and supervision of a child.

(2) The Department of Human Services and the Early Learning Council shall adopt rules for the operation of the Employment Related Day Care subsidy program administered by the department.

(3) The rules adopted under this section must support equitable access to a supply of diverse child care providers that meet the needs of families, as those needs are defined by the department by rule, including:

(a) Cultural diversity;

(b) Linguistic diversity;

(c) Racial and ethnic diversity; and

(d) Diversity of provider types.

[*(4) The rules adopted under this section must provide that:*]

[*(a) A child's eligibility to participate in the Employment Related Day Care subsidy program must be based on:*]

[*(A) The household income of a child's family; and*]

[*(B) Any other criteria established by the department.*]

(4) The council shall adopt rules establishing that:

(a) Each of the following subparagraphs constitutes an independent basis of eligibility for a child to participate in the Employment Related Day Care subsidy program:

(A) The household income of a child's family;

(B) The child's family's employment, search for employment or enrollment in an education or training program;

(C) The child's or child's family's use of, or risk of needing to use, protective services, including, but not limited to, child welfare services, child abuse prevention services, family reunification services, foster care services or subsidized guardianship services;

(D) The child's or child's family's use of, or risk of needing to use, homelessness services, teen parent services or domestic violence services; or

(E) Any other criteria established by the council.

(b) A child must be able to receive care that:

(A) Meets the child's developmental, disability and neurodiversity needs; and

(B) Enables the child's family to complete activities that relate to family well-being, which may include the family's work hours, education hours, commute time, study time and other activities that support family well-being.

(c) Payment to child care providers must be based on enrollment instead of attendance.

(d) A child's family may qualify for an incentive if the family voluntarily chooses a child care provider that participates in the quality recognition and improvement system established under ORS 329A.261. A fair representation of the recipients who qualify for incentives must be families with children who are from underserved racial, ethnic or minority populations. In addition, child care providers that participate in the quality recognition and improvement system may receive financial incentives under the subsidy programs in accordance with criteria established by rule.

(5) Taking into account the availability of funds, the rules adopted under this section must establish a sliding scale for copayment, with the requirement that a copayment may not exceed seven percent of the household income of the child's family.

(6) In developing rules under this section, the department shall consider policies for increasing the stability and continuity of a child's access to a family's preferred child care provider.

(7) Rules adopted by the department under this section establish minimum requirements pertaining to the Employment Related Day Care subsidy program and may not be construed to preempt, limit or otherwise diminish the applicability of any policy, standard or collective bargaining agreement that provides for an increased subsidy or a child care provider reimbursement amount under state or federal law.

(8)(a) The department shall work to meet federal recommendations for income eligibility and market access in regard to the Employment Related Day Care subsidy program administered by the department.

(b) Notwithstanding any provision of this section or any rule adopted by the department pursuant to this section, the laws and regulations applicable to any federal funds shall govern when any aspect of child care is funded by federal funds.

SECTION 2. ORS 329A.500, as amended by section 73, chapter 631, Oregon Laws 2021, and section 25, chapter 27, Oregon Laws 2022, is amended to read:

329A.500. (1) As used in this section, "family" means any individual who is responsible for the care, control and supervision of a child.

(2) The Early Learning Council shall adopt rules for the operation of the Employment Related Day Care subsidy program and for other subsidy programs administered by the Department of Early Learning and Care.

(3) The rules adopted under this section must support equitable access to a supply of diverse subsidized care facilities that meet the needs of families, as those needs are defined by the council by rule, including:

(a) Cultural diversity;

(b) Linguistic diversity;

(c) Racial and ethnic diversity; and

(d) Diversity of subsidized care facility types.

[*(4) The rules adopted under this section must provide that:*]

[*(a) A child's eligibility to participate in the Employment Related Day Care subsidy program must be based on:*]

[*(A) The household income of a child's family; and*]

(4) The council shall adopt rules establishing that:

(a) Each of the following subparagraphs constitutes an independent basis of eligibility for a child to participate in the Employment Related Day Care subsidy program:

(A) The household income of a child's family;

(B) The child's family's employment, search for employment or enrollment in an education or training program;

(E) Any other criteria established by the council.

(b) A child must be able to receive care that:

(A) Meets the child's developmental, disability and neurodiversity needs; and

(B) Enables the child's family to complete activities that relate to family well-being, which may include the family's work hours, education hours, commute time, study time and other activities that support family well-being.

(c) Payment to subsidized care facilities must be based on enrollment instead of attendance.

(d) A child's family may qualify for an incentive if the family voluntarily chooses a subsidized care facility that participates in the quality recognition and improvement system established under ORS 329A.261. In addition, subsidized care facilities that participate in the quality recognition and improvement system may receive financial incentives under the subsidy programs in accordance with criteria established by rule.

(e) A child care facility is not eligible to be a subsidized care facility and to receive a reimbursement under the subsidy program unless each subject individual described in ORS 329A.030 (10)(d) who operates, resides in or may have unsupervised contact with children at the subsidized care facility that provides or will provide subsidized care to the person's child is enrolled in the Central Background Registry under ORS 329A.030.

(b) Must provide that eligibility to participate in the Employment Related Day Care subsidy program:

(A) May not be based on the citizenship or legal status of a child or a child's family; and

(B) Shall, for a child who met the initial eligibility requirements prescribed under subsection (4) of this section, continue for a minimum of 12 months from the date of initial eligibility unless the child's family leaves this state or requests a termination of benefits or for any other reason identified by the council. Rules adopted under this subparagraph shall give priority to families receiving temporary assistance under the temporary assistance for needy families program described in ORS 412.006.

(c) May provide that a determination of eligibility to participate in the Employment Related Day Care subsidy program consider the availability of family to attend to the child, regardless of the family's physical presence.

(6) In developing rules under this section, the council shall consider policies for increasing the stability and continuity of a child's access to a family's preferred child care facility.

(7) Rules adopted by the council under this section establish minimum requirements pertaining to the Employment Related Day Care subsidy program and may not be construed to preempt, limit or otherwise diminish the applicability of any policy, standard or collective bargaining agreement that provides for an increased subsidy or a subsidized care facility reimbursement amount under state or federal law.

(8)(a) The council shall work to meet federal recommendations for income eligibility and market access in regard to the Employment Related Day Care subsidy program administered by the council.

Summary of Revenue Changes

House Bill 2683 appropriates $1,830,420 General Fund to the Department of Early Learning and Care (DELC) and $313,407 General Fund to the Department of Human Services (DHS) for the purposes of the bill. The General Fund to DELC is passed through to DHS, which will expend the funding as Other Funds. The Oregon Health Authority's (OHA) Other Funds revenues come from those same funds expended out of DHS' budget to account for the shared service arrangement between the two agencies. Federal Funds revenues for DHS and OHA come from Medicaid administrative match funds.

Summary of Education Subcommittee Action

House Bill 2683 directs DELC, through the Early Learning Council, to expand access to the Employment Related Day Care (ERDC) program to families by establishing eligibility criteria that separately assess household income; employment status; involvement with child welfare and related services; usage of homelessness services, teen parent, or domestic violence services; and any other additional criteria established by the council. The ERDC program provides subsidized access to childcare for families with working parents. By July 1, 2025, DELC must establish eligibility criteria based on household income and employment status. By July 1, 2027, the Council must establish eligibility criteria based on the child's or child's family's use or risk of use of support or intervention services. In order to support the expanded services, DELC will focus on information system updates, rulemaking, and internal policy development during the 2023-25 biennium. Due to rulemaking timelines, children using or at risk of using intervention or preventative services will receive subsidies after July 1, 2027.

The Subcommittee recommended $1,830,240 General Fund for DELC to pass through DHS. Other Funds expenditure limitation is increased in the same amount in the DHS budget to receive these funds and use them to pay for updates to the ONE Eligibility system required by the measure.

The Subcommittee recommended $313,407 General Fund, $1,830,240 Other Funds, $313,406 Federal Funds, and two positions (1.50 FTE) for DHS to implement the bill. This includes one permanent full-time Training and Development Specialist 1 position (0.75 FTE) and one permanent full-time Training and Development Specialist 2 position (0.75 FTE), as well as position-related Services and Supplies and contracted work to update the ONE eligibility system and to pass through to OHA under their shared services agreement. The $313,407 General Fund and $313,406 Federal Funds recommended for DHS will be passed through to OHA under their shared services arrangement.

The Subcommittee recommended $7,843 General Fund, $626,811 Other Funds, $7,843 Federal Funds and two positions (1.50 FTE) for OHA. This includes one permanent full-time Information Systems Specialist 8 and one permanent full-time Information Systems Specialist 7, as well as position-related Services and Supplies costs.

Summary of Capital Construction Subcommittee Action

House Bill 2991 directs DELC to commission an independent study to identify barriers to a high-quality early childhood workforce and recommend opportunities to strengthen the system and provides the Department with $300,000 General Fund for the cost of the study. The study will include the following:

- Evaluation of the challenges faced by current and prospective early childhood professionals;
- Evaluation of the current active efforts promoting increased accessibility and transferability of community college credits across post-secondary institutions;
- Information regarding the potential of starting an accreditation process for transferring international college credits related to early childhood and child development; and
- Exploration of related career pathways developed or implemented by organizations, which successfully reduced the inefficiencies and barriers for individuals seeking apprenticeships, on-the-job training, and other professional training.

In seeking a contractor for the study, DELC is to find an entity with expertise in early learning subject matter who has demonstrated experience in applied policy research and analysis. The measure also directs the Department to prioritize community-based nonprofit organizations or organizations certified by the Certification Office for Business Inclusion and Diversity.

The measure directs DELC to convene a stakeholder group to review the study's findings and make recommendations regarding the early childhood workforce, including strategies to attain more equitable compensation and the creation of a career pipeline to increase opportunities for education, training, and credentialing. DELC is also directed to adopt administrative rules focused on addressing barriers impeding entry into the early childhood workforce and inefficiencies currently existing in the registry, for which the stakeholder group will provide recommendations. The measure specifies the rules must be adopted no later than December 31, 2025.

A preliminary report summarizing the study's findings is to be submitted by DELC no later than September 15, 2024, to the interim Committees of the Legislative Assembly. A second report submitted by DELC no later than December 31, 2024, must comprehensively evaluate the study's findings and including recommendations for future legislation. The report must also provide information on the status of rulemaking and potential funding sources for implementing the recommendations. The measure is repealed on January 2, 2026.

Summary of Revenue Changes

House Bill 3198 increases Other Funds expenditure limitation by $94,895,835 within the Oregon Department of Education (ODE) for the Early Literacy Success Initiative along with related staffing costs. The new initiative includes establishment of three separate grant programs including the Early Literacy Success School Grants, Birth through Five Literacy Plan, and Early Literacy Success Community Grants. The measure establishes two new funds in the State Treasury that are separate and distinct from the General Fund. These include the Early Literacy Success Community Grant Fund, which is continuously appropriated to ODE, and the Birth Through Five Literacy Fund, which is continuously appropriated to the Department of Early Learning and Care (DELC). The measure also increases Other Funds expenditure limitation by $567,593 within DELC for staffing costs to administer the Birth through Five Literacy Plan. The Other Funds expenditures in both ODE and DELC are supported by the Fund for Student Success.

Summary of Capital Construction Subcommittee Action

House Bill 3198 establishes the Early Literacy Success Initiative, which creates three new grant programs including the Early Literacy Success School Grants, Birth through Five Literacy Plan and Early Literacy Success Community Grants. The measure requires ODE to establish and

administer the Early Literacy Success School Grant program and award annual grants to school districts and to public charter schools that are elementary schools. The grants will fund activities such as:

- Professional development and coaching in research-aligned literacy strategies to teachers and administrators in early elementary grades to improve early literacy instruction;
- Extended learning programs using research-aligned literacy strategies and that are made available to students in early elementary grades by licensed teachers or by qualified tutors;
- High dosage tutoring to students in early elementary grades that integrates reading and writing and that is delivered by a qualified tutor using developmentally appropriate practices; and
- The adoption of curricula using research-aligned literacy strategies and the implementation of that curricula.

Funding included in the bill provides 75% of the funding for the Early Literacy Success School grants; participating school districts provide the other 25% as a cash match, using any other fund sources available to the district. Districts with average daily membership of fewer than 50 students qualify for a minimum grant award and may apply to the grant program in consortia and/or in collaboration with an education service district. Minimum grant amounts are intended to allow small districts to make meaningful investments in literacy programs for students. The State Board of Education may adopt any rules necessary for the administration of the Early Literacy Success School Grants. The measure requires grant funds to be used for the benefit of students in prekindergarten through grade three, which is one of several grant eligibility criteria in the bill.

Department of Education
To fund the Early Literacy Success School Grant program, Other Funds expenditure limitation is increased by $90,000,000 within ODE's Fund for Student Success Statewide Education Initiatives Account, which is within the Department's K-12 Grant in Aid budget. Early Literacy Success School grantees will receive funding based on recipient's proportional share of overall average daily membership weighted.

The Subcommittee established a new Other Funds expenditure limitation in the amount of $1 for ODE from the Statewide Education Initiatives Account for grants distributed from the Early Literacy Community Grant Fund. The Subcommittee recommended the following budget note related the Early Literacy Success Community Grant Fund.

> **Budget Note:**
> The Department of Education is directed to develop an early literacy success community grant program. The purpose of the grant program is to provide supports to parents and caregivers for early literacy outside of the school setting, and to develop and expand language revitalization efforts by federally recognized Indian tribes in Oregon. The grant program should include a non-competitive set-aside in the in the Early Literacy Success Community Grant Fund. Remaining funds should be prioritized for

programs that engage parents and children from birth through grade five in early literacy activities and provide high-dosage tutoring and/or training for tutors. The Department is encouraged to consider ways to leverage existing Statewide Student Success Plans in its grant program, and to recommend expenditures from the Early Literacy Success Community Grant Fund to implement the plan.

The Department shall report to the Legislature on its plan and funding recommendations no later than December 30, 2023.

After approval of the plan for the early literacy success community grant program, the Legislature may provide Other Funds expenditure limitation from the Statewide Education Initiatives Account of up to $9,999,999 for grants from the Early Literacy Success Community Grant Fund.

To administer the new grant programs, the Subcommittee recommended 14 permanent, full-time positions (12.88 FTE) within ODE's Operations unit. Other Funds expenditure limitation is increased by $4,328,241 within the Department Operations Statewide Education Initiative Account budget to cover the staffing costs and related Services and Supplies. The positions include: one Manager 3, two Program Analyst 2, three Program Analyst 4, four Education Specialist 2, one Training and Development Specialist 2, one Administrative Specialist 2, one Operations and Policy Analyst 4, and a Procurement and a Contract Assistant. This funding also includes $500,000 per biennium in Services and Supplies to provide regional and statewide professional learning connected to implementation of Oregon's Literacy Framework, summer teaching institutes, and targeted training for principals.

The Subcommittee recommended $567,593 Other Funds expenditure limitation for ODE to transfer Early Learning Account dollars to DELC for the Birth through Five Literacy Plan.

Department of Early Learning and Care

The Subcommittee recommended an increase of $567,592 Other Funds expenditure limitation within DELC's Operations unit to administer the Birth through Five Literacy Plan. The expenditures are to be funded by revenues within the Fund for Student Success Early Learning Account, which are passed through from ODE as a special payment.

The increase in Other Funds expenditure limitation in DELC is to support two permanent full-time positions (1.83 FTE) to support development of a Birth Through Five Literacy Plan. The positions include a Program Analyst 3 and an Operations and Policy Analyst 3. This funding includes $75,000 in one-time Services and Supplies to cover the cost of community outreach and communications materials to engage stakeholders and support development of the Birth Through Five Literacy Plan.

The Subcommittee established a new Other Funds expenditure limitation in the amount of $1 for DELC from the Early Learning Account for grants distributed from the Birth through Five Literacy Fund. The Subcommittee recommended the following budget note related to the Birth through Five Literacy Plan and the new Birth through Five Literacy Fund.

Budget Note:

The Department of Early Learning and Care is directed to develop a Birth Through Five Literacy Plan to expand culturally specific early literacy programs for children from birth to age five, to provide training and coaching for direct service staff in early literacy, and to develop and expand language revitalization efforts by federally recognized Indian tribes in Oregon. In order to develop its plan, the Department shall:

- Inventory those programs administered by the Department that have early literacy outcomes, goals, or activities;
- Define the population demographics, early childhood educator demographics, and regions served by those programs;
- Identify existing gaps in the provision of early literacy programs and supports;
- Recommend expenditures from the Birth Through Five Literacy Fund to remedy gaps in current early literacy; programming, provide training and coaching for providers, and develop and expand language revitalization efforts by federally recognized Indian tribes in Oregon.

The Department shall report to the Legislature on its plan and funding recommendations no later than December 30, 2023.

After approval of the Birth Through Five Literacy Plan, the Legislature may provide Other Funds expenditure limitation from the Early Learning Account of up to $9,432,407 for grants from the Birth Through Five Literacy Fund.

Summary of Revenue Changes

The 2023-25 budget for the Department of Early Learning and Care (DELC) is nearly evenly split across General Fund, Other Funds revenue, and Federal Funds revenue. General Fund supports about 36 percent of the budget, Other Funds revenue supports approximately 35 percent of the budget, and Federal Funds revenue supports 29 percent of the Department's budget. Other Funds revenues include revenue transferred from the Department of Education from the Fund for Student Success for Early Learning Account programs and related staff support. These revenues support approximately one-third of the Department's budget at just over $437 million. Federal Funds revenues include funding for the Child Care Development Block Grant and one-time Federal support provided through the American Rescue Plan Act. This 2023-25 budget does recognize the expiration of the majority of COVID-19 related federal assistance funds.

Summary of Education Subcommittee Action

In the 2021 Legislative Session, the Legislature abolished the Early Learning Division within the Oregon Department of Education (ODE) and created the new DELC. The Department will begin operating as a standalone department on July 1, 2023. In addition to creating DELC, the

Legislature also moved Employment Related Day Care (ERDC), the state's second largest early learning program, from the Department of Human Services to DELC. House Bill 5013 provides the budget expenditure authority for programs to be administered by DELC as well as associated position authority and funding for operations.

Through House Bill 5013, the Subcommittee recommended a total funding level of $1,312,404,095 for the Department, which is a 0.6 percent increase from the 2023-25 Current Service Level (CSL) budget, and an increase of nine positions (8.60 FTE). The General Fund budget increase is $8.7 million or 1.9 percent above CSL.

Department Operations

The Department Operations Unit includes all staff in the agency who are responsible for the administration of early learning programs. The Subcommittee recommended a budget of $127,819,799 total funds, including $53,847,979 General Fund, $12,600,373 Other Funds expenditure limitation, $61,371,447 Federal Funds expenditure limitation, and 341 positions (332.35 FTE). Total funding for Department Operations increased 1.3 percent compared to 2023-25 CSL.

The Subcommittee recommended the following packages:

Package 090, Analyst Adjustments. This package makes targeted reductions to Services and Supplies and Professional Services budgets in Department Operations, none of which are anticipated to have an impact on direct services or programs. This ongoing reduction to Services and Supplies is $853,615 General Fund.

Package 107, DELC Operations. This package adds $1,185,133 General Fund, $100,943 Federal Funds expenditure limitation, and six positions (5.60 FTE) to support various administrative programs in the Department. These positions resolve gaps in the administrative structure or were requested during the 2022 Legislative Session and were deferred at that time. All positions are permanent and are funded at 0.92 FTE, with the exception of the Research Analyst 2 position, which is funded at 1.00 FTE. The following positions as well as related Services and Supplies costs are included in this package:

- One Safety Specialist 2 position, in order for the agency to have a Safety Officer;
- One Auditor 3 position, in order for the agency to have an internal audit function;
- One Human Resources Assistant position, to provide backup to the agency's single payroll position;
- One Research Analyst 2 position, to make a current limited duration position permanent;
- One Program Analyst 1 position, to provide grants management support for the Preschool Promise program; and
- One Manager 1 position, equivalent to a Principle Executive Manager D, to manage the Suspensions program.

Package 108, Healthy Families Oregon Database. This package provides a one-time, $800,000 General Fund increase for Services and Supplies for a database solution for the Healthy Families Oregon (HFO) program to remain in compliance with national accreditation requirements. Currently, HFO manages the collection and management of data on 3,000 families, annually, by manually entering information in spreadsheets to meet the program data reporting and the requirements to maintain accreditation. Acquiring a new technical solution for HFO will streamline the way HFO data is collected, tracked, analyzed, and reported and will minimize misreported data.

Package 801, LFO Analyst Adjustments. This package adds $406,827 General Fund for Personal Services costs and makes three limited duration positions (3.00 FTE) permanent. These positions, including one Office Specialist 2 and two Administrative Specialist 1s, were added on a limited-duration basis during the 2022 Legislative Session (Senate Bill 1547, 2022) to address a backlog of background checks in the Office of Child Care. This backlog was created in part by new provisions in Senate Bill 1547 requiring operators, employees, and certain volunteers in recorded programs to be enrolled in the Central Background Registry. As these requirements are ongoing, the volume of background checks remains high, and the positions are required in order to maintain the agency's current rate of background check approvals.

Additionally, this package adds revenue from a transfer from ODE from the Early Learning Account to DELC to support administrative and operating costs for programs funded with Early Learning Account funds.

DELC Grant in Aid

The DELC Grant in Aid (GIA) budget unit includes all funding support for community-based programs for children ages 0-6. The grants implement the policies of the Early Learning Council. The following list includes many, though not all, of the DELC GIA programs:

- Baby Promise
- Oregon Pre-Kindergarten
- Early Head Start
- Preschool Promise
- Early Learning Hubs
- Early Learning Kindergarten Readiness and Innovation Program
- Healthy Families Oregon
- Preschool Development Grant (Birth to five)
- Employment Related Day Care (ERDC)
- Relief Nurseries
- Early Childhood Equity Fund
- Coaching/Professional Development
- Other Early Learning Grants
- Mental Health & Behavior Support

DELC's GIA programs are primarily funded with a combination of General Fund, Federal Funds, and Other Funds from the Student Success Act's Early Learning Account. This budget unit includes spending authority for state funds and federal grants received by the Department. Federal Funds are primarily utilized to support ERDC, Baby Promise, and other childcare supports. The Subcommittee recommended a budget of $1,184,584,296 total funds, including $420,322,923 General Fund, $444,396,241 Other Funds expenditure limitation, and $319,865,132 Federal Funds expenditure limitation.

The Subcommittee recommended the following packages:

Package 090, Analyst Adjustments. This package reduces General Fund and Other Funds expenditure limitation to balance program revenues to budgeted expenditures. This reduction is not anticipated to affect programs or services. The package reduces General Fund Special Payments by $378,940 and Other Funds expenditure limitation by $605,816.

Package 102, ERDC Implementation. This package funds interagency agreements with the Department of Human Services related to the ERDC program. A $3.0 million General Fund increase to Special Payments is provided to support program administration to meet federal requirements (such as audits, fraud review, collection of overpayments, and eligibility determinations), to fund technology system changes required to implement the non-citizen children eligibility requirement, and to address additional policy changes to improve ERDC program administration.

Package 801, LFO Analyst Adjustments. This package provides $1.6 million General Fund to the Relief Nurseries program and $1.7 million General Fund to programs funded through the Early Childhood Equity Fund for increasing provider rates by seven percent over CSL in order to recruit and retain qualified staff in these programs. It also adds $1.2 million General Fund to the Healthy Families Oregon program to restore the program in Lincoln County. Additionally, this package adds revenue from a transfer from the Department of Education from the Early Learning Account to DELC to support programs funded with Early Learning Account funds.

In order to retain qualified staff for Oregon Pre-Kindergarten (OPK) classrooms, Preschool Promise and Healthy Families Oregon, DELC is instructed to allocate up to $25.6 million of its 2023-25 OPK budget, $16.7 million of its 2023-25 Preschool Promise budget, and $2.8 million of its 2023-25 Healthy Families Oregon budget to increases to provider rates by seven percent over CSL for each of these programs.

LFO Recommendation:

The Legislative Fiscal Office recommends that the KPMs be approved as presented.

LFO notes that the Department of Early Learning and Care will start as a new agency as of July 1, 2023, and has the opportunity over the next biennium to evaluate its operations and performance with an eye toward which of its KPMs provide useful information for helping the agency to achieve its mission and goals. DELC has proposed one new KPM already (#6) in order to monitor its progress toward resolving and eliminating a backlog of applications for background checks through its Central Background Registry (CBR). The CBR is a comprehensive background check system that is mandatory for obtaining federal funds through the Child Care and Development Fund (CCDF). These background checks involve a multistep process, encompassing in-state, out-of-state, and federal checks, which are based on fingerprints. DELC's goal is to achieve full recovery from the CBR application backlog that began in 2022 and continued into early 2023 and to provide efficient background check services for Oregon's child care work force, approving applicants in four weeks or less. In closely monitoring this KPM over the next biennium and identifying opportunities to increase efficiencies, ensure appropriate staffing levels are in place, and transition to an improved licensing database, DELC expects to achieve three percent increases in timely CBR approvals as part of the Annual Performance Progress Reports in 2024 and another three percent increase again in 2025.

In order to establish baseline data for its customer service KPM (#7), DELC is designing and will launch a customer survey after it begins operations July 1.

The Subcommittee approved an increase of $230,946 to the General Fund appropriation and an increase of $77,640 Federal Funds expenditure limitation for DHS' Child Welfare program to contract for the required studies and support committee costs. Some level of funding may be needed in the 2025-27 biennium to complete the final reports. No funding related to the bill should be needed beyond the 2025-27 biennium.

Summary of Revenue Changes

This measure appropriates a total of $2.5 million General Fund to the Oregon Business Development Department (OBDD), increases Other Funds expenditure limitation by $366,245 for the Department of Early Learning and Care (DELC), and by $681,662 for the Oregon Bureau of Labor (BOLI). The General Fund appropriation to OBDD is to be deposited in the CHIPS Child Care Fund (CCCF), established in the bill. OBDD's Other Funds expenditure limitation is also increased by $2.5 million to expend money from the CCCF for the program developed to provide financial support and childcare subsidies.

OBDD will make a $681,622 special payment to BOLI as the funding source for BOLI's Other Funds expenditure limitation. BOLI will in turn make a $366,245 special payment to DELC as the funding source for the DELC's Other Funds expenditure limitation.

Summary of Transportation and Economic Development Subcommittee Action

House Bill 4098 directs OBDD to establish the CHIPS Child Care Work Group to develop recommendations to require businesses receiving a program grant or loan under Senate Bill 4 (2023) to make financial contributions to the CCCF, created in the bill; and to determine the amount of the financial contributions and the mechanism by which those contributions are to be made. The work group must include representatives from relevant state agencies, businesses, and childcare advocates. On or before November 15, 2024, the work group must submit a report with its recommendations to legislative committees related to childcare and workforce development.

OBDD

House Bill 4098 directs OBDD to enter into an interagency agreement (IAA) with BOLI to develop and administer a program to provide financial assistance and childcare subsidies to construction apprentices and specified journey workers. Financial support may be provided to those apprentices or journey workers or to their childcare providers. BOLI must evaluate the impact of this program on increasing diversity in the construction workforce.

The Subcommittee recommended a one-time $2.5 million General Fund appropriation to OBDD, to be deposited into the CCCF. The Subcommittee recommended a commensurate $2.5 million increase in Other Funds expenditure limitation to provide OBDD with funding to support one limited duration position (0.50 FTE), Services and Supplies costs related to the position, and Special Payments (including a $681,662 special payment to BOLI and $1,654,161 for payments to support childcare infrastructure at existing or proposed CHIPS worksites).

BOLI

House Bill 4098 requires BOLI to enter an IAA with OBDD to receive special payment funding from the CCCF or Child Care Infrastructure Fund, created in HB 3005 (2023). BOLI will also enter into an IAA with DELC, for the Apprenticeship Related Child Care program, which DELC

administers. The Subcommittee recommended a $681,662 Other Funds expenditure limitation increase for one limited duration, full-time position (0.50 FTE), Services and Supplies related to the position, and a Special Payment to DELC in the amount of $366,245.

DELC

The Subcommittee recommended a $366,245 Other Funds expenditure limitation increase for DELC's Direct Pay Unit and the Child Care Assistance Program to accommodate an anticipated workload increase associated with new childcare slots added to the Apprenticeship Related Child Care Program. The Subcommittee's recommendation includes funding for three limited duration, full-time positions (1.75 FTE) and related Services and Supplies.

Summary of Revenue Changes

House Bill 4122 directs the Oregon Department State Police (OSP) to participate in the Federal Bureau of Investigation (FBI) Rap Back system and includes a one-time $540,734 General Fund appropriation for associated costs, including six limited duration positions (2.42 FTE) for the 2023-25 biennium.

Summary of Public Safety Subcommittee Action

HB 4122 directs OSP to participate in the FBI's Rap Back program for fingerprint criminal records checks. The Rap Back system allows authorized agencies to receive ongoing notifications of any criminal history reported on individuals whose fingerprints are registered in the system. This new program will require OSP to retain fingerprint cards and facsimiles of fingerprints provided to or received from the FBI for the purpose of employment or licensing. OSP and the FBI must retain the fingerprints of individuals enrolled in the Rap Back program until they are no longer employed or licensed by an authorized agency. When an individual is no longer employed or licensed, the authorized agency must provide notification to OSP which must then destroy the fingerprints and request the FBI do the same. To be authorized to participate, state agencies will be required to subscribe to the Rap Back program with OSP and submit an implementation plan to the Legislature by December 31, 2024.

OSP currently checks around 218,000 fingerprints per biennium. However, OSP does not retain fingerprint background check records, and for participation in this program, previously fingerprinted individuals would need to go through the process again. Due to this requirement, OSP

anticipates the potential for a large volume of new background checks. For context, there are over 390,000 individuals licensed through state licensing boards that could require reprinting depending on participation in the program.

The program begins January 1, 2025, and OSP anticipates hiring two limited duration Fingerprint Technicians starting on July 1, 2024, to receive training in preparation of the program start date. The Department would phase-in the remaining positions, with two limited duration Fingerprint Technicians beginning October 2024, and two beginning January 2025. The one-time costs to the Department are $540,734 General Fund in the 2023-25 biennium. This including $375,734 for personal services, $90,000 in position-related services and supplies, and $75,000 for a new fingerprint terminal and additional storage space for card retention.

The number of state agencies or local government entities that will subscribe to the program, and therefore the number of individuals required to enroll, is indeterminate. Over the long term, with record retention, the overall volume of fingerprint background checks conducted by the Department may decrease. Once implementation plans are received, the Department will be able to determine workload and resource requirements needed to implement the program. The following budget note is included:

Budget Note

Rap Back Program Implementation

HB 4122 requires an agency subscribing to the Rap Back program within the Department of State Police to submit an implementation plan to the Legislature regarding accessibility, timeline for enrollment, education, and projected costs to agencies or individuals. This report is due no later than December 31, 2024. The Department is directed to report to the Public Safety Subcommittee of the Joint Committee on Ways and Means by February 2025, on the agency implementation plans that have been submitted, a timeline for agency enrollment and associated workload estimates, and any additional resources that may be required for the Department to implement the Rap Back program.

Finally, the measure does not specify the entity responsible for paying the $46.25 cost of the background check, and depending on the responsible party, additional resources may be requested. For state licensing boards, cost of fingerprint background checks are generally borne by the individual applying for licensure.

Summary of Revenue Changes

Senate Bill 1532 directs the Oregon Department of Education (ODE) to develop and implement a statewide education plan for students who are asylum seekers, refugees, or any other immigrant, and increases Other Funds expenditure limitation by $2,243,802 to support the work of the advisory group and fund the new grant program. Revenues to support this measure are from the Corporate Activity Tax which supports the expenditures within the Statewide Education Initiative Account (SEIA).

Summary of Education Subcommittee Action

Senate Bill 1532 directs ODE to develop and implement a student success plan for asylum seeker, refugee, or immigrant students (referred to as plan students) that aligns with other statewide education plans that have been expanded since the passage of the Student Success Act. ODE must form an advisory group to develop and implement the plan and the group must be comprised of individuals representative of the plan including youth and families from asylum, refugee, or immigrant populations, multilingual or English language learner populations, and individuals who represent education stakeholders, including representatives from the Department of Early Learning and Care and the Higher Education Coordinating Commission. The plan has a set of requirements identified in the bill including strategies to address disparities experienced by plan students in every indicator of academic success, as documented by the statewide report card and other relevant reports, as well as increasing parental engagement, increasing early childhood education and kindergarten readiness for plan students, and a number of other requirements.

To implement the plan, the Subcommittee recommended funding for one permanent, full-time Program Analyst 3 (0.50 FTE) to provide advisory group and rulemaking support, in addition to grant administration support for the new grant program. This includes a one-time increase of $54,004 Other Funds expenditure limitation from the SEIA for Services and Supplies costs within Department Operations to fund the advisory group convenings and associated costs. An additional $50,000 Other Funds expenditure limitation is provided for translation services, which is planned to increase to $100,000 in the 2025-27 biennium.

ODE, in conjunction with the advisory committee, must award grants to Early Learning Hubs, providers of early learning services, school districts, education service districts, post-secondary institutions of education, tribal governments, community-based organizations, or a consortium of these entities to implement the new statewide Refugee and Immigrant Student Success Plan. To qualify for and receive a grant, an applicant must identify and demonstrate that the applicant meets the eligibility criteria established by ODE through rulemaking. The Subcommittee recommended an increase of $2,000,000 Other Funds expenditure limitation within the SEIA Grant in Aid budget to provide funding for the new refugee and immigrant student statewide grant program. The new grant program will have a 24-month cost of $4,000,000, plus inflationary increases in the 2025-27 biennium.

[*(6)(a)*] **(5)(a)** Notwithstanding subsection [*(5)*] **(4)** of this section, the [*Legislative Assembly*] **committee** may make a determination that the report of the Quality Education Commission should not be used as the basis for carrying out the reporting requirements of section 8, Article VIII of the Oregon Constitution, and subsection [*(5)*] **(4)** of this section. If the report is not used, the [*Legislative Assembly*] **committee** shall identify the reasons for not using the report to meet the reporting requirements and shall outline an alternative methodology for making the findings required by section 8, Article VIII of the Oregon Constitution.

(3) The [*Director of the Office of Student Access and Completion*] **commission** shall determine the cost of education of a qualified student based on the type of eligible post-secondary institution the student is attending. The cost of education equals:

(a) For a student attending a community college, the average cost of education of attending a community college in this state;

(b) For a student attending a public university listed in ORS 352.002, the average cost of education of attending a public university;

(4)(a) The [*director*] **commission** shall determine the amount of the student share. The student share shall be based on:

(A) The type of eligible post-secondary institution the student is attending;

(d) The student share for a student who attends an eligible post-secondary institution that is not a community college may not exceed the sum of the amount that the [*director*] **commission** determines a student may receive as loans plus the amount a student may earn based on the number of hours of work reasonably expected from the student under paragraph (a) of this subsection.

(5) The [*director*] **commission** shall determine the amount of the family share. The family share shall be based on the resources of the family.

(8) Subject to subsection (9) of this section, if the [*director*] **commission** determines that there are insufficient moneys to award the state share to all qualified students, the [*director*] **commission**:

(a) May establish the maximum amount that a student may receive as a state share. This amount may vary based on whether the student is attending an eligible post-secondary institution on a half-time or full-time basis.

(b) May establish procedures that prioritize awarding Oregon Opportunity Grants to qualified students with the greatest financial need or whose circumstances would enhance the promotion of equity guidelines published by the [*Higher Education Coordinating*] commission.

(c) May not reduce the amount of the state share awarded to students in the low income range in a greater proportion than the amount that the state share for students in other income ranges is reduced.

[*(9)(a) The Higher Education Coordinating commission shall adopt rules that prioritize current foster children and former foster children for receiving Oregon Opportunity Grants when the Oregon Opportunity Grant program does not have sufficient funding to serve all eligible Oregon students.*]

[*(b) For the purposes of this subsection, "former foster child" has the meaning given that term in ORS 350.300.*]

(9) The commission shall adopt rules that implement the Oregon Opportunity Grant program. The rules adopted by the commission shall:

(a) Specify the manner by which the commission determines the state share.

(b) The applicant plans to be a student at the eligible post-secondary institution where the grant is to be used.

(4) The [*director*] **commission** shall not discriminate for or against any applicant for a grant.

(5) Nothing in this section or ORS 348.260, 348.505 to 348.615, 348.696 or 348.992 shall be construed to require any institution to admit a grant recipient or to attempt to control or influence the policies of the institution.

(6) Whenever funds are not available to award grants to all qualified students, the [*director*] **commission** may give priority to applicants who are or plan to be full-time students at the eligible post-secondary institution where the grant is to be used. A student shall be considered to be a full-time student if the combination of credit hours at more than one eligible post-secondary institution equals full-time attendance, according to the institution disbursing the grant funds.

(b) The commission shall by rule establish academic standards and benchmarks that a qualified student must meet to have the student's grant renewed.

(c) If a qualified student who receives a grant under this section makes a timely application for renewal of the grant, meets the academic standards and benchmarks established by the commission under this subsection and continues to meet all other grant eligibility criteria, the grant shall be renewed for a second year of attendance at an eligible post-secondary institution.

(d) Upon timely application by a qualified student who meets the academic standards and benchmarks established by the commission under this subsection and who continues to meet all other grant eligibility criteria, the commission may continue to renew the grant until the qualified student has received the equivalent of four full-time undergraduate years of grant funding for an eligible program as defined by the commission.

(6)(a) The [*Director of the Office of Student Access and Completion*] **commission** shall inform eligible post-secondary institutions of the identity of qualified students who attend the institution and who receive a grant under this section for more than one academic year.

(b) To the extent possible, eligible post-secondary institutions shall ensure that qualified students identified under this subsection are made aware of the academic guidance and counseling services available at the institution.

(7) A qualified student who receives a grant under this section must attend the eligible post-secondary institution upon which the grant application is based unless the [*Director of the Office of Student Access and Completion*] **commission** authorizes the grant to be used at a different eligible post-secondary institution. A qualified student who receives a grant under this section may attend more than one eligible post-secondary institution if the grant application was based on the qualified student attending more than one eligible post-secondary institution.

(3) The commission shall establish by rule eligibility criteria for awards made under this section. These criteria shall include, but not be limited to, whether the qualified student is attending an eligible post-secondary institution on a full-time or half-time basis.

EDUCATION FOR OCCUPATIONAL OR PROFESSIONAL LICENSE

SECTION 44. ORS 670.280 is amended to read:

670.280. (1) As used in this section:

(a) "License" includes a registration, certification or permit.

(b) "Licensee" includes a registrant or a holder of a certification or permit.

(2) Except as provided in ORS 342.143 (3) or 342.175 (3), a licensing board, commission or agency may not deny, suspend or revoke an occupational or professional license solely for the reason that the applicant or licensee has been convicted of a crime, but it may consider the relationship of the facts which support the conviction and all intervening circumstances to the specific occupational or professional standards in determining the fitness of the person to receive or hold the license. There is a rebuttable presumption as to each individual applicant or licensee that an existing or prior conviction for conduct that has been classified or reclassified as a Class E violation does not make an applicant for an occupational or professional license or a licensee with an occupational or professional license unfit to receive or hold the license.

(3) Except as provided in ORS 342.143 (3) and 342.175 (3), a licensing board, commission or agency may deny an occupational or professional license or impose discipline on a licensee based on conduct that is not undertaken directly in the course of the licensed activity, but that is substantially related to the fitness and ability of the applicant or licensee to engage in the activity for which the license is required. In determining whether the conduct is substantially related to the fitness and ability of the applicant or licensee to engage in the activity for which the license is required, the licensing board, commission or agency shall consider the relationship of the facts with respect to the conduct and all intervening circumstances to the specific occupational or professional standards. There is a rebuttable presumption as to each individual applicant or licensee that an existing or prior conviction for conduct that has been classified or reclassified as a Class E violation is not related to the fitness and ability of the applicant or licensee to engage in the activity for which the license is required.

(4)(a) Prior to beginning an education, a training or an apprenticeship program for an occupational or professional license, a person who was convicted of a crime may petition a licensing board, commission or agency for a determination as to whether a criminal conviction will prevent the person from receiving an occupational or professional license. The licensing board, commission or agency may charge a reasonable fee to pay the costs of making the determination.

(b) A determination from a licensing board, commission or agency that a criminal conviction will not prevent the person from obtaining an occupational or professional license may be rescinded if, at the time the person submits a complete application, the person:

(A) Has allegations or charges pending in criminal court;

(B) Has failed to disclose a previous criminal conviction;

(C) Has been convicted of another crime during the period between the determination and the person's submission of a completed application for an occupational or professional license; or

(D) Has been convicted of a crime that, during the period between the determination and the person's submission of a completed application for an occupational or professional license, became subject to a change in state or federal law that prohibits licensure for an occupational or professional license because of a conviction of that crime.

(c) A licensing board, commission or agency shall reconsider a determination that a criminal conviction will prevent the person from obtaining an occupational or professional license if the person submits a completed application for an occupational or professional license.

(d) A determination made under this subsection:

(A) Shall be made by the same entity that reviews completed applications for an occupational or professional license for the licensing board, commission or agency;

(B) Shall be subject to the same confidentiality requirements that are applicable to completed applications for an occupational or professional license for the licensing board, commission or agency; and

(C) Is not considered a final determination of the licensing board, commission or agency.

(e) Nothing in this subsection prohibits a licensing board, commission or agency from denying licensure for a reason other than conviction of a crime.

(f) A licensing board, commission or agency may adopt rules necessary to implement the provisions of this subsection.

(g) This subsection does not apply to the Department of Public Safety Standards and Training or to any regulation of psilocybin services.

SECTION 44a. (1) The amendments to ORS 670.280 by section 44 of this 2024 Act become operative on July 1, 2025.

(2) Notwithstanding the operative date set forth in subsection (1) of this section, a licensing board, commission or agency may choose to make determinations as described in ORS 670.280 (4) before the operative date set forth in subsection (1) of this section.

RECOVERY SCHOOLS

SECTION 45. ORS 336.680 is amended to read:

336.680. (1) As used in this section, "approved recovery school" means a school that is under an agreement with the Department of Education to provide students enrolled in the school with a holistic approach to:

(a) Educational services for grades 9 through 12; and

(b) Health care services related to recovery from substance use disorders.

(2) The department shall provide or cause to be provided appropriate education for students enrolled in an approved recovery school. For the purpose of paying the costs of providing education to students enrolled in an approved recovery school, the Superintendent of Public Instruction shall make the following:

(a) Payments from amounts available from the State School Fund under ORS 327.029.

(b) Payments from the Statewide Education Initiatives Account, as provided by rule adopted by the State Board of Education in collaboration with the advisory committee convened under ORS 336.685. The rules adopted as provided by this paragraph may include a minimum amount, a maximum amount or both for approved recovery schools.

(3) The Superintendent of Public Instruction may contract with a school district, an education service district or a public charter school to provide or cause to be provided appropriate education to students enrolled in an approved recovery school. Unless otherwise specified, any educational services provided under a contract entered into under this subsection shall be paid as described in this section and not by any other state moneys distributed based on average daily membership that are available to the school district, education service district or public charter school for the purpose of providing educational services.

(4) The State Board of Education shall adopt by rule the standards for a recovery school to become and operate as an approved recovery school. The standards must provide that:

(a) The recovery school must align, to the extent identified by the board, with standards for accreditation established by a nonprofit accrediting organization composed of representatives of recovery schools and individuals who support the growth of recovery schools. The standards must include requirements that:

(A) The recovery school, in compliance with timelines established by the department, be accredited by a nonprofit accrediting organization that establishes standards for recovery schools. Nothing in this subparagraph requires the recovery school to be accredited at the time the superintendent first enters into a contract with the recovery school.

(B) Student enrollment in the recovery school is voluntary. No school district or state or local agency may compel or otherwise require a student to enroll in a recovery school. Students enrolled in an approved recovery school may not be counted in determining the number of pupils in average daily membership for purposes of ORS 334.175 (5).

(C) All students who reside in this state and who meet the eligibility criteria established under subsection (8) of this section may enroll in an approved recovery school if space is available. If space is not available, the approved recovery school may prioritize for enrollment student groups identified in ORS 327.180 (2)(b).

(D) The school district, education service district or public charter school with which the department has entered into a contract for a recovery school must agree to award high school diplomas, modified diplomas, extended diplomas and alternative certificates as provided by ORS 329.451 and 339.877. An entity that awards high school diplomas as provided by this subparagraph:

(i) May not impose requirements for a high school diploma that are in addition to the requirements prescribed by ORS 329.451 (2)(a) or by rule of the State Board of Education; and

(ii) Must accept any credits previously earned by students in another school or educational program in this state and apply those credits toward the requirements prescribed by ORS 329.451 (2)(a) or by rule of the State Board of Education.

(E) Except as provided by [*subparagraph (F)*] **subparagraphs (F) and (G)** of this paragraph, the recovery school must satisfy the same laws that apply to public charter schools under ORS 338.115.

(F) All administrators and teachers at the recovery school must be licensed by the Teacher Standards and Practices Commission.

(G) An approved recovery school is not required to comply with the enrollment requirements prescribed by ORS 338.115 (1)(bb) or (5).

(H) An approved recovery school must comply with the requirements of the uniform budget and accounting system adopted by rule of the State Board of Education under ORS 327.511.

(b) Recovery schools will be approved, to the greatest extent practicable, in a manner that:

(A) Represents a geographic distribution across this state; and

(B) Takes into consideration the needs for services by the community in which the recovery school would be located.

(5) Any school that provides the services of a recovery school may enter into a contract with the superintendent to become an approved recovery school, including schools already providing the services of a recovery school and schools that are proposing to provide the services of a recovery school.

(6) An approved recovery school may enter into agreements with other entities, including community-based organizations and federally recognized tribes of this state, for the purposes of providing educational and health care services to students enrolled in the approved recovery school.

(7)(a) The department shall be responsible for:

(A) Identifying, locating and evaluating students enrolled in an approved recovery school who may be in need of special education and related services; and

(B) Ensuring that eligible students receive special education and related services.

(b) For the purpose of this subsection, the department may enter into a contract with a school district or an education service district.

(8) The department shall establish eligibility criteria for students to enroll in an approved recovery school, based on input from the advisory committee convened under ORS 336.685 and based on research from a nonprofit organization composed of representatives of recovery schools and individuals who support the growth of recovery schools and other relevant organizations.

(9) For the purposes of administering this section:

(a) The State Board of Education shall adopt any necessary rules.

(b) The department shall collaborate with the Oregon Health Authority, the Youth Development Division, the Alcohol and Drug Policy Commission, the Oregon Youth Authority, the Department of Human Services and local public health and mental health authorities or providers and shall coordinate, to the greatest extent practicable, funding of services provided in relation to approved recovery schools.

(10) Each biennium, the Department of Education shall prepare a report on the progress, successes and challenges of approved recovery schools and submit that report to:

(a) The interim committees of the Legislative Assembly related to education; and

(b) The advisory committee convened under ORS 336.685.

(b) The Department of Education shall compute the statewide average salary of a beginning teacher who holds a bachelor's degree to be used for purposes of this subsection by:

(A) Using the latest data available to the department; and

(B) Not using data from earlier than the preceding school year.

(2) A school district shall set the working hours for a substitute teacher and, when a teacher is employed as a substitute teacher for the school district, the school district shall pay the substitute teacher a salary that is:

(a) No less than one-half of the daily minimum salary computed under subsection (1) of this section if the teacher is employed as a substitute teacher for **one-half day or** less than one-half day; or

Summary of Revenue Changes

Summary of Capital Construction Subcommittee Action

Senate Bill 1552 is an omnibus education bill that creates and amends various statutory provisions relating to kindergarten through grade 12 (K-12) and institutions of higher education. The provisions of the bill with a budgetary impact include the formation of a youth advisory group by ODE, creation of a direct admissions program for community colleges and public universities in Oregon, a requirement for HECC to complete a forestry workforce study, a requirement for LPRO to conduct a study of the Quality Education Model (QEM) and Oregon's system of financing K-12 public education, and OHA's Public Health Division is required to make pre-application determinations for occupational or professional licenses, assessing whether a criminal conviction will prevent prospective applicants from obtaining the license. Senate Bill 1552 also establishes the Juvenile Justice Education Fund to fund ODE's Youth Corrections Education Program and the Juvenile Detention Education Program, though no appropriations are made to the fund with this measure.

The Subcommittee recommended a General Fund appropriation of $198,739 to ODE for one Program Analyst 4 position (0.50 FTE) and one Administrative Specialist 1 (0.19 FTE) to support the establishment and ongoing administrative support of the youth advisory group. Both positions are permanent, with the Administrative Specialist 1 position being permanent, part-time. The youth advisory group is created to foster student leadership and engagement in the policy making process in this state. The group must be formed and have an initial convening no later than October 31, 2024.

For HECC, the Subcommittee recommended a one-time General Fund increase of $458,865 for one limited duration Research Analyst 4 position (0.50 FTE) and to conduct a forestry workforce study. The research analyst will work directly with community colleges, public universities, and ODE to identify the necessary academic and financial data required to establish a direct admissions program. Within the total General Fund appropriated to HECC under the measure, $300,000 will be used to contract with an external partner to conduct a forestry workforce study. Existing agency resources will be used to carry out all other provisions of the bill.

Senate Bill 1552 also directs OHA's Public Health Division to make a pre-application determination as to whether a criminal conviction will prevent a prospective applicant, for an occupational or professional license, from obtaining a license. Agencies may charge a reasonable fee for providing this pre-application determination. To begin processing and tracking determinations and appeals, the Subcommittee recommended $143,137 General Fund for a permanent Compliance Specialist 1 (0.63 FTE) within the Public Health Division. Currently, OHA also anticipates needing an additional Compliance Specialist 1 in the 2025-27 biennium. Agencies may establish fees to support the program, which could offset General Fund costs associated with the pre-application determination program.

For LPRO, the Subcommittee recommended a one-time General Fund increase of $363,817, to fund a study on the QEM and support a limited duration Research Analyst position (0.38 FTE) responsible for reviewing and assessing student information systems in other states; identifying and assessing alternative systems; and exploring potential system costs contingent on publicly available information. LPRO anticipates using $250,000 of the General Fund approved under the measure, to contract out the QEM study with a research firm. The deadline to complete the QEM study is January 31, 2025.

Summary of Capital Construction Subcommittee Action

HB 5204 is an omnibus budget bill that includes budgetary actions associated with the fiscal impact for the provisions of HB 4002 as well as other investments centered around the recriminalization of possession of a controlled substance, establishment of deflection programs to be operated by local governments, and enhancements for behavioral health programs.

EDUCATION

Department of Education

The East Multnomah Outreach, Prevention, and Intervention program, operated by the City of Gresham, provides culturally responsive outreach, prevention, and intervention programs to prevent youth violence and to empower youth to be successful members of the community. To continue state support for and expansion of this program, the Subcommittee approved $2.5 million General Fund on a one-time basis for expanding the program throughout east Multnomah County in partnership with the cities of Portland, Fairview, Troutdale, and Wood Village.

To develop curricula, provide professional learning and resources, and to develop a social media campaign about the dangers of synthetic opioid use, the Subcommittee approved a total of $1,988,595 General Fund. Of this amount, $1,800,000 General Fund is approved on a one-time basis for curriculum supplements for middle and high school grades, professional learning modules for use by educators and school districts, and a social media campaign targeted to students from kindergarten through grade twelve. The Subcommittee also approved $188,595 General Fund on an ongoing basis and authorized the establishment of one permanent, ongoing position (0.63 FTE) to staff the Department of Education's substance use prevention efforts.

Department of Early Learning and Care

Relief Nurseries provide therapeutic and family support services to families with children from birth through age five. To support Relief Nursery services in Oregon, the Subcommittee approved $2,700,000 General Fund on an ongoing basis.

Higher Education Coordinating Commission

The measure appropriates a total of $4 million General Fund on a one-time basis to the Higher Education Coordinating Commission for distribution to the following institutions to use for education and training to expand the behavioral health workforce in Oregon:

- Eastern Oregon University: $666,667
- Oregon Institute of Technology: $666,667
- Portland State University: $1,333,332
- Southern Oregon University: $666,667

- Western Oregon University: $666,667

The measure authorizes the above institutions to use the funds to develop behavioral health education and training programs; partner with community organizations and labor management partnerships to develop career pathways; award tuition assistance to students; and to provide behavioral and mental health services to individuals from underserved communities.

HUMAN SERVICES

Oregon Health Authority

The Subcommittee approved budgetary increases for the Oregon Health Authority totaling $2.1 million General Fund, $81,704 Other Funds, $1.1 million Federal Funds, and authorized the establishment of 15 positions (7.34 FTE) related to the provisions contained in HB 4002.

To manage the required study on barriers and best practices for youth accessing opioid use disorder treatment and increasing access to opioid use disorder medications by the Alcohol and Drug Policy Commission, the Subcommittee authorized the establishment of a Program Analyst position (0.50 FTE) to plan and manage the workload, one Public Affairs Specialist (0.50 FTE) to develop strategic communication plans and draft recommendations, and one Research Analyst (0.50 FTE) to plan, manage, and coordinate data collection and analysis for the 2023-25 biennium. These positions are limited duration, but it is anticipated that the agency will seek to reestablish these positions in the following biennium for any remaining residual work related to the study through January 2, 2026, when the provisions requiring the study and subsequent delivery of the report is repealed.

To implement the Certified Community Behavioral Health Clinic (CCHBC) Program, the Subcommittee authorized the establishment of seven permanent, full-time positions (3.50 FTE) for the 2023-25 biennium. These include:

- One Health Policy and Program Manager (0.50 FTE) to oversee program operations
- One Operations & Policy Analyst (0.50 FTE) to provide Medicare support and policy development
- One Research Analyst (0.50 FTE) to review and analyze clinic data associated with Medicaid and research, recommend, and implement ways to improve the wraparound payment process
- One Project Manager (0.50 FTE) to coordinate and manage expansion of CCBHC work and ensure timely deliverables. This position will facilitate and organize communications with internal and external partners
- One Fiscal Analyst (0.50 FTE) to lead re-basing for CCBHC rates and assist in processing the increase in wraparound claims
- One Actuary (0.50 FTE) to lead the review process of all CCBHC cost reporting and review federal rate methodology while providing technical assistance and financial reporting
- One Operations & Policy Analyst (0.50 FTE) to coordinate CCBHC data integrations, manage and coordinate data modifications, and ensure data quality and compliance

The total budgetary increases include $54,435 General Fund and $54,435 Federal Funds for operating the established 15-member advisory committee for the CCBHC program.

One permanent full-time Operations & Policy Analyst (0.50 FTE) and one permanent full-time Compliance Specialist (0.50 FTE) were approved for the 2023-25 biennium to monitor the progress and evaluate program outcomes for applicants that have received IMPACTS grant funding.

To implement the United We Heal Medicaid Payment Program, for the 2023-25 biennium, the Subcommittee approved the addition of one permanent full-time Operations & Policy Analyst (0.38 FTE) to coordinate applications and provide technical and administrative support to the program and one permanent full-time Operations & Policy Analyst (0.38 FTE) to ensure compliance with regulations, collaborate with federal partners, and provide program guidance to partners.

An Operations and Policy Analyst position (0.58 FTE) was authorized to be established in the Office of Information Service at OHA to support coordination of data resources and access with Oregon Criminal Justice Commission (CJC).

Increased funding to support community restoration services, commonly referred to as "aid and assist" services of $7.5 million General Fund was approved by the Subcommittee. These services are provided to individuals who have been accused of a crime but are not mentally well enough to aid and assist in their own defense. Activities include care coordination, housing if available, legal skills training, monitoring and direct client assistance. These services are not typically eligible for federal cost participation through Medicaid.

The Subcommittee approved a one-time $9.8 million General Fund appropriation to the Oregon Health Authority for the distribution to Community Mental Health Programs to support coordination and provision of services for deflection programs that assist individuals who may have substance use or other behavioral health disorders to access treatment, recovery support, housing, case management, or other services to prevent interactions with law enforcement, lead to conviction and incarceration, or any other engagement with the criminal justice system.

A one-time appropriation of $3.2 million General Fund to the Oregon Health Authority was approved to subsidize the non-federally supported portion of costs for services provided under the Nurse Family Partnership Program. These Medicaid eligible services are provided via Nurse Family Partnership Programs operated by local public health authorities, typically counties. When local governments provide these services to persons that are participants in a Medicaid supported health plan, the portion of the service provider payment that is funded by the General Fund is reimbursed by the local government to the state. This General Fund appropriation will be used to supplant that local government reimbursement payment.

A one-time appropriation of $750,000 General Fund was approved for the Oregon Health Authority to permit the Systems of Care Advisory Council to partner with, and financially support via grants to, or other payments to, an established national organization that focuses on education and training regarding drug endangered children. The purpose of the funding is to assist with the establishment of the Oregon

Alliance with a national organization and provide education and training statewide in Oregon to empower practitioners including law enforcement, child protective services, the judicial branch, medical personnel, social workers, educators, fire, Court Appointed Special Advocates, emergency medical personnel, District Attorney's, parole and probation and community members to identify and respond to children living in dangerous drug environments.

PUBLIC SAFETY

Department of Corrections

The Subcommittee approved a one-time General Fund appropriation of $16 million to the Department of Corrections for Community Corrections. This funding is unrelated to any changes to the crime of possession of a controlled substance under consideration in HB 4002 and is intended to backfill personal services costs that will allow counties to mitigate personnel actions and prevent potential layoffs as a result of the population caseload that continues to remain below forecasted levels. Adjustments to the Community Corrections budget due to any population changes resulting from HB 4002 will be incorporated into future population-related caseload forecasts.

Criminal Justice Commission

HB 4002 establishes the Oregon Behavioral Health Deflection Program within the CJC's Improving People's Access to Community-based Treatment, Supports and Services (IMPACTS) program. This new program will provide grants, approved by the IMPACTS Grant Review Committee, which is administered by CJC, to counties and federally recognized tribal governments to fund deflection programs. The measure also establishes the Oregon Behavioral Health Deflection Account, a dedicated fund continuously appropriated to the Commission, from which available grant funds will be distributed. HB 4002 also requires that funds be distributed by the formula share used by the Oversight and Accountability Council with a minimum of $150,000 per county. The Subcommittee approved a one-time General Fund appropriation of $20.7 million to be deposited into the Account, with a corresponding $20.7 million Other Funds expenditure limitation for the Commission to issue deflection program grants.

As part of the $20.7 million provided for grants, the measure includes direct allocations for 23 counties that have indicated they intend to implement a deflection program. This allocation represents 50% of the respective county's formula share, which will be distributed within the first 60 days, while the remaining 50%, and the other 13 counties shares will be distributed after the grant review process. The following counties are receiving 50% of their formula allocation: Baker, Benton, Clackamas, Clatsop, Columbia, Crook, Curry, Deschutes, Gilliam, Grant, Harney, Hood River, Jackson, Josephine, Klamath, Lane, Malheur, Marion, Morrow, Multnomah, Umatilla, Wasco, and Washington.

HB 4002 also establishes the Oregon Jail-Based Medications for Opioid Use Disorder Grant Program administered by CJC, with a corresponding Fund continuously appropriated to the Commission, to provide grants to cities and counties that operate a local correctional facility and to federally recognized tribes that operate a tribal correctional facility. The Subcommittee approved a one-time $10 million General Fund

appropriation for deposit into the Oregon Jail-Based Medications for Opioid Use Disorder Fund, with a corresponding $10 million of Other Funds expenditure limitation for the Commission to issue grants from the fund.

The Subcommittee approved $1.8 million General Fund and five permanent full-time positions (2.75 FTE) for the various administrative duties required of the Commission related to HB 4002. The positions include: a Behavioral Health Program Manager (0.50 FTE) to oversee the two new behavioral health programs established in HB 4002, the Behavioral Health Deflection Program and the Jail-Based Medications Program; two Grant Coordinator positions (1.13 FTE) to administer the new grant programs; a Research Analyst position (0.50 FTE) to establish a statewide system for tracking deflection data; and a Grant Liaison (0.63 FTE) to coordinate the administrative processes, compliance tracking, and outreach on data requirements. The personal services and associated costs total $764,028 General Fund. Additionally, there is $700,709 General Fund for the Commission to expand their current contract with Oregon Health and Sciences University (OHSU) for the Research Electronic Data Capture (REDCap) data system that CJC currently uses for existing IMPACTS grants. Finally, $350,000 General Fund is provided, on a one-time basis, for the Commission to contract with OHSU researchers on a study to determine best practices for deflection programs and make recommendations for funding of the Behavioral Health Deflection Program. The 2025-27 biennium cost is $2.6 million General Fund and five positions (5.00 FTE).

With the considerable changes to PCS and establishment of deflection programs, a one-time General Fund appropriation of $1 million is provided to the Commission to conduct outreach and a public service campaign.

The Subcommittee approved a one-time General Fund appropriation of $6,919,141 to the Criminal Justice Commission (CJC) for specialty court grants. The amount provided represents the county-only share of 2023-25 specialty court grant application requests that the Commission had received but were not originally approved due to lack of available funding. With the additional $6.9 million, the Commission will now provide funding for those same grant applications, prorated to allow for distribution beginning in April 2024. The projected need for these wait-listed grants is $6.9 million to counties, and $1.3 million to county courts, for a total increase for specialty court funding of $8,185,664.

In addition, the Subcommittee approved a permanent fund shift within the Oregon Judicial Department budget, discussed below, that moves specialty court funding previously provided through grants from CJC to General Fund. This fund shift will allow for dedicated funding through the Judicial Department's budget for specialty courts, unfettered from CJC's grant application approval process. In the current biennium, CJC's funding for specialty courts is reduced by $4,456,232, on a one-time basis, to account for this net-zero fund shift with the Judicial Department. Going forward next biennium, this shift will allow the funding that CJC had previously provided to both counties and the courts to be redistributed to county programs.

Finally, the measure includes two additional one-time General Fund appropriations: $4 million for the restorative justice grant program which was established in HB 2204 (2021) and initially funded at this same level on a one-time basis in 2021-23; and $500,000 for a jail reentry pilot program. Funding for the jail reentry pilot program will be provided to four counties, selected by the Oregon State Sheriffs Association, for the

purchase of existing software that will allow coordination between county sheriff's offices and available resources through coordinated care organizations for individuals being released from county custody.

Department of Justice

The Subcommittee approved an increase of $92,166 Other Funds expenditure limitation and authorized the establishment of one permanent part-time Senior Assistant Attorney General position (0.17 FTE), in the General Counsel Division, to provide legal support to Oregon Health Authority's (OHA) establishment of the Certified Community Behavioral Health Clinic Program. The revenue will come from Department of Justice hourly legal billings to OHA. The 2025-27 biennium cost is $276,632 Other Funds and one permanent part-time position (0.50 FTE).

Department of State Police

The Subcommittee approved a General Fund appropriation of $1.6 million and the establishment of 15 permanent full-time positions (6.30 FTE) to process drug chemistry evidence analysis related to the changes to the crime of possession of a controlled substance (PCS) and for the anticipated increase in workload related to the expungement changes in HB 4002.

With the decrease in PCS cases from 2019 to 2023, the Department administratively moved existing staff in the crime lab from drug chemistry to toxicology, where that workload has progressively increased over that same period. With the changes to PCS in HB 4002, the Department assumes that crime lab workload will return to 2019 levels, and the lab does not have capacity to return existing staff back to the drug chemistry processes. For the Forensic Services Division, the positions include four Forensic Scientists (1.68 FTE) and two Forensic Lab Specialist positions (0.84 FTE) at a total cost of $818,361 General Fund, including necessary equipment for lab workstations. For the Criminal Justice Information Services Division, the additional positions include eight Administrative Specialist positions (3.36 FTE) and a Records Management Supervisor position (0.42 FTE) for the expungement process requirements in HB 4002, at a total cost of $791,543 General Fund. Total cost of the 15 positions (15.00 FTE) is $3,548,788 General Fund in 2025-27.

JUDICIAL BRANCH

Judicial Department

The Subcommittee approved a General Fund appropriation of $3 million and the establishment of 16 permanent full-time positions (8.75 FTE) and five permanent part-time positions (1.25 FTE) to process case filings, set asides, conditional discharges, and expungements. The positions include: (a) for the increase in possession case filings, nine permanent full-time Court Operations Specialist positions (4.50 FTE); (b) to expand the current automate set aside process, one permanent Senior Staff Counsel position (0.58 FTE), one permanent Analyst 4 position (0.58 FTE) and, increasing one existing Analyst 4 positions from part-time to permanent full-time positions (0.29), and one existing part-time Information Technology Developer position to a to permanent full-time positions (0.29 FTE); and (c) for management of possession cases for conditional

discharge, five permanent full-time Program Coordinators (2.50 FTE) and five permanent part-time Program Coordinators (1.25 FTE). The 2025-27 biennium cost is $5.4 million General Fund and 21 position (19.50 FTE).

The Subcommittee approved three General Fund appropriations totaling $9.7 million to stabilize and invest in specialty courts statewide and which are detailed below. Investments are made in the following types of specialty courts: adult drug, juvenile drug, mental health, family treatment, veterans' treatment, and Driving Under the Influence of Intoxicants.

The Subcommittee approved a General Fund appropriation of $4.5 million and the establishment of 25 permanent full-time positions (12.69 FTE) to stabilize funding for existing specialty courts by providing permanent funding for treatment court coordinator positions that are currently funded through Oregon Criminal Justice Commission grants beginning March 1, 2024. Budgetarily, this is accomplished through a fund shift that moves specialty court coordinator position funding from Other Funds (i.e., CJC grant) to General Fund. This would stabilize specialty court coordinator positions in the following circuit courts/counties: Columbia, Crook, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Malheur, Marion, Multnomah, Umatilla, Union, Wallowa, Washington, and Yamhill. The 2025-27 biennium cost is $6.9 million General Fund and 25 position (20.30 FTE).

The Subcommittee approved, on a one-time basis, a corresponding $4.5 million Other Funds reduction for grant funds that were to have been transferred by CJC to OJD for the period March 2024 to June 2025, but which are now funded by a direct General Fund appropriation to OJD.

The Subcommittee approved a General Fund appropriation of $3.9 million and the establishment of 23 permanent full-time positions (12.81 FTE) to fund either unstaffed or understaffed specialty courts beginning March 1, 2024, in the following circuit courts/counties: Baker, Benton, Clackamas, Clatsop, Columbia, Coos, Crook/Jefferson, Lane, Lincoln, Linn, Marion, Malheur, Multnomah, Tillamook, Umatilla/Morrow, Washington, and Yamhill. The 2025-27 biennium cost is $6.3 million General Fund and 23 position (20.50 FTE).

The Subcommittee approved a General Fund appropriation of $1.3 million and the establishment of six permanent full-time positions (3.75 FTE) to fund treatment court coordinator positions and related costs that are currently on a CJC funding waitlist in the following circuit courts/counties: Jackson, Lane, Marion, Multnomah, Umatilla, Baker, Malheur, Union, Klamath, Josephine, Coos, Douglas, Lincoln, Clatsop, Columbia, Washington, Jefferson, Crook, Linn, Harney, and Tillamook. The 2025-27 biennium cost is $2 million General Fund and six position (6.00 FTE).

Public Defense Commission

The Subcommittee approved a General Fund appropriation of $12.2 million and the establishment of 18 permanent full-time positions (9.00 FTE) to provide financially eligible persons adequate legal representation in state court, at state expense, under provisions of the Oregon and federal constitutions and Oregon statutes. The appropriation is based upon the current constraint of "available" qualified attorney capacity, which is acknowledged cannot be readily quantified at this time. The appropriation funds the following resources: (a) funding for provider contracts to increase "Maximum Attorney Capacity" ($3 million); (b) provider-contracted case managers and/or paralegals, with the later used to increase existing provider contract attorney capacity ($2 million); (c) funding for standard hourly-paid misdemeanor attorneys ($3 million); (d) state trial-level attorneys and staff ($2.5 million), which includes eight Deputy Defender Attorney 1 positions (4.00 FTE), four legal secretaries (2.00 FTE), three Office Specialist 2/discovery clerks (1.50 FTE), and three caseworkers (1.50 FTE) with associated services and supplies; and (e), funding for related costs such as expert witness and investigation expenses ($1.7 million). The 2025-27 biennium cost is $26.5 million General Fund and 18 position (18.00 FTE).

PDC has recently established region pilot program office locations for state employed-trial-level public defenders and staff in the Northwest Region (Portland) and Southwest Region (Medford) and anticipates a third Central Region (Salem) regional office being established, pending 2024 Legislative Session funding approval. These offices and staff are currently dedicated to addressing unrepresented defendant/persons crisis. The staff under this measure would need to be assign to regional offices commensurate with the location of caseloads for felony charges for delivery of a controlled substances and drug enforcement misdemeanors.

The Subcommittee approved, on a one-time basis, a General Fund appropriation of $2.1 million for distribution to the University of Oregon ($951,236), Lewis and Clark ($552,600) and Willamette University ($552,600) Law Schools to provide training and supervision of court certified law students to undertake misdemeanor cases. Two of the law schools will collaborate with local public defender offices: University of Oregon with Multnomah Defenders, Inc. as well as Lane County Public Defender Services; and Lewis and Clark with Metropolitan Public Defenders. This initiative is expected to train a combined total of 60 law students to provide public defense services for eligible defendants for between 300 to 400 misdemeanor cases at an average cost per defendant of $5,876. Each law school will report annually to the Public Defense Commission on the total number of students trained, clients served, as well as the nature of the legal issues and case outcomes.

LEGISLATIVE BRANCH

Legislative Policy and Research Office

The measure appropriates $400,340 General Fund to the Legislative Policy and Resource Office (LPRO) for supporting the two task forces established in HB 4002. One of these is the 26-member Joint Task Force on Regional Behavioral Health Accountability, which is responsible for making recommendations to improve behavioral health system governance and strengthen evidence-based and equitable funding decisions and accountability of behavioral health systems. The task force has a deadline of September 15, 2025, for submitting draft recommendations, and a December 15, 2025, deadline for submitting its final report. To support the scope of work and required level of subject matter expertise in both 2023-25 and 2025-27, LPRO will establish one permanent full-time Senior Legislative Analyst (0.63 FTE) and one permanent Research Analyst (0.63 FTE), as well as leverage existing staff to help guide the work of the task force.

The second task force is the 17-member Task Force on Improving the Safety of Behavioral Health Workers. This task force is responsible for submitting preliminary recommendations on improving behavioral health workforce safety by September 1, 2024, and a final report no later than December 1, 2024. LPRO will largely use existing staff to support this task force. In addition, members of the task force who are not legislative members or appointed by the Governor are entitled to compensation and reimbursement for expenses. The estimated cost of compensation and reimbursement available to eligible task force members is $20,900, which will be funded from the $400,340 General Fund appropriation.

Emergency Board

The Subcommittee approved a one-time appropriation to the Emergency Board of $4.7 million General Fund for allocation to the Oregon Health Authority to make increased payments to behavioral health care employers for the provision of enhanced apprenticeship and training programs and opportunities through the United We Heal Medicaid Payment Program. The General Fund payments are intended to be matched with Federal Medical Assistance funds. The authorization to use the federal funds this way has not yet been approved by the Centers for

Medicare and Medicaid Services (CMS). It is anticipated that the Oregon Health Authority will seek allocation of the General Fund appropriated to the Emergency Board once the approval to use the Federal Medical Assistance funds for this purpose has been obtained.

Summary of Revenue Changes

The General Fund appropriations and Lottery Funds adjustments included in the measure are within the level of resources projected in the March 2024 state economic and revenue forecast published by the Department of Administrative Services, Office of Economic Analysis. The General Fund resources forecasted for the 2023-25 biennium have increased by $1.2 billion from the level assumed in the 2023-25 legislatively adopted budget, which includes $657.4 million from unexpended 2021-23 appropriations reverted to the General Fund. Forecasted net lottery proceeds available to transfer to the Economic Development Fund represent an increase of $1.4 million compared to the May 2023 forecast, which was used to develop the 2023-25 legislatively adopted budget. When including one-time reversions of unspent resources from the 2021-23 biennium and administrative actions, total lottery resources available for transfer have increased by a total of $16.2 million.

Summary of Capital Construction Subcommittee Action

SB 5701 is an omnibus budget bill that adjusts General Fund appropriations to the Emergency Board and modifies state agency budgets and position authority in the 2023-25 biennium. The amendment recommended by the Subcommittee includes the legal citations necessary to effectuate the omnibus budget adjustments, which are described in the narrative below. Net of expenditures supported with existing appropriations to the Emergency Board, the measure increases General Fund appropriations by $409.3 million. It also increases Lottery Funds expenditure limitation by a net $42.6 million, increases Other Funds expenditure limitation by $1.5 billion, and increases Federal Funds expenditure limitation by $646.5 million. These actions also result in an increase of 557 budgeted positions (416.69 FTE) across various state agency budgets.

Major changes made by the measure, outside of adjustments to Emergency Board appropriations, include the following:

- $86 million General Fund for the Department of Early Learning and Care to support the Employment Related Day Care Program caseload, with a related Other Funds expenditure limitation increase of $99 million in the Department of Human Services.
- $76.2 million net General Fund increase ($238.1 million total funds) and 70 positions (50.94 FTE) to rebalance the Department of Human Services and Oregon Health Authority budgets for changes in forecasted caseloads, revenue, and expenditures for existing program services.
- $42.6 million General Fund for one-time 2023 and 2024 fire season costs, including $34.6 million for 2023 fire season costs for the Departments of Forestry ($26.1 million) and State Fire Marshal ($8.5 million), and $8 million for the Department of the State Fire Marshal to support prepositioning, readiness response, and cash flow constraints for the 2024 fire season.
- $39 million General Fund, on a one-time basis, for the Department of Transportation to support winter and other essential highway maintenance needs across the state ($19 million) and health and safety issues along agency rights of way in the Portland metro area ($20 million).
- $21.9 million General Fund for the Department of Human Services to establish 79 positions (79.00 FTE) that are not currently budgeted and were administratively established by the agency for the Office of Resiliency and Emergency Management and other purposes in the agency's Central Services Division.
- $12.2 million General Fund ($96.6 million total funds) and 65 positions (21.83 FTE) for the Department of Human Services, Oregon Health Authority, and Department of Education to implement the Summer Electronic Benefit Transfer program.
- $10 million General Fund for distribution to higher education institutions for semiconductor workforce development.

- $10 million General Fund to the Higher Education Coordinating Commission for distribution to Oregon State University to support student scholarships.
- $8.8 million General Fund ($17.6 million total funds) for the Department of Human Services to support case management through Area Agencies on Aging.
- $8 million General Fund, on a one-time basis, for the Economic Equity Investment Program in the Oregon Department of Business Development.
- $5.9 million General Fund for one-time distributions to seven specified cultural venues and an additional $5.9 million one-time General Fund for distribution to other targeted arts and cultural institutions for capital projects.
- $4 million General Fund for the Department of State Lands to support Elliott State Research Forest operations, which is offset by the elimination of a General Fund appropriation of the same amount to the Elliott State Research Forest Authority.

The Subcommittee approved 11 budget notes to provide instructions to certain state agencies. The budget notes are included in the following agency sections: Higher Education Coordinating Commission (one budget note); Department of Human Services (two budget notes); Criminal Justice Commission (one budget note); Department of Emergency Management (two budget notes); Department of Forestry (one budget note); Department of Justice (one budget note); Department of the State Fire Marshal (two budget notes); and Public Defense Commission (one budget note).

Emergency Board

The 2023-25 legislatively adopted budget included a $50 million General Fund appropriation to the Emergency Board for general purposes, plus 19 special purpose appropriations totaling $780.4 million General Fund. SB 5701 makes no changes to the $50 million general purpose emergency fund, reduces or eliminates 15 existing special purpose appropriations, increases one existing special purpose appropriation, and establishes three new special purpose appropriations. These adjustments result in a net reduction of $550.4 million General Fund in appropriations to the Emergency Board. After these and other actions during the 2024 session, the special purpose appropriation balances available to the Emergency Board total approximately $234.7 million General Fund. The following summarizes the Emergency Board adjustments made in the measure:

- Eliminates the $330 million special purpose appropriation for state employee compensation plan changes and the $120 million special purpose appropriation for state employee recruitment and retention; the combined $450 million is appropriated to state agencies for state employee compensation plan changes.
- Eliminates the $75 million special purpose appropriation for non-state employee collectively bargained compensation changes; the funding is appropriated to the Department of Human Services and Oregon Health Authority for the same purpose.
- Establishes a $35 million special purpose appropriation for allocation to the Oregon Department of Veterans' Affairs for the construction of a veterans' home in Roseburg, Oregon upon federal approval.
- Increases the $8 million special purpose appropriation for caseload-related changes in the Employment Related Day Care program by $64 million, resulting in a total special purpose appropriation of $72 million for the same purpose.
- Eliminates the $50 million special purpose appropriation for the Oregon CHIPS Fund; this funding is appropriated to the Oregon Business Development Department for the same purpose.

- Eliminates the $39 million special purpose appropriation for long-term rental assistance; this funding is appropriated to the Housing and Community Services Department for rehousing services and longer term rental assistance.
- Reduces the $35 million special purpose appropriation for natural disaster prevention, preparedness, response, and recovery; leaving a balance of $20 million.
- Establishes a $10 million special purpose appropriation to be allocated to the Department of Human Services for temporary lodging prevention services to children and young adults with complex needs.
- Reduces the $14 million special purpose appropriation for fire protection expenses by $6.5 million; this funding is appropriated to the Department of Forestry for the same purpose, leaving a balance of $7.5 million.
- Eliminates the $8.9 million special purpose appropriation for providing stipends to licensed educators and classified school employees working in special education during the 2024-25 school year; this funding is appropriated to the Department of Education for the same purpose.
- Eliminates the $7.6 million special purpose appropriation for firearm background checks; the funding was made available for general purposes.
- Establishes a $5 million special purpose appropriation for allocation to the Department of Emergency Management for a disaster preparedness stockpile.
- Eliminates the $5 million special purpose appropriation for the unrepresented defendant/persons crisis; the funding is appropriated to the Public Defense Commission for the same purpose.
- Eliminates the $3 million special purpose appropriation for Public Defense Commission adult and juvenile trial caseloads.
- Reduces the $5 million special purpose appropriation for the transfer of the Public Defense Commission from the judicial branch to the executive branch by $1.2 million, leaving a balance of $3.8 million.
- Reduces the $3 million special purpose appropriation for Judicial Department mandated payments and third-party collections; leaving a balance of $1.8 million.
- Eliminates the $1 million special purpose appropriation for nonunanimous jury convictions.
- Eliminates the $1 million special purpose appropriation for one-time non-routine expenses related to nonunanimous jury convictions; the funding is appropriated for the same purpose to the Department of Justice for the expenses of district attorneys.

The Subcommittee also approved a modification to the appropriation language contained in HB 5204 (2024) related to a $4.7 million General Fund special purpose appropriation to the Emergency Board for the United We Heal Medicaid Payment Program. The appropriation language in HB 5204 originally required the funding to be reserved until the Oregon Health Authority (OHA) had obtained authorization from the Centers for Medicare and Medicaid Services (CMS) to use the Federal Medical Assistance funds for this purpose. In place of the requirement for federal approval to occur prior to the allocation of funding, the revised language included in SB 5701 allows for the allocation of funding once OHA submits a request for approval to CMS as opposed to once federal approval is given.

Adjustments to 2023-25 Agency Budgets

STATEWIDE ADJUSTMENTS

Employee Compensation Distribution

The Subcommittee approved increases of $465.6 million General Fund, $10.6 million Lottery Funds, $368.5 million Other Funds, and $158.2 million Federal Funds in state agency budgets for employee compensation increases and pension obligation bond cost adjustments. Sections 516-525 of SB 5701 include these adjustments for each agency according to program area. The adjustments are also included in the table near the beginning of the budget report, but are not further described in each agency's narrative section of the report.

The funding for compensation changes includes $455.1 million General Fund ($980 million total funds) for collectively bargained cost-of-living adjustments (COLAs), which include one-time payments of $1,500 for eligible employees, a 6.5% COLA effective December 1, 2023, and a 6.55% COLA effective February 1, 2025. Based on point-in-time statewide calculations, the funding included in the measure is expected to fully cover these increases. In addition, the measure includes approximately $13 million General Fund ($27.7 million total funds) for advancing the effective date of the second COLA from February 1 to January 1, 2025. The pension obligation bond adjustments result in an offsetting decrease of $2.5 million General Fund ($4.8 million total funds).

Of the total net General Fund cost of $465.6 million for these changes, $450 million is supported from the elimination of two special purpose appropriations to the Emergency Board established in SB 5506 (2023). These include a $330 million special purpose appropriation established for state employee compensation plan changes and a $120 million special purpose appropriation established for state employee recruitment and retention.

Other Statewide Adjustments

The measure adjusts various agency budgets to account for interest earnings and excess bond proceeds that can be applied to debt service. Overall, these adjustments result in savings of $24.8 million General Fund and $5.8 million Lottery Funds. Offsetting increases are made to existing Other Funds expenditure limitations to use the available revenue for debt service payments. Sections 516-525 include debt service adjustments made to existing budget structures; new Other Funds expenditure limitations were established to accommodate these adjustments for the Legislative Administration Committee, Parks and Recreation Department, and Water Resources Department.

Other actions impacting various agency budgets include corrections to adjustments included in the 2023-25 legislatively adopted budget for state government service charges. These changes result in a net increase of $2.7 million General Fund ($1.8 million total funds) and are also included in sections 516-525. In addition, the measure includes adjustments totaling $16 million General Fund for judicial branch agencies and $27.4 million General Fund for legislative branch agencies to recognize unexpended General Fund from the 2021-23 biennium. These adjustments are included in sections 514 and 515, and are made pursuant to ORS 293.195, which directs any unexpended General Fund appropriations for the judicial and legislative branches to be appropriated to those branches of government in the subsequent biennium. These appropriations are largely used to fund General Fund cost increases within and outside of the judicial and legislative branches, as described below in each respective section of this report.

Department of Administrative Services

SB 5701 makes various one-time and ongoing adjustments to the Department of Administrative Services (DAS) budget. A one-time increase of $1 million General Fund is included for DAS to distribute to the Willamette Education Service District to fund regional career and technical education programs provided by the Willamette Career Academy. A one-time expenditure limitation increase of $6.8 million Federal Funds is also included for monies from the American Rescue Plan Act State Fiscal Recovery Funds returned to DAS for the purpose of redistributing to eligible state agencies and local entities for

expenditures and activities to respond to the COVID-19 public health emergency and its economic impacts. In addition, the Subcommittee approved an increase of $1 million Other Funds expenditure limitation and four permanent positions (3.67 FTE) for the DAS Chief Human Resource Office to administer the ASCENT Leadership Program.

SB 5701 also includes funding for two DAS requests recommended during the January 2024 meeting of the Joint Interim Committee on Ways and Means. The first is an expenditure limitation increase of $2.1 million Other Funds and the establishment of two limited duration positions (1.26 FTE) and seven permanent positions (5.64 FTE) to address organizational changes. The second is an increase of $772,360 Other Funds expenditure limitation to reclassify 36 positions as part of an agency reorganization and to ensure the accurate placement of management positions within The Oregon Management Project classification series.

Additional adjustments include an increase of $111.4 million Other Funds expenditure limitation for special governmental payments supported by proceeds of previously issued bonds; and a decrease of $13.65 million Other Funds expenditure limitation for special governmental payments to fix incorrect legal references, which is offset by expenditure limitation increases of $6.95 million Other Funds for Mill Creek Land Sales and $6.7 million Other Funds for the Oregon Worker Relief Program. The following net-zero expenditure limitation adjustments were also approved to accurately reflect the budget for the Office of the State Chief Information Officer: 1) a decrease of $2 million Other Funds for Microsoft 365; 2) a decrease of $300,000 Other Funds for State Data Center Operations; and 3) an increase of $2.3 million Other Funds for State Data Center Policy.

The measure includes the following one-time General Fund appropriations for DAS to distribute for specified purposes:

- $2.5 million for distribution to Greater Portland Inc. for a marketing strategy to attract businesses and generate investment for Oregon.
- $2 million for distribution to Old Town Community Association for the Made in Old Town project.
- $1.25 million for distribution to Northwest Health Foundation II for comprehensive data collection and research on the lived experiences and social determinants of health of minority populations, based on sexual orientation and gender identity, and Oregon state agencies' policies and investments impacting these populations.
- $1 million for distribution to the Coalition of African and African American Pastors to support land acquisition and development of low-income housing.
- $375,000 for distribution to Special Olympics Oregon for sports training and athletic competition.
- $100,000 for distribution to the Civil Air Patrol U.S. Airforce Auxiliary Oregon Wing to support operations.

A $1 million General Fund appropriation was also approved for distribution to the Oregon Historical Society to support ongoing operations.

The Subcommittee approved a $9.1 million decrease in Other Funds expenditure limitation to account for the shift of two capital projects to General Fund support that were initially approved to be supported with lottery fund proceeds during the 2023 legislative session to accommodate project timelines. The expenditure limitation reductions include:

- $5.1 million for the Eugene Civic Alliance for the Civic Park project, which includes $5 million for project costs and $60,949 for cost of issuance.

- $4.1 million for the Latino Network for the La Plaza Esperanza - Service Hub for Portland and Gresham residents, which includes $4 million for project costs and $51,914 for cost of issuance.

SB 5701 includes a total of $56.3 million General Fund in one-time appropriations for the following capital projects:

- $15 million for distribution to Multnomah County to support the construction of a behavioral health drop-off center. This amount, along with $10 million included in HB 5204 (2024), brings the total funding for this project provided during the 2024 session to $25 million.
- $5 million to the Eugene Civic Alliance for the Eugene Civic Park Stadium project.
- $4 million to the Latino Network for the La Plaza Esperanza service hub for Portland and Gresham residents.
- $3.6 million to Clackamas County Children's Commission for the Milwaukie Head Start Center.

- $400,000 to the Vietnam War Memorial Fund for the Vietnam War Memorial on the Oregon State Capitol grounds.
- $190,000 to La Pine Rural Fire Protection District for EMS rescue equipment.

The Subcommittee approved Other Funds expenditure limitation increases totaling $29.9 million to facilitate the pass-through of lottery revenue bond projects, including the cost of issuance, for the following purposes:

- $15.2 million to the City of Hillsboro for the construction of the Hillsboro Hops Ballpark, which includes $15 million for project costs and $196,461 for costs of issuance.
- $7.6 million to Lane County for construction of the Fairgrounds Multi-Use Facility, which includes $7.5 million for project costs and $114,676 for costs of issuance.
- $4.1 million to the Parrott Creek Child and Family Services for construction of a youth residential treatment campus in Clackamas County, which includes $4 million for project costs and $52,940 for costs of issuance.
- $3 million for distribution to the Family YMCA of Marion and Polk Counties for the development of a centralized social service and resource center that includes affordable housing and workforce development in Salem. This amount includes $3 million for project costs and $46,891 for costs of issuance.

Scope changes are included in the measure for two projects funded in SB 5506 (2023). The appropriation to Row River Fire Response for emergency communication equipment was modified to include fire and emergency responder communications, personal protective and emergency medical equipment, and training and certification costs related to the new equipment. The appropriation to Community Connection of Northeast Oregon for food bank equipment was expanded to food bank equipment, facility renovations, HVAC upgrades, and delivery vehicles.

Department of Revenue

The Subcommittee approved three Department of Revenue (DOR) budget requests recommended during the January 2024 meeting of the Joint Interim Committee on Ways and Means. The first adjustment adds $339,946 General Fund, $6,937 Other Funds, and three permanent full-time Public Service Representative 4 positions (1.88 FTE) in the Personal Tax and Compliance Division to establish a fraud unit monitoring tax returns claiming the new Oregon Kids Credit created in HB 3235 (2023). While DOR was provided eight positions to implement the measure at the time of passage, none of those positions are dedicated to preventing fraudulent claims, which is an identified risk given the refundable nature of the new tax credit. The second budget adjustment recommended by the interim committee adds $640,238 General Fund, $194,329 Other Funds, and seven permanent full-time positions (4.39 FTE) to address the growing workload involving the issuance of certificates of tax compliance. The Department is expecting a possible increase of over 7,000 requests for certificates this biennium due to policy changes. The established positions include six Service Representative 4 positions divided into two teams of three positions each assigned to the Personal Tax and Compliance Division and the Business Division. An Information Services Specialist 4 position is added to the Information Technology Services Division to support the work of the two teams.

The third approved budget request recommended during the January 2024 interim meeting adds $463,423 General Fund, $75,357 Other Funds, and three permanent full-time positions (2.00 FTE) to support the implementation of measures passed during the 2023 legislative session and to support an information technology project. Of this, $159,799 General Fund, $47,732 Other Funds, and one permanent full-time Information Systems Specialist 7

position (0.75 FTE) in the Information Technology Services Division support the operations and maintenance of the Electronic Valuation Information System (ELVIS) as the project moves to focusing on appraisals of large industrial properties. $226,624 General Fund, $4,625 Other Funds, and two permanent full-time Administrative Specialist 2 positions (1.25 FTE) are added to the Personal Tax and Compliance Division to administer provisions of HB 2083 (2023), which extended the Pass-Through Entity Tax. During the first tax season for this new credit, DOR received around 17,000 returns; however, the Department never received any staffing to handle these new filings, which by their nature, are complex. To fund administration and collection of telecommunications taxes that support the 9-8-8 Crisis System Program, which was established in HB 2757 (2023), the interim committee also recommended adding $77,000 General Fund and $23,000 Other Funds to support necessary information technology professional services expenditures of system development. This recommended budget increase was adjusted by the Subcommittee to utilize more Other Funds support as discussed later in this section.

The Subcommittee also added $331,081 General Fund and reduced Other Funds by $331,081 in the Property Tax Division to reflect the impact of compensation plan increases adopted for this biennium. While this Division is generally supported with 80% General Fund and 20% Other Funds, the ability to charge administrative costs to the various Other Fund revenue streams is often either prohibited by law or capped at a specific percentage. Other Funds revenue is insufficient to support all the costs increases from the new compensation plan requiring the addition of General Fund to support the increased costs. The Subcommittee also made a technical adjustment to a recommended budget increase from the January 2024 meeting of the Joint Interim Committee on Ways and Means. The adjustment recommended in January used a mix of General Fund and Other Funds to support information technology professional services expenditures necessary to implement the 9-8-8 Crisis System Program created by HB 2757 (2023). This program is funded by a tax on telecommunications administered by DOR. The original recommendation did not utilize all Other Fund resources available for this one-time expenditure; the $77,000 of General Fund support from the original recommendation is eliminated and $77,000 Other Funds is added instead.

Office of the Governor

The Subcommittee approved a $30,000 General Fund appropriation for contract support to facilitate the Task Force on Tribal Consultation, working closely with the Tribal Affairs Director from the Governor's Office and the Legislative Commission on Indian Services. The contract will support the development of a long-term strategy, policy recommendations, and outcomes related to state-tribal government-to-government relations in Oregon.

Oregon Racing Commission

As a technical adjustment to the Oregon Racing Commission’s budget, the Subcommittee approved a decrease of $38,525 Other Funds expenditure limitation to eliminate a vacant part-time Research Analyst position (0.25 FTE), which is no longer needed by the agency.

Public Employees Retirement System

The Subcommittee approved, on a time-time basis, a rebalance of existing Other Funds expenditure limitation in the Public Employees Retirement System (PERS) budget for the Modernization Program under the Core Retirement System Application. The Modernization Program is a six-year information technology development and implementation initiative intended to transform the core pension administration and supporting systems, consisting of 19 projects at a cost of more than $150 million.

This is the first re-baselining of the Modernization Program’s budget due to a variety of factors including, but not limited to: (a) shifting priorities; (b) delays from competing priorities, such as SB 1049 (2019) implementation; (c) evolving program scope and objectives; and (d) delays in procurement. The rebalance represents a shift from what PERS requested and was approved by the Legislature in the 2023 session. The Client Relationship Management project budget

is reduced by $855,000, from $1.3 million to $400,000; the Data & Analytics project budget is reduced by $300,000, from $1.3 million to $1 million; the Development and Operations budget is reduced by $542,000, from $1.1 million to $560,000; the Architecture project budget is increased by $1.1 million, from $950,000 to $2 million; the Hybrid Integration Platform budget is increased by $50,000, from $400,000 to $450,000; the Telephony project budget is increased by $347,000, from $210,000 to $557,000; and the Independent Quality Management Services budget is increased by $250,000, from $950,000 to $1.2 million. The scope, schedule, and program budget remain undetermined, as foundational project management documentation are not fully developed yet or reviewed by Independent Quality Management Services (IQMS); however, IQMS recently completed an initial risk assessment of the program.

SB 5701 also increases Other Funds expenditure limitation by $142,956 for the reclassification of the Public Employees Retirement System Executive Director position based on a Department of Administrative Services Chief Human Resources Office statewide management classification review. This adjustment was recommended for approval by the Joint Interim Committee on Ways and Means in January 2024.

In addition, the Subcommittee approved a net zero technical adjustment to move personal services for 13 existing permanent full-time positions in the Electronic Content Management Section from the Information Services Division to the Central Administration Division. The adjustment includes the reclassification of the Agency Records Officer from an Administrative Specialist 2 to an Operations Policy Analyst 2 and transfers the position from the Information Services Division to the Compliance, Audit and Risk Division. The Department of Administrative Services Chief Human Resource Office has approved the reclassification.

Secretary of State

The measure includes several Secretary of State (SOS) budget adjustments recommended during the January 2024 meeting of the Joint Interim Committee on Ways and Means. The first adjustment is $557,000 Other Funds, on a one-time basis, for the Corporation Division to digitize business records currently stored on microfilm or microfiche, which are degrading. SOS will use the funding to contract with a company to convert all 4.3 million records currently stored using the old media. All records that are digitized will be made publicly available online and will be searchable. The second adjustment is a one-time increase of $147,000 Other Funds for carryover expenditure limitation to complete the agency's server room upgrade project, which was originally approved in the 2021-23 legislatively adopted budget. Due to delays in replacing the HVAC system, the completion schedule slipped, and the project was unable to be completed in the 2021-23 biennium, necessitating the need for additional expenditure limitation in 2023-25 to complete the project. Finally, a number of budget adjustments to accommodate positions actions were also approved including $91,627 Other Funds and authorization for a limited duration part-time Public Affairs Specialist 3 (0.25 FTE) to address elections public records requests at the state and county level; $99,936 Other Funds to move an existing half-time Legislative Analyst position to full-time status (0.32 FTE); and $19,527 Other Funds to support the upward reclassification of the agency's Legislative Director position to an Operations and Policy Analyst 4 to match the position's roles and responsibilities.

The Subcommittee also approved two budget adjustments for the Elections Division. The first is $162,207 General Fund to establish a third elections investigator position (Compliance Specialist 3, 0.63 FTE), which will increase the total number of investigators to three. Prior to the start of this biennium there was only one investigator to respond to complaints. Election related complaints have increased from 176 cases in 2019 to 471 cases in 2023. The second is $151,523 General Fund and a limited-duration Helpdesk Technician position (Operations and Policy Analyst 2, 0.63 FTE) to help counties and SOS implement a new voter registration system named ORVIS. The position is needed to provide timely support services to county election officials during the system implementation and stabilization periods. A $303,963 Other Funds budget adjustment is included to formally establish a General Counsel position for audits and elections (0.63 FTE). The agency previously hired someone to serve in this capacity to meet the immediate needs of the agency and has been

funding the work by repurposing other Administration Division resources. This action would formalize the decision by bringing the counsel position on budget. Establishment of this General Counsel position to support the work of the Secretary of State has been endorsed by Oregon's current Attorney General.

State Library

The measure increases Other Funds expenditure limitation by $200,000 and supports the establishment of one limited duration full-time State Library Specialist 2 position (0.63 FTE) to catalog federal publications and support the migration to a new software program to provide public access to digital Oregon government publications. This adjustment is consistent with the recommendation made by the Joint Interim Committee on Ways and Means in January 2024.

CONSUMER AND BUSINESS SERVICES

Board of Chiropractic Examiners

As a technical adjustment, SB 5701 decreases Other Funds expenditure limitation by $26,514 to appropriately align funding to actual position costs for the Board of Chiropractic Examiners.

Board of Nursing

The measure increases Other Funds expenditure limitation by $512,160 to establish three permanent full-time positions (1.88 FTE) for the Oregon State Board of Nursing (OSBN), which is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024. The increased funding supports a permanent full-time Contact Center Supervisor (0.50 FTE) to provide dedicated oversight for the agency's contact center, which reopened after being closed during the COVID-19 pandemic. A permanent full-time Investigator position (0.50 FTE) is also included to reduce investigators' workload from 50-100 cases to an estimated 40 cases per investigator and reduce the current backlog of 200 cases. In addition, the measure supports the establishment of a permanent full-time Business Operations Administrator position (0.88 FTE) to provide greater administrative oversight and assist frontline managers.

Board of Pharmacy

The Subcommittee approved an increase of $138,752 Other Funds expenditure limitation for the establishment of a permanent full-time Administrative Specialist 1 position (0.63 FTE) in the Board of Pharmacy, which is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024. The new position is necessary due to substantial increases in investigations and inspections. Funding will also be used to reclassify an existing Office Specialist 2 position.

Bureau of Labor and Industries

The measure includes several adjustments to the budget for the Bureau of Labor and Industries (BOLI). A one-time increase of $631,615 Other Funds expenditure limitation is included for the establishment of nine limited duration positions (3.00 FTE) to address the registered apprenticeship program compliance review backlog. The funding to support these positions is available from unexpended American Rescue Plan Act State Fiscal Recovery Funds from the 2021-23 biennium. This adjustment was recommended for approval at the January 2024 meeting of the Joint Interim Committee on Ways and Means.

Also included in SB 5701 is an ongoing increase of $98,000 General Fund for a public records management software license, and a one-time increase of $162,500 General Fund, $77,500 Other Funds, and $10,000 Federal Funds for phase 1 of a new case management software project. In addition, the Subcommittee approved net-zero technical adjustments to move one civil rights position from the Commissioner's Office to the Civil Rights Division and adjust four civil rights positions within the Civil Rights Division to align them with the appropriate budget structure.

SB 5701 also supports a one-time Other Funds expenditure limitation increase of $991,772, the establishment of two limited duration positions (3.88 FTE), and an extension of nine existing limited duration positions for registered apprenticeship program compliance review. This increase is funded from unexpended grant funds from the Future Ready Oregon program initially authorized by SB 1545 (2022) that were returned to the agency.

Bureau of Licensed Social Workers

The measure increases the Other Funds expenditure limitation for the Board of Licensed Social Workers (BLSW) by $136,836 to fund two limited duration Office Specialist 2 positions (1.00 FTE) to help address the agency's caseload. HB 4071 (2022) waived fees for all new applications without adding new staff; this change increased applications from 227 in 2022 to 786 in 2023. During the 2023 legislative session, BLSW received one part time Office Specialist 2 position, which was able to reduce applications by a little over 25% in three months. The two additional positions are anticipated to clear the backlog and maintain an ongoing application review period of 7-14 days.

Department of Consumer and Business Services

The Subcommittee approved two Department of Consumer and Business Services (DCBS) budget requests recommended during the January 2024 meeting of the Joint Interim Committee on Ways and Means. The first adds $1.2 million Other Funds expenditure limitation and establishes eight full-time permanent positions starting July 1, 2024 (4.00 FTE) in the Division of Financial Regulation to address increased workload and implement 2023 legislation. Two Tax Auditor 2 positions and one Public Service Representative 4 position are added to address a backlog of processing insurance retaliatory tax returns, some of which date back to 2020 and 2021. Two Compliance and Regulatory Manager 2 positions are established to better manage and reorganize oversight of positions regulating the insurance industry. One Financial Examiner 3 position is added to oversee the state-chartered Umpqua Bank, which merged with Columbia Bank in February 2023. After the merger, Umpqua Bank became the largest financial institution overseen by the Division of Financial Regulation and requires additional oversight support. A Compliance and Regulatory Manager 2 position and an Operations and Policy Analyst 3 are added to implement HB 2725 (2023), which prohibits pharmacy benefit managers from retroactively decreasing reimbursements, from charging fees on pharmacists after the point of sale and requires sufficient notice of denied claims be provided to pharmacists.

The second budget request recommended during the January 2024 interim meeting increases Other Funds expenditure limitation by $893,818 and Federal Funds expenditure limitation by $26,057, and adds three permanent full-time positions in the Central Services Division to address workload issues, reclassify six positions, and support negotiated salary selectives for six Training and Development Specialists and 11 Elevator Inspectors. The three positions added to address increased workload in the Central Services Division include an IT Application Development Manager 1 (0.50 FTE), an Information Systems Specialist 5 (0.50 FTE), and a Human Resources Analyst 1 (0.50 FTE).

The Subcommittee also recognized a $7.7 million revenue transfer to Oregon Health and Science University (OHSU) for the Oregon Institute of Occupational Health Safety to properly account for how funds are being distributed by DCBS to OHSU. A second technical adjustment is made to correctly reflect the fiscal impact of HB 3409 (2023). DCBS was approved for two positions in the Buildings Code Division to support the work required by the measure; however, this

budget adjustment was based on an earlier version of the bill and the version that was enacted requires DCBS to report on options for reducing greenhouse gas emissions that result from materials used in building construction. To accommodate this need, the Subcommittee eliminated the erroneously added Professional Engineer 2 position (0.88 FTE) and moved $346,942 Other Funds from personal services to services and supplies to support a contract to complete the required report.

Veterinary Medical Examining Board

The Subcommittee approved an increase of $43,762 in Other Funds expenditure limitation and an increase of 0.25 FTE for an existing Administrative Specialist 2 position in the Veterinary Medical Examining Board due to the position's workload.

ECONOMIC AND COMMUNITY DEVELOPMENT

Department of Veterans' Affairs

SB 5701 supports two adjustments for the Home Loan Servicing information technology project resulting in a combined expenditure limitation increase of $1.7 million Other Funds and two positions (1.26 FTE). The first includes $1.2 million Other Funds, on a one-time basis, for additional project costs including independent quality management services, procurement, project management, legal fees, insurance, and contingency. The second adjustment includes an increase of $564,682 Other Funds for the establishment of two permanent positions. One position is an Information Specialist 7 (0.63 FTE), which serves as an information technology (IT) project manager to move system implementation in-house and support future IT projects at the agency. The second position (0.63 FTE) is an Accountant 3 to support implementation and ongoing operation of the new system.

In addition, a special purpose appropriation to the Emergency Board is established in the amount of $35 million for the state's portion of construction of a third veterans' home in Roseburg, Oregon. Total construction costs are estimated at a minimum of $100 million and the U.S. Department of Veterans Affairs (USDVA) will cover 65% of the total if the project is authorized by USDVA to move forward.

Employment Department

Consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024, the Subcommittee approved an increase of $99,436 Other Funds expenditure limitation and authorized the establishment of one position (0.63 FTE) in the Oregon Employment Department's (OED's) Office of Administrative Hearings. This adjustment re-establishes the budget and position authority for a permanent legal secretary position that was inadvertently eliminated in the 2023-25 legislatively adopted budget.

An increase of $20.5 million Federal Funds expenditure limitation and a corresponding Other Funds expenditure limitation decrease was approved to align program expenditures with the appropriate revenue sources. OED identified $13 million in expenditures related to modernization of OED business systems and processes, and a combined $7.6 million in the Unemployment Insurance, Shared Services, Workforce Operations, Contributions and Recovery, and Workforce and Economic Research divisions that are eligible for and expected to be funded with federal resources.

The Subcommittee also approved a net-zero technical adjustment shifting funding and positions between budget structures. In the legislatively adopted budget, 17 positions and $3.7 million Other Funds were erroneously attributed to the Paid Leave Oregon program, and 16 positions and $3.6 million Other

Funds were erroneously attributed to the Modernization Initiative. These positions are related to other divisions and functions within OED, and as such, $7.3 million Other Funds expenditure limitation was removed from the divisions noted above and added to unemployment insurance, shared services, workforce operations, contributions and recovery, and workforce and economic research.

In addition, the Employment Department's Other Funds expenditure limitation is increased by $10.4 million and FTE count is increased by 45.00 to support permanent position authority for 72 positions. These positions were approved on a limited duration basis with General Fund appropriated in HB 5049 (2023) for the purpose of eliminating investigation backlogs, maintaining timely payments, providing adequate supervisory support, and improving customer access to information through translation of materials. An increase in the Supplemental Employment Department Administrative Fund allocation - from 0.09% to 0.109% - is included in HB 4035 (2024) and will support these positions and activities on an ongoing basis.

Housing and Community Services Department

The measure appropriates $39 million General Fund to the Housing and Community Services Department (HCSD) for deposit into the Long-Term Rent Assistance Fund established in ORS 458.392 to expand the number of Oregonians receiving longer-term rental assistance and associated rehousing services by an estimated 700 households. This funding is available from the elimination of a corresponding General Fund special purpose appropriation made to the Emergency Board in SB 5506 (2023). The appropriation to HCSD will pay for services and related longer-term rental assistance for a period of up to 24 months. Other Funds expenditure limitation to allow funds to be expended from the Long-Term Rent Assistance Fund is included in the amount of $25 million, with the remaining $14 million anticipated to be expended in the 2025-27 biennium. Statutory changes to the Long-Term Rent Assistance Fund are included in SB 1501 (2024), which is the program change measure, to broaden eligible expenditures from the fund to include other supportive services and rental assistance to those experiencing, or at risk of experiencing, homelessness. These adjustments are consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

Due to constraints with the number of permanent supportive housing projects that can be developed over the course of a biennium, HCSD is updating the project allocations made from $600 million in proceeds from Article XI-Q bonds authorized during the 2023 session for financing affordable housing. These updates, which result in net-zero budget changes, are summarized in the following table:

HCSD Program	Previously Reported Article XI-Q Bond Allocation	New Allocation Amount	Number of Expected Units
Local Innovation and Fast Track (LIFT) Rental Housing	$350 million	$440 million	1,833
LIFT Home Ownership	$90 million	$40 million (with a possible additional $40 million)	348 - 696
Permanent Supportive Housing	$160 million	$80 million	400
Total	**$600 million**	**$600 million**	**2,581 - 2,929**

The projections assume an initial offering of $40 million for homeownership opportunities. However, if over-subscribed, the Department proposes to offer up to an additional $40 million for this program. Any unutilized proceeds will be allocated for the financing of affordable rental housing.

In addition, SB 5701 appropriates $475,808 General Fund to HCSD to support professional services contracts related to reporting, grant compliance, and expertise for homelessness prevention and response. These services will support efforts intended to shelter and rehouse Oregonians pursuant to local planning group and multi-agency coordinating group initiatives. Support for this appropriation is available from vacancy savings within the Department of Emergency Management for position authority that was granted but later determined not to be needed to support homelessness response efforts.

Oregon Business Development Department

The measure makes three adjustments to the budget for the Oregon Business Development Department (OBDD) pursuant to recommendations by the Joint Interim Committee on Ways and Means in January 2024. First, the measure increases Federal Funds expenditure limitation by $29.2 million to support expenditures for small business assistance. The planned expenditures are supported by a federal Small Business Credit Initiative grant award of $83.5 million; the adjustment included in the measure reflects the second of three distributions to OBDD associated with this grant.

Second, the measure adjusts OBDD's budget to reflect the passage of HB 3532 (2023), which removed the annual administrative spending cap of $400,000 from the Trust for Cultural Development Account and replaced it with a cap of 5% of the value of the account. The change results in more dollars being available for program operations, technical assistance, local cultural planning, and other cultural activities. The budgetary adjustments made to accommodate the change result in a net increase of $687,822 Other Funds expenditure limitation, an increase of 0.50 FTE for an existing Executive Support Specialist 2 position, and a decrease of $49,194 General Fund for the OBDD Arts program.

Third, the measure increases Other Funds expenditure limitation by $165,205 and supports the establishment of one full-time permanent position (0.63 FTE) for OBDD to assist communities in accessing funds to address drinking water system contaminants. This adjustment corresponds to a federal grant award totaling $9.94 million for the first year of funding provided through the Bipartisan Infrastructure Law of 2021 for projects that address emerging contaminants through investments in safe drinking water infrastructure. An additional $45.9 million is estimated to be available from this grant over the next four years. Funds are granted from the U.S. Environmental Protection Agency to the Oregon Health Authority and transferred to OBDD for projects. An Operations and Policy Analyst 3 position will act as a project manager, facilitating between 10-20 funding contracts per year, most of which require upfront technical assistance, including federal requirements, procurement assistance, and contract management.

In addition, the Subcommittee approved a net General Fund reduction of $16.8 million to reflect actual 2021-23 General Fund expenditures for named projects. These projects expended more in the 2021-23 biennium than initially projected when the 2023-25 budget was being developed; as a result, less General Fund carryforward is needed in the 2023-25 biennium.

The passage of HB 2009 (2023) resulted in new responsibilities and corresponding fiscal impacts for OBDD that were not incorporated into its regular budget bill or the end-of-session budget reconciliation bill in the 2023 session. The legislation requires the agency to design and implement a new research and development tax credit for semiconductors, procure and distribute a study, update existing Enterprise Zone requirements, and incorporate changes into the agency's Strategic Investment Program. SB 5701 increases Lottery Funds expenditure limitation by $294,909 and Other Funds expenditure limitation by $83,273 to support the creation of a new full-time Program Analyst 3 (0.50 FTE) position to manage new and update existing incentives and procurements, and the creation of a half-time Public Affairs Specialist position (0.25 FTE) for related training, marketing and communications.

The measure includes expenditure limitation increases of $564,898 Lottery Funds and $500,947 Other Funds to support three new full-time positions dedicated to planning and implementation of the agency's Economic Development Management System information technology project, intended to replace and integrate several obsolete financial and business process systems within the Department. OBDD reported to the Transportation and Economic Development Subcommittee of Ways and Means on project status, as required by a budget note. Lottery Funds will support three permanent full-time positions (0.58 FTE each): a Modernization Program Manager; a Senior Project Manager to replace contracted project management services; and an Organizational Change Management Analyst. These resources will enable the agency to have dedicated state resources available for further planning, analysis, and proposal evaluation and selection, which increases the likelihood that the project will be implemented as planned and budgeted. The Other Funds expenditure limitation will be used for contracted independent quality management services.

Expenditure limitation increases of $231,447 Lottery Funds and $57,862 Other Funds are included in the measure to support two permanent full-time Human Resource Analyst positions (0.58 FTE each). The positions will augment existing staff of three positions and enable the Department to manage a significant increase in recruitment and hiring actions experienced since 2019.

Additional adjustments to Lottery Funds expenditure limitation are included in the measure for different purposes. First, an increase of $250,000 is included to facilitate the execution of global trade missions to promote international investment in Oregon, both as a place to do business and expand markets for Oregon products and services. Second, a net increase of $3.8 million is included to adjust for actual carry forward balances of committed Lottery Funds from the 2021-23 biennium, which includes a $3.9 million increase in Business, Innovation and Trade, and a $71,620 expenditure limitation decrease for the Infrastructure program.

The measure increases General Fund by $50 million for deposit into the Oregon CHIPS Fund for grants and loans to businesses seeking federal CHIPS Act funding through the U.S. Department of Commerce. This funding augments a $190 million investment made in SB 4 (2023) for the purpose of supporting investments of semi-conductor technology companies with Oregon locations that seek to expand operations in the state. The measure increases Other Funds expenditure limitation by $50 million to expend the money deposited into the fund and eliminates a $50 million General Fund special purpose appropriation to the Emergency Board for the same purpose.

A one-time General Fund appropriation of $8 million is approved for deposit in the Economic Equity Investment Fund established under ORS 285B.763. Other Funds expenditure limitation is increased by $8 million to expend monies from the fund for awarding grants to organizations providing culturally responsive services supporting economic stability, self-sufficiency, wealth building and economic equity among disadvantaged individuals, families, businesses, and communities in Oregon.

The Subcommittee approved an increase of $500,000 in Other Funds expenditure limitation from the Broadband Fund established under ORS 285A.167 to provide technical support to libraries in accessing federal broadband funding. Other Funds expenditure limitation is also increased to reflect approval of an additional $4 million in net lottery bond proceeds authorized for the City of Aumsville's wastewater treatment plant construction and sewer system improvements. These bonds have associated issuance costs of $52,940.

One-time General Fund in the amount of $1.7 million is included for distribution by OBDD to the City of Willamina for an erosion remediation project at Hampton Park.

SB 5701 also includes one-time General Fund appropriations to support specified arts and cultural programs and projects. As part of this, $5.9 million General Fund is appropriated to OBDD for the following one-time distributions to seven major culture venues:

- $379,750 for the High Desert Museum
- $341,775 for the Oregon Ballet Theater
- $2.6 million for the Oregon Shakespeare Festival
- $949,375 for the Oregon Symphony
- $743,298 for the Portland Art Museum
- $474,687 for Portland Center Stage
- $474,687 for the Portland Opera

An additional $5.9 million General Fund is appropriated on a one-time basis for OBDD to distribute grants to 13 arts and cultural institutions for the following capital projects:

- $1 million to Clatsop County Historical Society for expansion of the Oregon Film Museum.
- $900,000 to the Black United Fund of Oregon for building the United Futures Complex.
- $455,690 to Friends of the Oregon Caves and Chateau for restoration of the Oregon Caves Chateau.
- $400,000 to Columbia County Museum Association for relocation and improved accessibility of the Columbia County Museum.
- $424,603 to Josephine Community Library Foundation for acquisition of land for a new library and commons.
- $500,000 to Southern Oregon Historical Society for creation of an event center and new museum.
- $250,000 to Portland Art Museum for the PAM CUT Tomorrow Theatre.
- $500,000 to Painted Sky Center for Arts for the arts building acquisition.
- $350,000 to Very Little Theatre for renovation and remodeling of the theater.
- $150,000 to Portland Institute for Contemporary Art for capital repairs and upgrades to the building.
- $500,000 to Rainier Oregon Historical Museum for a new museum building.
- $150,000 to Salem Parks Foundation for restoration of the Eco-Earth Globe at Riverfront Park.
- $300,000 to The Portland Playhouse for acquisition of Portland Playhouse and property.

EDUCATION

Department of Early Learning and Care

The Birth Through Five Literacy Fund was established by HB 3198 (2023) and received limitation of $1 as a placeholder pending legislative approval of a plan for a Birth Through Five Literacy grant program from the Department of Early Learning and Care (DELC). In January 2024, the Joint Interim Committee on Ways and Means received the report and approved the plan. The Subcommittee increased the Other Funds expenditure limitation established in HB 3198 by $9.4 million to implement the Birth Through Five Literacy plan. The source of Other Funds is the Early Learning Account in the Fund for Student Success. To transfer funds from the Early Learning Account to DELC for the Birth Through Five Literacy plan, the Subcommittee also increased Other Funds expenditure limitation for the Department of Education by a commensurate $9.4 million.

Chapter 595, Oregon Laws 2023 (HB 2683) expands eligibility for the Employment Related Day Care (ERDC) program based on household income, employment status, and use of support or intervention social services, such as homelessness services, teen parent services, or domestic violence services. The new eligibility categories take effect in July 2025 and July 2027. To prepare the ONE Eligibility system to accommodate additional eligibility categories, the Legislature appropriated $1.8 million General Fund in the 2023-25 legislatively adopted budget. The Subcommittee approved moving this appropriation between budget units in the DELC budget for accounting purposes.

Expanded eligibility requirements for ERDC took effect on July 1, 2023. Since then, the program's caseload has grown by 40%, with costs estimated to exceed the program's 2023-25 budget before January 2025. To manage demand, a waitlist was implemented on November 3, 2023; the cost-containment effect of the waitlist will not take full effect in the current biennium. To ensure the program can cover the cost of families currently eligible to receive ERDC services, the Subcommittee approved increases of $86 million General Fund and $4.5 million Federal Funds expenditure limitation. Combined with $8.5 million from the federal American Rescue Plan Act re-purposed within the agency's existing budget, increased resources for the ERDC program in the current biennium total $99 million, bringing the ERDC program budget to $452 million for the 2023-25 biennium. In addition, the existing $8 million special purpose appropriation to the Emergency Board for caseload-related changes in the ERDC program is increased by $64 million, for a total of $72 million. This funding is available for allocation upon request by the agency and demonstration of caseload needs at a future meeting of the Emergency Board.

Eligibility for the ERDC program is determined through the ONE Eligibility system housed in the Department of Human Services (DHS). Implementation of a waitlist for the ERDC program required changes to be made to the system. For DELC to reimburse DHS for the cost of making the required system changes, the Subcommittee approved $250,000 General Fund on a one-time basis.

The rapid growth of the ERDC caseload has increased the workload of the 20-member staff in the Direct Pay Unit, which is responsible for making ERDC payments to child care providers. To address the increased workload and ensure that timely processing of payments continues, the measure includes, on a one-time basis, $347,891 General Fund for the establishment of three full-time limited duration positions (1.88 FTE). A new child care provider payment system that is currently under development by the Department will eliminate the need for these positions after the 2023-25 biennium.

The ERDC program serves many families and pays many providers that speak languages other than English. To relay information about the program in both English-speaking and non-English-speaking communities, the Subcommittee approved $474,598 General Fund and the establishment of one permanent position (0.63 FTE) to provide program communications. Of this amount, $294,000 will pay for translation services and publication costs.

Various budget actions taken in the 2021 and 2022 legislative sessions provided funding and positions needed to establish DELC as a fully operational new state agency as of July 1, 2023. In the course of building the new agency, the costs of more than one-third of the 351 positions funded in the Department's 2023-25 budget have been affected by pay equity and/or management reviews, new-hire actions, or reclassifications, resulting in payroll costs that are higher than previously budgeted. To address these costs and reduce the likelihood DELC will overspend its budget, the Subcommittee approved an increase of $3.7 million General Fund and $123,951 Federal Funds.

The Subcommittee approved $1.4 million General Fund and authorized the establishment of six permanent ongoing positions (8.25 FTE) in the Child Care Licensing Division to accommodate a sustained workload increase of more than 50% since 2022.

The Subcommittee approved, on a one-time basis, $1.5 million General Fund for DELC to grant to the Provider Services Fund (PSF), a non-profit organization whose mission is to make child care more sustainable in Oregon. PSF makes grants to child care providers to expand their capacity and provides training opportunities to child care providers throughout the state.

To balance resources available in the Early Learning Account to General Fund resource constraints, the Subcommittee approved an increase of $5 million Other Funds expenditure limitation for the Oregon Prenatal to Kindergarten (OPK) program and a corresponding $5 million decrease in General Fund support, for no net change in program resources.

Department of Education

Based on recommendations from the Joint Interim Committee on Ways and Means made in January 2024, the Subcommittee authorized the establishment of one permanent Education Program Manager 3 position (1.00 FTE) to oversee the Office of School Facilities in the Oregon Department of Education (ODE).

To address caseload growth in the Early Intervention and Early Childhood Special Education programs, the Subcommittee also approved an expenditure limitation increase of $22.1 million Other Funds. The source of Other Funds is the Early Learning Account in the Fund for Student Success.

The Early Literacy Success Community Grant Fund was established by HB 3198 (2023) and received limitation of $1 as a placeholder pending legislative approval of a plan for an Early Literacy Success Community grant program. In January 2024, the Joint Interim Committee on Ways and Means received the report and approved ODE's plan. The measure increases the Other Funds expenditure limitation established in HB 3198 by $9,999,999 to implement the Early Literacy Success Community grant program. The source of Other Funds is the Statewide Education Initiatives Account in the Fund for Student Success.

For providing one-time stipends to licensed educators and classified school employees working in special education during the 2024-25 school year, the measure increases General Fund by $8.9 million, with a corresponding reduction in the special purpose appropriation made to the Emergency Board in SB 5506 (2023) for the same purpose.

To address a backlog of appeals of complaints alleging discrimination in public education and to provide parent advocates for families navigating district and state-level complaint processes, the Subcommittee approved $2 million General Fund and authorized the establishment of 14 permanent positions (7.00 FTE). Of this amount, $150,000 will fund the expansion of the Department's pool of contract investigators.

ODE collects and maintains a wide variety of data from local school districts, including revenue and expenditure budgets and audited actual annual revenues and expenditures. To develop and maintain publicly accessible data dashboards featuring school district financial data, the Subcommittee approved $2.2 million General Fund and authorized the establishment of six permanent positions (3.50 FTE). Included within this amount is $1.1 million in one-time resources for contract services for data visualization development and assessing the Department's data management requirements.

For the Department to provide staff support needed to establish and operate a federal Summer Electronic Benefit Transfer (EBT) child nutrition program jointly administered with the Department of Human Services and the Oregon Health Authority, the Subcommittee approved $169,164 General Fund, $169,164 Federal Funds expenditure limitation, and the authorization of one limited duration position (0.31 FTE) and one permanent ongoing position (0.63 FTE).

Using federal grant and pandemic relief funds, the Department launched a Community Care Demonstration Project to provide school-based mental health and health care supports and system navigation to students and families in four Oregon school districts. To continue the demonstration project through the end of the 2023-25 biennium, the Subcommittee approved $1 million General Fund on a one-time basis. This funding will support ten Community Care specialists employed by the four school districts participating in the demonstration project.

The U.S. Department of Agriculture's Child and Adult Day Care Food program (CACFP) reimburses in-home day care providers for meals served to children while in their care. To support the local organizations that administer the CACFP, the Subcommittee approved $660,000 General Fund on an ongoing basis.

HB 2166 (2021) set a timeline of July 1, 2024, for school districts to implement new Transformative Social and Emotional Learning standards, which were approved by the State Board of Education in June 2023, providing a very short timeframe in which to develop curriculum supplements and educator professional development materials. To ensure materials are available, educators are trained on the new curricula, and sufficient staff support exists to manage implementation, the Subcommittee approved an increase of $1.7 million General Fund on a one-time basis and authorized the establishment of one limited duration position (0.63 FTE).

To properly account for the Department's transfer of funds from the Early Learning Account in the Fund for Student Success to the Department of Early Learning and Care, the Subcommittee approved the correction of a reference in the budget report for HB 5014 (2023), from Summary Cross Reference (SCR) 300, Grant-in-Aid and District Supports, to SCR 500, Early Learning Division.

SB 5701 includes a reduction of $115.9 million General Fund, an increase of $34.6 million Lottery Funds, and an increase of $81.3 million Other Funds expenditure limitation for the State School Fund (SSF) from the Fund for Student Success. This change reflects the balance of available Lottery Funds used to support the SSF, as well as the most recent forecast of the Fund for Student Success revenues statutorily transferred to the SSF. The 2023-25 State School Fund budget total of $10.2 billion is not changed.

To support further development of an information technology project to replace the system relied upon to calculate and process State School Fund distributions to school districts and education service districts, the Subcommittee approved $186,255 General Fund and authorized the establishment of

one limited duration Business Analyst (Information Systems Specialist 7) position (0.63 FTE) through the end of the 2025-27 biennium. The Subcommittee also approved extending one existing limited duration Business Analyst (ISS7) position and one existing limited duration Project Manager 3 position for this project through the end of the 2025-27 biennium.

The Early Learning Account in the Fund for Student Success is a significant source of support for early learning programs provided by the Department of Early Learning and Care (DELC). Since becoming an independent state agency, funds from the Early Learning Account must be transferred to DELC by the Department of Education. To balance the transfer of funds to program budget changes approved during the 2024 legislative session, the Subcommittee approved an increase in Other Funds expenditure limitation of $5.3 million. The budget changes supported by this transfer are shown in the table below.

To Balance Early Learning Account transfer to DELC	OF-ELA
Statewide and compensation plan changes	323,379
Increase ELA Funds for OPK/reduce GF	5,000,000
Total: 2024 Session Actions	**5,323,379**

To distribute the available ending fund balance in the Student Investment Account to school districts in the 2023-25 biennium, the Subcommittee approved an increase of $4.9 million Other Funds expenditure limitation.

Higher Education Coordinating Commission

SB 5701 includes a one-time expenditure limitation increase of $1 million Other Funds for the Higher Education Coordinating Commission (HECC) to support public university educator preparation programs for the planning, tracking, and reporting on the progress of developing a pre-kindergarten through grade 12 educator workforce that more closely mirrors the linguistic and cultural diversity of students. The Subcommittee also approved a one-time increase of $5.1 million Other Funds for HECC to collaborate with the Oregon Department of Education (ODE) and Educator Advancement Council (EAC) to award scholarships to culturally and linguistically diverse teacher candidates as part of the Oregon Teachers Scholars Program (OTSP). During the 2023 session, these funds were appropriated to ODE for deposit into the Statewide Education Initiatives Account for these efforts. Although HECC was authorized to enter into an interagency agreement with ODE and EAC to distribute funds for the equity plans and to award the scholarships pertaining to OTSP, expenditure limitation was not included in HECC's primary budget bill, HB 5025 (2023), until the two agencies finalized the interagency agreement. These adjustments are consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

The measure establishes the following one-time General Fund appropriations to HECC for targeted purposes:

- $500,000 for distribution to Portland State University to support the operations of the Center for Women's Leadership.
- $1 million for distribution to the University of Oregon Just Futures Institute to conduct research to understand and address water needs of environmental justice communities and to award grants.
- $1.9 million for distribution to the Oregon State University Veterinary Diagnostic Laboratory to support programs to improve Oregon's coordination, monitoring, prevention, and response to zoonotic diseases.

A series of net-zero expenditure limitation adjustments were approved to accurately reflect the budget for the newly established Oregon Cybersecurity Center of Excellence. These include a decrease of $4.9 million Other Funds for HECC programs; an increase of $2.5 million Other Funds for payments out of the Oregon Cybersecurity Center of Excellence Operating Fund; an increase of $2.15 million Other Funds for payments from the Oregon Cybersecurity Workforce Development Fund; and an increase of $250,000 Other Funds for payments from the Oregon Cybersecurity Grant Program Fund. Additional net-zero adjustments are included to move college in prison funding to the correct budget structure. These include a $306,000 General Fund decrease for HECC programs and operations; $126,000 General Fund increase for public universities; and $180,00 General Fund increase for community colleges.

The Subcommittee approved increasing Other Funds expenditure limitation by $115,000 for the cost of issuing bonds authorized in HB 5201 (2024) for public universities. Capital construction expenditure limitation for new public university capital projects is provided in HB 5202 (2024) and project descriptions are included in HB 5201 (2024).

A total of $17.5 million Lottery Funds is available to offset an equal amount of General Fund for the Oregon Opportunity Grant program (OOG), through increased Education Stability Fund interest and a distribution from the Oregon Growth Account. This offset leaves the OOG program funded at the same level as the legislatively adopted budget.

The measure also includes a one-time General Fund appropriation of $10 million to distribute to the following universities and community colleges to support the semiconductor industry:

- $2 million to the University of Oregon to expand and modernize training facilities for workforce development related to the semiconductor industry.
- $1.9 million to Portland State University to establish a center for semiconductor research, education, and workforce development.
- $2 million to Oregon State University to invest in semiconductor infrastructure including faculty, graduate students, equipment, and curriculum development.
- $671,141 to Oregon Institute of Technology for semiconductor manufacturing training facilities in Klamath Falls.
- $1.7 million to Portland Community College to increase career readiness connections for students in high school and adult learners; expand stackable micro-credential, certificate, and apprenticeship programs; provide tuition assistance and support to students pursuing semiconductor workforce training; and support faculty and staff.
- $1.7 million to Mt. Hood Community College to build the semiconductor career pipeline, with a focus on historically underserved populations, through career awareness, expansion of stackable credentials, increasing skills of incumbent workers, tuition assistance and support to students, supporting faculty and staff.

The Subcommittee approved a one-time $20 million decrease in Outdoor School Lottery Funds expenditure limitation. A total of $29 million in unspent funding is available in the Oregon State University Extension Service Outdoor School Fund due to decreased expenditures during the COVID-19 pandemic. This offset leaves the Outdoor School program funded at a level sufficient to maintain current biennium programming, as well as to support one-time improvement grants to Outdoor School partners. In addition, the Subcommittee approved a one-time General Fund appropriation of $10 million for distribution Oregon State University for student scholarships.

The Subcommittee approved a one-time General Fund appropriation of $100,000 for distribution to the University of Oregon Labor Education and Research Center to research the potential workforce impacts across Oregon's key economic industries to understand the impact of automation and artificial intelligence. The Subcommittee also adopted the following budget note:

BUDGET NOTE

The University of Oregon Labor Education and Research Center is directed to submit a report on their research and findings to the Joint Legislative Committee on Information Management and Technology, including recommendations for legislation, no later than February 1, 2025.

Teacher Standards and Practices Commission

To address a backlog of applications for licensure and a backlog of investigations into complaints of educator misconduct, the measure increases Other Funds expenditure limitation by $914,270 on a one-time basis and supports the establishment of eight limited-duration positions (5.00 FTE) for the Teacher Standards and Practices Commission. This adjustment is consistent with the recommendation of the Joint Interim Committee on Ways and Means at its meeting in January 2024.

HUMAN SERVICES

Commission for the Blind

During the 2023 session, the Legislature approved funding for the Oregon Commission for the Blind (OCB) to use the Department of Administrative Services (DAS) Information Technology (IT) Services. However, DAS IT was unable to immediately address the Commission's specialized IT needs. As a result, the measure makes permanent an unbudgeted Information Security Specialist 3 position (1.00 FTE) and transfers services and supplies of $472,936 General Fund from four of OCB's divisions to offset the cost of the position ($205,092 General Fund), resulting in net savings of $267,844 General Fund.

SB 5701 also includes an increase of $524,866 General Fund and a decrease in Federal Funds of $502,605 to reclassify two positions upward and shift funding for three positions that are ineligible for federal match. The reclassifications are based on a review of the DAS Chief Human Resources Office and include changing a Business Operations Supervisor 1 to a Business Operations Supervisor 2 and an Executive Support Specialist 2 to an Executive Assistant. In addition, the U.S. Department of Education identified positions within OCB that do not provide a direct service to the blind and are ineligible for a federal match. To address this, the measure supports 100% General Fund for the reclassified Business Operations Supervisor 2, the Executive Assistant, and an Information Security Specialist 6 position.

Department of Human Services

SB 5701 adjusts the Department of Human Services (DHS) budget for updated caseload forecasts and other cost variations to rebalance the agency's budget. The measure also includes several program investments. The following table provides a high-level summary of these changes:

Fall 2023 Rebalance

For the Department of Human Services' first budget rebalance of the 2023-25 biennium, the Subcommittee approved adjustments resulting in a net General Fund increase of $108.8 million, an Other Funds expenditure limitation increase of $15.4 million, and a Federal Funds expenditure limitation increase of $295.6 million; and authorized a total of 25 new positions (25.68 FTE). The adjustments encompass a number of issues affecting the DHS budget, including savings and funding gaps due to changes in caseload, cost per case, and the federal medical assistance percentage (FMAP); and other program changes arising since the 2023 legislative session. The major DHS rebalance adjustments include:

- $41 million net General Fund increase ($173.5 million total funds) due to changes in caseload, compared to spring 2023.
- $28.6 million General Fund increase ($63.6 million total funds) for higher costs per case in the Intellectual/Developmental Disabilities program, and corrections in the Child Welfare budget.
- $24.7 million General Fund on a one-time basis to meet the American Rescue Plan Act maintenance of effort requirement for Home and Community-Based Services.
- $7.2 million General Fund for additional local staff to manage the uptick in caseload, including $6.7 million General Fund ($12.9 million total funds) for Community Developmental Disability Programs, and $0.5 million General Fund ($4.6 million total funds) for Area Agencies on Aging.
- $3.7 million General Fund for Paid Leave Oregon costs for home care workers and personal support workers.

- $14.7 million Other Funds expenditure limitation increase related to provider payments in the Employment-Related Day Care program.
- $56.7 million Federal Funds expenditure limitation increase for the Supplemental Nutrition Assistance Program to match the actual grant amounts received.
- $23 million Federal Funds expenditure limitation increase to reflect increased federal grant funds for assistance to Afghan and Ukrainian refugees.

New positions approved in the rebalance are mostly for implementation of federal grants received since the start of the biennium or to support federally funded activities which had previously been performed under contract with outside entities. This includes seven positions (4.41 FTE) in Child Welfare to administer a federal foster care grant, two positions (1.58 FTE) in Self Sufficiency to administer the Sexual Risk Avoidance Education grant, two positions (2.00 FTE) in Aging and People with Disabilities for disability determinations services, and 10 positions (6.30 FTE) in Vocational Rehabilitation for the provision of Pre-Employment Transition Services to students with disabilities. In addition, various budget-neutral technical adjustments were approved related to internal transfers of positions and funding. The agency noted in the rebalance report several potential risks to its budget, including, for example, changes in program caseloads and costs per case.

Non-State Employee Compensation Changes

Consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024, the Subcommittee approved a $74.3 million General Fund appropriation ($205.5 million total funds) to the Department of Human Services to support the cost of collective bargaining agreements for non-state workers. This covers the workforce of more than 39,000 adult foster home providers, personal support workers, and home care workers who serve an estimated 32,000 Oregonians monthly. The Subcommittee also approved $678,999 General Fund ($1.6 million total funds) for the Oregon Health Authority to cover the cost of non-state employee compensation changes. Funding for the combined $75 million General Fund increase is available from the elimination of a special purpose appropriation to the Emergency Board established by SB 5506 (2023) to cover the cost of non-state employee compensation changes.

Office of Financial Services Positions

The measure includes a General Fund appropriation of $294,877 ($1.2 million total funds) to the Department of Human Services to support the establishment of six positions (3.00 FTE) in the Office of Financial Services, which provides financial reporting and accounting support for DHS and the Oregon Health Authority. The additional staff needs result from legislation approved in the 2023 session and ongoing agency initiatives, particularly the expansion of Medicaid funded services under the current demonstration waiver that have increased the volume and complexity of work undertaken by the Office of Financial Services. This adjustment is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

Office of Resiliency and Emergency Management Positions

The Subcommittee approved $7.8 million General Fund ($13 million total funds) for 29 full-time permanent positions (29.00 FTE) in the Office of Resiliency and Emergency Management (OREM), including personal services costs of $5.1 million General Fund ($8.5 million total funds), and services and supplies costs of $2.7 million General Fund ($4.5 million total funds). This action addressees 29 non-budgeted positions that had been administratively established by DHS and supported until now with savings in other areas of the agency's budget. OREM now has 40 budgeted permanent full-time positions.

Central Services Positions

An increase of $14.1 million General Fund ($23.4 million total funds) was approved for 50 full-time permanent positions (50.00 FTE) in Central Services; including six positions in the Director's Office; 19 positions in the Office of Human Resources, two positions in the Office of Budget Planning and Analysis; 15 positions in the Office of Public Affairs; three positions in Government relations; and five positions in the Office of Reporting, Research, Analytics, and Implementation. This action addresses 50 non-budgeted positions that had been administratively established by DHS and supported until now with savings in other areas of the agency's budget.

Area Agencies on Aging - Case Management

The measure includes $8.8 million General Fund ($17.6 million total funds) to increase contracts with Area Agencies on Aging (AAA) for case management services provided to older adults and people with disabilities who have been determined eligible for long-term services and supports but are not receiving paid care.

Aging and People with Disabilities - Housing Support Positions

The budget supports the establishment of 11 limited-duration positions (11.00 FTE) and contract funds for Area Agencies on Aging to assist individuals receiving long-term services and supports with housing-related needs. The funding for these costs is available from one-time monies already in the agency's 2023-25 legislatively adopted budget for the American Rescue Plan Act Home and Community Based Services spending plan.

Aging and People with Disabilities - Acuity-Based Staffing Positions

To address increased workload associated with licensing complaints and acuity-based staffing reviews, the Subcommittee approved an increase of $783,944 General Fund ($1.6 million total funds) and nine full-time permanent positions (6.75 FTE) in the Aging and People with Disabilities' Safety, Oversight and Quality Unit. The increased workload is largely the result of consumer protections in SB 266 (2021) related to licensing complaints and SB 714 (2021) related to acuity-based staffing.

Child Welfare - Temporary Lodging Prevention

During the 2024 legislative session, the Joint Committee on Ways and Means Subcommittee on Human Services held an informational meeting on temporary lodging to discuss concerns about the amounts paid to certain contractors, unlicensed status of contractors serving vulnerable children and young adults, and accountability for contract deliverables. To allow DHS to comply with the terms of a related settlement agreement, the Subcommittee approved establishment of a special purpose appropriation in the amount of $10 million to be allocated to the Department of Human Services for temporary lodging prevention services to complex children and young adults, with the understanding that $15 million of Title IV-E Adoption Assistance program savings is also available to the Department for these costs during the interim. The Subcommittee also adopted the following budget note:

BUDGET NOTE

The Department of Human Services is directed to report to the Emergency Board and interim committees of the Legislative Assembly related to human services in September and December 2024, on the status of temporary lodging and temporary lodging prevention services. The report shall include, but not be limited to: (1) a description of the temporary lodging and temporary lodging prevention services used during the 2023-25 biennium; (2) the actual and projected numbers of children and young adults who have received or will receive temporary lodging and temporary lodging prevention services during the 2023-25 biennium; (3) actual and projected expenditures for the 2023-25 biennium; (4) a list of contract providers used to deliver services during the 2023-25 biennium, and, for each contract provider, their licensure status, not to exceed contract

amount(s), and number of children and young adults served; (5) information on the 2023-25 cost per child or young adult, including explanation for any variance in costs per child paid to providers; and (6) reports required under the settlement agreement that describe the system's effort to end temporary lodging.

Temporary Assistance for Domestic Violence Survivors

The Subcommittee approved $96,236 General Fund ($10.6 million total funds) to increase the Temporary Assistance for Domestic Survivors (TA-DVS) maximum 90-day benefit from $1,200 to $3,200 and support one limited-duration position (0.38 FTE). TA-DVS funds are used by the agency to support an individualized safety plan for program participants, which could range from buying replacement locks to paying the deposit and first month's rent to secure a new apartment on behalf of the survivor. Data provided by DHS shows more than 5,000 domestic violence survivors access this benefit each year. This increase in the domestic violence survivor benefit is mostly funded using a one-time accumulated balance of Temporary Assistance to Needy Families (TANF) block grant funds that the Department estimates could be fully expended in the 2027-29 biennium, at which point a larger share of costs would potentially need to be covered by the General Fund. The timeframe could vary depending on several variables, including TANF caseload and TA-DVS benefit utilization.

Background Check Unit Staff

An increase of $707,064 General Fund ($3 million total funds) was approved to support 11 full-time permanent positions (8.05 FTE) in the Background Check Unit (BCU). The BCU staff levels have not kept pace with growth in background check requests, which has led to longer processing times and delays in hiring by employers that require background screening and fitness determination services, including the extensive provider network that serves seniors and people with disabilities. With this increase, the Department estimates service delays will be reduced from 44 days to 10 business days.

Office of Developmental Disabilities Services - Systems Projects

The Subcommittee approved an increase of $579,732 General Fund ($21.9 million total funds) and 33 positions (27.21 FTE) for administrative staffing support and information technology system implementation for Intellectual/Developmental Disabilities programs. The funds will be used to plan, procure, and implement the Centralized Case Management System and Provider Enrollment and Maintenance Systems. This properly budgets for 19 positions that had been administratively established by DHS prior to budgetary approval and have been supported with savings in other areas of the agency's budget.

Summer Electronic Benefit Transfer

As part of a national effort to reduce food insecurity among school-aged children, the Subcommittee approved an increase of $12 million General Fund ($94.6 million total funds) and 55 positions (15.85 FTE) for DHS to implement a new federal nutrition program, known as the Summer Electronic Benefit Transfer (Summer EBT). The program will provide low-income families a $120 grocery benefit for each eligible child. An estimated 294,000 students in Oregon could be eligible for the benefit. This package includes:

- $5.8 million General Fund ($11.7 million total funds) to contract with a vendor for IT system development.
- $3 million General Fund ($6.1 million total funds) for DHS positions, including six permanent full-time positions in the Self Sufficiency Program to support program design and delivery; 34 limited duration positions and 13 permanent positions in the Oregon Eligibility Partnership program to support application processing; and two permanent full-time positions in Central Services to handle accounting and contract management-related activities.

- $2 million General Fund ($4 million total funds) for EBT vendor costs.
- $1 million General Fund ($2.2 million total funds) for notice mailings.
- $70.6 million Federal Funds expenditure limitation to cover benefit costs in 2024 and 2025.

Additional funds and positions were approved for the Oregon Health Authority and Department of Education to implement Summer EBT as the new information technology system will need to interface with existing systems managed by OHA's Office of Information Services and will require some information sharing with school districts and ODE.

In response to uncertainties about the implementation of Summer EBT, particularly the relatively short timeline for the information technology systems development required to implement the benefit by summer 2024, the Subcommittee adopted the following budget note:

> **BUDGET NOTE**
> The Department of Human Services, in consultation with the Oregon Health Authority and Department of Education, is directed to report to the Emergency Board in May and September 2024 on the status of Summer EBT implementation. The May report shall include, but not be limited to, the following information: (1) a description of the program's eligibility rules and application process; (2) a discussion of the ways in which the agency communicated with potentially eligible children and families about the availability of the new nutrition benefit; and (3) the program's information system stage gate endorsement(s), requirements, implementation costs, and implementation timeline. The September report shall include, but not be limited to, the following: (1) a discussion of the number of children and families who received the benefit in summer 2024; (2) the number of children and families enrolled via automated determinations (or categorically eligible) versus requiring a more involved application and enrollment process; (3) the plan to transition from a vendor system to an ongoing state-based information technology system; and (4) any other lessons learned that may help to improve the program for summer 2025.

Employment-Related Day Care Expenditure Limitation

An Other Funds expenditure limitation increase of $99 million was approved for DHS to make payments to Employment Related Day Care providers.

Treatment Foster Care

To increase access to services designed to improve foster care placement stability for complex children and young adults, the Subcommittee approved an increase of $1.8 million General Fund to support 10-12 additional youth placements with Treatment Foster Care Oregon.

Newcomer Support Services Pilot

The Subcommittee approved a General Fund appropriation of $2 million for a pilot grant program designed to provide supportive services to newly arrived individuals and families in need. An eligible newcomer is an individual who is not a U.S. citizen and is not receiving support services under an eligible immigration status designated by the federal Office or Refugee Resettlement and has been in Oregon for 18 months or less, and the individual's minor child who resides in Oregon. Grants will be awarded to Afghan Support Network, Catholic Charities of Oregon, Portland Refugee Support Group, and Salem for Refugees to cover short-term needs of eligible newcomers, such as shelter, food, housing, and case management services.

Humanitarian Mission Savings

SB 5701 reduces the General Fund appropriation to DHS' Self Sufficiency Programs by $2.5 million to reflect lower than budgeted costs for closure of the temporary state-operated Welcome Center. SB 5506 (2023) provided DHS $20.9 million General Fund on a one-time basis to transition asylum seekers out of the Welcome Center in Portland and into longer-term community-based housing with supportive services, which included $10.8 million to fund operations of the Welcome Center through March 31, 2024; $9.75 million for a contract with Multnomah County to coordinate and secure the long-term housing and support services for the roughly 300 individuals then residing at the Welcome Center; and $377,564 to support five limited duration positions in the Self Sufficiency Program. As of December 31, 2023, the Welcome Center was no longer in operation. General Fund savings resulted from DHS ending the lease three months earlier than expected.

Employment-Related Day Care - ONE Eligibility System Changes

Eligibility for the Employment-Related Day Care (ERDC) program is determined through the ONE Eligibility system. Implementation of a waitlist for the ERDC program requires changes to be made to the system. In order for DHS to spend funds transferred from the Department of Early Learning and Care for the cost of the required system changes, the Subcommittee approved a one-time Other Funds expenditure limitation increase of $250,000 for DHS.

Long Term Care Ombudsman

To cover cost of living adjustments negotiated during collective bargaining, the Subcommittee approved an increase of $80,456 General Fund for the Long Term Care Ombudsman. In addition, to assist individuals with complex needs discharging from hospitals to post-acute care settings, the Subcommittee approved a one-time General Fund increase of $904,102 for five limited-duration positions (2.50 FTE), including four Deputy Public Guardians and one manager. The agency estimates this will serve 80 additional individuals, increasing the total caseload to approximately 250 individuals. The agency will need to submit a policy option package for consideration during the 2025 legislative session to reauthorize the positions in the 2025-27 budget.

Items Recommended by the Joint Interim Committee on Ways and Means in January 2024

An increase of $9.94 million Federal Funds expenditure limitation was approved for federal grant funds anticipated to be received by the Oregon Health Authority from the U.S. Environmental Protection Agency for the first of five annual fundings to support water infrastructure projects addressing public health risks related to emerging contaminants. The additional grant funding was included in the federal Bipartisan Infrastructure Law of 2021, providing supplemental funding to state drinking water and clean water revolving fund programs.

The Legislature approved increased pass-through funding from the Oregon Health Authority (OHA), Statewide Assessments and Enterprise-wide Costs program to support the establishment of six positions (3.00 FTE) in the Department of Human Services (DHS), Office of Financial Services which provides financial reporting and accounting support for DHS and OHA operating programs. The additional staffing need results from legislation adopted in the 2023 session and ongoing agency initiatives, particularly the expansion of Medicaid funded services under the current demonstration waiver that have increased the volume and complexity of work undertaken by the Office of Financial Services. This action increased OHA General Fund by $181,398, Other Funds expenditure limitation by $25,574, and Federal Funds expenditure limitation by $43,846.

Also consistent with the recommendation of the Joint Interim Committee on Ways and Means, the measure includes increases of $678,999 General Fund and $968,137 Federal Funds expenditure limitation to support OHA's share of provider rate increases for non-state employee providers as negotiated through collective bargaining. As part of this adjustment, a corresponding General Fund decrease is made to a special purpose appropriation made to the Emergency Board in SB 5506 (2023) for the same purpose.

OHA Rebalance

Revenue and Caseload Forecasts: The rebalance includes adjustments for both projected revenues and caseloads that were included in the agency's fall 2023 rebalance report and updated to the March 2024 revenue forecast. The summary table below describes the impact of these adjustments by fund type, followed by discussion of individual items. These adjustments are within the Health Services Division budget.

Revenue and Caseload Forecast Summary

Total	(31,239,919)	(18,394,146)	(229,673,979)	(279,308,044)

Federal Medicaid Assistance Program (FMAP) Base Adjustments: Net appropriation reductions of $2.4 million General Fund and $839,467 Other Funds and an offsetting increase of $3.2 million Federal Funds were approved for Medicaid federal assistance rate adjustments. The adjusted rates are generally higher than estimated during budget development. The only exception to this is a slight reduction in the rate for the standard Child Health Insurance Program

(CHIP) which declined by 0.082 percent. The blended FMAP rate that includes the enhanced CHIP-M and Breast and Cervical Cancer Program (BCCP) rates increased by 0.027 percent produced the largest incremental savings of $2.4 million General Fund.

Medicaid Caseload Forecasts: Substantial decreases in forecasted Medicaid caseloads result in reductions of $40.6 million General Fund and $273.5 million Federal Funds. In terms of gross numbers, the change in the forecast is led by a reduction of 11,760 individuals in the Affordable Care Act (ACA) Adult category and 8,493 individuals from CHIP. These reductions are generally attributed to the public health emergency unwinding and the end of continuous enrollment. The CHIP reduction is partially offset by an increase of 3,376 enrollees in the Children's Medicaid program.

Tobacco Master Settlement Forecast Adjustments: The Subcommittee included adjustments in the rebalance to provide expenditure limitation for allocated revenues from the Tobacco Master Settlement Agreement (TMSA) that support Medicaid programs through the Oregon Health Plan and Community Mental Health programs. The legislatively adopted budget included $104.3 million Other Funds revenue from the TMSA. Actual forecasted revenues allocated in HB 5029 (2023) provided an additional $29.3 million for the Oregon Health Plan and $2.3 million for Community Mental Health Programs. The Subcommittee approved adjustments that increase Other Funds expenditure limitation for these allocated revenues and reduce General Fund expenditures by a total of $31.6 million.

Tobacco Tax Forecast Adjustments: A General Fund increase of $43.3 million and a corresponding reduction of $43.3 million Other Funds expenditure limitation was approved to adjust the OHA budget to forecasted Tobacco Tax revenue as of the March 2024 revenue forecast. The legislatively adopted budget assumed tobacco tax revenues of $622.2 million for Medicaid services and $29.6 million for non-Medicaid services within the Health Services Division. The March revenue forecast assumes tobacco tax revenues for Medicaid services of $581.2 million, a reduction of $41 million. For non-Medicaid services the December forecast assumes $27.2 million, a reduction of $2.4 million. These reductions result in the need to backfill program budgets for this lost revenue using General Fund.

Drug Treatment and Recovery Services Fund Adjustment: A decrease in expenditure limitation of $5.8 million Other Funds was approved to account for a decrease in available marijuana tax revenues for the Drug Treatment and Recovery Services Fund (DTRSF) from the revenues assumed in the legislatively adopted budget based on the March 2024 revenue forecast.

Grant Funding in the Public Health Division: The rebalance establishes 49 new positions (31.38 FTE) in the Public Health Division, increases Federal Funds expenditure limitation by $31.2 million, and reduces Other Funds expenditure limitation by $85,972 as summarized in the following table and detailed below.

Grant Topic	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE

A total of 14 positions (9.45 FTE) were approved to address workload and capacity requirements for three grant programs funded through the Centers for Disease Control and Prevention (CDC). No additional expenditure limitation is required for these positions as the agency either has sufficient existing limitation or will shift expenditures between expenditure categories with no change to overall program expenditure limitation. The following summarizes the position adjustments:

- Four limited duration positions (2.52 FTE) are included to support new grant requirements and activities under the Centers for Disease Control, Integrated HIV Surveillance and Prevention Grant Program.
- Seven full-time permanent positions (4.41 FTE) are included to meet federal requirements under the Centers for Disease Control, Public Health Infrastructure, Workforce Data grant program. The positions are to address the modernization of data systems to improve interoperability between federal, state, and local data sources and users. Additionally, the increased staffing will be used to address occupational safety and health policies and facilitate additional collaboration with federally recognized tribes and underserved communities on compliance with requirements for funding under the federal grant program.
- Four full-time permanent positions (2.52 FTE) were approved to address the agencies current inability to meet data collection requirements and other activities required under the Centers for Disease Control, Medical Monitoring Project grant program.

An increase of $7.3 million Federal Funds expenditure limitation and the establishment of 17 limited duration positions (10.71 FTE) was approved to implement work required under a cooperative agreement award of $15.1 million under the Centers for Disease Control and Prevention, Epidemiology and Laboratory Capacity. This funding runs through July 2027. The additional expenditure limitation is for the 2023-25 biennium.

Increased Federal Funds expenditure limitation of $3.75 million, decreased Other Funds expenditure limitation of $85,972, and increased position authority (0.01 FTE) were approved for the Health Promotion Chronic Disease Prevention (HPCDP) Section in the Center for Prevention and Health Promotion in Public Health Division for work under four federal grant awards. The net increased position authority and the reduced Other Funds expenditure limitation is resultant from the establishment of new five positions to address grant funded work offset by the abolishment of five currently vacant positions in the program. The grant funded work includes:

- Addressing Alzheimer's Disease and Related Dementias.

- Building Capacity to Reduce the Burden of Menthol and Other Flavored Commercial Tobacco Products in Communities that Experience Health Disparities.
- Strengthening statewide substance use prevention efforts for individuals, families and communities.
- Implementation of state partnerships for improving nutrition and equity.

An increase of $9 million Federal Funds expenditure limitation, the establishment of a permanent full-time position, and the conversion of two existing part-time positions to full-time (1.13 FTE) were approved to address additional workload and expanded or newly awarded federal grant funding under four grant programs in the Injury and Violence Prevention Program.

Increased Federal Funds expenditure limitation totaling $3.2 million was approved on a one-time basis to support increased available funding under two grant programs. Of this, $690,000 is for approved awards from the Health Resources and Services Administration to support the State Newborn Screening System Priorities program. The remaining $2.5 million is for an award from the U.S. Department of Health and Human Services, Medical Reserve Corps Small Grant Program to enhance and expand the Oregon Medical Reserve Corps units.

An increase of $8 million Federal Funds expenditure limitation and the establishment of 16 positions (10.08 FTE) were approved to allow the agency to expand the Oregon Emerging Infections Program. This Centers for Disease Control and Prevention (CDC) funded program monitors and assists in the control and prevention of infectious diseases via collection of population-based surveillance data, identification of risk factors, and evaluation of the effectiveness of control efforts.

Technical Adjustments: As a part of OHA's first budget rebalance, the Subcommittee approved 97 individual technical budget adjustments covering 27 topics that, when taken together, make no net change to total expenditures or position authority. The majority of these actions are to move appropriation and position authority between and within divisions and programs to adjust authorities provided in the legislatively adopted budget with how these resources will actually be used within the agency. These actions result in net zero changes to individual fund types with the exception of adjustments in association with activities required by HB 4035 (2022), in which General Fund is reduced by $41,235 and Other Funds expenditure limitation is increased by an offsetting $41,235, resulting in no change in overall expenditures. The following table presents a summary of these changes by division and fund type.

Summary of Technical Adjustments by Division

Increased Position Authority for Adopted Legislation: The following adjustments were made regarding positions related to existing programs and adopted legislation:

- An increase in expenditure limitation of $215,515 Other Funds and authorization for the establishment of one information technology position (0.75 FTE) was approved as part of the rebalance. This shared services position is funded via a pass-through from the Department of Human Services (DHS). The funding was provided to DHS as General Fund appropriated in HB 2468 (2023) to support information technology changes to the Provider Pay system that would be required by the measure.

- The rebalance included authorization to establish six positions (4.50 FTE) related to the behavioral health crisis system and 9-8-8 suicide and crisis hotline program with a net zero budget impact in the current biennium by offsetting the cost of the new positions against existing budgetary authority for temporary staffing that would be replaced by these budgeted, ongoing positions.

- As part of the rebalance, funding for an Information Specialist and Accounting Technician that was provided as a part of policy option package 406 supporting public health system modernization in the Public Health Division is transferred to the State Assessments and Enterprise-wide Costs (SAEC) program. The funding is then passed through to the shared services programs of the Health Authority and the Department of Human Services (DHS). Two positions (1.50 FTE) in the Public Health Division associated with this funding were eliminated. The rebalance includes expenditure limitation of $279,887 Other Funds for the OHA portion of these transferred funds and the authorization to establish the Information Specialist position (0.75 FTE) at the Office of Information Services within the OHA Shared Services program. The remaining funding and position authority are included in the DHS rebalance.

- Funding and position authority were provided for a Procurement and Contract Specialist position (1.00 FTE) in OHA's Shared Services program as part of policy package 416 in the agency's adopted budget. The rebalance includes a transfer of the expenditure limitation and position authority to the Department of Human Services, Office of Contracts and Procurement. This action results in a decrease of expenditure limitation of $237,751 Other Funds and the elimination of one position (1.00 FTE).

- Increases of $157,314 General Fund, $14,715 Other Funds, and $66,225 Federal Funds are included in the rebalance for expenditures through the OHA Shared Services funding model to support the conversion of a variety of permanent part-time positions to permanent full-time at the Department of Human Services, and for the allocated cost of positions established in the Background Check Unit at DHS.

Adjustments to Medicaid Waiver Implementation: The rebalance includes an increase in Other Funds expenditure limitation of $130 million and a net reduction in Federal Funds expenditure limitation of $209.9 million for the implementation of the current 1115 waiver associated with Designated State Health Programs (DHSP). Continued refinement of eligible program activities and funding necessitated the adjustment of expenditure amounts and fund types between budgetary units within the agency. These adjustments are based on both DSHP matching funding claims and new spending on approved initiatives under the current waiver including Health Related Social Needs.

Basic Health Plan Adjustments: The rebalance includes adjustments in multiple divisions to correct budget errors in the legislatively adopted budget and redistribute funding and position authority to the correct divisions. Twelve positions (9.00 FTE) are transferred from the Health Systems Administration program and one position (1.00 FTE) is transferred from the Health Policy and Analytics program to the Central Services program with a net zero budget impact or change to overall position authority. Due to the timing of the budget development the legislatively adopted budget erroneously duplicated positions. To correct this issue, eight positions (8.00 FTE) are removed in the Health Systems Administration program, and three positions (2.38 FTE) are removed in the Central Services program for a total reduction of eleven positions (10.38 FTE), $1.5 million General Fund, and $2.8 million total funds. Additionally, revised Basic Health Plan cost estimates result in an increase of $136.5 million Federal Funds expenditure limitation.

Health Services Division Federal Match for training programs: Additional expenditure limitation of $7.2 million Federal Funds is provided for the expenditures of federal matching funds supporting job training programs. HB 3396 (2023) provided a $5 million General Fund appropriation to OHA to provide grants to employers participating in a labor-management training trust to provide on the job training, apprenticeships, and other programs to develop health care professionals. The agency now believes that these expenditures are eligible for federal matching funds.

REALD and SOGI implementation: Federal Funds expenditure limitation of $3.15 million is provided in the rebalance for Medicaid matching funds related to standardization of race, ethnicity language, and disability (REALD) data collection and standardization of sexual orientation and gender identity (SOGI) data collection.

HB 4098 (2022) Implementation: The rebalance includes a one-time increase in Other Funds expenditure limitation of $283,000 in the Public Health Division for unexpended funding from the prior biennium that was originally authorized in HB 4098 (2022) related to support and facilitation of the Opioid Settlement Prevention, Treatment, and Recovery (OSPTR) Board. These funds are intended to be used for contracted services supporting the Board and technical implementation of the measure that were originally thought to be completed using authorized position authority in the prior biennium.

Traffic Safety Information System Grant funding: An increase in Other Funds expenditure limitation of $198,818 and the authorization to establish two limited duration positions (0.76 FTE) in the Public Health Division to develop datasets, link existing datasets, and develop associated information and methodologies to improve the timeliness, accuracy, completeness, uniformity, accessibility, and integration of the data in traffic records information systems were approved as part of the rebalance. The positions and associated work are funded via a grant contract with the Oregon Department of Transportation.

State Hospital Capital Improvement Limitation Increase: OHA is carrying a cash balance of just under $1.4 million for capital improvement projects. The rebalance increases Other Funds expenditure limitation by $1.4 million for the State Hospital for the expenditure of these funds within the current biennium.

Drug Treatment and Recovery Services Fund Administrative Costs: The rebalance included a net zero move of $5.8 million Other Funds expenditure limitation from the Health Services – Non-Medicaid program to the Health Services – Administration program to provide increased expenditure authority from the Drug Treatment and Recovery Services Fund for administrative activities. With this change, total budgeted expenditures from the Fund for administrative work by OHA increase to $15 million.

Vaccine Access Program Position Authority

The Subcommittee approved the establishment of three positions (1.89 FTE) for the Vaccine Access Program within the Public Health Division. The agency is to use existing legislatively approved funding within the division to support the positions.

Support for Fee Waivers for Newborn Screening

A one-time $250,000 General Fund appropriation was approved for OHA to support program costs when fees for newborn screening for metabolic diseases are waived due to parent's inability to pay the fee as allowed by statute.

Summer Electronic Benefits Transfer Program

The subcommittee approved an expenditure limitation increase of $1.6 million Other Funds, the establishment of seven Information System Specialist positions (4.41 FTE), and one Operations and Policy Analyst position (0.63 FTE) for OHA to support the technical development and implementation of a Summer Electronic Benefits Transfer (Summer EBT) program at the Department of Human Services. The positions are housed in the Office of Information Services (OIS), as shared services program of OHA. The U.S. Department of Agriculture, Food and Nutrition Service Program, authorized states to extend monetary benefits to students that are currently eligible for the National School Lunch Program and School Breakfast Program (NSLP/SBP) to ensure nutritional sufficiency during the summer months for this population.

Disproportionate Share Hospital Payments

Increases in expenditure limitation of $38.2 million Other Funds and $54.6 million Federal Funds for the Oregon Heath Authority were approved to process payments to hospitals under the Disproportionate Share Hospital program. These increases are additive to existing budgetary resources that, when combined, will provide sufficient budgetary authority for the agency to process the estimated current biennium payments. The Disproportionate Share Hospital (DSH) program is a mechanism for offsetting a portion of the losses that hospitals incur as a result of providing uncompensated care to uninsured individuals and Medicaid patients. The Other Funds are derived from hospital tax revenues and the Federal Funds are from Federal Medical Assistance payments for Medicaid.

Dis-appropriation of Unexpended Funds

The Subcommittee recommended a $2 million reduction in the General Fund appropriation made to OHA in section 275, chapter 605, Oregon Laws 2023 for a health care interpreter program that has remained unexpended to date.

JUDICIAL BRANCH

Commission on Judicial Fitness and Disability

SB 5701 supports a one-time rebalance action to move $16,646 General Fund from Administration to Extraordinary Expense in the budget for the Commission on Judicial Fitness and Disability. The Extraordinary Expense budget will increase from $21,839 to $38,485 General Fund. The source of the General Fund is from unexpended General Fund from the 2021-23 biennium and will therefore have no impact on the administrative function of the Commission.

Judicial Department

For the Oregon Judicial Department (OJD), the Subcommittee approved, on a one-time basis, an increase of $3.1 million Federal Funds and authorized the establishment of eight limited duration positions (3.59 FTE) for four federal grants previously approved by the Legislature. The grants include the following: Family Treatment Courts to facilitate statewide standards and expand the program for $850,000 and two positions (0.23 FTE); Department of Justice's Office of Juvenile Justice Delinquency Prevention to improve the fairness, effectiveness, and efficiency of the state court's juvenile justice system for $800,000 and two positions (0.94 FTE); Department of Justice's Bureau of Justice Assistance to enhance adult drug courts for $2 million and three positions (1.87 FTE); and Department of Human Services to implement best practices in Indian Child Welfare for $2.5 million and one position (0.55 FTE). Approved limitation reflects the amount needed above the agency's existing Federal Funds budget for expenditure of grant funds in the 2023-25 biennium.

The measure also includes, on a time-time basis, the Other Funds expenditure limitations identified in the table below as a technical adjustment for the Oregon Courthouse Capital Construction and Improvement Fund. The revenue source for the state match is from Article XI-Q bond issuances previously authorized by the Legislature in 2021 and 2023. While expenditure limitation was approved for the three projects in the 2021-23 biennium, the actual expenditure of funds will occur during the 2023-25 biennium.

Circuit Courthouse Replacement Project	XI-Q bond Authorization	State Match Other Funds	Local Match Other Funds	Total Other Funds
Clackamas County	2021	95,399,999	-	95,399,999
Benton County	2021/2022	20,730,000	20,383,129	41,113,129
Crook County	2022	16,330,000	16,116,705	32,446,705
Total		**132,459,999**	**36,499,834**	**168,959,833**

The state match for the Clackamas County Courthouse replacement project is for a portion of a "milestone" to a design-build-finance-operate-maintain public-private partnership firm. The milestone payment is estimated not to exceed $124.5 million based upon a yet-to-be finalized master funding agreement. Local matching funds, as required by statute at the 50% level, are to be paid by Clackamas County over a 30-year period (2025-2055). Such county payments are referred to as "availability payments" and include both the county's share of debt for capital costs as well as building maintenance and a capital reserve to repair, replace, and refurbish building components over the 30-year term of the agreement. Under current law, the availability payments (i.e., local matching funds) must be deposited into, and expended from, the Oregon Courthouse Capital Construction and Improvement Fund,

which does not require Other Funds expenditure limitation at this time given that the timing of the availability payments falls outside of the 2023-25 biennium. Availability payments are ultimately made to the public-private partnership firm.

The measure also includes several General Fund appropriations for ongoing and one-time purposes. These are summarized as follows:

- $3.2 million General Fund for a portion of position compensation adjustments that were not fully funded by the distribution of the special purpose appropriation(s) for state employee compensation plan changes. The underfunding was due to a department-wide personnel plan change on April 1, 2023, which updated the Department's classification and compensation plan.
- $1.4 million General Fund, on a one-time basis, and authorization to establish nine limited duration full-time positions (5.63 FTE), for setting aside and sealing eviction records. The positions include: one Analyst 4 (0.63 FTE); one Information Technology Developer (0.63 FTE); and seven Court Operation Specialists (4.37 FTE). The associated services and supplies total $152,085 General Fund.
- $1.1 million General Fund for health benefit plans under ORS 238.538 for judges electing to retire under the Public Employees Retirement System serving as pro tem judges. This investment is partially funded by unexpended General Fund from the 2021-23 biennium ($652,875), which brings the total cost to $1.7 million General Fund. The 2025-27 biennium cost is estimated to be $3.5 million General Fund.
- $1 million General Fund and authorization to establish eight permanent full-time Court Operation Specialists positions (4.38 FTE) for setting aside and sealing criminal records. The associated services and supplies total $124,440 General Fund. The 2025-27 biennium cost is estimated to be $1.6 million General Fund and eight position (7.00 FTE).
- $7,500 General Fund, on a one-time basis, for the Council on Court Procedures to increase the executive director's monthly stipend by $500 from $1,000 to $1,500 per month. The increase is for the final 15 months of the biennium. The source of the General Fund is from unexpended General Fund carryforward from the 2021-23 biennium.

The Subcommittee authorized the establishment of two permanent full-time Interpreter 1 positions (1.25 FTE) for the Mandated Payment program and to address the need for additional Spanish interpreters. The associated services and supplies total $82,679 General Fund. This investment is funded from unexpended General Fund carried forward from the 2021-23 biennium ($376,889 for the Mandated Payment program). The 2025-27 biennium cost is estimated to be $597,129 General Fund and two position (2.00 FTE).

The Subcommittee approved, on a time-time basis, the following Other Funds expenditure limitations for the Oregon Courthouse Capital Construction and Improvement Fund for both state and local matching funds. Article XI-Q general obligation bond proceeds support state matching funds.

Circuit Courthouse	State Match Other Funds	Local Match Other Funds	Total Other Funds
Benton County	6,902,999	6,902,999	13,805,998
Clackamas County	15,000,000	15,000,000	30,000,000
Total	**21,902,999**	**21,902,999**	**43,805,998**

The Subcommittee also approved, on a one-time basis, an increase in Other Funds expenditure limitation of $242,001 associated with bond costs of issuance for the Benton County Courthouse ($72,001) and the Clackamas County Courthouse ($170,000).

The 2023 Legislature provided funding to the Public Defense Commission (PDC) for an inter-agency information technology services contract with OJD ($929,270 General Fund). This contract allows OJD to provide the Commission with servers, network infrastructure, and related technical information technology services. With the transition of PDC from the judicial to the executive branch of government on January 1, 2025, concern arose around the continuation of these services for the period January 1 to June 30, 2025. While the statutory requirement is for PDC to fully transition to the executive branch of government on January 1, 2025, OJD has agreed to continue, if necessary, contractual information technology support to PDC until June 30, 2025.

Public Defense Commission

The measure includes a one-time General Fund appropriation of $7.9 million for the Temporary Hourly Increase Program to address the unrepresented defendant persons crises. Of this amount, $5.7 million will be used to pay enhanced hourly rates to attorneys and $2.1 million will be used to fund related costs such as expert witness and investigation expenses ("Preauthorized Expenses") and attorney and investigator travel and other allowable expenses. The program is funded through June 30, 2024; however, funding was made available to retroactively fund the program from October 1 to November 30, 2023, and cover deficit spending that occurred from July 1 to September 30, 2023. Of the total General Fund increase, $3.6 million is available from a portion of the appropriation made to the Emergency Board in SB 5506 (2023) for the unrepresented defendant/persons crisis, which the measure disappropriates. These adjustments are consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

SB 5701 includes a General Fund appropriation of $1.2 million and the establishment of six permanent full-time positions (3.78 FTE) for the transfer of the Public Defense Commission (PDC) from the judicial to the executive branch of government on January 1, 2025. The positions include one permanent full-time Office Specialist 2 (0.63 FTE) for the Multnomah County Courthouse; one permanent full-time Human Resources Analyst 2 (0.63 FTE); one permanent full-time Information Technology Specialist 4 (0.63 FTE) for server support; one permanent full-time Information Technology Specialist 4 (0.63 FTE) for Microsoft 365 support; one permanent full-time Information Technology Specialist 3 (0.63 FTE) for webservices/Application Programming Interface support; and one permanent full-time Information Technology Specialist 3 (0.63 FTE) for mobile device support. The associated services and supplies totals $212,716 General Fund. The General Fund is available from an appropriation made to the Emergency Board in SB 5506 (2023) for the same purpose, which the measure disappropriates. These adjustments are consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024. The estimated 2025-27 biennium cost is $1.9 million General Fund and six positions (6.00 FTE).

The Subcommittee approved a rebalance of existing General Fund appropriations for the Commission to: (a) fund supervision and investigation in contracts with public defense providers for the second year of the biennium; (b) fund an 8.8% inflationary increase for contract investigators; and (c) align the budgets of the Juvenile Trial Division and Parent Child Representation Program with projected costs. The rebalance moves savings from the Juvenile Trial Division ($3.5 million) and Parent Child Representation Program ($4.1 million) into the Adult Trial Division, as well as shifts $583,281 General Fund to Other Funds in the Special Programs, Contracts, and Distributions Division and moves the General Fund into the Adult Trial Division. The Adult Trial Division's appropriation increases by $8.1 million. The Subcommittee approved an Other Funds expenditure increase of $583,281 for the Special Programs, Contracts, and Distributions Division.

The measure also appropriates $3 million General Fund for ten additional contract attorneys for the remaining 15 months of the biennium. This translates to ten Attorney 2 positions (minor felony qualified) at an annual rate of $470,753 per attorney for 6.25 additional Maximum Attorney Capacity. At present, PDC reports that 14 contract providers that have identified the ability to hire or recruit for this additional level of capacity. This additional capacity will help address the unrepresented defendant/persons crisis. The 2025-27 biennium cost is estimated to be $4.7 million General Fund.

The Subcommittee approved, on a one-time basis, a General Fund appropriation of $500,000 for Special Programs, Contracts, and Distributions Division for a contractor to assist the Commission with the transition of PDC from the judicial to the executive branch of government on January 1, 2025. The Subcommittee also adopted the following budget note:

BUDGET NOTE

The Public Defense Commission is to report to the May 2024 and September 2024 meetings of the Emergency Board on the status of the agency's transition from the judicial to the executive branch of government. The reports are to include up-to-date scope, schedule, and cost information.

The Subcommittee approved a General Fund appropriation of $130,460 and authorized the establishment of one permanent full-time Administrative Specialist 2 (0.63 FTE) to support the attorney training and certification program in the Compliance, Audit, and Performance Division. The associated services and supplies total $19,144 General Fund. The 2025-27 biennium cost is estimated to be $221,444 General Fund.

Also included in the measure is a one-time General Fund appropriation of $157,253 to support the establishment of one limited duration Operations and Policy Analyst 2 (0.63 FTE) in the Adult Trial Division. This position will support the Temporary Hourly Increase Program, which was developed in response to the unrepresented defendant/persons crisis. The associated services and supplies total $19,144 General Fund.

The Subcommittee approved a General Fund appropriation of $3.1 million and authorized the establishment of ten permanent full-time positions (6.30 FTE) for state public defense offices budgeted under the Adult Trial Division to address the unrepresented defendant/persons crisis. PDC recently established regional pilot program office locations for state employed-trial-level public defenders and staff in the Northwest Region (Portland) and Southwest Region (Medford) and anticipates a third Central Region (Salem) regional office being established, pending 2024 legislative session funding approval. These offices and staff are currently dedicated to addressing the unrepresented defendant/persons crisis except for staffing approved to address the changes in criminal statute under HB 4002 (2024) and as funded in HB 5204 (2024). Funding is also provided for the Northwest and Southern regional offices for higher than anticipated facilities and other related office costs.

The positions include: one permanent full-time Administrative Specialist 2 (0.63 FTE) to support the Northwest Region (Portland); one permanent full-time Administrative Specialist 2 (0.63 FTE) to support the Southwest Region (Medford); and three Senior Deputy Defenders (1.89 FTE), one Legal Secretary (0.63 FTE), one Paralegal (0.63 FTE); two Program Analyst/Investigator (1.26 FTE) and one permanent full-time Administrative Specialist 2 (0.63 FTE) to standup and operationalize the Central Regional Office (Salem). The following table proves a summary of pilot program resourcing by region:

***Partially funded in an Emergency Board special purpose appropriation.*

The Subcommittee approved, on a one-time basis, General Fund disappropriations totaling $12 million. The source of the General Fund is from unexpended 2021-23 appropriations and therefore will have no impact on the funding or provisioning of public defense in the state. The disappropriation will be used to offset the cost of the 2024 Legislature's investments in public defense.

LEGISLATIVE BRANCH

Commission on Indian Services

To rebalance the Commission on Indian Services' budget, the Subcommittee approved an increase of $55,000 General Fund. This increase supports other payroll expenses that are higher than originally estimated for two of the Commission's three staff who were hired in the 2021-23 biennium, as well as travel costs for the State Physical Anthropologist. The travel requirements for this position are higher than initially expected when the position was established in 2021-23.

Legislative Administration

The measure establishes Other Funds expenditure limitation of $1.3 million to use interest earnings and excess bond proceeds that are available for debt service costs paid from the Legislative Administration Committee budget. The available Other Funds revenue helps offset General Fund debt service costs, which is separately recognized in the measure as part of statewide adjustments to existing debt service budget structures. Also included is a reduction of $55,000 General Fund, which is available from the carryforward of unexpended 2021-23 appropriations, to offset an increase of the same amount for the Commission on Indian Services.

Across all legislative branch agencies, a total of $27.4 million General Fund is appropriated, which represents unexpended General Fund from the 2021-23 biennium. Unlike executive branch agencies, unexpended General Fund at the end of a biennium is statutorily required to be appropriated in the next biennium for judicial and legislative branch agencies. The table in section 514 of SB 5701 includes the appropriation of the carryforward amounts for each legislative branch agency. The appropriations include $2 million for Legislative Counsel (LC), $14.8 million for the Legislative Administration Committee (LAC), which includes $4,812 for debt service, $8.6 million for the Legislative Assembly, $1.6 million for the Legislative Fiscal Office, $145,912 for the Legislative Revenue Office (LRO), $362,994 for the Legislative Policy and Research Office, and $8,000 for the Commission on Indian Services. The General Fund carryforward for LC includes $509,764 required to support ongoing costs for position adjustments approved for LC in the 2023 session. For LAC, the General Fund carryforward includes $3.9 million required to support other increases approved in the 2023 session and the $55,000 mentioned above for the Commission on Indian Services.

To help fund other adjustments included in the measure, SB 5701 separately disappropriates each legislative branch agency's General Fund carryforward, amounting to a total General Fund decrease of $15 million, except for $7.9 million in LAC and the smaller carryforward amounts for LRO and the Commission on Indian Services. The retainment of a portion of the overall carryforward amount is necessary to fund anticipated costs related to security improvements to the State Street side of the Capitol building. The remaining carryforward is also available for other potential one-time costs identified in 2023-25, including costs related to the Capitol Accessibility, Maintenance and Safety (CAMS) project, building maintenance and security costs as CAMS nears completion, or information technology costs for planned projects. The need for supporting any of these potential one-time costs will be identified in the 2025 session.

NATURAL RESOURCES

Columbia River Gorge Commission

The measure increases General Fund by $188,000 for the Columbia River Gorge Commission (CRGC) consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024. Of this, $138,000 supports a Climate Science Program Manager position responsible for working with stakeholders to carry out the strategies in the agency's Climate Action Plan. The remaining $50,000 supports staff and board member training, community outreach, and translation services to foster a more inclusive and equitable workplace and agency service model. In addition, an increase of $21,000 General Fund is included for the cost of changes in Washington's 2023-25 state government service charges and other statewide expenses. This includes costs for auditing, financial management and other central services, and public employee benefit changes. Consistent with CRGC's bi-state agreement, the impact on Oregon's budget represents half the cost of these adjustments, with the State of Washington paying for the remaining half.

Department of Agriculture

The measure includes a one-time increase of $978,928 Other Funds for projects approved by the Oregon Climate Action Commission to be funded by the Natural Climate Solutions Fund. In addition, the Subcommittee approved combined increase of $4.5 million Federal Funds and two limited duration positions based on the recommendation of the Joint Interim Committee on Ways and Means in January 2024. Of this, a one-time increase of $3.7 million Federal Funds and an Operations and Policy Analyst 3 (0.63 FTE) and Administrative Specialist 2 (0.63 FTE) will support the administration of the Resilient Foods System Infrastructure program and sub- awards to suppliers in the middle of the supply chain for farm and food businesses. An additional one-time increase of $800,000 Federal Funds will support the expenditure of increased grant funding received in 2022 for the Specialty Crop Block Grant Program.

To continue grasshopper suppression efforts, SB 5701 includes a one-time increase of $1.25 million General Fund. The measure also appropriates $750,000 General Fund on a one-time basis to the Invasive Species Council for deposit into the Invasive Species Control Account to further mitigate the negative effects of invasive species. An additional one-time appropriation of $250,000 General Fund is made to the Council for deposit into the Invasive Species Council Account for invasive species outreach and education. The correlating Other Funds expenditure limitation to expend the deposited funds is also provided in the measure.

Department of Energy

HB 5006 (2021) included $10.8 million General Fund to establish a new grant program in the Oregon Department of Energy (ODOE) to incentivize energy efficiency for 2020 wildfire survivors who are rebuilding and repairing structures destroyed or damaged in the 2020 wildfires. HB 5016 (2023) carried forward the unspent General Fund to continue the delivery of this program in the 2023-25 biennium. The Subcommittee approved an additional one-time increase of $1.3 million General Fund to reflect the final remaining balance at the close of the prior fiscal year.

HB 5016 (2023) included Other Funds expenditure limitation for the estimated remaining balance of incentive funding. The Subcommittee approved an additional increase of $32 million Other Funds in the following programs to accurately reflect the final remaining cash balance at fiscal year close: $26 million for Community Renewable Energy; $3.3 million for Residential Heat Pumps; $2.2 million for Heat Pump Deployment; and $500,000 for Public Purpose Charge (Schools).

The measure includes increases in expenditure limitation related to new federal grants. To administer the $50 million Grid Resilience State and Tribal Formula grant, the measure provides a one-time increase of $4.7 million Federal Funds and establishes two limited duration positions. ODOE received the first two of five allocations to begin sub-awarding grants to eligible entities, such as electric utility providers, to strengthen the electric grid. The two positions include a Compliance Specialist 2 (0.50 FTE) and Program Analyst 2 (0.50 FTE). The funding increase was recommended by the Joint Interim Committee on Ways and Means in January 2024.

To administer the Energy Efficiency and Conservation Block Grant program, the measure includes a one-time increase of $1.9 million Federal Funds and establishes a limited duration Compliance Specialist 2 position (0.63 FTE). The Department will use the grant to improve energy efficiency by implementing strategies to reduce fossil fuel emissions.

A one-time increase of $500,000 Other Funds is also included for development of Oregon's Comprehensive Action Plan. The Department of Environmental Quality is partnering with ODOE on the work and will pass through a portion of its $3 million U.S. Environmental Protection Agency Climate Pollution Reduction grant. This funding increase was recommended by the Joint Interim Committee on Ways and Means in January 2024.

The measure includes an increase of $580,752 Other Funds for the establishment of four permanent positions within the Department's finance and procurement operations. The positions will allow for more financial oversight and increased capacity to support the administration of $250 million in new energy and climate incentive programs. The four new positions include an Accounting Manager 1 (0.63 FTE), Procurement Manager 1 (0.63 FTE), Accountant 2 (0.50 FTE), and Procurement and Contracts Specialist 2 (0.50 FTE). In addition, the measure converts five existing limited duration positions in administration to permanent status.

Net-zero technical adjustments are also included to align funding appropriated in 2023 through the adoption of HB 3630 and HB 3409 with the budget area in which the work will take place. The adjustments related to HB 3630 include the transfer of one position (0.88 FTE) and $2.1 million General Fund from Energy Development Services to Nuclear Safety and Emergency Response, as well as the transfer of two positions (1.76 FTE) from Energy Development Services to Energy Planning and Innovation. The adjustments related to the resources funded in HB 3409 include the transfer of 12 positions (9.55 FTE), $9.8 million General Fund, and $2 million Other Funds from Energy Development Services to Energy Planning and Innovation. Lastly, General Fund increased by $43,516 to reclassify one of the HB 3409 positions to reflect the accurate level for the required work.

Department of Environmental Quality

The Subcommittee approved an increase of $1 million Other Funds for the Agency Management Division in the Department of Environmental Quality (DEQ) to complete implementation of the online data management and customer interface system and support the continued migration to the State Data Center. This total includes a one-time increase of $259,000 Other Funds to expend the remaining bond proceeds and complete implementation of the "Your DEQ Online" project, and an ongoing increase of $750,000 Other Funds to cover the costs associated with transitioning the management and hosting of agency servers and storage to the State Data Center. This adjustment is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

To better align DEQ's budget and position authority to agency operations, the Subcommittee approved the shift of $838,577 Other Funds and three permanent information technology positions (3.00 FTE) from program areas into the Agency Management Division. The technical adjustment shifts $684,675 Other Funds and 2.50 FTE from the Air Quality Division and $153,902 Other Funds and 0.50 FTE from the Water Quality Division. Additionally, a technical adjustment corrects the section referenced in the agency's budget bill for constitutionally dedicated lottery funds.

The Clean Water State Revolving Loan Fund (CWSRF) makes low interest loans to communities for the construction or upgrade of sewage treatment facilities. The Onsite Septic System Financial Assistance Program (OSFAP), supported by American Rescue Plan Act funding, is a financial aid program for the repair, replacement, and evaluation of septic systems, with a priority for systems damaged by wildfire. HB 5018 (2023) provided $10.8 million Other Funds expenditure limitation for the OSFAP program; however, a portion of the total was intended for the CWSRF. SB 5701 includes a technical adjustment shifting $1.4 million Other Funds from the OSFAP to the CWSRF for technical assistance contracts.

To continue implementation of the Department's Fuel Tank Seismic Stability program regulating the risk of contamination from large fuel tanks during a seismic event, the measure increases Other Funds by $1.7 million, commensurate with anticipated fee revenue for the 2023-25 biennium. The program's fees were authorized for establishment through SB 1567 (2022) and ratified during the 2024 legislative session. These fees are applicable to 17 regulated entities and became effective on October 4, 2023. The measure also appropriates $1.5 million General Fund on a one-time basis to cover incurred and projected legal costs associated with the Alkali Lake Disposal Site.

During the 2023 legislative session, four policy bills resulted in cumulative personal services increase of $1.1 million for the Water Quality program. Based on the federally approved indirect rate of 24.76%, the Water Quality program will be internally assessed an additional $275,625 of indirect costs to support centralized services. This measure increases the General Fund appropriation for Water Quality by $275,625 to cover indirect rate expenditures.

HB 4077 (2022) created a new Environmental Justice Council within the Office of the Governor. The bill allows for an agreement between the Office of the Governor and DEQ, where the Department would provide certain administrative support functions to the Council. However, there was no appropriation to cover costs associated with travel and per diem for Council members or for contracts associated with hosting six listening sessions across the state to inform the development of an Environmental Justice Mapping tool. The Subcommittee approved an appropriation of $50,000 General Fund to cover such costs.

Department of Fish and Wildlife

The Private Forest Accord was adopted by the Legislature in 2022 to implement a negotiated agreement between the timber industry and conservation groups concerning private forestland practices and the protection of natural resources. SB 5701 includes a one-time increase of $10 million Other Funds in the Oregon Department of Fish and Wildlife (ODFW) budget supported by existing and projected revenues in the Private Forest Accord Mitigation subaccount for program grants to mitigate the impacts of forest practices. Also, General Fund is increased by $102,000 for position-related services and supplies for Private Forest Accord positions provided to the agency in SB 1501 (2022).

SB 5701 increases Other Funds expenditure limitation by $800,000 and Federal Funds expenditure limitation by $2.8 million, on a one-time basis, for the acquisition of Disaster Peak Ranch. The Department received a grant from the U.S. Fish and Wildlife Service for the acquisition and will use the remaining Ruby Pipeline Funds to meet the required 10% match. Additionally, Other Funds expenditure limitation is increased by $2.4 million, on a one-time basis, and two limited duration positions (1.26 FTE) are added for projects approved by the Oregon Climate Action Commission to be funded by the Natural Climate Solutions Fund.

The measure also provides a one-time increase of $362,700 General Fund and $168,498 Other Funds for ODFW to establish three limited duration positions (1.89 FTE). The positions will increase grant writing resources to actively pursue Infrastructure Investment and Jobs Act and the Inflation Reduction Act federal funds across Natural Resource agencies. Additionally, the measure appropriates $282,735 General Fund to establish one permanent Natural Resource Specialist 1 (0.50 FTE) and two seasonal Biological Science Assistants (0.67 FTE) to undertake monitoring and reintroduction of native fish in the Klamath River. This year, four dams will be removed from the river, opening the waterway to salmon for the first time in over a century.

ODFW's budget is also increased by $795,000 General Fund on a one-time basis for the establishment of seven limited duration Natural Resource Specialist 1 positions (3.63 FTE) to boost carcass collection, sampling, and surveillance for detection of chronic wasting disease and other zoonotic diseases.

Department of Forestry

The Subcommittee approved a one-time General Fund appropriation of $32.6 million to the Oregon Department of Forestry (ODF) for the payment of large-fire costs related to the 2023 fire season. This amount includes $6.5 million from the special purpose appropriation to the Emergency Board for fire protection expenses to cover costs related to severity resources, including contracted air support. Additionally, a one-time increase of $49.4 million Other Funds was approved for processing payments related to 2023 fire season expenses, supported by revenue from federal agency reimbursements, federal emergency fire grant assistance, other agency reimbursements, and private landowner assessments.

In addition, the measure includes a one-time increase of $31 million Federal Funds for the implementation of grants awarded by the U.S. Department of Agriculture, Forest Service. The total includes roughly $11 million for the Urban and Community Forestry program to invest in green space and tree cover for Oregon's disadvantaged communities, and roughly $20 million for the Forest Legacy Program to acquire the Tualatin Mountain Forest Project and a corridor

along the Minam River for conservation. The Department was granted a total of nearly $23 million for Urban and Community Forestry projects and intends to request the remaining expenditure limitation as part of the 2025-27 biennial budget development process. Lastly, the Subcommittee authorized the establishment of 38 permanent positions (19.00 FTE) funded with $4.5 million Federal Funds to support the body of work associated with long-standing and continuous federal partnerships in the Forest Resources Division. These adjustments are consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

The Natural and Working Lands Fund (NWLF) was established in HB 3409 (2023) to help landowners, Indian tribes, land managers, and environmental justice communities adopt practices supporting natural climate solutions. In December 2023, the Department submitted a proposal to the Oregon Climate Action Commission for a distribution of funding from the NWLF for projects focused on climate-smart forestry, increased carbon sequestration, and building capacity for climate ready seeds and seedlings. The Subcommittee approved an increase of approximately $3.3 million Other Funds to deliver the approved projects.

HB 5506 (2023) provided the Department with funding for the purchase of a multi-mission capable aircraft. The associated budget report described the aircraft parameters in detail. The Subcommittee has approved updated language to allow the Department more flexibility in procurement. The budget report for HB 5506 specified, “Agency defined requirements for the new aircraft include twin turbine engines, high fixed wing, type certified at purchase, infrared and night vision equipped (or compatible platform), short take-off and landing performance, minimum 10-passenger capacity, 8,000 foot single-engine service ceiling, cargo rail system, and opening in flight rear cargo door.” The updated description reads: Agency defined requirements for the new aircraft include twin or single turbine engine, high fixed wing, type certificated at purchase, infrared and night vision equipped (or compatible platform), short take-off and landing performance, minimum 6 passenger capacity, and ability to deliver airborne cargo.

The measure provides for several technical adjustments for the Department to correct or realign the budget. These include:

- A shift of $64,229 Other Funds from Agency Administration to Debt Service to correct a current service level reduction of expenditure limitation for the cost of bond issuance erroneously carried forward from the 2021-23 biennium.
- An increase of $750,000 Other Funds for the Equipment Pool to purchase vehicles using a transfer of General Fund from Forest Resources, which was appropriated in HB 5020 (2023) without a commensurate amount of Other Funds.
- A shift of $90,000 Other Funds, budgeted incorrectly in HB 3409 (2023) as personal services in Forest Resources, to services and supplies for the Equipment Pool for the purchase of vehicles.
- An increase of $10 million Other Funds for Forest Resources to implement a program to reduce wildfire risk through the restoration of landscape resiliency and reduction of hazardous fuels, funded by the Landscape Resiliency Fund, which is continuously appropriated to the Department.
- Net-zero technical adjustments to allow for the deposit of the $10 million General Fund appropriated to Forest Resources for landscape resiliency activities in HB 5020 (2023) into the Landscape Resiliency Fund, established by SB 80 (2023).

The Subcommittee approved the following budget note for ODF:

BUDGET NOTE

The Oregon Department of Forestry (ODF) and the Department of the State Fire Marshal (DSFM) are directed to work in partnership to convene a workgroup to identify options for sustainably funding wildfire mitigation, suppression and mobilizations, land classification, and managing the intersection between forest land protection districts and structural fire protection districts. ODF must procure a third-party contractor to continue facilitated conversations to explore wildfire funding strategies within the context of Oregon's overall public finance strategy, as recommended in the November 2019 Governor's Council on Wildfire Response Report and Recommendations. At minimum, the workgroup shall include a wide range of stakeholders representing landowners, local fire agencies, Oregon Tribes, conservation groups, agency partners, and impacted industries. Additionally, the workgroup shall regularly engage with the Wildfire Programs Advisory Council.

ODF and DSFM shall jointly present a report on the workgroup's progress to the December 2024 meeting of the Emergency Board and to the Joint Committee on Ways and Means during the 2025 legislative session. At minimum, the progress report shall include a list of alternative funding strategies along with the following information for each strategy:

1. A description of the strategy.
2. Identification of the barriers to implementation.
3. Identification of the sustainability risks.
4. Estimate of the fiscal and revenue impact.

Department of Land Conservation and Development

The measure appropriates $607,000 General Fund for the Department of Land Conservation and Development (DLCD) consistent with an adjustment recommended by the Joint Interim Committee on Ways and Means in January 2024. The agency was reclassified from Level 6 to Level 5 by the Department of Administrative Services under a new system that is used to classify executive branch agencies based on certain characteristics, such as size, budget, and responsibilities. This change permits DLCD to hire one new permanent full-time Business Operations Administrator 1 (0.63 FTE) to serve as a Deputy Director. Nine other positions within the agency are reclassified because of the agency level change, effective July 1, 2023.

The measure also includes a General Fund appropriation to DLCD of $1.3 million for costs of positions hired at higher steps than budgeted and an error in vacancy savings reductions, as well as for unanticipated legal costs.

Department of State Lands

SB 5701 includes three technical adjustments for the Department of State Lands (DSL). First, a one-time increase of $572,019 Other Funds is included for the continued expenditure of Oregon Ocean Science Trust Research grant payments. Second, a decrease of $500,000 Federal Funds and one-time increase of $500,000 Other Funds are made to accommodate a change in the recipient of a U.S. Department of Housing and Urban Development (HUD) grant from DSL to the Department of Administrative Services (DAS). SB 5506 (2023) included Federal Funds expenditure limitation in DSL's budget for the planning and initial project costs for the redevelopment of Shutters Landing (Shutter Creek site) assuming DSL would be the direct recipient of the grant. Instead, DAS received the grant and will transfer the funding as Other Funds to DSL. Third, a net-zero shift of $54,032 Other Funds is made from services and supplies to

personal services to support the reclassification of two permanent positions. A Human Resource Analyst 1 is reclassified as a Human Resource Analyst 2 and an Operations and Policy Analyst 4 position is reclassified as a Government Relations Manager 2. The position reclassifications have been evaluated and approved by the DAS Chief Human Resources Office.

The measure also provides a one-time increase of $4.4 million Other Funds for DSL to expend Common School Funds on the increased implementation costs of developing the Land Administration System Replacement Project. The system is nearly 50% of the way through development and expected to launch in October 2025. This adjustment is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

To support the operations of the Elliott State Research Forest, the measure includes a one-time appropriation of $4 million General Fund to DSL. This funding is available from the disappropriation of a commensurate amount to the Elliott State Research Forest Authority, which did not become operational as an independent state agency as intended in SB 1546 (2022).

Elliott State Research Forest Authority

The Elliott State Research Forest Authority, as envisioned in SB 1546 (2022), did not become operational on January 1, 2024. This measure abolishes the three positions (1.73 FTE) established and disappropriates the $4 million General Fund appropriated in HB 5048 (2023) for the Authority's biennial expenses.

Land Use Board of Appeals

The measure includes a one-time increase of $5,830 General Fund for the Land Use Board of Appeals to pay for contractual expenses to develop a strategic plan, which is consistent with the Governor's requirement that all executive branch agencies develop such a plan. This adjustment was recommended for approval by the Joint Interim Committee on Ways and Means in January 2024.

Parks and Recreation Department

The measure establishes Other Funds expenditure limitation of $143,306 to use interest earnings and excess bond proceeds that are available for debt service costs paid from the Department's budget. The available Other Funds revenue helps offset Lottery Fund debt service costs, which is separately recognized in the measure as part of statewide adjustments to existing debt service budget structures.

Oregon Watershed Enhancement Board

SB 5701 includes a shift of $203,516 Other Funds and 0.88 FTE from the Oregon Watershed Enhancement Board's (OWEB's) Grants program to the Operations program. HB 3409 (2023) provided the Grants program with a limited duration full-time Fiscal Analyst 3 to support the body of work generated by the newly established Natural and Working Lands Fund grant program; however, the position should've been established in the Operations program to align with the agency's program structure.

Additionally, the measure shifts the revenue source for two permanent positions from Federal Funds to Lottery Funds, equal to $576,000. OWEB is the state's designated applicant for the National Oceanic and Atmospheric Administration's Pacific Coastal Salmon Recovery Fund (PCSRF) grant, and has applied annually since 2001. The two positions identified deliver critical work to OWEB programs, but much of the work is no longer grant eligible. The positions include a Partnership Coordinator which will be partially shifted from Federal Funds (0.60 FTE) and a Conservation Outcomes Coordinator which will be fully shifted (1.00 FTE). This funding adjustment will enable the positions to continue to work with flexibility across programs. The agency's

unobligated operations Lottery Funds ending balance is sufficient to cover the shift for the remainder of the 2023-25 biennium, and the position funding will be reexamined for sustainability during the 2025-27 budget development.

The Oregon Agricultural Heritage Fund provides resources to help farmers and ranchers voluntarily keep their land in the agriculture industry, while maintaining or improving habitat for fish, wildlife and other natural resources. Grant funding is offered for succession planning; working lands conservation easements and covenants; developing conservation management plans; technical assistance for organizations holding conservation plans; and to assist organizations supporting agricultural owners and operators. The Fund also covers the administrative costs of the Oregon Agricultural Heritage Commission, as well as the Department's administrative costs related to working lands conservation programs. The measure includes a one-time appropriation of $5.2 million General Fund for deposit in the Oregon Agricultural Heritage Fund along with a corresponding increase of $5.2 million in Other Funds expenditure limitation to expend moneys deposited into the Fund.

Water Resources Department

The measure includes adjustments to the Water Resources Department (WRD) budget recommended by the Joint Interim Committee on Ways and Means in January 2024. First, a one-time increase of $1.4 million Federal Funds is included for implementation of two dam safety grants awarded by the Federal Emergency Management Agency. This includes $1.3 million for the Rehabilitation of High Hazard Potential Dams grant which will be distributed through a subrecipient agreement to rehabilitate the Big Creek Dam #2, owned by the City of Newport, and the Wallowa Lake Dam, owned by the Wallowa Lake Irrigation District. Additionally, $152,244 was granted to implement the National Dam Safety Program grant which provides funding to states for dam safety activities, including personnel training, increased dam inspections, emergency action plans, and public outreach.

In addition, the measure includes $300,000 Other Funds and supports the establishment of one full-time limited duration position (0.75 FTE) to execute an agreement with the Washington Department of Ecology (WDE), partnering on the Walla Walla Groundwater Study, started in 2020. WRD is entering into a working partnership with WDE and plans to hire a Groundwater Field Technician to assist with collecting and analyzing the data needed to define and characterize the aquifers spanning the Oregon and Washington border. WDE will reimburse WRD for allowable expenditures including staffing costs and aquifer pump tests.

The measure also shifts funding between the Department's appropriations to align budget with operations and provides an additional 1.33 FTE as a corrective measure. During the development of the 2023-25 legislatively adopted budget, the Department identified positions for reorganization and reclassification, and these adjustments were included in the agency's appropriation bill, HB 5043. The Department later realized the associated services and supplies budget was not shifted to align to the position reorganization. This measure includes the technical adjustments necessary to rebalance the services and supplies budget with the associated positions. Additionally, 1.33 FTE is provided to Water Rights Services where 0.67 FTE was inadvertently reduced instead of increased in HB 5043.

The City of Sodaville received a direct appropriation of $370,000 in SB 5506 (2023) to convert a private well to municipal use. Subsequently, the Department was notified that the well was not approved for public use as a water supply due to its condition. The City assessed whether to rehabilitate the existing well, or to drill a new well for public use and deemed a new well would be the most viable option. SB 5701 updates the language included in SB 5506, section 232 (9) from "City of Sodaville, Jackson Well Conversion to Municipal Use: $370,000" to "City of Sodaville, water system expansion: $370,000." The measure also includes a one-time $60,000 General Fund appropriation for distribution to the City of Sodaville for water hauling.

The measure establishes Other Funds expenditure limitation of $1.8 million to use interest earnings and excess bond proceeds that are available for debt service costs paid from the Department's budget. The available Other Funds revenue helps offset Lottery Fund debt service costs, which is separately recognized in the measure as part of statewide adjustments to existing debt service budget structures.

The Water Well Abandonment, Repair and Replacement Fund was authorized via HB 2145 (2021). Through the Department, it provides financial assistance to permanently abandon, repair, or replace a water well used for household purposes when deficiencies in well construction might result in water waste, contamination, or provide a detriment to public health or safety. The measure provides a one-time appropriation of $1 million General Fund for deposit into the fund, and a corresponding $1 million increase in Other Funds for the expenditure of moneys deposited.

PUBLIC SAFETY

Criminal Justice Commission

The Subcommittee approved the following budget note for the Criminal Justice Commission:

> **BUDGET NOTE**
> The Oregon Criminal Justice Commission, based on prior criminal justice system patterns, predicted that racial disparities are likely to exist for convictions for possession of controlled substances, and prison sentences for delivery of controlled substances following the passage of HB 4002. Given that it is a goal of the Legislature to ensure that HB 4002 is implemented equitably, the Commission is required to work collaboratively with counties to develop strategies to address racial disparities that were predicted in the Racial and Ethnic Impact Statement on HB 4002 (2024) and ensure that guidelines for impact grants are adhered to. The Commission is directed to report to the Joint Committee on Addiction and Community Safety Response during the legislative session in 2025 regarding its efforts to collaborate with counties regarding the minimization of racial disparities as well as to the racial and ethnic impact of HB 4002 and the extent to which county and tribal deflection programs are mitigating the negative impacts of criminal justice system involvement across racial/ethnic groups.

Department of Corrections

The measure increases Federal Funds expenditure limitation by $1.7 million, on a one-time basis, for the expenditure of awards from three federal grants previously approved by the Legislature, including a Braille Transcription program, the second phase of the Parenting Inside Out program, and a heavy equipment operator training program. This adjustment was recommended by the Joint Interim Committee on Ways and Means in November 2023.

The Subcommittee approved a one-time General Fund appropriation of $620,000 for the reimbursement to counties for the costs related to felony driving under the influence of intoxicants (DUII) sentences under SB 395 (2011). Under that measure, offenders sentenced to the maximum 90 days for a felony DUII remain in custody at the county jail rather than a Department of Corrections facility and related costs to the county are then reimbursed by the Department. The amount provided represents only the outstanding invoices that remain from the 2021-23 biennium, and a further budget adjustment is anticipated to be required for 2023-25 during the 2025 legislative session.

Several technical adjustments were approved by the Subcommittee. The first is related to the establishment of two K-9 units to operate at the Oregon State Penitentiary and Oregon State Corrections Institution approved in SB 5504 (2023). Funding for this program was included in the Health Services Division and Administrative Services Division; however, the Department determined that the program should reside within the Inspector General's Office under the Central Administration Division. As a result, reductions of $581,400 General Fund and two positions (2.00 FTE) in Administrative Services and $213,056 General Fund in Health Services were approved, with a corresponding increase of $794,456 General Fund and two positions (2.00 FTE) in Central Administration, for an overall net zero change. Another technical adjustment results in shifting $300,000 in Federal Funds expenditure limitation from Health Services to Correctional Services, where it will be used for the expenditure of federal grant awards.

The measure includes a budget neutral reduction of $90,177 General Fund and an increase in Other Funds expenditure limitation in the same amount to utilize remaining American Rescue Plan Act State Fiscal Recovery Funds received by the Department of Administrative Services and transferred to the Department of Corrections for maintaining public safety services.

The Subcommittee also approved an increase in Other Funds limitation of $961,454 for the expenditure of grant funds received from the Oregon Employment Department, which will be used to expand the current WorkSource Oregon Reentry Program operating as a pilot at Deer Ridge Correctional Institution and Warner Creek Correctional Facility. This program provides adults-in-custody with opportunities to develop career plans, prepare a resume, and apply for positions prior to release. With this additional funding, the Department will be able to expand WorkSource centers into each institution.

Department of Emergency Management

Included in the measure is approximately $3 million Federal Funds for successful awarding of the State and Local Cybersecurity Grant Program grant from the Federal Emergency Management Agency. This is the first of four anticipated annual grant opportunities for this program, and while the grant normally requires a state match, the Department was granted a waiver of the match for this round of funding. This one-time increase was recommended by the Joint Interim Committee on Ways and Means in January 2024.

As part of the Infrastructure, Investment and Jobs Act, the Federal Emergency Management Agency and Cybersecurity and Infrastructure Security Agency have provided grant funding to support states, local governments, rural areas, and territories in addressing cybersecurity risks and threats to information systems. As the State Administrative Agency, the Department of Emergency Management receives these grant funds, while the Department of Administrative Services Enterprise Information Services and the newly established Oregon Cybersecurity Center of Excellence through the Higher Education Coordinating Commission, are developing a process for grant proposal reviews and funding approvals. Given the multiple state agencies involved in this effort, the Subcommittee approved the following budget note:

> **BUDGET NOTE**
>
> The Department of Emergency Management, in collaboration with the Department of Administrative Services, Higher Education Coordinating Commission, and Department of Justice, are directed to return to the Public Safety Subcommittee of the Joint Committee on Ways and Means during the 2025 session to report on the primary and supportive roles, responsibilities, and accountabilities of each entity related to the State's overall cybersecurity, and provide a detailed plan on how the agencies will coordinate to ensure grant funding is provided to maximize mitigation and preparedness, response, and recovery from potential cyberattacks.

The Subcommittee approved a General Fund reduction of $475,808 and elimination of four positions (2.00 FTE) from funds previously appropriated in HB 5019 (2023) for the implementation of the Governor's Executive Order 23-02 - Homelessness Emergency. The Department had received one-time funding of $722,631 to support six limited duration positions (3.00 FTE) for the first year of the 2023-25 biennium; however, the Department has only needed to utilize two positions for this work. With the extension of the Executive Order to January 2025, the one-time amount and position authority has been reduced to better reflect the actual resource needs of the Department in its overall coordination efforts around the Executive Order implementation.

In addition, the Subcommittee approved three technical adjustments. The first is a net zero adjustment to move $50,000 Other Funds expenditure limitation from Administration to Preparedness and Response to algin budget and expenditures. The second modifies a reduction taken in HB 5017 (2023) and reduces personal services by $69,780 Other Funds and increases special payments by the same amount. Finally, HB 3059 (2023) established the Oregon Disaster Response Assistance Matching Fund to provide state match for federal grants or other federal aid to provide disaster assistance to local governments or to directly provide disaster response assistance to local communities. Also included was a permanent full-time position to increase local community support functions. The position costs, totaling $242,714 General Fund, and the Disaster Response Assistance funding, totaling $1 million General Fund and $1 million Other Funds, were incorrectly included within the Administration program and need to be moved to the Mitigation and Recovery program.

The Subcommittee approved a one-time General Fund appropriation of $250,000 for the Department to secure a project management contract to examine options to replace the Department's incident management software system, referred to as OpsCenter, with a new software system that will improve the Department's ability to manage resources and respond to emergencies. A funding request for replacement options is anticipated to be developed as part of the agency's 2025-27 requested budget. The Subcommittee also approved $558,381 General Fund and three permanent full-time positions (1.89 FTE) to establish an internal human resources unit. Currently, ODEM utilizes the Department of Administrative Services Shared Client Services for its human resources needs, but with significant increased workload since becoming an independent agency, the Department needs to bring human resources services in-house. The established positions include a Human Resources Manager and two Human Resources Analysts.

In addition to the adjustments directly to ODEM's budget, SB 5701 establishes a $5 million General Fund special purpose appropriation to the Emergency Board to be allocated to ODEM for the purchase of disaster preparedness stockpile components. The allocation of the special purpose appropriation is contingent upon the Department submitting a report to the Emergency Board pursuant to the following budget note:

BUDGET NOTE

The Department of Emergency Management must report to the Emergency Board no later than December 2024 on details of a stockpile plan, which should include a needs assessment conducted with local, state, tribal, and federal partner entities; a materials procurement plan, including raw material needs for personal protective equipment manufacturing; and a management plan for quality control and rotation standards of stockpile materials. The plan must also identify logistical needs for locating, tracking, coordinating, and allocating materials and equipment; recommendations on strategic locations for stockpile caches; and any long-term proposals for funding and maintaining a stockpile.

The Subcommittee approved $5.1 million of Other Funds expenditure limitation related to the planned sale of Article XI-Q bonds. The bond proceeds will be used to purchase emergency preparedness equipment, which will be owned by the Oregon Department of Emergency Management and distributed to local governments and other federal tax-exempt qualified recipients through the State Preparedness and Incident Response Equipment Grant (SPIRE) program.

Of the total, $5 million will finance equipment purchases and $95,000 is for the cost of issuing the bonds. A maximum of $1 million may be spent on urban search and rescue preparedness equipment.

Department of Justice

The measure includes $2.7 million General Fund and supports the establishment of 14 permanent full-time positions (6.50 FTE) to expand the Internet Crimes Against Children Program, which is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024. The positions include one Senior Assistant Attorney General (0.46 FTE) starting in August 2024; one Law Enforcement Manager 3 (0.58 FTE) starting in May 2024; two Criminal Investigators (1.17 FTE) starting in May 2024; three Criminal Investigators (1.38 FTE) starting in August 2024; three Criminal Investigators (1.13 FTE) starting in October 2024; one Research Analyst 1 (0.58 FTE) starting in May 2024; one Research Analyst 1 (0.38 FTE) starting in October 2024; one Legal Secretary (0.46 FTE) starting in August 2024; and one Legal Secretary (0.38 FTE) starting in October 2024. The associated services and supplies totals $560,097 General Fund. The estimated 2025-27 biennium cost is $4.8 million General Fund and 14 positions (14.00 FTE).

The Subcommittee adopted the following budget note related to the Internet Crimes Against Children Program:

> **BUDGET NOTE**
>
> The Department of Justice is to report to the 2025 Legislature on the 2024 Legislature's investment in the Internet Crimes Against Children Program. The report is to include, but not be limited to, performance reporting on historic comparisons of data on the number of cybertips received by category of activities, number of resulting investigations by the Department, number of referrals to affiliates and number of referrals to affiliates that are investigated, and number of related arrests.

In addition, the Subcommittee approved a General Fund appropriation of approximately $2 million and authorized the establishment of six permanent full-time positions (3.25 FTE) for the Criminal Justice Division to: (a) address an increase in requests from district attorney offices for officer-involved use of force cases, cases remanded for re-prosecution under the Watkins/Ramos decisions, and cases involving local public officials; and (b) to proactively target and maintain multiple, long-term organized crime investigations under the Racketeer Influenced and Corrupt Organizations Act. The positions include: two Assistant Attorney Generals (1.08 FTE) and four Criminal Investigators (2.17 FTE) with a June 1, 2024 start date. The associated services and supplies total $905,615 General Fund. The 2025-27 biennium cost is estimated to be $2.9 million General Fund and six positions (6.00 FTE).

SB 5701 also includes the following one-time General Fund appropriations for the Crime Victims and Survivor Services Division:

- $2 million for Survivor Housing Funds Grant Program
- $2 million for the Oregon Domestic and Sexual Violence Services Fund, with an associated expenditure limitation increase of $2 million Other Funds
- $750,000 for the Oregon Crime Victims Law Center
- $400,000 for the Sexual Assault Task Force for Oregon Sexual Assault Examiners and Sexual Assault Nurse Examiners Certification Commission

The Subcommittee approved, on a one-time basis, an increase of $396,936 Other Funds and the establishment of one limited duration position (0.67 FTE) in the Criminal Justice Division for a Traffic Safety Resource Prosecutor in the Driving Under the Influence of Intoxicants program. The associated services and supplies totals $59,387 Other Fund. The revenue to support the program is from a subgrant from the Department of Transportation with revenue available

from the U.S. Department of Transportation, National Traffic Safety Administration. DOJ will meet the 20% state match requirement primarily through in-kind support activities (e.g., trainings) and non-program related General Fund budgeted for the Criminal Justice Division. This adjustment corresponds to a request recommended for approval by the Joint Interim Committee on Ways and Means in January 2024.

The measure includes a one-time increase of $324,094 Other Funds for the Survivor Housing grant program. The program assists survivors of domestic violence, sexual assault, stalking, dating violence, and human trafficking to maintain and access safe permanent housing. Grantees use funds to provide staff, housing, and other financial support survivors' housing stability. The funding will provide support for the program through December 31, 2024. The revenue source is from an unexpended balance of American Rescue Plan Act funds from the 2021-23 biennium. The program was originally authorized $1.25 million in ARPA funding of which $925,906 was expended last biennium. In addition, the Subcommittee approved a net-zero technical adjustment to rebalance General Fund for the Attorney General line time between six divisions.

Department of Public Safety Standards and Training

The Subcommittee approved an increase of $1.8 million Other Funds for personal services costs that are not covered by the statewide compensation and benefit adjustments, including collectively bargained salary increases for Public Safety Training Specialists and one-time cost of living adjustments for non-budgeted positions. The Department currently anticipates a sufficient cash balance and no additional Criminal Fine Account allocation is required to cover these costs.

Department of the State Fire Marshal

The measure makes technical adjustments to the Department of the State Fire Marshal (DSFM) budget resulting in an increase of $52,945 Other Funds to support the establishment of the new agency and align position authority with the appropriate program budget. The adjustments include reclassifying the Oregon State Fire Marshal position to an agency head classification; and moving eight positions (8.00 FTE) across agency budget structures to align the supporting resources with the appropriate budget area. Additionally, the measure provides a one-time expenditure limitation increase of $1.6 million Other Funds for the estimated remaining balance of the Community Risk Reduction Fund.

BUDGET NOTE

The Department of the State Fire Marshal is directed to work collaboratively with the Department of Administrative Services Chief Financial Office and Legislative Fiscal Office to develop a more detailed agency appropriation structure for its biennial budget bill. At a minimum, this structure shall detail the expenditures derived from fee-based revenue versus expenditures derived from General Fund deposited in a fund. This new budget structure shall be recommended and prepared prior to the 2025 legislative session.

SB 5701 includes a one-time increase of $8.5 million General Fund to reimburse the remaining conflagration expenses incurred during the 2023 fire season. This adjustment is consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

For the 2024 fire season, the measure includes a one-time $4 million General Fund appropriation for deposit into the State Fire Marshal Mobilization Fund for immediate response mobilizations and pre-positioning of equipment. The measure also includes the corresponding Other Funds expenditure limitation to support expenditures from the fund.

Additionally, the measure includes a one-time $4 million General Fund appropriation as a contingency to alleviate cash flow concerns regarding the 2024 fire season. Analysis of cash flow data for the past four fire seasons indicates DSFM should have sufficient capacity until the Department can request reimbursement of fire season expenses from the Emergency Board in fall 2024. However, as a newly independent agency, concerns remain that a severe fire season could lead to unanticipated cash flow issues. The funding is approved with the understanding the Department of Administrative Services will unschedule the funds pending DSFM demonstrating a cash flow need. Any unspent funding will revert to the General Fund at the end of the biennium.

BUDGET NOTE

The Department of the State Fire Marshal is directed to report on the estimated expenses incurred for the 2024 fire season and request reimbursement for the conflagration expenses at the September 2024 meeting of the Emergency Board. At a minimum, the report shall include: 1) a list of conflagrations with estimated expenses; 2) a list of prepositioning and readiness response mobilizations with estimated expenses; 3) a comparison of 2024 fire season expenses to the 10-year average; 4) a monthly analysis of cash flows; and 5) the remaining balance of unscheduled General Fund.

District Attorneys

The Subcommittee approved, on a one-time basis, a $1 million General Fund appropriation for the Department of Justice (DOJ) to distribute to District Attorneys for expenses related to nonunanimous jury convictions, including victim assistance, investigation, temporary staffing, and other one-time, non-routine prosecution expenses related to nonunanimous jury convictions. DOJ will disperse funding based on sufficient documentation provided by individual District Attorney offices/counties related to nonunanimous jury conviction expenditures. The General Fund is available from a $1 million appropriation to the Emergency Board established in SB 5506 (2023) for the same purpose, which the measure disappropriates. These adjustments are consistent with the recommendation of the Joint Interim Committee on Ways and Means in January 2024.

Oregon Military Department

The Subcommittee approved $214,204 General Fund and the establishment of a permanent full-time Accounting Manager position (0.63 FTE). Currently, the Department's Chief Financial Officer oversees the entire financial administration, including budget, accounting, and procurement sections with a 1:16 supervisor ratio. Providing the Department with a dedicated Accounting Manager will improve the span of control and provide better oversight and compliance with the many cooperative agreements the Department manages with the National Guard Bureau.

Oregon Youth Authority

The Subcommittee approved $166,883 General Fund and $28,325 Federal Funds for the establishment of a permanent full-time Program Analyst position (0.63 FTE) to provide support for youth in custody around determining eligibility and navigation of Medicaid processes. Previously, this service was provided by a position within the Department of Human Services (DHS) through an inter-agency agreement; however, the agreement has expired and DHS has elected to repurpose the position.

Also approved is a technical adjustment to shift funds between budget categories in the Facility Services Program. The agency's budget bill, SB 5541 (2023), included a mandated caseload adjustment reduction based on the October 2022 youth population forecast, which should have been reflected in both personal services and services and supplies, but was taken entirely out of services and supplies. This technical adjustment provides a correction by reducing personal services by approximately $5 million and increasing services and supplies by $5 million for a net-zero change.

The Subcommittee approved an increase in Other Funds expenditure limitation of $180,000 for the cost of issuance on $11.9 million in Article XI-Q bonds for the increased costs of previously approved projects at Camp Riverbend, for dorm renovation, and Tillamook Youth Correctional Facility, for dorm renovation and medical and dental facility renovations, and for the design of a new school and vocational facility at Oak Creek Youth Correctional Facility.

TRANSPORTATION

Department of Transportation

The measure includes a one-time General Fund appropriation of $19 million to continue essential operation and maintenance services for Oregon's highway system. This includes $8 million for the 2023-24 winter season, allocated to restore crucial winter maintenance components and lift overtime restrictions with regional distribution based on percentage of winter operations in each region. Also included is $7 million for retracing of edge lines ($2.5 million) and pavement repair ($4.5 million) starting in spring 2024, distributed to regions based on total pavement amounts. The remaining $4 million will fund the purchase of 10 snowplows with an expected delivery towards the end of the biennium.

The measure also includes a one-time General Fund appropriation of $20 million to address health and safety issues along state highways in the Portland Metro region. In collaboration with the City of Portland, $4 million will be prioritized for camp clean-up and another $4 million for litter removal, prioritizing high-volume highway sections. An additional $4 million is designated for graffiti removal on walls, bridges, signs, poles, and signals, as well as replacing vandalized highway signs, prioritizing high-volume highway sections. The remaining $8 million will support the installation of barriers to deter camping and recreational vehicle parking near high-speed facilities, bridges, retaining walls, and multiuse paths. Hard scaping with rock boulders is not included in this effort.

A shift of $4.6 million Other Funds limitation from the Local Government Program to the Policy, Data, and Analysis Division was approved to conduct the 10-year Oregon Household Survey which captures information from Oregon residents about their travel choices, infrastructure needs, and policy preferences. This aligns the budgeted expenditure limitation with the division performing the work. An additional one-time increase of $4.2 million Other Funds expenditure limitation and 26 limited duration Transportation Service Representative 1 positions (15.17 FTE) is provided for Driver and Motor Vehicle Services to conduct a Real ID marketing campaign and process an expected surge in transactions in anticipation of the May 7, 2025, Real ID compliance date.

The Subcommittee also approved adjustments to expenditure limitations in ODOT's budget consistent with recommendation by the Joint Interim Committee on Ways and Means in January 2024. These adjustments include an increase of $60 million Other Funds for the disbursement of Statewide Transportation Fund revenues to public transit providers. An increase of $2 million Federal Funds was approved for the Motor Carrier Safety Assistance Program, High Priority Innovative Technology Deployment grant, awarded September 2022. The grant will be used to implement the Over-Dimension Permitting System project.

In addition, the Subcommittee approved two net-zero technical adjustments for the Oregon Department of Transportation (ODOT). The first adjustment shifts $8,815 Other Funds and $18,735 Federal Funds from services and supplies to personal services to balance the cost of a position reclassification in the Driver and Motor Vehicle Service Division. The second technical adjustment shifts $1.9 million Other Funds from the Finance and Budget Division to Administrative Services to align Department of Administrative Services statewide charges to the proper ODOT budget structure.

The measure includes a one-time General Fund appropriation of $500,000 to ODOT for the purpose of funding a study conducted by Metro. The study will explore using existing heavy freight rail assets in the Portland Metro Area for passenger rail alternatives to existing transportation modes.

A one-time General Fund appropriation of $6 million is also included for distribution to the Port of Cascade Locks to fund engineering analysis, site investigations, project cost estimating, external outreach, and impact analysis for a seismic retrofit and other preservation actions for the Bridge of the Gods. The studies will also examine the feasibility of the addition of a pedestrian and bike pathway to enhance safety on the Pacific Crest Trail crossing of the Columbia River.

A recipient change was approved for expenditure limitation related to $20 million in net lottery bond proceeds authorized in the 2023 session for the Hood River-White Salmon Interstate Bridge. The project recipient is updated from the Port of Hood River to the Hood River – White Salmon Bridge Authority.

DELC COVER MEMO

As part of the Agency Request Budget (ARB), each state agency is required to submit a copy of their agency DEI plan. In addition to the submittal of the plan, each agency needs to provide a cover memo addressing five questions about the agency's programs and services as a whole.

DELC provides core programming for children and families prenatal to five, including infant and toddler care, preschool, child care assistance, and a number of foundational services, including child care licensing and compliance and professional learning supports for the early childhood workforce caring for children up to age 12 and age 17 in certain circumstances. Equity is a core value for DELC, promoting culturally relevant practices in early care and education settings as well as internal operations. We strive to infuse equity into all agency policies, processes, and procedures. The agency vision is that all children, families, early care and education professionals, and communities are supported and empowered to thrive.

1. Who benefits from agency programs, both directly and indirectly?

DELC serves children, families, early care and education professionals and communities throughout Oregon. Early childhood education and child care is a critical support for families and provides key resources to promote healthy early childhood development and family stability. Research has shown that the effects of high-quality early childhood education can carry through to high school graduation, degree attainment, and even have positive long-term health impacts. Many agency programs serve families near, at or below the federal poverty level, including the Employment Related Day Care (ERDC) program, Head Start/Oregon Prenatal to Kindergarten, Preschool Promise, Relief Nurseries, Healthy Families Oregon, and others. While many of these programs and services are tied to income requirements, some of DELC's programs are administered to address the need to provide wrap around supports to all families, offering screening services, transportation, and settings that better serve children experiencing disabilities.

In addition to having a direct impact on the families, providers, and other early learning professionals served by DELC programming, support to child care providers increases access to child care for all Oregonians, which has both direct and indirect positive impacts on local economies and the State of Oregon. The Department's programs also contribute to the growth and development of the early learning workforce through professional development, training,

and technical assistance. For example, the Employment Related Day Care (ERDC) program provides child care subsidies to eligible students, working families, and others so they can go to work, continue their education, or search for employment while their children receive care.

2. Who will be burdened by agency programs?

The DELC Agency Request Budget (ARB) is built around sustainable operations to deliver services and access to those services for children, families, and early care and education professionals. Programs administered by DELC provide services and support to families and the early learning workforce funded by taxpayers in Oregon through a mix of state and federal funds. DELC's programs work to meet the need for child care and the taxpayers of Oregon carry the burden of agency program costs.

In addition to the programs administered by DELC, the Child Care Licensing Division (CCLD) oversees the health and safety of children in child care settings. CCLD holds the regulatory authority over many types of child care programs, including three types of child care licenses for providers. Providers must meet certain state and federal requirements on an ongoing basis to serve children and families through licensure and DELC funded programs.

Child care licensing statutes do impose minimal costs on providers, found in ORS 329A.275 and well as civil penalties for violations found in ORS 329A.992. An Environmental Health inspection is required for certified facilities, which varies in cost dependent upon the organization the provider uses. In developing Child Care Licensing regulations DELC works closely with providers to minimize and mitigate operational costs found within the regulations while prioritizing the health and safety of children. DELC subsidizes the full cost of background checks to meet federal requirements, and also offers waivers for licensing fees for low income Registered Family Providers if requested. As part of its equity analysis of licensing regulations, DELC looks at these impacts and costs across the full spectrum of child care providers.

3. How does the agency increase or decrease racial equity? Do proposed new programs have potential unintended/racial equity consequences? What benefits may result from the program?

DELC's programmatic focus is to foster coordinated, culturally appropriate, and family-centered services that recognize and respect the strengths and needs of all children, families, and early learning and care professionals in Oregon. We do this work in a complex early learning ecosystem that involves scores of partners whose critical effort, creativity, and commitment to positive outcomes for those engaged in early learning and care cannot be understated. DELC's strategic plan, *Growing Oregon Together* (2024-2029), and Diversity, Equity, and Inclusion (DEI)

Action Plan outline the agency's commitment to increase racial equity in Oregon with an emphasis on the early learning and care system.

Growing Oregon Together is framed by six goal areas: (1) access, (2) Tribal sovereignty, (3) infants and toddlers, (4) early learning and child care workforce, (5) relationships, and (6) foundations. DELC depends on, and embraces, many vibrant, caring community partners, such as after-school programs, family child care homes, child care centers, Child Care Resource and Referral agencies, culturally specific service organizations, Early Learning Hubs, home visiting programs, infant and early childhood mental health consultants, preschool programs, trainers, and others who work in communities throughout the state. These partners reflect the rich diversity of the early childhood workforce and Oregon's families, and they are grounded in Oregon's communities, rural or urban. The nine federally recognized Tribes within Oregon's borders are key partners in ensuring that all children within the land boundaries of this state receive quality care and education.

In partnership with the Tribes, the agency is proposing a new Tribal Early Learning Plan for the 2025-2027 biennium, which will be accomplished through statutory amendment. Early learning and care supports are vital infrastructure needs for Tribal Nations as they support the development and education of their children and families.

Tribal Nations and their members have been historically underserved and due to long-standing inequities, are furthest from opportunity. Having been disparately and negatively impacted by the systems meant to serve all areas of the early learning and care system, a Tribal Early Learning Plan will be tailored to address the unique needs and incorporate the strengths of Tribal communities, while setting expectations for DELC to support the early learning vision of Tribes. The goal is to have a plan that prioritizes equity and allows for each Tribe to address early learning and education in a culturally responsive way.

In July of 2026, the Early Childhood Suspension and Expulsion Prevention Program (ECSEPP) will take effect. The passage of HB 2166 and SB 236 (2021) by the Oregon legislature established the ECSEPP and launched a study on Oregon's use of suspension and expulsion in early childhood care and education programs. In the 2022 Legislative Session, HB 5202 approved the full $5.8 million funding for the program. The purposes of ECSEPP are to:

- Reduce the use of suspension, expulsion, and other forms of exclusionary discipline in early care and education (ECE) programs.
- Reduce disparities in the use of suspension, expulsion, and other forms of exclusionary practices in ECE programs based on race, ethnicity, language, ability, or gender.

According to recent research data from Oregon, young children in early childhood settings are being expelled or suspended at a high rate, and children of color and children with disabilities are disproportionately affected. The high rate of suspension and expulsion harms children and families, causing negative outcomes in children's development, health, and education.

SB236 will establish a prohibition on the use of suspension and expulsion in early learning and care programs. DELC is in the process of developing a system of culturally appropriate supports to ensure that child care providers have the resources and tools they need in preparation for the new law to take effect July 1, 2026. The agency hopes that the program will result in a more inclusive and supportive early childhood landscape where providers and families are empowered to serve all children.

4. Whose voices and perspectives are not at the table? Why?

Tribal members and communities of color have faced, and continue to face, systemic racism and other longstanding and current economic and educational disparities. Additionally, many care-related inequities were further compounded by the COVID-19 pandemic. Today, racial and social disparities persist across key indicators of early education success in Oregon, including education, but also in other realms impacting families and providers including housing, food access, transportation, health, and employment. The voices and perspectives of communities most impacted are not adequately represented or "at the table" within DELC or within government as a whole.

DELC also recognizes that other communities have been historically marginalized by government such as those with limited English proficiency, people living in poverty, and those with disabilities. DELC recognizes the role government has historically played in perpetuating many of these injustices. The agency strives to increase equity, engagement, transparency and accountability and values continuous learning in order to be responsive to community needs.

DELC strives to provide culturally and linguistically responsive media and communications. Materials are frequently translated into the top five languages spoken in Oregon and additional documents are placed on the website where they can be viewed in 12 different language options. Other language options are available upon request. While mechanical translation is not the preferred approach, it has drastically improved in recent years and provides increased access to information. Staff also run accessibility checks to convert outreach materials and information into plain language to increase accessibility for limited proficiency with English readers. Agency staff also utilize accessibility checks on materials and adjusts formatting to conform to screen reader technology. These continued efforts help to improve accessibility and increase access and inclusion.

The agency is eager to expand inclusion and accessibility efforts in materials and information sharing but currently faces limitations in the number of materials available and interpretation options in other languages due to resource constraints. DELC will continue to explore creative solutions for expanding and increasing information available in additional languages within existing resource availability.

DELC has wide and expansive outreach with the goal of reaching communities across Oregon. This engagement includes bi-monthly provider information sessions in Spanish, English, and simultaneous interpretation in additional languaes as requested. However, it has been extremely difficult to engage with communities across the state without additional community outreach capacity. DELC recognizes and acknowledges the role that government has played in perpetuating inequities, and it will require extensive trust building and a deepening of relationships with the diverse communities DELC serves in order to make progress and repair harms. True power sharing is difficult in a government structure but there are ample opportunities to increase community outreach, engagement and input. At DELC we continue efforts to listen and learn from the families that utilize child care assistance and the early learning and care workforce. DELC partners with a wide variety of culturally specific and culturally reflective groups and tries to structure programs with community voice at the center. One example is DELC's Early Childhood Equity Fund program which is an intentional effort to shift decision-making and funding directly to communities served by DELC. These efforts to engage communities help to expand access, increase positive outcomes, inform and deepen relationships with the communities DELC serves but also help to ensure this work is enduring and equitable. To do this work well will require committed resources and responsive accountability.

DELC is also committed to engaging a diverse audience in our rulemaking efforts, which includes actively reaching out to ensure broad representation and participation. DELC also involves Tribal Nations in the rulemaking process through Dear Tribal Leader letters as part of the formal Tribal Consultation process.

5. What does the agency do to ensure multiple perspectives are part of our decision-making process?

DELC strives to be intentional about including diverse voices and perspectives in program design, research and evaluation, rulemaking process, policy development, and other areas that impact communities throughout Oregon.

In developing DELC's mission, vision, and values as a new state agency, intentional outreach began in June 2022 to communities across Oregon. This feedback and community input also helped to inform the agency's first strategic plan, *Growing Oregon Together*. In 2024, DELC

launched a series of community meetings and outreach around the development of the strategic plan. Different methods of engagement were available and included interpretation. Some of the diverse voices who helped shape the plan included Early Learning Hubs, CCR&Rs, Advocates, Tribal Nations, DELC staff, Union representatives, Early Learning Council representatives, providers, families, and many more.

To ensure community input in the rulemaking process, DELC uses a variety of methods to get input on proposed rule changes. Depending on the subject area for rulemaking, DELC may conduct a survey of the field and a community workgroup before rules changes are drafted. All of the materials for outreach on rulemaking are translated into Spanish, Russian, Chinese, and Vietnamese. After initial outreach is conducted, the Agency will conduct a Rulemaking Advisory Committee (RAC). For RACs, DELC seeks diverse groups of individuals who interact with the agency and the programs run by the agency, such as infant-toddler educators, CCR&R and Early Learning Hub representatives, Tribal Nations representatives, union or advocate representatives, and parents and families of eligible children. Diversity of voice includes, but is not limited to race, ethnicity, socioeconomic status, geographic location, and/or English language proficiency. We also look for individuals who represent culturally specific organizations (CSOs) that provide, or are interested in providing, high-quality, culturally responsive child care and early learning. Those chosen to participate in a RAC will be individuals who are able to represent a broad perspective of various populations served. Participants will be reimbursed for their time dedicated to serving on a RAC. To serve on a RAC for DELC, community members apply through a RAC application. For individuals with disabilities, individuals who speak a language other than English, or individuals who need technical assistance, DELC can provide assistance.

In addition to our rulemaking processes, DELC communicated widely with diverse audiences in the development of agency legislative concepts and budget priorities. In preparation for the 2025-2027 biennium, the agency conducted extensive outreach to socialize agency legislative and budget proposals in order to ensure that agency priorities align with community need. Several existing tables were leveraged, such as the bi-weekly Early Learning Advocates meeting, which is widely attended by groups and individuals interested in early childhood policy, the DELC Early Learning Equity Engagement Committee, Child Care Resource and Referral Agencies, Early Learning Hubs, Head Start/Oregon Prenatal to Kindergarten providers, Relief Nurseries, various advocates and other key partners. DELC will continue to engage and incorporate feedback from these communities as the agency moves towards the 2025 legislative session.

DELC grounds its programs, policies, and practices in research and evaluation. DELC has regularly conducted needs assessment activities, with a focus on hearing multiple perspectives and reaching historically underrepresented communities across the state. The agency partners with

research and community-based organizations to ensure deep understanding of the needs of the communities in Oregon. DELC relies on multiple sources of information to support the agency's decision making. Research reports, containing perspectives from multiple sources, are often synthesized to represent the needs and recommendations of the early childhood community. These essential research activities, however, are extremely difficult to sustain without dedicated resources.

RACIAL EQUITY IMPACT STATEMENT FOLLOW UP MEMO: PRESCHOOL PROMISE

Overview of the program

Preschool Promise Program launched in 2016 and was expanded statewide in 2020. The program aims to provide free high-quality preschool for families across the state and offers funding to offer adequate wages for preschool employees. Our agency also seeks to promote equitable access to state funding for women, minority owned and small businesses across the state of Oregon. Since 2020 the Department of Early Learning and Care (DELC) has been granting directly with over 150 entities across the state to provide Preschool Promise, many of whom are small, minority- and women-owned businesses, or are culturally specific organizations The ability to grant with culturally specific organizations allows the Agency to ensure that Preschool Promise enrolled children have access to culturally responsive learning opportunities.

Preschool Promise is publicly funded and serves families with incomes at or below 200% of the Federal Poverty Level (FPL). Families are guaranteed at least 900 service hours annually and services for six hours per day, four days per week. The program incorporates a mixed-delivery approach, which recognizes that high-quality early learning experiences can take place in a wide variety of settings, giving families the ability to choose the setting that works best for them and their child. Settings include elementary schools, Head Start programs, Relief Nurseries, licensed centers and home-based child care programs, education service districts, culturally specific programs, and community-based organizations. As noted above, this mixed delivery enables Preschool Promise to work with variety of providers and organizations, and therefore better serve the diversity of Oregon's children. All programs are expected to adhere to program quality requirements that are associated with positive outcomes for children. Preschool Promise providers receive technical assistance to promote continuous quality improvement.

Funding made available as part of the 2023-25 Legislatively Approved Budget

In 2023-25 there were a total of $187.7 million total funds allocated to the Preschool Promise Program. This funding kept the program at its Current Service Level.

Progress towards reaching racial equity goals

The Agency expected that the launch and previous expansions of the Preschool Promise program would reduce barriers to accessing high-quality preschool for families furthest from opportunity. Since 2020, DELC has made sure that all Request for Applications (RFAs) are available in both English and Spanish. This was a significant step in allowing applicants to apply for state funding in their preferred language. Additionally, the Preschool Promise DELC team ensures that administrative components of Preschool Promise are available to grantees in English and Spanish. This includes email communications, forms, report requirements, and state meetings. DELC currently has close 40 grantees who prefer interacting with DELC in Spanish.

Expanding Preschool Promise, especially through its community-based mixed delivery model, has helped increase racial equity by reducing the opportunity gap in accessing high-quality preschool and providing a wider range of culturally specific opportunities within communities. DELC has a well-balanced mixed-delivery model, but it is crucial to ensure that families farthest from opportunities are being reached. Based on the most recent data from the 2022-2023 program year, we are successfully reaching families farthest from opportunities and offering a high number of culturally specific programs.

One unintended racial equity consequence is that, given our mixed-delivery structure, not all programs offer transportation. Many of our small home-based providers do not offer transportation, yet they serve families of diverse backgrounds. While the Preschool Promise offers an increased payment for transportation services, it is often not sufficient to support a home-based program to begin offering transportation services. The inability to provide transportation unintentionally creates barriers for these families to enroll in Preschool Promise. In addition, small, home-based providers have faced challenges in obtaining the necessary insurance limits required by the program, particularly as insurance rates increase and insurance companies attribute higher risks to home-based programs, or are no longer offering the required levels of insurance to these programs. Throughout the years, DELC has collaborated closely with the

Department of Administrative Services to address this issue and minimize obstacles, but will need continued support from agency partners to mitigate this growing challenge.

Preschool Promise has demonstrated significant success in expanding services for children and families across the state, and in providing access to state funds for small, minority- and women-owned businesses. DELC remains committed to continuing this program.

RACIAL EQUITY IMPACT STATEMENT FOLLOW UP MEMO: BABY PROMISE

Overview of the Program

Baby Promise is a publicly funded, high-quality infant-toddler program for families with incomes at or below 200% of the Federal Poverty Level. DELC anticipated the program would both increase access to high-quality infant- toddler care (6 weeks through 3 years of age) and enhance quality in existing Early Learning and Care Programs in Oregon through full day, full year care and education. Baby Promise offers funded slots to children of families who are income eligible for the Employment Related Day Care (ERDC) Program. The Baby Promise Program is focused on serving low-income families in communities struggling to find and keep high-quality care for infants and toddlers. DELC distributes the Baby Promise grant funds to regional organizations or agencies. Through ERDC subsidies, families from low income communities are served.

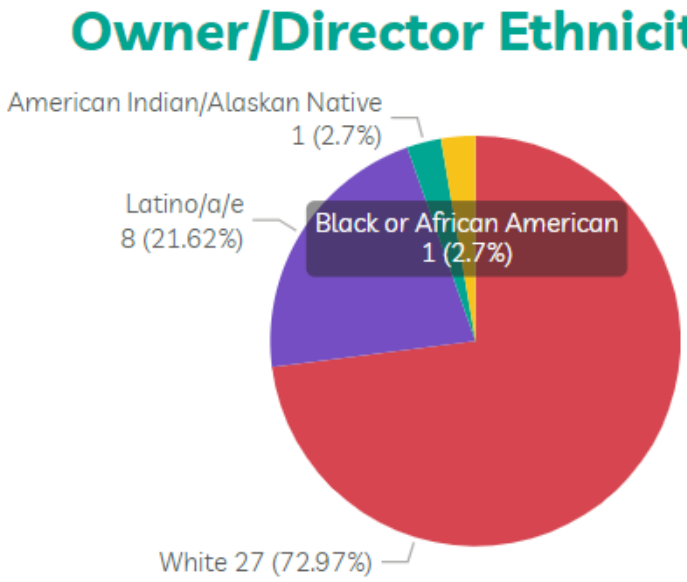
Further, Baby Promise incorporates a mixed-delivery approach, which recognizes that high-quality early learning experiences can take place in a wide variety of settings, giving families the ability to choose the setting that works best for them and their child. Because of this mixed-delivery model, Baby Promise can work directly with culturally specific community-based organizations and providers to offer high-quality culturally specific and publicly funded infant and toddler care. Finally, Baby Promise pays child care providers for a "slot," stabilizing the program if a family leaves and supporting a living wage for child care providers by paying the true cost of care, rather than the market rate. DELC anticipated that the mixed-delivery and slot model would offer families choice, and positively impact sustainability of infant-toddler providers.

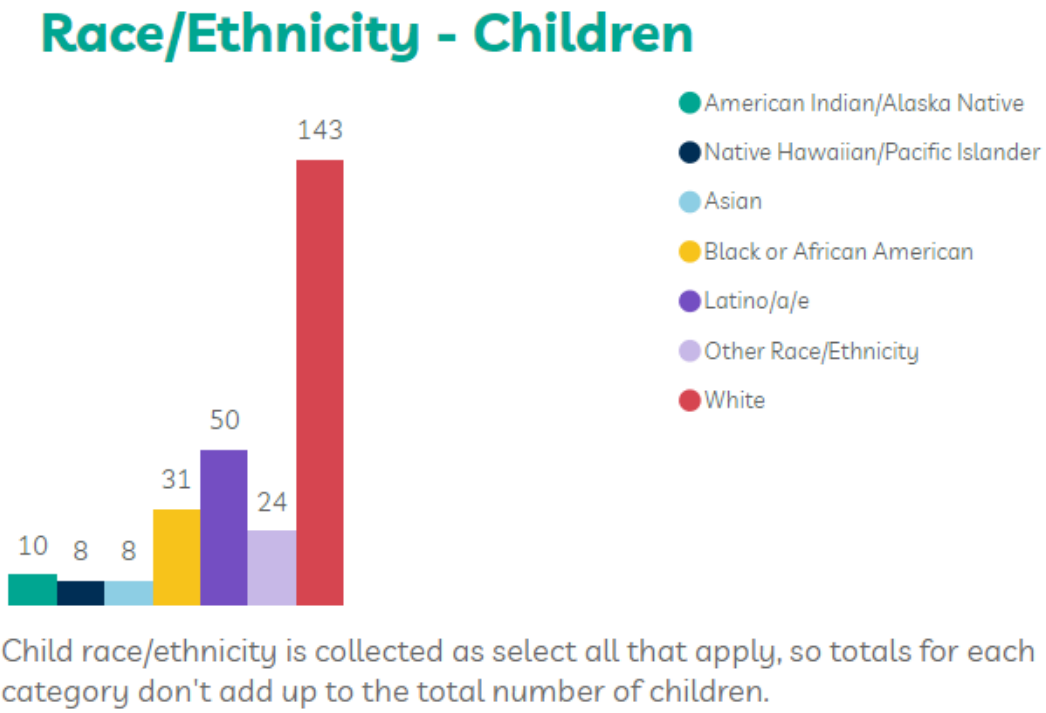
Funding made available as part of the 2023-25 Legislatively Approved Budget

DELC requested additional funding to expand the Baby Promise program beyond the three existing regions for the 2023-2025 biennium. However, the program only received funding for maintenance of current enrollment with no additional funds for growth (the award was less than the request). In addition, in November of 2023 the ERDC program began a waitlist process, thus preventing grantees from enrolling new eligible families into the Baby Promise program. As a result, the Baby Promise Program is currently wait-listing eligible families and providers and does not have the funding to expand.

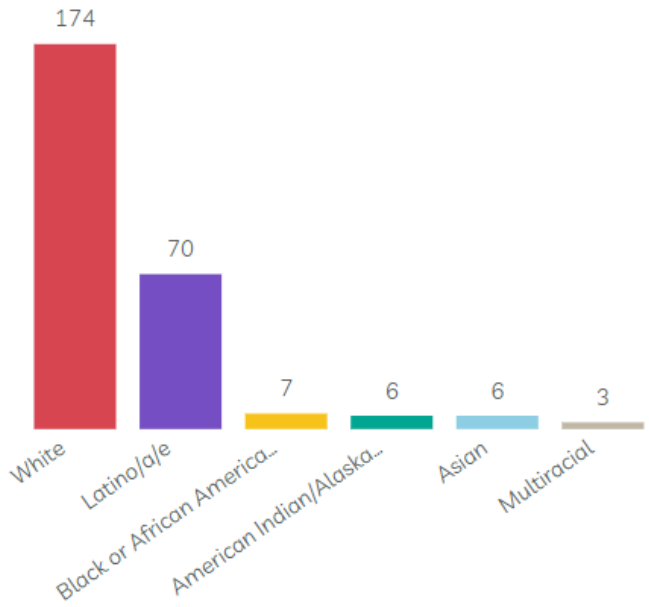
Progress towards reaching racial equity goals

The Baby Promise Program has demonstrated ethnic and racial equity in terms of family and provider diversity. The graphics below demonstrate this data collected for 2023 – 2024 for business owner/directors, children enrolled, and staff employed in the program. Note that there is alignment between owner/staff and children's identified race/ethnicity.





All Staff Ethnicity/Race



Potential unintended racial equity consequences may be found in two areas. First, when the Baby Promise program launched, guidance was offered only in English, thus preventing those whose preferred language is not English to participate without translation assistance. This was remedied in April 2024 when DELC was able to offer translations of materials in numerous languages, allowing all providers to equally access guidance. This has resulted in regional grantees having the ability to reach out to more providers who serve infants and toddlers who may wish to offer Baby Promise slots, and more families seeking care and education in their preferred language, to find a provider who speaks that language.

Second, requirements for Baby Promise early educators included levels of education and training not always possible for some staff to attain. Some providers have training from other countries, do not have access to training in their preferred language, or manage a small business that does not demonstrate high-quality as defined and articulated by the state's current quality recognition system (Spark). Remedies are in process for these barriers. Spark is under current re-design that will offer providers more flexibility in their demonstration of high-quality care and education. A process for reviewing and accepting international degrees and course work by agencies who perform that work, and agencies who offer training education are increasing such training in more languages.

When funding becomes available, Baby Promise will benefit from the ability to expand services, adding a more diverse population of providers who serve families in non-dominant culture backgrounds and in other regions in Oregon.

RACIAL EQUITY IMPACT STATEMENT FOLLOW UP MEMO: EARLY LEARNING PROGRAM WAGES

Overview of the Program

The early learning and care workforce is critical to Oregon's economy, but low wages have contributed to a workforce shortage that the legislature continued to address in 2023. House Bill 5013 Package 801, a Legislative Fiscal Office Analyst Adjustment, directed the Department of Early Learning and Care (DELC) to increase grantee base rates for investments in strategies that promote staff recruitment and retention. Package 801 identified five programs: Early Childhood Equity Fund, Healthy Families Oregon, Oregon Prenatal to Kindergarten, Preschool Promise, and Relief Nurseries. This investment aligns with goal four of Growing Oregon Together, DELC's strategic plan. Goal Four, is focused on ensuring the early learning and child care workforce is diverse, culturally responsive, highly qualified, and well compensated.

Funding made available as part of the 2023-25 LAB

In the 2023-2025 biennium, as part of the Department of Early Learning and Care's Grant in Aid budget, House Bill 5013 allocated a total of $48.4 million in Package 801 to increase the base funding for the following early learning and home visiting programs:

• Early Childhood Equity Fund	$1.7 million	General Fund
• Healthy Families Oregon	$2.8 million	Other Fund- Early Learning Account
• Oregon Prenatal to Kindergarten	$25.6 million	Other Fund- Early Learning Account
• Preschool Promise	$16.7 million	Other Fund- Early Learning Account
• Relief Nurseries	$1.6 million	General Fund.

Not included above is an additional $1.2 million General Fund that was allocated specifically to Lincoln County for a reinstatement of previously lost services.

Progress towards reaching racial equity goals

Funding was distributed to all identified programs with use of funds effective July 1, 2023 through June 30, 2025. The grant amendments identified these funds as a dedicated allocation for 'Staff Supports' and can only be used on 'strategies that promote the recruitment, retention, and compensation of qualified staff and must supplement and not supplant existing funding used for similar purposes or strategies.
DELC will collect data related to this investment in the end of biennium reports collected by October 15, 2025. Reporting data will include staff demographic data, strategies used to promote staff recruitment and retention, and impact.

The two largest programs identified in Package 801 are the Oregon Prenatal to Kindergarten (OPK) and Preschool Promise. Both of these programs have established, through Oregon Administrative Rules, salary minimums and targets (Table 2). The target ten month salary, based on the hourly rate in Table 2, for a lead teacher with a bachelor's degree or Step 10 in the Oregon Registry is $63,000. The target ten month salary, based on the hourly rate in Table 2, for an assistant teacher with a Child Development Associates (CDA) or Step 7 or above in the Oregon Registry is $38,000. Since the adoption of the guidelines in 2020 and with new investments in both programs with funds from the Student Success Act Early Learning Account, salaries for teachers and assistants has increased in both programs.

Tables 3, 4, 5 and 6provide examples of how race and ethnicity demographic data is currently being collected in the Preschool Promise and OPK programs. This information will be used as baseline data for comparison and evaluation of the impact the new investments from Package 801 have on the 2023-2025 biennium.

LFO Recommendation:

The Legislative Fiscal Office recommends that the KPMs be approved as presented.

LFO notes that the Department of Early Learning and Care will start as a new agency as of July 1, 2023, and has the opportunity over the next biennium to evaluate its operations and performance with an eye toward which of its KPMs provide useful information for helping the agency to achieve its mission and goals. DELC has proposed one new KPM already (#6) in order to monitor its progress toward resolving and eliminating a backlog of applications for background checks through its Central Background Registry (CBR). The CBR is a comprehensive background check system that is mandatory for obtaining federal funds through the Child Care and Development Fund (CCDF). These background checks involve a multistep process, encompassing in-state, out-of-state, and federal checks, which are based on fingerprints. DELC's goal is to achieve full recovery from the CBR application backlog that began in 2022 and continued into early 2023 and to provide efficient background check services for Oregon's child care work force, approving applicants in four weeks or less. In closely monitoring this KPM over the next biennium and identifying opportunities to increase efficiencies, ensure appropriate staffing levels are in place, and transition to an improved licensing database, DELC expects to achieve three percent increases in timely CBR approvals as part of the Annual Performance Progress Reports in 2024 and another three percent increase again in 2025.

In order to establish baseline data for its customer service KPM (#7), DELC is designing and will launch a customer survey after it begins operations July 1.

SubCommittee Action:

The Subcommittee approved the KPMs as presented.

Mission Statement and Statutory Authority

The Department of Early Learning and Care's (DELC) mission is to foster coordinated, culturally appropriate, and family-centered services that recognize and respect the strengths and needs of all children, families and early learning and care professionals.

The agency's vision is that all children, families, early learning and care professionals and communities are supported and empowered to thrive.

DELC's work is guided by the following values:

- **EQUITY:** We are committed to dismantling the systems of oppression that harm and create disparities for communities who are historically and institutionally excluded. We are adopting anti-racist principles, expanding access to services, and ensuring community representation and shared power in agency efforts. We are fostering a culturally responsive environment in which all individuals can experience a sense of belonging as they access programs, services, and resources.

- **RESPECT:** We believe that family is a child's first teacher. We are committed to nurturing family partnerships built on mutual respect. We recognize and value the knowledge and experiences of families, early care and education professionals, and community partners.

- **TRUST:** We value the public's trust through honesty, transparency, and keeping our commitments.

- **RELATIONSHIPS:** We acknowledge the importance of nurturing relationships in the field and with community. We listen to, support, collaborate with, and celebrate the professionals, families, and children in our communities.

- **SAFETY:** We put safety and well-being first for our children, families, and early learning and care professionals.

- **CONTINUOUS IMPROVEMENT:** We set goals, seek input from community, and use data to improve quality of service and programs, increase quality and efficiency, and drive innovation.

- **INTEGRITY:** We are accountable for our actions, decisions, and our work to reliably achieve high-quality outcomes.

BUDGET NARRATIVE

The Department of Early Learning and Care receives its statutory authority from Oregon Revised Statutes (ORS) Chapter 329A and ORS 326.325 - 326.435, 329.160 - 329.425, 336.101, 336.104, and 417.705 - 417.795. The agency, via the Early Learning Council, promulgates rules in Chapter 414 of the Oregon Administrative Code.

Agency Strategic Business Plan

In June, 2024, the Department of Early Learning and Care released its first strategic plan, *Growing Oregon Together*, along with the agency's DEI Action Plan. *Growing Oregon Together* is a five-year plan that seeks to be both ambitious and achievable. It was built off the work that led to the creation of DELC, as well as the latest edition of *Raise Up Oregon*, the statewide early childhood system plan developed by the Early Learning Council. In addition, DELC received input from over 200 staff and more than 700 community partners in developing this plan.

Growing Oregon Together is organized around six goals:

- **ACCESS:** All families have access to high-quality (culturally responsive, inclusive, developmentally appropriate) and affordable early learning and care that meets their needs.

- **TRIBAL SOVEREIGNTY:** DELC honors and recognizes the sovereignty of the nine federally recognized Tribal Nations within Oregon and ensures strong government-to-government relationships to benefit Tribal communities.

- **INFANTS & TODDLERS:** All families with infants and toddlers are supported through early learning and care programs that recognize and meet their unique needs.

- **WORKFORCE:** The early learning and child care workforce is diverse, culturally responsive, highly qualified, and well compensated.

- **RELATIONSHIPS:** DELC deepens community engagement and empowerment, sustains partnerships, and communicates effectively.

- **FOUNDATIONS:** DELC develops and improves operational foundations to efficiently serve Oregonians.

Under each of the six goals, DELC has identified specific objectives and strategies it will operationalize over the next five years to achieve *Growing Oregon Together*. In order to ensure that the plan is both ambitious and achievable, DELC identified a balance of strategies that could be completed with existing resource and capacity, as well as long-term strategies that require additional resources. DELC also analyzed the plan to make sure that work was reasonably distributed over the next five years, with work on some strategies already underway, some starting during the second and third years of the plan, and others commencing in the final two.

Growing Oregon Together also starts with a recognition that DELC cannot do this work alone. This work happens in a complex ecosystem that involves scores of partners whose critical effort, creativity, and commitment to positive outcomes for those engaged in early learning and care cannot be understated. DELC depends on, and embraces, many vibrant, caring partners, such as afterschool programs, child care centers, Child Care Resource and Referral agencies, culturally specific service organizations, Head Start and Early Head Start, Early Learning Hubs, family child care homes, home visiting programs, infant and early childhood mental health consultants, preschool programs, relief nurseries, trainers, and others who work in communities throughout the state. These partners reflect the rich diversity of the early childhood workforce and Oregon's families, and they are grounded in Oregon's communities, rural or urban.

2025-27 Legislative and Budget Priorities

While *Growing Oregon Together* outlines six goals for DELC to address over the next five years, the Agency will prioritize two of these goals to support the early learning and child care sector in the 2025-27 biennium:

1. **Foundations:** Ensure the sustainable operations of the new Department of Early Learning and Care to provide necessary infrastructure for early learning and child care.
2. **Access:** Ensure children and families have access to the resources and supports to foster a love of reading and promote literacy in the early years.

Foundations: As a new agency, DELC has had to develop new functions and services to best serve children, families, and providers across the state. As the Agency concludes its first year of operations, more information has become available regarding the level of staffing necessary to provide strong customer service to the Oregonians who receive agency services. This includes operational staff to manage state resources, hire staff, and assess the quality of publicly funded programs, as well as capacity to ensure sufficient monitoring and safety of licensed child care programs. DELC aims to prioritize customer service and strong operations, while operating as leanly as possible. This is why the DELC staffing and operations budget constitutes 9% of the overall ARB. Reinforcing a strong foundation will allow DELC to operate more efficiently in the future, particularly as additional infrastructure and systems launch throughout the 2025-27 biennium.

Access: As DELC continues to promote access to high quality early learning and care settings, it is critical that this includes literacy development in these early years – long before a child walks through the doors of their elementary school. DELC is prioritizing resources to promote early literacy development, by supporting professional development, getting books into the hands of children, and lifting up the long history of culturally-relevant literacy practices in communities.

2025-27 Agency Initiatives

The Department of Early Learning and Care has identified the following initiatives and policy option packages (POPs) for the 2025-27 biennium. These initiatives reflect the following priorities of the Agency:

1. The Department of Early Learning and Care has the operational capacity to support the necessary work of the agency.
2. Families and early childhood educators have the resources they need to promote early literacy from birth through age five.
3. Child Care Licensing has the presence needed to continue to meet federal timelines, monitor for child health and safety in a timely manner, and provide a high level of customer service meeting the compliance needs of licensed child care providers in Oregon.

POP 101 Operational Support - $5,737,976 General Fund, 15 positions (12.81 FTE)

The purpose of this package is to address workload capacity needs as well as ongoing operating expenses. As DELC continues to stand up its operations there are areas of agency operations where workload and professional services are at capacity and additional resources are needed to continue to support DELC's programs and maintain a high-level of customer service.

POP 105 CCLD Staffing - $3,117,635 Federal Funds, 13 positions (12.06 FTE)
The purpose of this POP is to align Department of Early Learning and Care (DELC) licensing caseloads within national best practice recommendations and allow the Department to better meet the customer service, language, and compliance needs of licensed child care providers in Oregon.

POP 580 Birth Through Five Literacy - $24,841,500 General Fund
The Birth Through Five Literacy Plan is intended to increase access to culturally-specific early literacy programs for children from birth to age five, to provide training and coaching for direct service staff in early literacy, and to develop and expand language revitalization efforts by federal recognized Indian Tribes in Oregon.

Criteria for 2025-27 Budget Development:

Building Solid Foundations:

- Will the program support the Agency to be a good steward of public funds?
- Will the program support strong customer service to Oregonians who use Agency services?
- Will the program give the Agency the capacity to promote access to high quality early learning and care, support the workforce, and center Tribal sovereignty?

Promoting Early Literacy Through Access to High Quality Early Learning and Care Settings:

- Will the program center early literacy as a foundational goal?
- Will the program support families and promote early literacy in the home?
- Will the program expand and develop language revitalization efforts by federally recognized Indian Tribes in this state?
- Will the program establish and support culturally-specific parent and child support programs in all parts of the state?
- Will the program provide research-aligned, developmentally appropriate professional training and coaching for direct service staff in early literacy?

Major Technology Projects and Initiatives

The Department of Early Learning and Care (DELC) is a new state agency. Accordingly, major Information Technology Project/Investments focus on the migration and implementation of core systems and the development of IT capability and capacity. The DELC IT Governance Committee has approved an IT Strategic Plan to guide the growth of DELC IT, and includes these goals:

- Be the Partner of Choice for all Technology Solutions,
- Promote IT Operational Excellence
- Promote Data Excellence,
- Promote IT & Data Governance,
- Identify Sustainable Solutions,
- Employ an Enthusiastic and Adaptable Workforce.

Additionally, the IT Strategic Plan outlines several important IT investments which are planned for the coming years. The most significant projects which are planned for the 2025-27 biennium include the following:

The Provider Management Platform (PMP) will replace legacy technology systems which support the Employment Related Day Care (ERDC) – which migrated from the Oregon Department of Human Services on July 1, 2023 – and Child Care Licensing programs. Necessary to support the intent of HB 3073 (2021), PMP will modernize core systems and processes, streamline ERDC subsidy payments, and enhance service delivery for providers, applicants, and families. The PMP project aligns with the DELC IT Strategic Plan vision to be "a collaborative and trusted partner providing modern, forward-thinking, and data-driven solutions." Additionally, the PMP project directly supports the DELC Strategic Plan goal of access, where “all families have access to high-quality (culturally responsive, inclusive, developmentally appropriate) and affordable early learning and care that meets their needs.”

Removes additional inflation allowed in Package 032.	Inflation used to support the cost of non-state relatd personnel costs. Would impact the following programs: OPK, Preschool Promise, ECEF, Early Learning Professional Development, Early Learning Parenting Education, Early Learning Professional Supports, Mental & Behavior Health, Child Care Supports, ERDC, HFO, Relief Nurseries, Early Learning Hubs, Tribal Hubs, KPI, and Other Early Learning Grants.	$ 10,251,970		$ 8,947,158		$ 5,736,884		$ 24,936,012	1
Other Early Learning Grants	General Fund reduction impacts the technical assistance program supporting early educators to apply for Child Care Infrastructure Funds. This would reduce the number of early learning programs that could access support to build business plans, apply for expansion of services to children and supports to the small businesses seeking to stabilize their program operations to serve children. The reduction to Other Funds has no impact to services and is associated with empty limitation.	$ 177,785		$ 1,366,550				$ 1,544,335	2
Early Learning Program Supports	Estimated impact to 33 Preschool Promise classrooms not receiving coaching supports, classroom observations, and technical assistance. Reduces program by 2% OF.			$ 283,157				$ 283,157	3

Budget Narrative

Early Learning KPI	This reduction would minimize services to hundreds of children and their families which would negatively impact transitions to kindergarten. It would also reduce professional development opportunities for preschool and kindergaten educators. Reduces KPI by 5% GF.	$ 502,439						$ 502,439	4
Early Learning Hubs	Would decrease staffing within Hub programs which are already operating with deficits. Reduces GF by 5%	$ 867,637						$ 867,637	5
Early Learning Parenting Education	Decreased access to parenting education curricula for approximately 200 families (multi series evidence-based/culturally-responsive parenting programs along with parallel child programming that have been shown to significantly reduce abuse and neglect while increasing positive parent-child relationships and attachment and family well-being). OR the equivalent of 1200 family workshops.			$ 225,973				$ 225,973	6
Early Learning Professional Development	Reduces Early Learning Account funding impacting professional learning and workforce initiatives including the early childhood higher education consortium, reductions to programs that will decrease the number of higher level training offerings for child care providers, reduces the number of positions funded to provide supports to programs serving children with disabilities, reduces centralized coaching system supports, business acumen training and coaching for child care, reduces funding to the statewide subpool supporting child care programs and funding to develop more accessible quality improvement and career pathway supports. Reduces OF by 2%			$ 582,604				$ 582,604	7

Budget Narrative

Healthy Families Oregon	Estimated impact to 82 famlies who would not receive monthly home visits due to approximately 5 fewer trained home visitors. Reduces HFO by 4% GF	$ 1,401,451						$ 1,401,451	8
Relief Nurseries	Estimated to impact 45 families with infant, toddler, and preschool aged children not receiving therapeutic classroom services and or home visiting resource supports. Recudes by 5% GF	$ 881,453						$ 881,453	9
Oregon Prenatal to Kindergarten	Estimated impact is 582 fewer families and children receiving home visits and high quality center based infant, toddler, and preschool services. Reduces OPK by 4% GF and 4% OF.	$ 7,087,724		$ 8,558,867				$ 15,646,591	10
Preschool Promise	Estimated impact is 481 children and famlies would no longer receive high quality preschool services and potential destablizing on small women owned businesses. Reduces PSP 3% GF and 4% OF	$ 1,327,834		$ 5,985,540				$ 7,313,374	11

Budget Narrative

ERDC	A reduction of $14,709,071 GF would mean the caseload would have to be reduced by 8,755 cases , and a further reduction of $4,552,450 FF would mean the caseload would have to be reduced by an additional 2,710 cases. ERDC currently has an active waitlist to manage the caseload, however even with a waitlist in place, the caseload continues to grow at a slow rate because few families are leaving the program and there are certain populations that bypass the waitlist. The populations that bypass the waitlist include those receiving TANF, Temporary Assistance for Domestic Violence Survivor Grant recipients, those being placed in a Head Start contracted slot, those referred by Child Welfare, and recent ERDC recipients. In order to reduce the caseload to align with these budget reductions, ERDC would be required to close all bypass populations listed above and limiting ERDC to only those currently on the caseload. The bypass populations would need to be closed for 7 months. GF reduction of 4% and FF reduction of 3.6%.	$ 14,709,071				$ 4,552,450		$ 19,261,521	12
Child Care Supports	The GF and OF reduction would reduce the number and duration of professional learning cohorts within the Focused Child Care Network. The FF reduction would impact work that is required of the Child Care Development Fund affecting quality supports through Western Oregon University. Reduces by program by 5% GF and 3% FF.	$ 270,180				$ 1,693,810		$ 1,963,990	13

Budget Narrative

Agency Reduction Exercise

ORS 291.206 requires that "each agency request budget include options for a 10[%] reduction" from Current Service Level (CSL) estimates. CSL includes 4.2% inflationary adjustment across the majority of funding types which, for the Department of Early Learning and Care, includes:

- General Fund (GF)
- Federal Funds (FF)
- Other Funds (OF)
    - This includes the Student Success Act – Early Learning Account (ELA).

Agencies much provide these reductions in 5% increments. For the 2025-27 biennium, DELC must recommend reductions totaling approximately $150 million across all funding types.

The Agency developed reduction principles to aid in this exercise based on the values of DELC, the community input received through the development of strategic planning and budget development, and the Governor's Agency Expectations.

First, take reductions to internal operations:

- Remove additional exceptional inflation for contracts that pay for non-state personnel.

Then, look at direct service delivery through grant-in-aid, beginning with an equal cut to programs and adjusted based on the following criteria:

1. Align with the Governor's priorities, including early literacy and Tribal sovereignty;
2. Prioritize direct service to children and families, particularly those that provide child care services;
3. Prioritize direct service to providers, particularly as it relates to the upcoming prohibition on suspension and expulsion activities;
4. Consider program enrollment status and service delivery;
5. Consider scope of impact (how many children/families could lose access to services);
6. Consider the likelihood of recovery or the ability to continue operating;
7. Consider legislative support for programmatic success.

The following documents represent the program prioritize of the agency, as well as the recommended budget reductions required by ORS 291.206.

Revenue Narrative

Source of Funds: Other Funds

Revenues that support the Agency's Other Funds include the Early Learning Account, child care licensing fees, asset forfeiture proceeds from local law enforcement agencies, Title XX and Title IVB-2 funds from the Oregon Department of Human Services, Title XIX funds from the Oregon Health Authority, transfers from the Bureau of Labor and Industries, interest earnings and grants from private foundations.

Any required matching funds: Yes

- Title XIX – federal Medicaid dollars received from the Oregon Health Authority require a 50% match of payment request for time studies completed by providers of Healthy Families Oregon grants. Agency utilizes General Fund received from Healthy Families Oregon grant-in-aid for this match.
- Title IV B-2 – federal funds received from the Oregon Department of Human Services, has a 25% matching funds component. Agency utilizes General Fund received from the Early Learning Hubs program.

DARO manages the agency's data governance structures and provides data analyses and products related to early learning, child care, and education services, including ensuring that data collection methods and infrastructure are developed that enable the agency to capture accurate and reliable information. The unit takes these outputs and generates analyses for the department to support staff to monitor and improve individual programs through data-driven evidence. The office manages agency key performance measures and indicators for DELC's operations and early learning and care programs as well as manages DELC's research efforts, overseeing the connections between university-based researchers, state agency staff, the network of child care resource and referral entities, and child care practitioners.

Additionally, OTA is responsible for creating and implementing a Tribal Consultation and Communication Policy to formalize consultation processes, ensuring Tribal voices and priorities are integral to decision-making. OTA ensures equitable access to culturally affirming early learning programs and services for Tribal children and families.

Child Care Licensing Division

The Child Care Licensing Division's (CCLD) primary function is to ensure health and safety of children within child care settings. CCLD serves families as a form of consumer protection when selecting child care for their children. A licensed child care program in Oregon ensures a set of standards are met that are foundational to the wellbeing of children in care. CCLD's unique role balances the challenges the child care industry faces while prioritizing child care safety. CCLD approaches compliance with health and safety standards through education, technical assistance, and providing resources and maintains a strong customer service lens to ensure license holders have all the information they need to be successful. A description of the individual units are below.

- **Field Operations Office: (Include all Field Offices)** – CCLD has several field offices across the state (Portland, Tualatin, Salem, Eugene, Medford, Redmond, La Grande) which house the licensing team. The primary purpose of this team is to conduct inspections of child care facilities to assess compliance with child care rules, and to provide technical assistance and resources to child care providers to maintain compliance. Licensing Specialists are the primary point of contact for CCLD when a provider needs assistance with child care regulations. In order to prepare child care providers for licensing, Licensing Specialists offer training in partnership with regional Child Care Resource and Referral agencies for registered family providers, on-site visits or 1-on-1 phone calls. CCLD staff conduct initial licensing inspections, with subsequent monitoring and renewal inspections, to ensure that rules are met and compliance is maintained. Each field office has a manager and senior licensing specialist assigned to ensure consistency and quality of licensing practice. The licensing team is responsible for ensuring corrective action from each child care provider when noncompliance is observed, and following up to ensure compliance is restored. CCLD staff assess and regulate licensed facilities. Licensing staff also provide technical assistance and advice to a facility or provider/director to help them maintain compliance with the rules.

- **Central Office** – CCLD's Central Office houses several different teams: Background, Compliance, Legal and Enforcement, Customer Service and Intake. These teams receive, process and investigate complaints, enroll and remove subject individuals in the Central Background Registry, and take legal action on licenses when the health and safety of children in care is at risk. In addition, several administrative functions are held within central office, such as public records requests, filing and mail, and front desk functions.

- **Customer Service and Intake Unit** – The Customer Service team supports CCLD by responding to inquiries from the public, providers, and other interested parties. They receive inquiries via telephone or email and provide information regarding CCLD application processing and program requirements, explain rules and policies and clarify processes or direct the caller to the appropriate party within CCLD. This team's work is important in providing essential information to various groups and connecting the public and child care providers with the relevant persons at CCLD.

The Intake team supports CCLD by conducting a thorough check on all incoming applications in multiple state data systems. They review facility license and Central Background Registry enrollment applications for completeness and accuracy and make determinations regarding a course of action whether an application is complete or if it needs further information, they reach out to the applicant for additional information. Once it is complete, it is assigned to either the background unit or to the licensing team to schedule a visit with the applicant.

- **Background Check Unit** – The Background team conducts background checks for licensed, recorded programs and license-exempt child care providers in the state in order to determine the eligibility of individuals to be enrolled in CCLD's Central Background Registry and thus be permitted to work in child care facilities and other programs. The team runs a series of checks including criminal history, child protective services, sex offender registries, adult protective services, and fingerprint checks through the Oregon State Police and the FBI databases. This team works closely with the Compliance team to ensure that CCLD conducts a thorough assessment of persons with access to children in child care facilities and recorded programs to ensure the health and safety of Oregon's child care children.

- **Investigations Unit** – The Investigations team conducts tandem investigations with the Oregon Department of Human Services' Office of Training, Investigations and Safety (OTIS) or Child Protective Services (CPS), and sometimes law enforcement agencies when a complaint is received involving a child care provider/director or staff member, and allegations of possible violations of rules of certification or registration. The Investigative Specialists also conduct complaint visits, investigates allegations of illegal care, follow-up and compliance verification visits for child care programs either in conjunction with CCLD field staff or independently. This team carries out activities to determine whether a complaint allegation is valid, unable to substantiate or invalid. Assessments include a visit, interviews with the provider/director and staff, records review, program observation, etc. This important work addresses concerns that come in from the public and other sources where it is concerning for the health and safety of children in child caring programs across the state.

- **Compliance Unit** – The Compliance team oversees legal actions and hearings with progressive sanctioning starting at the lowest level prior to taking stronger legal actions when noncompliance is observed, while prioritizing child health and safety when deciding the course of action**.** Examples of legal actions this team handles include civil penalties, suspension or revocation of Central Background Registry or child care facility license, or placing conditions on a license. CCLD's compliance team ensures swift response when it receives information of harm to a child in care, such as in cases of founded abuse or neglect from partnering agencies. CCLD's compliance team oversees legal hearings, including prep with DOJ.

  In addition, the team receives and assigns complaints that are reported to CCLD, and provides information to the public inquiring about a child care facility's compliance history. The work of this group is important in coordinating the research and evaluation of concerns related to safety of children in child care settings and for navigating through these concerns in a fair and equitable way for the license holder.

- **CCLD Policy and Administration** – The CCLD Policy and Administration team is assigned licensed and unlicensed child care rule revision work, project improvement tasks as well as development and recommendations of CCLD Policy. This team also oversees communications, and training of staff on new rules, policies or project improvements.

Funding Streams

The revenue sources for the above programs consist of General Fund, Other Funds – Early Learning Account, Other Funds received from licensing fees, private grants, and Federal Funds. DELC's Federal funding consists of Child Care Development Block grant and Head Start Collaboration grant.

Package 060 Technical Adjustment

Package Description

This package is used for technical budget adjustments that net to zero on a fund type basis. This package includes adjustments related to an agency reorganization. Based on analysis after agency stand up, several organizational structure adjustments were identified and executed, including: repurposing the former Chief Operating Officer position to be the Deputy Director of Operations; moving the Child Care Licensing Division underneath the Programs Division; repurposing the Chief of Staff position to be the agency's Chief Strategic Advisor; and establishing a Chief Data Officer to bring together and manage the previously disparate data, analysis, quality assurance and research functions of the agency.

Department of Early Learning and Care

Policy Option Package (POP): 101

POP Title: Operational Support

Total Request: $ 5,737,976

Purpose: This policy package addresses workload capacity needs, ongoing support of maintenance and operations of operational databases, and increases professional services to support contracts and services in place when DELC was part of Oregon Department of Education as ELD.

Background: As DELC continues to stand up operationally it has became evident more support is needed in a multiple areas of agency operations, particularly since DELC cannot rely on accrued savings like more established agencies. As programs have been fully stood up and in some cases expanded during the 2024 short session, the DELC Operations division needs additional staffing to support Program staff and grant payments. The package also requests additional funding to support ongoing maintenance and operations of operational databases. These additional professional services would support contracts/services in place when DELC was part of ELD. It also become evident that as Programs were scaled up statewide due the student success act investments in 2019, capacity for quality assurance has not kept up with program monitoring.

How Achieved: There are two parts to this request. First, DELC is requesting 15 positions (12.81 FTE) and associated service and supply position related costs across its Operations and Program divisions. The second part of this requests addresses an increased on-going need in Professional Services.

The details of the positions are as follows:

Operations Office

Financial Services:

- **Accountant 2 Limited Duration** – This position is being requested as Limited Duration with a proposed start date of January 1, 2026 to align with the implementation of the Provider Management Platform (PMP) system coming online. This position would coordinate PMP invoicing and accounting data migration.

- **Accountant 1** – This position will be a dedicated Accounts Receivable (A/R) position needed to address ongoing workload. DELC has over 195 A/R accounts and processes upwards of 25 plus invoices per month. There is a lot of reconciliation that must take place month to month to process these invoices. Under DELC's current structure there is no dedicated A/R accountant.

- **Accounting Technician** – This is one of three Accounting Technician positions being requested. Two of the Accounting Technician positions were requested in the 2023 – 2025 Agency Request Budget, but were not part of the Legislatively Adopted Budget. This position would be one of two Accounting Technicians to handle the large volume of Accounts Payable (A/P) invoices. The focus of this position would be to process travel claims. With a large workforce conducting field work and site visits DELC had over 120 travel claims within the first six months of the 2023-25 biennium.

- **Accounting Technician** – This is the second Accounting Technician position to address A/P invoice workload needs. The focus of this position would be to serve as the SPOTS claims coordinator, DELC has 25 SPOTS cards across the agency and each card requires monthly reconciliation. In addition to the travel claim and SPOTS card transactions, DELC processes over 80 background check invoices per month. During the first six months of the 2023-25 biennium, all other invoices not mentioned totaled 930.

- **Accounting Technician** – The third Accounting Technician position has a delayed start date of January 1, 2026 to align with the implementation of PMP. This position will work closely with the LD Accountant 2 and will be the ongoing invoicing specialist when the LD position expires. The position will also be responsible for continued data migration and data archiving within the PMP system.

Budget Services:

- **Fiscal Analyst 2** – This position will focus on position management and will provide monitoring and oversight ensuring positions budgeted to CCDF continue to do CCDF related work. As each grant closes out there is a large volume of manual data entry that must take place moving each position off of one grant type to another. This occurs anywhere from monthly to quarterly depending on grant closeout dates. There is not a Workday solution for the manual entry. With statewide initiatives such as Pay Equity there continues to be a steady workload evaluating the budgetary impacts of these initiatives. With a current team of five budget staff this workload becomes a challenge to absorb. As Human Resources continues its classification work, the Budget team continues to see an increase in its budgetary position management duties.

Communications:

- **Public Affairs Specialist 3** – The public information officer will ensure media inquiries are handled swiftly and in a professional manner to increase transparency and build awareness while centering equity. This position will provide crisis communications strategies and will increase access to information. DELC currently contracts for some of this work which is not as cost effective as a permanent position. In addition to serving as the agency spokesperson and building a speaker training, this position will develop and lead both earned and owned media best practices and manage reporter relationships.

Data Analytics:

- **Operations and Policy Analyst 4** – Per DAS EIS's data governance and transparency policy, this position will serve as DELC's lead data steward and facilitate and provide leadership to DELC's unit level data stewards in the accomplishment of their duties to manage data within their discrete business units and data domains. This position will also liaise directly with the State Chief Data Officer on data governance within the agency and at the state enterprise level.

Human Resources:

- **Human Resource Specialist 3** - This position will focus on classification work. DELC currently contracts for some of this which has exceeded our budget and is not as cost effective as a permanent position. This work is ongoing as most of our positions need a class comp review since transitioning from ELD to DELC. As new positions are created those too need classification review. Noting here this position was also requested in the 2023-25 Agency Request Budget.

- **Human Resource Specialist 2** - This request is a reclassification of an existing full-time permanent Human Resource Assistant upward. It has been difficult to fill the position at the current classification level. Human Resource leadership evaluated the duties and found the workload supports a higher classification.

- **Operations & Policy Analyst 3** - This position will focus on policy work. This position will be responsible for ensuring the development of all DELC internal policies as well as tracking, coordinating, updating and ensuring alignment across all these agency policies as well as with enterprise policies.

Information Technology:

- **Information Services Specialist 5** - This position will be the primary coordinator for the Provider Management Platform and interface with the ERDC and licensing teams as well as the vendor to ensure the tool is designed and operating effectively. This position will also assume all the contract administration, project management, testing and updating of the tool once it is fully operational and as the platform nears full implementation. The proposed start date of this position is January 1, 2026 to align with PMP implementation.

Project Management Office:

- **Project Manager 3** - This position will focus on critical and ongoing agency-wide Organizational Change Management (OCM) work, including developing, coordinating and continually updating change management strategies, tools, and data related to change management. This position will coordinate and lead existing agency Lean Leaders and Project Managers towards system efficiencies, develop implementation plans for OCM strategies, verify quality of OCM specific deliverables in strategic planning efforts, and coach and train DELC staff on OCM concepts. Noting here this position was requested in the 2023-25 Agency Request Budget.

- **Project Manager 2** - This position will provide ongoing project management support across the agency for strategic projects as well as assist in training DELC staff on project management tools and principles. Additionally, this position will support that agency's numerous existing and planned project teams develop and align change management strategies and approaches critical to the successful implementation and adoption of the agency projects associated with the DELC strategic plan and remaining projects associated with fully establishing the foundations of the agency.

DELC Programs

Program Design:

- **Program Analyst 3** – This position will be the Healthy Families Oregon (HFO) Quality Assurance program specialist and will provide support for technical assistance and monitoring of the HFO program in alignment with national monitoring requirements. Based on ongoing workload the Program team has determined additional capacity is required to meet national accreditation requirements for monitoring compliance and quality assurance.

- **Program Analyst 3** – This position will focus primarily on quality monitoring for the Preschool Promise (PSP) program, particularly as a liaison with Child Care Resource and Referral entities and Early Learning Hubs in support of coordinated enrollment for the program. The PSP program expanded in 21/23 with no additional FTE to support the over 300 program sites and a current service level budget of $199,211,092. This position will provide monitoring, technical assistance, grantee communication and coordinated enrollment support.

For the second part of this policy package, DELC requests additional Services and Supply funding to support the ongoing maintenance needs of DELC systems (Awards Management System, Healthy Families Oregon, and PMP). DELC is also requesting additional Services and Supplies funding for Professional Services needs within our Human Resources and IT units.

Professional Services:

The package also requests additional funding to support ongoing maintenance and operations of operational databases as well as some Human Resource and IT professional service contracts some of which were previously covered when DELC was part of ODE. The details are as follows:

- Provider Management Platform - $1,300,000 ongoing maintenance and operation.
- Awards Management System - $375,000 ongoing maintenance and operation.
- Healthy Families Oregon database - $350,000 ongoing maintenance and operation.
- HR & IT professional services - $155,000 contract renewals (Info Tech, SHRM, LinkedIn).

Staffing Impact:
Establishes 14 permanent positions, one Limited Duration position, and reclassifies one permanent position upward (12.81 FTE).

Quantifying Results:
DELC will monitor the short-term and long-term success of the program in line with the following metrics:

- Increased processing times of both Accounts Receivable and Accounts Payable invoices.
- Implementation of the Provider Management Platform.
- Support of ongoing systems maintenance.
- Capacity to continue current professional services contracts.

Department of Early Learning and Care

Policy Option Package: 105

POP Title: Child Care Licensing Division Staffing Total Request: $3,117,636 Federal Funds

Purpose: POP 105 will align Department of Early Learning and Care (DELC) licensing caseloads with national best practice recommendations and allow the Department to better meet the customer service, language, and compliance needs of licensed child care providers in Oregon.

Background:

Licensing Staffing Needs:

- **Compliance Specialist 2 (10)** – The 10 Compliance Specialist 2 positions requested are primarily intended for bilingual-specific FTE to address the risk of inequity in this regard. In addition, a portion of these staffing requests will also be used to monitor Preschool Promise grantee sites for federally-required quality metrics.

There are multiple issues that have led to concern regarding the sustainability of licensing staff workload, and the ability of Child Care Licensing Division (CCLD) to adequately meet the needs of child care providers.

First, DELC now has the ability to analyze the workload impacts of Regulated Subsidy inspections (facilities exempt from licensing receiving Employment Related Day Care (ERDC) subsidy payments). Timely completion of these inspections is considered high priority, as providers are unable to receive ERDC payments until they have passed an inspection. These inspections are federally mandated through CCDF, and when originally implemented, there was insufficient data to determine the workload capacity that would be required. Recent improvements made to data analytics has uncovered a significant impact to workload unseen previously, placing an average caseload considerably higher than what is nationally recommended (through guidance used to determine the sufficient ratio of inspectors to providers needed for timely inspection, as is required by CCDF). The National Association for Regulatory Administration (NARA) recommends that an average caseload not exceed 50 to 60 child care programs per licensor (Payne, 2011). Current average caseloads exceed 68. Caseloads of specifically bilingual Spanish licensing staff (our highest statewide) are consistently between 70-75. In the most diverse areas of the state, bilingual staff caseloads are approximately 18% higher than the statewide average non-bilingual caseloads.

Second, CCDF federal requirements have recently required significant changes to unannounced monitoring visits for all licensed providers. Prior to these changes, a typical monitoring visit with no compliance issues took approximately 30 minutes per visit. These changes to inspection requirements have significantly increased inspection time; on average two-hours per routine visit with no regulatory violations, and up to four hours for large centers or facilities that struggle with compliance. As federal requirements for unannounced monitoring visits have increased, it is an operations concern that staff will be required to reduce the comprehensiveness of announced licensing visits, technical assistance and consultation in order to limit time spent in field where possible, and still meet federal inspection visit requirements. Licensors' ability to provide quality customer service and support for providers to maintain compliance will be at risk.

Additionally, several statewide and regional-level initiatives related to increasing supply of child care have placed a strain on the licensing system. Preschool For All, for example, has begun to create an increase in caseloads in the Portland/Metro field offices, and with the June 30, 2024 allocation deadline for $17 million, further increases are expected shortly. Additional capacity increase initiatives include but are not limited to: Business Oregon Child Care Infrastructure Program with $50 million, The Research Institute statewide expansion grant of $3.6 million, $10 million statewide Care Fund startup grants for housing with child care facilities, statewide Business Accelerator cohorts for child care startups, and Ford Family Foundation capacity grants in Southern Oregon. Supports begin prior to licensure, and prior to programs showing up on a caseload. As providers seek to expand or begin operations, requests for expansion consultations and pre-certification visits must be prioritized by licensing staff in order to support business start-ups and grant eligibility. For example, requests for certified family child care facility pre-certification visits have more than tripled in the Portland Metro area as of June 2024, as compared to the entire year of 2023. As expansion initiatives are successful in creating more child care capacity statewide, licensors' caseloads will continue to rise.

An additional concern regarding the ability to provide equitable licensing services, is CCLD's bilingual staff capacity. As populations of child care providers become increasingly diverse, the capacity of bilingual licensing staff has stretched considerably. As referenced above, caseloads of our bilingual staff are disproportionately those highest statewide. If unable to respond to these increases in caseloads of our current bilingual staff, CCLD anticipates negative impacts to the equity of our services. In order to provide licensing services to language-diverse provider populations, regional field offices frequently resort to covering caseloads between offices, or non-bilingual staff using the language line to conduct licensing visits or respond to providers' needs, which could be critically problematic in misinterpretation of the nuances of regulatory compliance that is required to keep children safe and keep providers operating.

Criminal Background, Compliance and Investigations Staffing Need:

- **Compliance Specialist 1** – in CCLD's Compliance Unit Compliance Specialists primarily handle complaint intake and assignment, historical compliance records on facilities involved in allegations of child abuse or neglect, drafting and issuing of facility legal notices, and facilitating compliance review.

Listed below is an approximate number of total complaints assigned by the Compliance Unit over the past few years, demonstrating a continual increase. What is especially notable is a marked increase since the inception of DELC and implementation of background checks for ERDC-listed providers. With the transition of ERDC under DELC, there has also been an increase in incoming complaint allegations on these subsidized facilities, and it is anticipated that there will need to be operations changes made to how these are processed. Total Complaints:

7/1/2020 - 6/30/2021	382
7/1/2021 - 6/30/2022	613
7/1/2022 - 6/30/2023	852
7/1/2023 - 6/11/2024*	948

*time of narrative preparation.

- **Compliance Specialist 3** – to process and investigate Regulated Subsidy complaints.

Within the Investigations Unit there are 13 Compliance Specialist 2 positions which conduct approximately 80 new investigations on complaints received every month. Each investigator has an ongoing caseload of approximately 15-18 active investigations at any given moment. One of these 13 positions is currently filling a Compliance Specialist 3 work-out-of-class role since October 2023. Prior to when this position was created, the Investigations Unit did not have a role to develop standards and procedures that guide investigations actions, training of investigations staff to ensure that policies, rules and standards are applied consistently in a wide variety of situations, or conduct preliminary reviews of licensing actions and make determinations that affect child care programs. Additional to the processing of incoming complaint allegations on subsidized programs, DELC requires capacity to investigate these complaints-- which is federally mandated. CCLD currently does not investigate all Regulated Subsidy complaints. CCLD anticipates about 15-20 additional complaints per month.

Policy Staffing Needs:

- **Operations and Policy Analyst 2** – Currently DELC has no policy position assigned to the ongoing work of background checks. Because the background check system is so complex with impacts related to legislative changes in other agencies, the policies of other state and Tribal governments, federal requirements, as well as an ongoing need for ensuring quality and equitable processes and rules, a full-time permanent OPA2 position is needed to sustain these efforts with quality and compliant service delivery.

Continuing federal changes have created an increase in reviewing crimes for the 70,000 individuals enrolled in the Central Background Registry (CBR) and updating rules to remain in compliance with federal requirements.
In 2022, DELC experienced a significant backlog with Central Background Registry applications. While the backlog has been resolved due to budgetary investments, an ongoing need was identified that a dedicated policy position is needed to function in the Background Check Unit. Current identified needs for this position would include rulemaking and policymaking to CBR regulations and operations, tracking federal compliance issues and implementing corrective action, tracking decisions on crime equations from other states, monitoring Key Performance Measures related to CBR processing timelines, tracking subtility determinations, and monitoring communication issues between teams regarding CBR to ensure clarity.

- **Operations and Policy Analyst 3** – A permanent OPA3 position is needed to sustain and support ongoing policy needs and capacity for CCLD.

DELC was given one additional Limited Duration OPA3 during the 2023 legislative session from SB 1040 – the Micro-centers bill. Due to the unprecedented amount of legislation, this position has had to take on a significant workload beyond running micro-centers, including Outdoor Nature-Based program development and engagement pursuant to HB 2727 (2023), as well as other rule revision engagement.

In general, CCLD lacks capacity to support ongoing initiatives in the policy space. Federal policy change efforts, continuous improvement efforts, as well as ongoing support of state legislative changes are all identified ongoing needs for which a position is needed to support. CCLD currently has one permanent OPA3 to support policy across field operations, legal actions and hearings, background checks, maintenance of all rulesets, completing federal reports, maintaining federal compliance, conducting public engagement including rule advisory committees and work groups, supporting connections between ERDC and CCLD, supporting coordination between publicly funded programs and licensing, supporting quality improvement initiatives, suspension and expulsion prevention in licensing, as well as other initiatives.

How Achieved:
Adds 13 positions, makes permanent one limited duration permanent, and makes one part-time position full-time.

- Operations and Policy Analyst 3 – makes an existing limited duration position permanent – 1 position (1.0 FTE)
- Operations and Policy Analyst 2 – 1 position (0.88 FTE)
- Compliance Specialist 1 – changes one existing part-time position to full-time. (0.50 FTE)
- Compliance Specialist 2 – 10 positions (8.80 FTE)
- Compliance Specialist 3 – 1 position (0.88 FTE)

Quantifying Results:
DELC will monitor the short-term and long-term success of the program in line with the following metrics:

- Caseload numbers data tracking
- Over time requests
- Staff satisfaction surveys
- Success with federal reporting timelines
- Compliant federal monitoring visits
- Background check processing tracking
- Complaint processing tracking

Revenue Source:
POP 105 requests $3,117,636 in increased Federal Funds and 13 positions (12.06 FTE)

Grant In Aid

The Grant In Aid (GIA) budget at DELC supports several grant programs aimed at supporting early childhood educators and providers. The programs focus on positive outcomes for young children and their families and work toward eliminating systemic inequalities in access and opportunity for early learning and care in all of Oregon's communities.

DELC's GIA programs consist of Baby Promise, Birth Through Five (BTF) Literacy Plan, Child Care Supports, Dolly Parton's Imagination Library, Early Childhood Equity Fund (ECEF), Early Childhood Suspension and Expulsion Prevention Program (ECSEPP), Early Learning Hubs, Early Learning Kindergarten Readiness Partnership & Innovation (KPI), Oregon's Early Learning Parenting Education Collaborative (OPEC), Early Learning Professional Development, Early Learning Program Supports, Employment Related Day Care (ERDC) Subsidies. Healthy Families Oregon (HFO), Mental Health & Behavioral Support, Oregon Prenatal to Kindergarten (OPK), Preschool Promise (PSP), Relief Nurseries, and Tribal Hub and Early Learning Plan.

Program Funding Request

The 2025-27 Agency Request Budget for DELC Grant In Aid is $1,382,255,599 which provides funding for the following programs.

Oregon Prenatal to Kindergarten

Program Overview

Oregon Prenatal to Kindergarten (OPK) is Oregon's state-funded Head Start and Early Head Start program. All grantees follow the federal Head Start Act and the Head Start Program Performance Standards.

Program Funding Request

The 2025-27 Agency Request Budget for OPK is to maintain current service level with $387,843,577 total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$182,418,156	$205,425,421	$0	$387,843,577

Program Description

The Oregon Prenatal to Kindergarten (OPK) program follows all Early Head Start and Head Start guidelines. It is an early child development and preschool program that offers comprehensive services for families with children, prenatal through age five, whose income is at or below 100% the federal poverty level. Children who are in foster care or are considered houseless are also eligible for OPK services. OPK provides infant, toddler, and preschool programming, with wrap-around services that focus on the whole child: cognitive, developmental, and socio-emotional supports; medical and dental screenings and referrals; nutritional services; mental health services; parent engagement opportunities; and referrals to social service providers for the entire family. All providers must implement a research-based curriculum, and screening and assessment procedures that support individualization and growth in the areas of development described in the *Head Start Early Learning Outcomes Framework: Ages Birth to Five* and support family engagement in children's learning and development. A program must deliver developmentally, culturally, and linguistically appropriate learning experiences in language, literacy, mathematics, social and emotional functioning, approaches to learning, science, physical skills, and creative arts. By offering high quality infant, toddler and preschool services that meets the diverse needs of families, the OPK program is aligned with goals of *Raise Up Oregon* and *Growing Oregon Together*.

For children prenatal to age three, the program provides year-round services, comprehensively and flexibly meeting the needs of individual families as children grow. Program models include center-based services, with home visits at least twice per year, such as:

- Home-based services with weekly home visits to each enrolled child and family;
- Family Child Care services provide care and education to children in a private home setting; and
- Locally-designed options that tailor services and settings to community needs. Most often these models are two days a week in class, with monthly family home visits.

For children ages three to five, the program offers two models for center-based preschool, a part day and a full day model. In program year 2023-2024, approximately 51% of the children participated in the extended duration service model that offers at least 1,080 hours of instruction during over an eight to nine month period. The part day model provides center-based instruction for a minimum of 3.5 hours per day, four or five days a week, for at least 32 weeks over an eight- or nine-month period. At least 10% of the children in the program are children with identified disabilities and receive specialized services from Early Childhood Special Education administered by the Oregon Department of Education.

All families in the program participate in a family partnership agreement with the OPK program. The partnership agreement identifies activities that support family well-being, economic stability, and a child's learning and development, including services and supports for children with disabilities. It also fosters parental confidence and skills that promote the early learning and development of their children. The family identified goals are supported through home visiting, referrals, and parent engagement activities.

Program Justification and Link to Long Term Outcomes

The combined investments, of state Oregon Prenatal to Kindergarten and federal Early Head Start/Head Start, serve approximately 11,560 families with preschool age children and 3,250 families with infants and toddlers. Based on the 2022 Census data this is approximately 69 % of eligible preschoolers and only 13% of eligible infants and toddlers. OPK provides the most comprehensive services with variations in program models to meet individual family and child needs. The program has established teacher and teacher assistant salary expectations that support the recruitment and retention of highly qualified staff.

Program Performance

State General Fund and Student Success Act Early Learning Account funds have expanded and enhanced OPK services. Based on 2023-24 funded enrollment, it is anticipated that OPK will serve 8,505 children across all program models in program year 2024-25. Based on Region 10 Oregon Head Start Federal Funded Enrollment for 2023-24, an estimated 5,182 additional children and families will be served with federal Early Head Start / Head Start funds in 2024-25.

All 36 Oregon counties have OPK and federal Head Start services, serving approximately 13,687 children and families with state and federal resources, which are distributed directly to programs. Below by fiscal year, is an overview of the state's investment in Oregon Prenatal to Kindergarten services:

Preschool Promise

Program Overview

The Preschool Promise program offers free, high-quality preschool to Oregon families with incomes at or below 200% of the federal poverty level (FPL) and children in foster care. Children must be at least three (3) years of age but not older than five (5) years of age, as determined by the date used to determine kindergarten eligibility, to be eligible for Preschool Promise and can participate in the program for up to two (2) years.

Program Funding Request

The 2025-27 Agency Request Budget for Preschool Promise is to maintain current service level with $199,211,092 total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$42,324,260	$156,886,832	$0	$199,211,092

Program Description

Preschool Promise is a publicly funded, high-quality preschool program for families with incomes at or below 200% FPL. Families are offered a minimum of 900 service hours annually and guaranteed services six (6) hours per day, four (4) days per week. High-quality early care and education access is a proven driver of early childhood success, with decades of research showing that preschool has the ability to impact children and their families during the most sensitive period of brain development. Currently, 38% of eligible children in Oregon lack access to publicly funded preschool statewide, with less than 30% of eligible children having access in many of our densely populated counties along the I-5 corridor.

In alignment with *Growing Oregon Together: Goal 1,* Preschool Promise incorporates a mixed-delivery approach, which recognizes that high-quality early learning experiences can take place in a wide variety of settings, giving families the ability to choose the setting that works best for them and their child. Settings include elementary schools, Head Start programs, Relief Nurseries, licensed centers and home-based child care programs, education service districts, culturally specific programs, and community-based organizations. All programs are expected to adhere to program quality requirements that are associated with positive outcomes for children. Preschool Promise providers receive technical assistance to promote continuous quality improvement.

Effectiveness and quality go hand in hand in preschool programs. Preschool Promise providers must meet certain quality requirements to be eligible to participate in in the program. Key components of quality in Preschool Promise include:

- Participation in the quality recognition and improvement system (QRIS), also known as Spark;
- Culturally responsive teaching methods and practices;
- High-quality and culturally responsive family engagement, learning environments, curricula, assessments, and professional development opportunities;
- Health and developmental support for children and families, such as screenings, referrals, and coordination with health care providers;
- Implementation of best practices in outreach, enrollment and programming for diverse cultural and linguistic populations and children who have been historically underserved in preschool programs;
- Collaboration with community programs to ensure families have knowledge of, and are connected to, community resources and supports to meet the needs of children and families; and
- Participation in an ongoing monitoring and program evaluation system that is used for continuous program improvement.

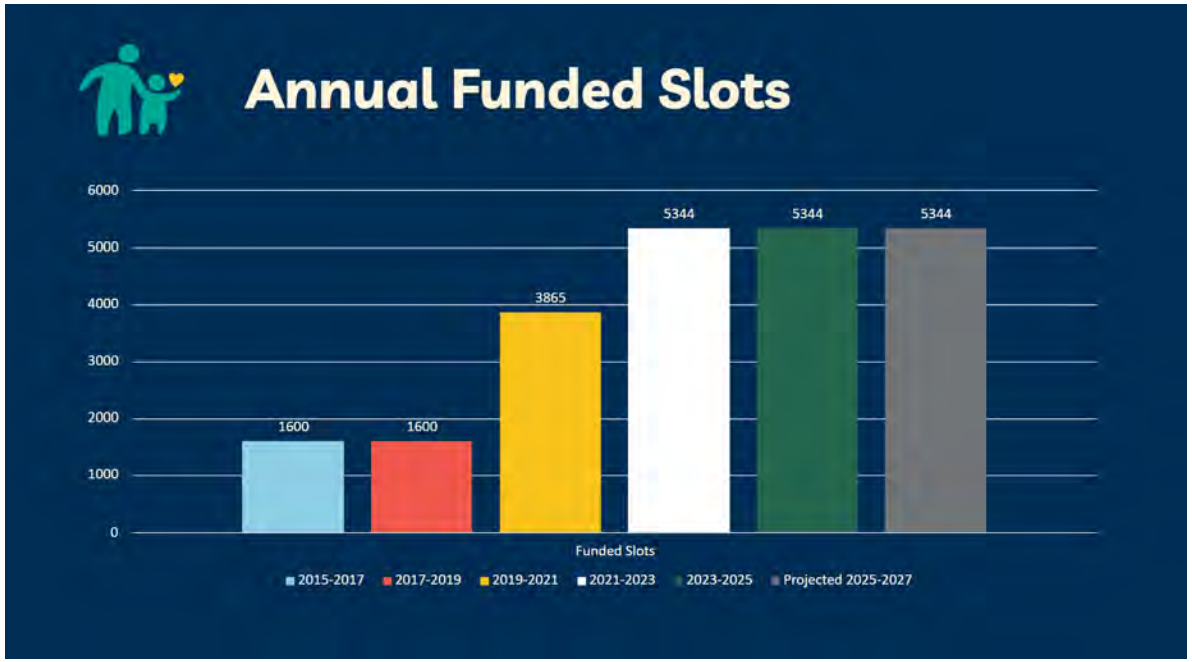
Early Learning Hubs (Hubs) and Child Care Resource and Referral entities (CCR&Rs) play a vital role in the implementation of the Preschool Promise program. Hubs support grantees with the recruitment, eligibility, selection, and placement of children into the program. CCR&R staff provide coaching, technical assistance, and training to grantees in meeting Preschool Promise quality requirements.

Program Justification and Link to Long Term Outcomes

Preschool Promise addresses Goal 1 of *Growing Oregon Together* by expanding access to early learning programming that better meets family needs. The 2020 OSU Child Care Desert Report found that there are three children for every available child care slot, with 11 counties meeting the definition of a child care desert. Furthermore, the report found that eight additional counties would be considered child care deserts without publicly funded slots. As a high-quality preschool program, Preschool Promise supports positive child development (cognitive and physical) and ensures a well-compensated, qualified early childhood workforce.

Program Performance

Since its establishment in 2015, over 5,000 Preschool Promise slots have been funded across the state. The program was expanded in 2020, from a pilot of 1,600 slots, to a statewide program with new investments from the Student Success Act Early Learning Account. Due to the success of the Preschool Promise program and the need for free, high-quality preschool, the program expanded once again in 2022.



Enabling Legislation/Program Authorization

ORS 329.172 establishes the Preschool Promise program with the goal of "expanding the availability of high-quality preschool options for children across the state."

Describe the various funding streams that support the program

Preschool Promise is funded through the General Fund and Other Funds - Early Learning Account.

Baby Promise

Program Overview

Baby Promise is a federally funded, high-quality infant-toddler program for families with incomes at or below 200% of the Federal Poverty Level. The purpose of the Baby Promise program is to both increase access to high-quality infant- toddler care (6 weeks through 3 years of age) and to enhance quality in existing Early Learning and Care Programs in Oregon through full day, full year care and education. Baby Promise offers funded slots to children of families who are income eligible for the ERDC Program. The Baby Promise program is targeted to serve low-income families in communities struggling to find and keep high-quality care for infants and toddlers. DELC distributes the Baby Promise grant funds to regional organizations or agencies.

Program Funding Request

The 2025-27 Agency Request Budget for Baby Promise is to maintain current service level with $9,963,150.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$0	$0	$9,963,150	$9,963,150

Program Description

Regional agencies (currently CCR&R's) subcontract with qualified providers to provide Baby Promise slots in programs of all types. Providers must be qualified to accept ERDC payments and are contracted with the CCR&R for 12 months for a regular supplemental payment for each child enrolled in a Baby Promise slot in addition to the families ERDC qualified "voucher" for each month the child is enrolled. Baby Promise incorporates a mixed-delivery approach, which recognizes that high-quality early learning experiences can take place in a wide variety of settings, giving families the ability to choose the setting that works best for them and their child. Qualified providers also provide all necessary supplies for the child (while in care) including diapers, wipes, food, etc.

In addition, Baby Promise program providers engage with a system of Infant-Toddler Specialists (through CCR&Rs) who provide supports and professional development to ensure implementation of quality, relational care. CCR&Rs also assist programs to support inclusion and equity through individualized strategies to help address the needs of all children. CCR&Rs subcontract with Early Learning

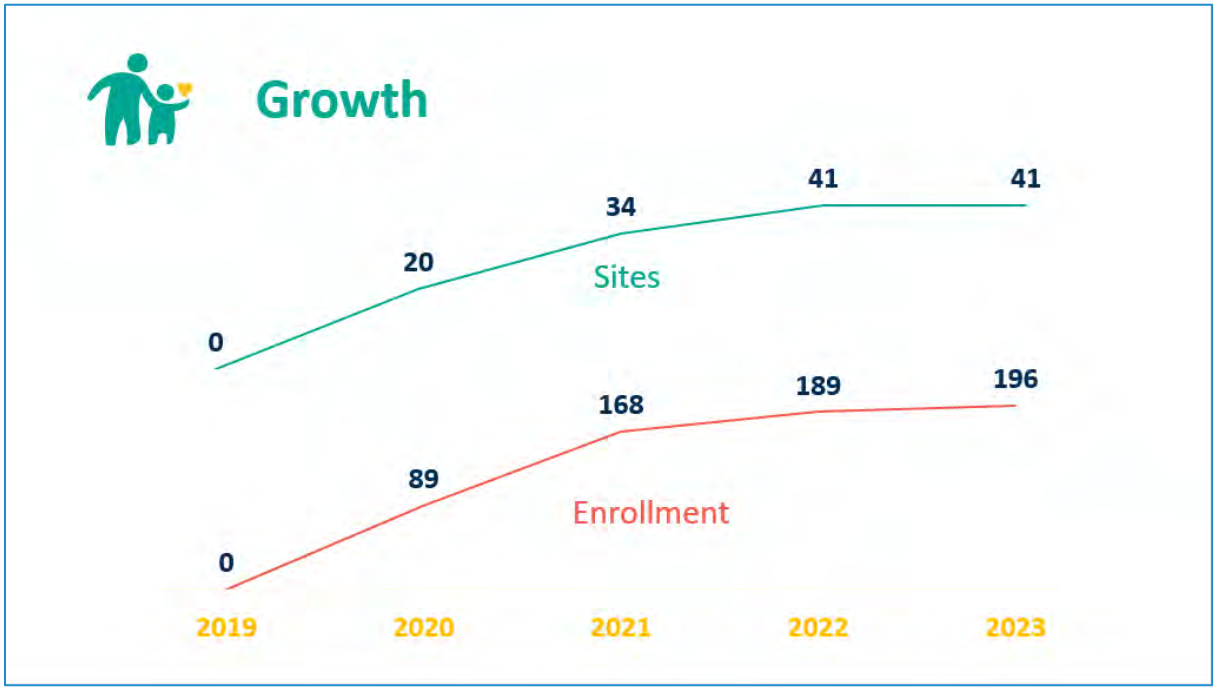
and Care Programs in communities, allowing DELC and the CCR&R to be intentional about building sustainable, quality infant and toddler slots over time, to address the need to reimburse providers for the true cost of high-quality infant and toddler care, and ensure that salary guidelines are implemented. Finally, DELC and the CCR&Rs support programs to meet standards associated with infant and toddler care quality and developmentally appropriate practices that result in high-quality environments and experiences.

Program Justification and Link to Long Term Outcomes

Recent research findings by the Oregon Child Care Research Partnership and Oregon State University demonstrate that Oregon remains a child care "desert" for infant and toddler care, with only one child care slot available for every six infants and toddlers across the state. For families with young children, the lack of access is compounded by the cost of care: center-based care for an infant can cost more than in-state college tuition for Oregonians. Baby Promise supports the Agency's goal to ensure all children are ready for kindergarten by stabilizing and expanding the availability of high-quality infant and toddler care, which is provided during the largest period of brain growth in a child's development. The subsidized infant and toddler slots within Baby Promise make quality care available to children at a critical developmental age, increasing the likelihood for success in kindergarten and beyond. Additionally, the Agency expects to observe increases in continuity of care for children who participate in Baby Promise programs. Participating providers will attain additional skills and knowledge about practices that promote social, emotional, and cognitive development in infants and toddlers, diversifying and strengthening the skillset of Oregon's early learning and care workforce.

Program Performance

Baby Promise has maintained a target number of 250 slots since inception. In the 2023-2025 biennium, the program received funding for maintenance of current enrollment with no additional funds for growth.



Enabling Legislation/Program Authorization

The Baby Promise Program is authorized by Statute 417.784 and Rules 414-480-000/414-480-0010/414-480-0015/414-480-0035.

Describe the various funding streams that support the program

Baby Promise is funded by Federal Funds through the Federal Child Care Development Block Grant.

Early Childhood Equity Fund

Program Overview

The Early Childhood Equity Fund (ECEF) was created as part of the 2019 Student Success Act and provides grants to support a broad range of culturally specific early learning, early childhood, and parent support programs. The Fund aims to close opportunity gaps for children and families who experience systemic disparities – because of any combination of factors, such as race, income, zip code, or language – by funding early learning services rooted in culture, home language, and lived experience.

Program Funding Request

The 2025-27 Agency Request Budget for ECEF is to maintain current service level with $28,195,691 total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$1,804,550	$26,391,141	$0	$28,195,691

Program Description

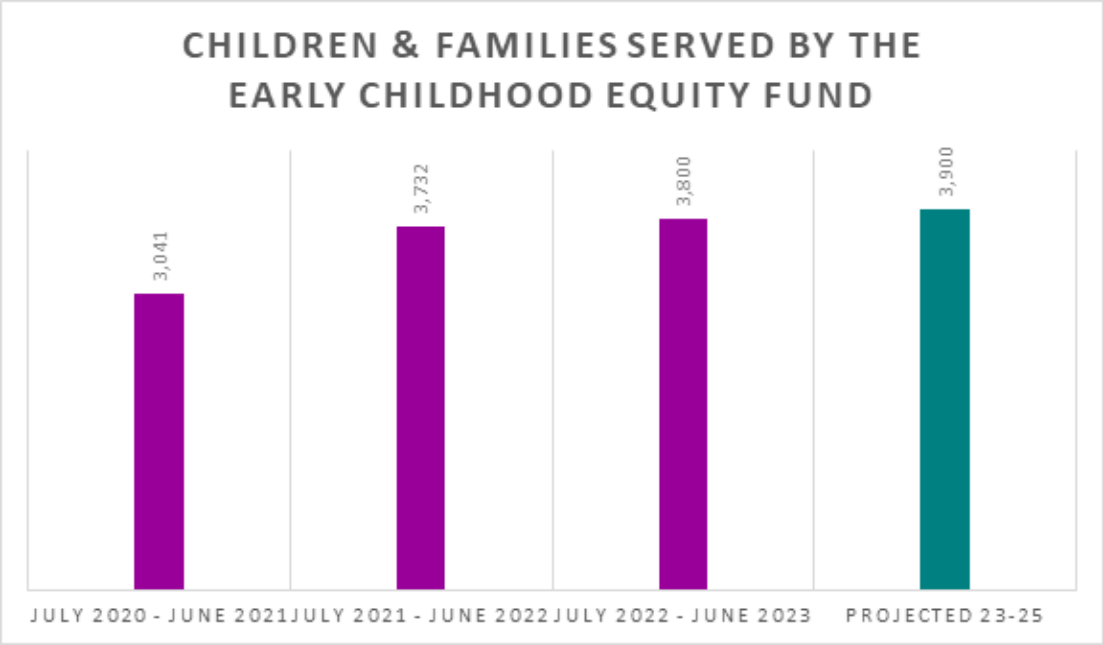
The Early Childhood Equity Fund provides grants to support a broad range of culturally specific kindergarten readiness and family support programming in early learning and care (ECE) settings. Culturally specific organizations serve a particular cultural community and are primarily staffed and led by members of that community, increasing the ability to create and deliver ECE programming that meaningfully reflects the needs of that community. Programming focuses on promoting positive parent-child interactions and enhancing parenting education, as well as helping children prepare to make the transition to kindergarten. For programs supporting Tribal communities, efforts are made to preserve, revitalize, restore, and maintain Tribal languages.

Program Justification and Link to Long Term Outcomes

The Early Childhood Equity Fund is a key, innovative strategy as the Agency works to achieve *Raise Up Oregon* and *Growing Oregon Together* system goals, particularly ensuring children arrive ready for kindergarten and supporting healthy, stable and attached families. The lack of access to high-quality early care and education (ECE) is correlated with socioeconomic status and race, and the opportunity gap begins at birth. Children under the age of six are more linguistically, ethnically, and racially diverse than older children and adults. The Early Childhood Equity Fund is an innovative approach to developing and delivering services centered in the culturally specific needs of a community. By increasing the relevancy of ECE services to the children and families served, children are more likely to develop the skills necessary to succeed in subsequent education settings.

Program Performance

The Department of Early Learning and Care is required to complete a program evaluation of the Early Childhood Equity Fund. The most recent evaluation can be found at: https://www.oregon.gov/delc/Documents/2023_ECEF_Final_Report.pdf. The Agency will collect additional data in future evaluations that continues to center the experiences and outcomes of families who participate in ECEF-funded programs.



Enabling Legislation/Program Authorization

The Early Childhood Equity Fund is established by ORS 417.781 and 417.782.

Describe the various funding streams that support the program

The Early Childhood Equity Fund is funded from an allocation from the Early Learning Account to the Equity Fund Account.

Early Learning Professional Development (Early Learning Account)

Program Overview

Professional development investments are designed to strengthen the overall quality of the early learning system by making investments in Oregon's early care and education workforce focused on recruitment, preparation, professional development, and retention.

Program Funding Request

The 2025-27 Agency Request Budget for Professional Development is to maintain current service level with $27,651,075 total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$0	$27,652,075	$0	$27,652,075

Program Description

Professional development opportunities are available to early childhood educators and child care providers to bolster recruitment and retention efforts in the early care and education workforce and further the development of high-quality, culturally responsive, developmentally appropriate, and inclusive services for children and families. These programs enable the recruitment of a diverse early care and education workforce by providing access to credential and degree programs; ongoing, community-based training; job embedded professional learning opportunities; and supports to increase industry leadership that boost workforce retention.

Access to credentials and degrees: Through "consortia model" partnerships with Child Care Resource and Referral entities, Community Colleges, and Universities, the Agency is working to reduce financial and non-financial barriers for the early learning workforce to obtain credentials and degrees. Scholarships offer opportunities for students who otherwise could not access higher education to support entry into the field as well as ongoing education throughout their early childhood career. Education awards celebrate student successes as providers reach educational milestones.

Ongoing community-based training: Oregon's system of community-based training is scaffolded through the Oregon Registry and Career Lattice that stores training and education for early care and education professionals to meet requirements for licensing and Employment Related Day Care eligibility. It is a system that can be used as the official record of training for early educators and supports early educators in developing their professional capacity and qualifications. Oregon's Registry Trainer system provides integrated statewide professional development standards and the requirements for trainers to provide intermediate and advanced level trainings within the early care and education system.

Job-embedded professional learning and coaching: Mentor coaches provide technical assistance, consultation, and guidance to coaches throughout Oregon working with Oregon Prenatal to Kindergarten and Preschool Promise programs. Tiered coaching certification supports qualified, effective, and culturally responsive coaching practices and competencies to build and maintain a professional learning workforce. Quality Improvement Specialists and Infant and Toddler Specialists, who work from regional Child Care Resource and Referral entities, provide training, technical assistance, coaching, and job-embedded professional learning directly to child care providers.

Regional Inclusive Partners: The Inclusive Partners program is a statewide program that provides consultation to early learning programs to support and stabilize services to meet the needs of all children and conducts high needs rate assessments to determine whether supplemental Employment Related Day Care payments are available to support children with significant needs associated with disabilities. The program was expanded in 2024 in order to add a Regional Inclusive Partner position into each Child Care Resource and Referral organization in the state. These positions work directly with early learning programs that are seeking supports and resources to serve children that show higher needs. Each regional position is focused on providing responsive services, recommendations and guidance when requests are made so that early educators are prepared and confident in maintaining care for all children.

Program Justification and Link to Long Term Outcomes

Nearly 24,000 early educators across the state, approximately 29% of whom are Black, Latino, Indigenous, or from other communities of color, are impacted by these professional learning programs.

The Early Learning Professional Development programs support the agency to ensure children arrive ready for kindergarten. High-quality early learning programs have well-documented short-, medium- and long-term benefits for the children who participate in them. These benefits are largely the consequence of the interactions children in these programs experience with warm, responsive, and well-trained adults. Investing in young children requires investing in the adults who work with them. The importance of the workforce to positive outcomes for children is captured in *Growing Oregon Together* under Goal 4: The early learning and child care workforce is diverse, culturally responsive, highly qualified, and well compensated.

Increasing credentials and degrees through the Consortia Model

The Early Learning Professional Development Consortium is a collaboration between Institutions of Higher Education and Child Care Resource & Referral agencies to support cohorts of early educators in obtaining college credentials, certificates, and degrees in the field of Early Care and Education. The Early Learning Professional Development Consortium was funded in two regions of the state by ODE strategic investment funds with the purpose of advancing the education of the early care and education workforce; Southern Oregon and Central Oregon were funded for one year, 2014. The project was so successful in retaining cohorts of college-to-career early educators through college and supporting them in their goals to obtain ECE credentials, certificates, and degrees that philanthropic organizations continued to fund them until 2020. DELC has since reinvested in and expanded the Consortia to additional institutions of higher education. Expansion added Clackamas Community College, Portland Community College and Columbia Gorge Community College. Numbers for degree achievement at these additional institutions have not yet been reported. The expansion also enabled Southern Oregon University to expand their offerings to include a degree program consortia. Consortia have been key in increasing enrollment in ECE higher education opportunities as illustrated in these quotes from one consortia college:

> "67% answered they would not be pursuing higher education without this consortia grant."
>
> "… [The Consortia] has helped to bolster increased enrollment in the ECE program. …115% increase in ECE courses enrollment from2021 to 2022 and 28.5% from 2022 to 2023." Columbia Gorge Community College Navigator

Regional Consortium - Number of early learning students participating in the 2022/2023 grant year; prior to the expansion and number of degrees achieved is detailed in the table below:

2022 – 2023 Calendar Year	Number of Early Education Students	Degrees achieved

*In 2022-2023 SOU did not yet have a degree pathway and provided intensive weekend session trainings for credit only.

Ongoing community-based training: Oregon Registry, Career Lattice, Trainer System and Education Awards

Oregon Registry Steps measure training and education that an individual has accomplished, and then places them on a Step. The career lattice is important because it can help provide strategy to professional development growth, facilitating lateral movement within Oregon's early childhood education professionals. The total number of Steps awarded represents educator's growth through professional development and education achievements in Oregon.

Below are the total number of Oregon Registry Steps awarded by year (for 2020 data, we saw a slight reduction due to COVID).

Calendar Year	Number of Steps Awarded
2019	3,139
2020	2,375
2021	2,750
2022	3,000
2023	3,446

Job-embedded professional learning and coaching: Mentor coaches provide technical assistance, consultation, and guidance to coaches throughout Oregon working with Oregon Prenatal to Kindergarten and Preschool Promise programs. Tiered coaching certification supports qualified, effective, and culturally responsive coaching practices and competencies to build and maintain a professional learning workforce. The tables below reflect various data points for services delivered to early learning professionals:

Performance Measure	**Services Delivered**
Trainings conducted by a Quality Improvement Specialist	3,316 trainings conducted
Programs participating in training opportunities provided by local Child Care Resource & Referral agencies	• Total by Training Course: o Business Practice: 3,332 o Mental Health: 5,442 o Diversity, equity and Inclusion: 2,795 • Total by Provider (Find Child Care Oregon Programs): o Licensed or register center based programs: 1,379 o Licensed exempt center based programs: 844 o Licensed or register family child care: 2,336

Regional Inclusive Partners: This regionally based expansion of services was initiated in 2024 and each Child Care Resource and Referral are working to hire these positions into their organizations. By December 2024, each CCR&R will have these positions hired and each will be onboarded by the centralized staff of the Inclusive Partners Program, providing onboarding, mentoring and ongoing professional development to support their direct engagement with early learning programs in each region.

Initial onboarding and position planning meetings have been completed and each region, along with Agency central Inclusive Partner support, has identified key goals and outcomes for their communities. Due to the increase in public awareness and regional supports, we anticipate that more early learning professionals will have access to individualized supports to further inclusive practices. There is a possibility that, with the increased community awareness, more children will be identified as needing more intensive supports through Early Intervention/Early Childhood Special Education, school-aged special education and mental and behavioral health supports. This may also result in more early educators inquiring about financial supplements or incentives.

Parenting Education

Program Overview

The Department of Early Learning and Care provides resources for parenting education through Oregon's Parenting Education Collaborative (OPEC) program. The program provides resources for parents to learn about age-appropriate child development skills and milestones, promote positive play and interaction between parent and child, and locate and access community services and supports.

Program Funding Request

The 2025-27 Agency Request Budget for Parenting Education is to maintain current service level with $4,519,455 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$0	$4,519,455	$0	$4,519,455

Program Description

Parents are their children's first and most important teachers. The Agency administers the parenting education program through OPEC in the Oregon State University (OSU) College of Health. The program provides families access to high-quality parenting programs and a stronger, more coordinated parenting education system statewide. Resources fund family activities, and evidence-based parenting education classes, offering families an opportunity to learn about child development, share parenting strategies, and connect with other families to create a community where children can thrive. OPEC also supports grantees through evaluation, technical assistance, and professional development led by OSU.

Program Justification and Link to Long Term Outcomes

Investments that make additional parenting skills, practices, and resources available is a critical strategy in meeting the Agency's goal that all children arrive ready for kindergarten; they also promote stable and attached families. Furthermore, expanding access to parenting education is a key strategy throughout *Raise Up Oregon*.

Funding from DELC has been critical to ensuring families with young children receive access to parenting education and family supports as well as to the sustainability of OPEC as a statewide system of support. OPEC was an initiative started by Oregon's four largest philanthropic foundations (Oregon Community Foundation, the Ford Family Foundation, Meyer Memorial Trust, and The Collins Foundation) and Oregon State University to establish a statewide system of support for parenting education.

This program is supported with robust evaluation and research as well as capacity-building efforts through the team at Oregon State University in support of strategic planning, technical assistance, workforce development and training (e.g., leadership training, curriculum and facilitation trainings, parent and family leadership development), and additional dedicated effort to ensure family-serving programs are relevant and meaningful; culturally, linguistically, and identity-specific; improve accessibility and reach for families across geographic expanse; and increase access to programs in multiple formats and lengths (in-person, virtual, class series, workshops, family events).

Program Performance

Parenting education services are delivered to families in ways that best meet family and community needs, including in-person, remote, and hybrid models. Services are available in numerous formats, such as evidence-based programs, research-informed workshops, one-on-one parenting coaching, family activities, play and learn groups. The Agency anticipates a minimum service level of 500 families each year for every $1 million invested.

The partnership with DELC (2021-2023) in the biennium amount of $4 million ($2 million annually), reached 37,637 families with young children in Oregon. Specifically, DELC funds supported the following programs for families with young children, through leveraging OPEC's broader infrastructure and state partnerships:

- 164 parenting education multi-class series, serving 1871 families
- 124 parenting workshops, serving 1354 families
- 147 parenting support activities, serving 8872 families
- 66 family activities (e.g., community events), serving 25,540 families

Overall, in that biennium (2021-2023), with blended funds from DELC, Oregon Department of Human Services, and foundation investment, OPEC reached 167,656 families with children of all ages:

- 707 parenting education multi-class series, serving 7470 families
- 805 parenting workshops, serving 15,478 families
- 373 parenting support activities, serving 51,138 families
- 349 family activities (e.g., community events), serving 93,570 families
- 419 parenting education and family support professionals participating in parenting education curricula trainings

In the 2023-2024 year, DELC funds have reached 15,186 families, supporting:

- 104 parenting education multi-class series, serving 1,311 families
- 48 parenting workshops, serving 544 families
- 119 parenting support activities, serving 7,938 parents and children
- 35 family activities (e.g., community events), serving 5,393 parents and children

The agency expects to serve a similar number of families in the 2024-2025 year as 2023-2024, which would result in an estimated 28,500 families served for the biennium:

- 200 parenting education multi-class series, serving 2,600 families
- 80 parenting workshops, serving 1,000 families
- 160 parenting support activities, serving 17,700 families
- 58 family activities (e.g., community events), serving 7,800 families

At continuing service levels, the agency expects to serve a similar number of families (but at a 3% reduction given cost of service increases). With that assumption, continuing service levels would allow for the following in the 2025-2027 biennium, resulting in an estimated 28,227 families served:

- 194 parenting education multi-class series, serving 2,522 families
- 78 parenting workshops, serving 970 families
- 155 parenting support activities, serving 17,169 families
- 56 family activities (e.g., community events), serving 7,566 families

Early Learning Program Supports

Program Overview

Early Learning Program Supports maximize the utility and effectiveness of early care and education programs for families by providing additional resources to providers to enhance the services their programs offer. This includes supports for families, as well as early care and education professionals, to meet the needs of communities.

Program Funding Request

The 2025-27 Agency Request Budget for program supports is to maintain current service level with $18,663,140 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$0	$18,663,140	$0	$18,663,140

Program Description

Investments in enhancements to early care and education programs increase not only the quality but the breadth of programming for children and their families. Early learning program supports offer additional wrap-around supports available to families, such as ensuring providers are equipped to identify and support the mental health, social-emotional development, cultural, linguistic, or individualized needs of children in care. The supports also increase access to other early care and education professionals, such as Mentor Coaches and Program Quality Coaches, that assist with the implementation and evaluation of program practices and provide resources to allow providers to make improvements to environments. Specific to the Preschool Promise program, enhancements are available to assist with family recruitment, eligibility, placement, and enrollment.

Program Justification and Link to Long Term Outcomes

Early learning program supports addresses the objective set by *Raise Up Oregon* to increase the state's capacity to provide culturally responsive, social-emotional supports for young children and their families by providing resources to providers to learn and integrate those supports in their programming. These supports expand coaching supports to core programs and align with Objective 4.3.a in *Growing Oregon Together*. Children in high-quality and culturally responsive care settings are more likely to be successful in other educational settings. Additionally, enabling providers to establish and improve essential infrastructure for high-quality early care and education, another objective of *Raise Up Oregon and Growing Oregon Together,* will ensure that children have access to safe and healthy care environments.

Program Performance

The Agency leverages these resources to ensure supports for early learning program providers in 442 classrooms serving over 5,300 Preschool Promise enrolled children These classrooms are supported by approximately fifty coaches and quality improvement specialist who in turn are receiving coaching from six mentor coaches positioned within the Early Learning System Initiative (ELSI) at Oregon State University.

Early Childhood Suspension and Expulsion Prevention Program

Program Overview

The Early Childhood Suspension and Expulsion Prevention Program (ECSEPP) set to launch in July 2025 will support Oregon early learning and care providers in building positive learning environments for children ages birth through five. It connects early learning and care providers with local mental health and behavioral guidance on positive interventions and offers training and professional development to reduce suspension and expulsions, especially among children of color and those with disabilities. The program aims to foster a more equitable, fair and inclusive early learning system. It also aligns with a new law effective July 2026 that prohibits suspensions and expulsions in early learning environments that receive state funds. The program is set to be renamed in partnership with community partners.

Program Funding Request

The 2025-27 Agency Request Budget for ECSEPP is to maintain current service level with $8,355,167 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$8,355,167	$0	$0	$8,355,167

Program Description

The Agency is working with community partners to design and implement the Early Childhood Suspension and Expulsion Prevention program (ECSEPP). The Technical Assistance functions of the ECSEPP are being developed and supported by grants provided by the Agency to Western Oregon University's The Research Institute (TRI), Oregon State University's Early Learning System Initiative (ELSI), the Oregon Infant Mental Health Association (ORIMHA) and Child Care Resource and Referral organizations (CCR&Rs). A strong network of technical assistance already exists and is currently engaged in activities with these funded partners to ensure readiness and coordination to provide training and technical assistance services in the areas of implicit bias, anti-racist classroom practices, inclusion, and promotion of social-emotional learning. In addition, the Agency recently funded the creation of a new position at each CCR&R: the Regional Inclusive Partner, which will expand access to the High Needs Rate that increases funding to support children with significant documented needs and is a supplement to Employment Related Day Care and these Inclusive Partner positions will provide consultation focused on the inclusion of children with disabilities.

The Infant and Early Childhood Mental Health Consultation functions are being supported through a contract with the Oregon Infant Mental Health Association (ORIMHA) and 12-16 Regional Service Providers. ORIMHA is providing content expertise, leading the implementation of the new Infant and Early Childhood Mental Health Consultation (IECMHC) program by providing implementation support to regional organizations that were selected to provide IECMHC. The Agency currently holds grant agreements with 12 Regional Service Providers (RSPs) who are responsible for providing IECMHC services in their local communities. Grant agreements with two additional Regional Service Providers will be finalized in July. Outreach to identify Regional Service Providers for two remaining rural regions is currently in progress. Because of the expertise needed to provide IECMHC services, Regional Service Providers are currently in a planning phase and will transition to active implementation of services in cohorts over the next 2-9 months as they complete a series of readiness markers. The Agency anticipates that all Regional Service Providers will reach active implementation by July 1, 2025, with the majority of RSPs reaching implementation well before then. Infant & Early Childhood Mental Health Consultants work with early care and education providers and families to develop unique and culturally responsive supports that address the underlying factors that typically lead to the use of suspension or expulsion by providing solutions to support them as children display challenging behaviors. Consultants work with early educators to help them build competencies and skills through training, classroom observation and direct guidance to utilize strategies that support children to be successful in relationship-based environments. The program precedes a ban on suspension and expulsion in early learning and care settings beginning July 2026 established by SB 236 (2021).

The Agency-funded system partners mentioned above will collaborate with local CCR&Rs, Early Learning Hubs, Early Intervention/Early Childhood Special Education (EI/ECSE), and other early learning partners, to support the development and implementation of a coordinated system of support. The Agency is implementing a warmline, a centralized place for early learning programs to request support when a child is at risk of suspension or expulsion. The coordinated system of support will ensure a coordinated and aligned approach to respond to requests for support, ensuring that the right service is provided that will enable the child to remain in the educational setting.

The Early Childhood Suspension and Expulsion Prevention program will be accessible to early learning and care providers across the state that serve children, birth through five (5) years of age, and their families.

Program Justification and Link to Long Term Outcomes

The program offers key strategies to meet *Raise Up Oregon* Goal 3: All Children are thriving in early childhood and beyond and *Growing Oregon Together* Goal 1: All families have access to high-quality (culturally responsive, inclusive, developmentally appropriate) and affordable early learning and care that meets their needs, Objective 1.3 Communities have the infrastructure they need to mitigate suspension and expulsion activities in early learning and care settings. In a recent survey of 3,705 families with children in early learning and care programs, conducted by the Oregon Social Learning Center, 9.1% of families reported being asked to leave or "take a break" from the early care and education program. Children with disabilities or with chronic health problems were three times as likely to be suspended or expelled. Native Hawaiian or Pacific Islander children and African American or Black children were 1.5 times more likely to be suspended or expelled (17.2% and 16.1%, respectively).[1] The Agency intends to track the rate of suspension and expulsion, across all demographics, with the implementation of the new program.

Additional strategies in the *Growing Oregon Together* strategic plan are to provide culturally responsive and culturally specific infant and early childhood mental health (IECMH) supports in early learning and care, leverage community expertise and experience in infrastructure development, launch and expand regional suspension and expulsion prevention program supports and statewide entity to provide consistent technical assistance and quality assurance, ensure professional development supports in critical areas such as bias, are available to support the community infrastructure, fully implement the warmline for providers to access suspension and expulsion prevention supports, and implement the enforcement of the 2026 ban on suspension and expulsion, with Child Care Licensing Division (CCLD) providing technical assistance and referral to the prevention program.

The Early Childhood Suspension and Expulsion Prevention program is focused on each of these critical system components, creating a statewide system to request professional development support, have access to Infant and Early Childhood Mental Health Consultants and other technical assistance providers that are readily available to early learning and care programs. In addition to the detail provided above, this program will help meet goals by providing the state with the opportunity to improve data collection and evaluation efforts and align suspension and expulsion policies across the early learning system and to coordinate with Early Intervention/Early Childhood Special Education and the K-12 system.

Program Performance

The Early Childhood Suspension and Expulsion Prevention program brings the opportunity to create a statewide system of supports and the availability of Infant and Early Childhood Mental Health Consultation services which have never been available statewide. The time and effort required to launch a new program and align existing services and supports with the newly available services is underway. New professional learning opportunities are launching between July 2024 and July 2025, with IECMHC and Inclusive Partner services launching in phases throughout that period also. The Agency expects these services to begin to fill a much-needed gap in specialized supports across the early learning system. However, the funding level reflects a foundational investment that will require additional resources to expand services over time to fully align with the ban on suspension and expulsion which takes effect in July 2026. The Agency has engaged a culturally diverse Advisory Committee representing multiple roles across the early learning system. This group meets monthly and advises the Agency on the development and implementation of the program.

Enabling Legislation/Program Authorization

The statutory authority for the program resides in ORS 329A.600, which directs the Agency to develop a program that reduces the incidence of suspension and expulsion. Additionally, ORS 329A.625, which becomes effective on July 1, 2026, prohibits suspension or expulsion in early care and education programs.

Describe the various funding streams that support the program.

This program is funded with General Funds.

Child Care Supports

Program Overview

The Department of Early Learning and Care coordinates the delivery of the following child care supports: Spark, the Inclusive Partners Program, Child Care Resource and Referral entities, 211info, and the early childhood career lattice through Portland State University contracts.

Program Funding Request

The 2025-27 Agency Request Budget for Child Care Supports is to maintain current service level with $67,095,394 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$5,297,655	$2,460,127	$59,337,612	$67,095,394

Program Description

Child Care Supports provided by the agency include several program strategies to support families and child care providers in Oregon. A brief description of each strategy follows, leveraging General and Federal Funds:

- **Spark:** Spark is Oregon's Quality Recognition and Improvement system (QRIS). It is required by the federal Child Care and Development Block Grant to ensure consistent foundations of quality in child care settings and to support parent choice and consumer education when selecting a child care program. The Agency, in partnership with community, is currently redesigning Spark to become a more accessible system that supports programs with providing culturally responsive early care and education experiences for children in their communities.

- **Baby Promise:** Baby Promise providers participate in professional development focused on providing high-quality infant and toddler care and receive supports to strengthen business practices. Child Care Resource & Referral entities (CCR&Rs) contract with early learning and care programs in Oregon's mixed delivery system to provide high-quality care for eligible infants and toddlers. Contracts are based on the true cost of providing care and help provide financial stability for early learning and care programs.

- **Inclusive Partners:** The Inclusive Partners program assists child care programs to develop and administer individualized supports for children, birth through age 17, who require additional or specialized accommodations in child care settings at no cost to the child care provider or family. Inclusive Partners transitioned from the Oregon Council on Developmental Disabilities within the Oregon Department of Human Services to the Agency on July 1, 2022. The program performs high-needs assessments, trainings, and consultations in child care settings to support children with special needs – in addition to their family and the child care program that serves them. Trainings and consultations help child care providers and community partners develop the skillsets and resources to ensure children experiencing disabilities are provided developmentally appropriate services within child care programs.

- **CCR&Rs:** Child Care Resource and Referral entities (CCR&Rs) provide services that promote the health, safety, and development of young children in early learning and care settings as part of Oregon's Early Learning System. CCR&Rs support the early learning and care workforce through coaching, training, and other forms of technical assistance that increase programmatic quality for the children in their care and help the early learning programs stay up to date with health and safety licensing regulations. CCR&Rs also support recruitment for the early care and education workforce and work in collaboration with other community early childhood agencies to advance the region's early learning system's strategic plan. Additionally, the agencies will assist early educators as they work with families to help them seek additional supports or services in the community, such as developmental delay assessments. CCR&Rs also promote healthy, safe, and quality learning environments by identifying evidence-based practices for healthy development of identity, communication, motor skills, cognition, problem solving, inclusion practices, and social-emotional development.

- **211:** 211info provides child care referrals for parents seeking child care through the Find Child Care Oregon data system which is managed and administered by The Research Institute (TRI) at Western Oregon University. The database houses data on all licensed and regulated child care programs in Oregon, including cost, location, capacity, number of slots, current vacancies, ages served, hours of operation, languages of instruction, Quality Rating, availability to families paying with state subsidy, transportation offered, and other data points essential to families searching for early learning and care opportunities. The agency contracts with TRI to maintain the Find Child Care Oregon database and provide guidance to the 211info child care team on utilizing best practices when conducting referrals to families seeking child care. The 211info team also utilizes the 211 database to provide community services referrals to families when additional resources are needed. CCR&R staff work directly with early learning and care programs to ensure the data is up to date and accurate for families when 211 is providing families with referrals. Agency staff access the data points in Find Child Care Oregon including cost and child care availability to inform policy, processes, and to inform strategy and funding decision-making. The database is crucial for data collection, including the

Market Price Study, which is used to determine subsidy rates for child care providers participating in Employment Related Day Care.

- **Career Lattice (PSU):** The agency contracts with Portland State University to support the early childhood education "career lattice," which is foundational to the professional learning system that supports the early care and education workforce. Programming includes hosting required training, administering educator awards and higher education scholarships, and overseeing the Oregon Registry, Oregon's early childhood professional development registry. The Oregon Registry Online (ORO) serves as the database and repository for early educators to submit their required and voluntary professional development credit hours for continuous quality improvement and compliance with child care licensing requirements.

- **Focused Family Child Care Networks:** The goal of Focused Child Care Networks is to increase the availability of high quality child care in communities that have been historically underserved. They have proven to be a highly effective strategy for increasing the number of Spark-rated programs serving priority communities and recognizing the importance of home-based child care providers in serving many of these communities. These networks are particularly well-suited to create linguistically- and culturally-specific supports and are staffed by Quality Improvement Specialists, within each CCR&R, that lead the cohort of early educators. Focused Child Care Networks include a staffed cohort of 15 early educators which receive direct support for professional development aimed at achieving a certificate, degree, and higher step on the Oregon Registry. In addition to professional development, the cohort engages in peer learning and individualized goal setting and in-person support and consultation from the CCR&R network leads. Each cohort spends about two years in the network.

Program Justification and Link to Long Term Outcomes

These services are primarily focused on supporting the early childhood educator and child care workforce across Oregon, while also ensuring families have easy access to information when making decisions about child care for their family. Each program is a critical part of the comprehensive strategy to meet *Raise Up Oregon* and *Growing Oregon Together* goals.

The programs funded by DELC through Child Care Supports improve access to quality child care and build the supply of early learning and care programs by creating workforce pathways, offering scholarships for early education degree programs and access to ongoing support and navigation of the system through CCR&Rs. These opportunities focus on building the skills necessary to implement best practices in early childhood education and child care and promote inclusive settings for children with diagnosed disabilities and their families. They support families by ensuring they have access to subsidized infant-toddler child care – which is the most expensive and least available care setting across the state – while also providing the most up-to-date information on available child care slots in communities.

Program Performance

Spark, Oregon's Quality Recognition and Improvement System, launched in 2013 and has been in operation ever since. Programs have traditionally participated in Spark by completing a portfolio and earning a star-rating. Starting in October 2023, a second participation pathway was added called a Quality Improvement Cycle. The table below reflects the number of programs that have achieved a rating in the Spark system. Between 2018 and 2023, there have been between 635 and 722 star rated programs. The Program has been in a state of equilibrium where new programs and newly rated programs equal the attrition rate of those that close.

Inclusive Partners: The Inclusive Partners program's objectives are to increase access to inclusive and supportive child care for children with disabilities, increase retention of children with special needs in child care settings over time, and successfully support child care providers serving children 6 weeks to 17 years of age. Families receiving ERDC are potentially eligible to receive increased supplemental subsidies to support their child's additional supervision and intervention needs related to the child's individualized needs. This is called the High Needs Rate. Inclusive Partners also provides onsite consultation and technical assistance to early learning professional caring for children with higher needs with or without the High Needs Rate.

Enabling Legislation/Program Authorization

Spark is authorized by ORS 329A.261 and required by the federal CCDBG Act of 2014 658G(b)(3); Child Care and Development Fund, 45 C.F.R. § 98.53(a)(3) (2016).

The federal Child Care and Development Fund (CCDF) requires states to develop and implement strategies to increase the supply of and improve the quality of child care services (45 CFR 98.53). ORS 329A.100 through 130 establishes the state's resource and referral system.

The Baby Promise program is authorized by ORS 417.784 and directs the Agency to contract for infant and toddler slots. Oregon state statute 329A.010(2)(a) charges DELC with administering the federal Child Care and Development Fund; Inclusive Partners responds to the federal CCDF regulation 45 CFR 98.53.

ORS 329.219 requires the Agency to establish and implement policies and practices to achieve vigorous and comprehensive early childhood professional development systems in this state that incorporate improved recruitment, preparation, induction, career advancement opportunities and support for early learning providers and professionals, including professionals who provide home visiting services.

Describe the various funding streams that support the program

The Child Care Supports programs are funded on an ongoing basis with General Fund, Other Funds, and Federal Funds. In the 2023-25 biennium, additional funding from the federal ARPA Discretionary grant (one-time grant that ends on September 30, 2024) and the Preschool Development Grant (which ended on December 30, 2023), were used for programs.

Employment Related Day Care (Child Care Assistance) Program

Program Overview

Employment Related Day Care (ERDC) is Oregon's child care assistance program, subsidizing child care for eligible families to support employment, education, and family well-being in stable child care arrangements that support child development. The program previously resided in the Oregon Department of Human Services (ODHS), before moving to the Department of Early Learning and Care (DELC) as a result of HB 3073 (2021), which also greatly expanded program eligibility.

Program Funding Request

The 2025-27 Agency Request Budget for ERDC is to maintain current service level with $480,036,614 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$353,624,707	$0	$126,411,907	$480,036,614

Program Description

The ERDC program helps families offset the cost of quality child care by making payments on their behalf to eligible child care providers. Child care supports are crucial to maintain the labor market and assist parents to obtain and maintain employment and upward mobility by way of education and training. Quality child care settings support child development and early education necessary for preparation for kindergarten and beyond. Families must have incomes below 200% of the Federal Poverty Level (FPL) to be eligible for ERDC.

ERDC offers families flexibility to choose a child care provider that best meets their needs, whether that is a child care center, a licensed family child care home, or a licensed-exempt provider or relative. Families whose incomes are above 100% FPL are required to make a co-pay on a sliding scale, not to exceed 7% of their household income. The Agency pays the child care provider for the remainder of the cost of the child care, up to the maximum reimbursement rate. As of June 2024, the program has a caseload of approximately 16,688, served by about 4,522 active child care providers receiving approximately $20 million in direct payments each month. As a result of ERDC, the state is a significant purchaser of child care in Oregon, and ERDC provider policies, including payment rates, impact the overall child care market.

BUDGET NARRATIVE

In 2021, House Bill 3073 passed and directed the transfer of the ERDC program to the Department of Early Learning and Care from the Oregon Department of Human Services. The legislation included expanded eligibility for parent physical presence, family well-being activities, coverage for full-time students, and coverage for undocumented children. In addition, the legislation offered greater protection of 12-month eligibility for all families who are eligible for the program and requires a shift from basing provider reimbursement on the market rate to referencing the cost of providing quality care through an alternative rate methodology.

Beginning July 1, 2023, the Early Learning Council, as the rulemaking body for DELC-administered programs, gained rulemaking authority for ERDC. The Agency continues to contract with ODHS for certain functions necessary for the administration of the program, such as eligibility determination, which is conducted through the ONE Integrated Eligibility System and with the support of ODHS field offices. A significant portion of ERDC funding is from the federal Child Care and Development Fund (CCDF) and ERDC is subject to federal CCDF regulations, which includes eligibility determination, provider payment rates, family co-pays and on-site health and safety monitoring of ERDC child care providers. DELC, as the CCDF lead agency and administrator of ERDC, is responsible for ensuring that ERDC complies with these federal requirements.

Eligibility for the ERDC program remains in the cross-sector ONE Integrated Eligibility (ONE) System, which allows families to complete a single application for Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), ERDC, and Oregon Health Plan (OHP). Families do not have to apply separately for programs for which they have overlapping eligibilities, which reduces the burden of applying and submitting supporting verification documents for each program individually.

ERDC activated a waitlist as of November 4, 2023. With the waitlist active, most new applicants are not able to enroll in ERDC. Some families with specific needs can skip the waitlist. These bypasses are identified in Oregon Administrative Rule and built into the ONE system prior to the ERDC program moving to DELC.

ERDC waitlist bypass exemptions include:

- Families reapplying to ERDC within two months of benefits ending;
- Families who currently receive, or have received in the last 3 months, Temporary Assistance for Needy Families (TANF);
- Families who currently receive, or have received in the last 3 months, Temporary Assistance for Domestic Violence Survivors (TA-DVS);
- Families with children being placed in a contracted slot with Head Start or Early Head Start Child Care Partnership; and
- Families who are working with Child Welfare as part of a Child Protective Services (CPS) assessment or open case and who need child care to:
    - Prevent removal of the child from their home;
    - Allow a child to be returned home; or
    - Allow for placement of the child with a relative or known adult.

As of June 2024, there are over 5,700 families on the waitlist, with an average of 700 cases added each month to the waitlist.

Program Justification and Link to Long Term Outcomes

As a core program for DELC, ERDC is weaved throughout *Growing Oregon Together*, DELC's five year strategic plan that has six goals that aim to foster coordinated, culturally appropriate, and family-centered services that recognize and respect the strengths and needs of all children, families, and early learning and care professionals, and to ensure that all are empowered and thrive.

ERDC is Oregon's primary child care subsidy program that exists to help parents obtain and maintain stable employment and educational opportunities on their path to self-sufficiency and to help children access stable, high-quality child care. Recent legislation has set in place expansions to eligibility for parents and caregivers who are full-time students, children in foster care and engaged with Child Welfare services, and children regardless of their immigration status. The program strengthened 12-month eligibility for all families and increased child care hours eligibility for non-traditional working schedules and family well-being activities, all of which directly contributes to family stability and self-sufficiency.

Supporting parents to work or complete education and training programs can increase parents' resources and reduce stressors on the family. Higher levels of family resources and access to high-quality and affordable child care can stimulate children's early brain development and result in improved long-term child outcomes.

Program Performance

At the end of the 2021-23 biennium, the total ERDC caseload was at 11,501 cases, with an active caseload (those families connected to a provider) of 9,911 cases. ERDC experienced rapid caseload growth as new policies became effective July 1, 2023. HB 3073 (2021) led new eligibility expansions and program improvements, and as of June 2024, the total caseload has increased by more than 5,000 cases to 16,688, and the active caseload has increased to 12,509. While an increase to an active caseload of 10,258 was approved during the 2023-25 biennium budget process, this means the program did not have enough funding to support the unprecedented growth in enrollment, and ERDC activated a waitlist on November 4, 2023.

Until the 2023-25 Agency Request Budget for the Department of Early Learning and Care, the budget to support child care assistance had General Fund appropriation in the Oregon Department of Human Services and federal limitation in the Oregon Department of Education, Early Learning Division, for the Child Care and Development Fund (CCDF) grants. The table below reflects the move of all funds to DELC for the 2023-25 Biennium.

Biennium	General Fund	Federal Funds - CCDF	Federal Funds – COVID/ARPA One Time Funding	Total Funds
2021-23 Legislatively Approved Budget	$94,872,563	$101,562,464	$112,296,607	$308,731,634
2023-25 Legislatively Approved Budget	$223,311,298	$119,087,995	$109,825,496	$452,224,789
2025-27 Agency Request Budget	$353,624,707	$126,411,907	N/A	$480,036,614

Enabling Legislation/Program Authorization

Department of Early Learning and Care is responsible for administering funds received by the State of Oregon pursuant to the federal Child Care and Development Block Grant Act of 2014 (CCDBG) under ORS 329A.010. The Child Care and Development Fund (CCDF) is the funding mechanism to transfer funds to the State under CCDBG. ORS 329A.500 gives the Early Learning Council the authority to regulate the ERDC program, in consultation with the Oregon Department of Human Services.

Describe the various funding streams that support the program

The child care subsidy program is funded by General Fund and Federal Funds. In the 2025-27 Agency Request Budget,26% of the subsidy funding for ERDC is supported by the federal CCDF, which gives states, Tribes, and territories funding to provide child care services for low-income working families. Seventy-four percent of the funding for ERDC subsidies is General Fund, which prior to 2023-25 Legislatively Adopted Budget was part of the Oregon Department of Human Services budget. At the beneficiary level, eligible families make a copayment for child care services. Eligibility for the program is defined by a combination of state and federal law. 45 Code of Federal Regulations (CFR) § 98.20 defines eligibility for CCDF funded child care programs.

Program Justification and Link to Long Term Outcomes

The HFO program is a unique resource for new and expecting parents, furthering the Agency's goal of supporting stable and attached families. The program provides access to evidence-based services that include parenting education and promotion of parent-child relationships, child development screenings and supports, and linkages to community-based health, mental health, housing, financial, and educational resources. Notably, HFO furthers the objectives in *Raise Up Oregon* that families feel confident in their ability to be their children's first teacher and aligns with *Growing Oregon Together* objectives related to expanding infant and toddler services and providing families with access to culturally and linguistically responsive family education and support opportunities. The program also helps identify a child's socio-emotional, developmental, and health care needs at early stages, preventing the need for more intense services later.

Healthy Families America (HFA) has a robust body of evidence demonstrating positive outcomes for families and children. Multiple independent evaluations have consistently shown that HFA programs significantly reduce child maltreatment, improve parenting practices, and enhance child health and developmental outcomes. Families participating in HFA programs exhibit increased use of preventive health care services and greater parental knowledge of child development. Additionally, HFA has been linked to improved maternal health, reduced parental stress, and stronger parent-child relationships. These outcomes highlight HFA's effectiveness in fostering healthy, nurturing environments that support long-term family well-being and child success.

Program Performance

Healthy Families American sets caseload standards for HFO programs. As a result, if a local program experiences high levels of turnover among their home visiting workforce, overall caseloads will decrease until staff are sufficiently trained over 36 months. Relief Nurseries

Program Overview

Relief Nurseries offer integrated early childhood therapeutic and family support services to prevent children and their families from needing additional child welfare services in the future as a public-private partnership with the Department of Early Learning and Care.

Program Funding Request

The 2025-27 Agency Request Budget for Relief Nurseries is to maintain current service level with $28,796,632 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$17,629,057	$$11,167,575	$0	$28,796,632

Program Description

The Relief Nursery model serves children birth through five and their families. Families experiencing multiple stressors in areas such as mental and physical health, financial, and violence, are eligible for the program. Children and their families can receive home visits, respite care, parent support and education, as well as tangible supports such as clothing and food, developmental screening, transportation support, and nutritious meals. Children in the Therapeutic Early Childhood Program receive three to six hours of therapeutic class time per week, home visits weekly to monthly, and all the supports named above. Therapeutic classrooms have low group sizes and adult-child ratios (e.g., 3:6 for infants) and use trauma informed and culturally responsive social-emotional curricula. Staff are required to meet specific education and experience thresholds as well as complete initial and ongoing training on components of the Relief Nursery model and trauma informed services.

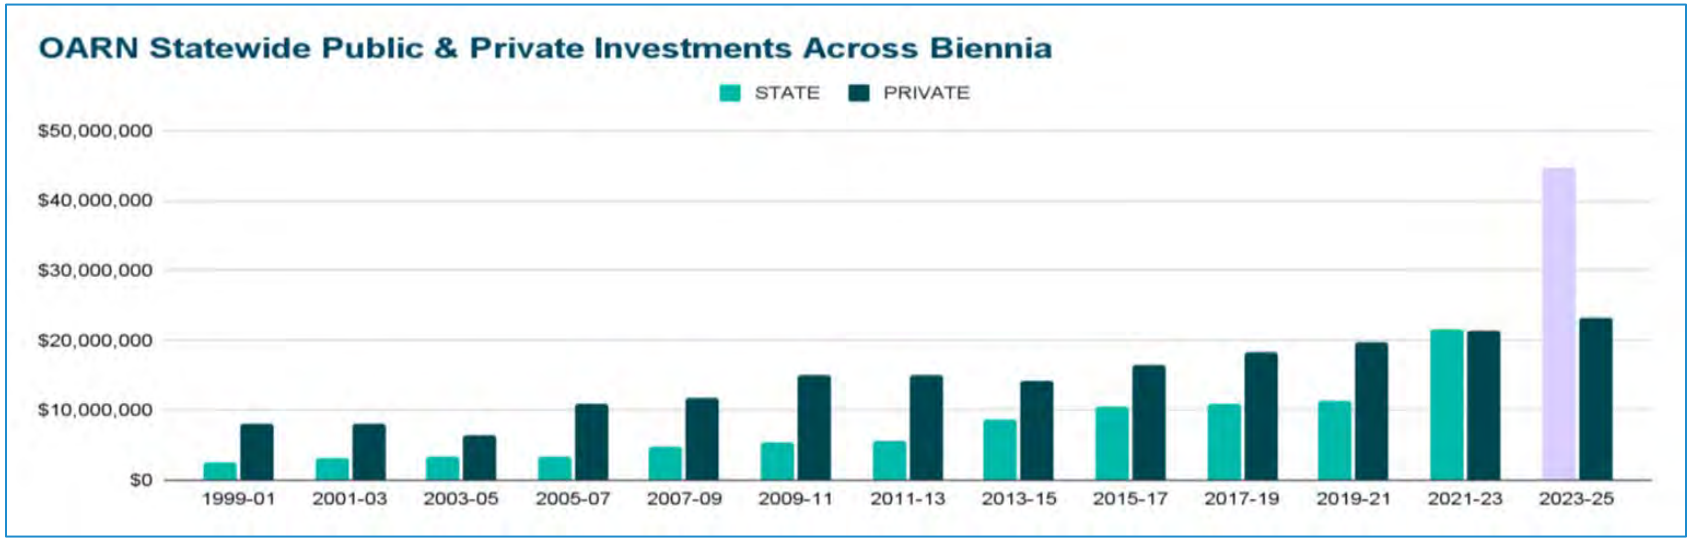
Relief Nurseries are public-private partnerships, with each Relief Nursery providing at least a 25% community match to state funds. The Agency is responsible for administering the public funds that the legislature allocates to the Relief Nurseries. The Oregon Association of Relief Nurseries (OARN) supports the practices, monitoring, and certification of Relief Nurseries. Relief Nursery programs employ highly qualified personnel with diverse backgrounds and must be licensed child care facilities.

Program Justification and Link to Long Term Outcomes

Relief Nurseries make progress toward *Raise Up Oregon* goal: children live in healthy, stable and attached families. Relief Nurseries also further specific *Raise Up Oregon* and *Growing Oregon Together* objectives, including increasing access to coordinated and comprehensive services that reduce participation in the child welfare system. The Relief Nursery logic model (found at this link: https://www.oregonreliefnurseries.org/outcomes) demonstrates that 95% of children whose families enroll in a Relief Nursery program do not experience maltreatment. Long-term outcomes include a reduction in the number of children that have adverse childhood experiences and an increase in the number of children that can remain safely in the home.

Program Performance

The first Relief Nursery was opened in 1984. Since that time, Relief Nurseries have expanded to 20 counties in the state. There has been growth in the number of children served, as well as the number of sites across the state, as the legislature has increased investments in the program. Below is information from the Oregon Relief Nurseries Association on the growth of the program:



The table below is a brief history of the state funding for Relief Nurseries from the 2015-17 to 2021-23 biennium:

Early Learning Hubs

Program Overview

Oregon's sixteen regional Early Learning Hubs serve as the state's regional partner in building an early childhood system that includes the full set of supports that young children and their families need to grow and thrive. These supports include the areas of physical and mental health, housing, social services, early learning and care, and workforce development working in concert to coordinate policies, programs, and services; create infrastructure; improve integration; and achieve scale.

Early Learning Hubs provide local community coordination for children ages 0-5 and their families, with an equity-driven focus on families who have been historically underserved and under-resourced by bringing together community-partners to develop strategic plans, analyze data, and engage in shared problem solving.

Program Funding Request

The 2025-27 Agency Request Budget for Early Learning Hubs is to maintain current service level with $24,340,811 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$17,352,738	$6,988,073	$0	$24,340,811

Program Description

Early Learning Hubs focus on supporting the development of an effective and coherent regional early childhood system that centers the needs and preferences of families. One common systems-building approach is the creation of collaborative partnerships that include people and organizations across multiple sectors working together to achieve shared goals. These partnerships can engage in multiple activities such as needs assessments, strategic planning, community organizing, policy advocacy, and the launching of a range of systems-change strategies.

BUDGET NARRATIVE

Vision

The Early Learning Hubs believe that when children and families thrive, Oregon thrives. The Early Learning Hubs share the same vision as *Raise Up Oregon* (2024-2028):

> Oregon's young children, prenatal to age five, experience an early start that results in positive health, education, and life outcomes regardless of zip code, race, and family income.

The early childhood system goals of *Raise Up Oregon*:

> Goal 1: The early childhood system is equitable: integrated, accessible, inclusive, anti-racist, and family centered.
>
> Goal 2: All families with young children are supported to ensure their well-being.
>
> Goal 3: All children are thriving in early childhood and beyond.

Mission

The primary purpose of the Early Learning Hubs is to advance the regional early childhood system in support of the statewide goals through their three core functions as **convening, connecting, and building the capacity** with:

- Families
- Cross-sector partners included in *Raise Up Oregon:* early learning and care, health, human services, housing, public education, higher education, and workforce development
- Community partners, such as libraries and museums, culturally specific organizations, city and county government, advocates
- Private partners, such as business and philanthropy

The Early Learning Hubs' secondary purpose is to work with the Department of Early Learning and Care and support the development and progress of regional early learning and care services and programs that meet the needs of families. This includes a role in supporting enrollment processes for early learning programs, including the Preschool Promise Program.

Early Learning Hubs have the following roles in advancing the regional early learning and care sector in a manner that addresses their region's unique challenges and needs through their relationship with DELC:

1. Use and discuss relevant data with families and community partners to understand the region, inform the planning and implementation of state and regional initiatives, and identify priority populations related to early learning and care.

2. Partner with Child Care Resource & Referrals (CCR&R) to increase the availability of child care and preschool, support professional development, and engage families in early learning and care.

3. Leverage resources in regional strategies, services, and programs in collaboration with families and community partners that support all children thriving.

4. Partner with state initiatives to involve families, providers, and community partners in the development, alignment, and implementation of a regional coordinated system of supports for inclusion and social-emotional well-being in early learning and care.

Program Justification and Link to Long Term Outcomes

Through *Raise Up Oregon*, Oregon's state agencies have recognized that the early childhood system must include supports that young children and their families need to grow and thrive.

Raise Up Oregon calls out the specific and collaborative contributions that multiple state agencies must commit to building this system. The most important work of building a comprehensive early childhood system happens in communities and with community-based organizations and families themselves. Beginning operations in 2015, the Early Learning Hubs were founded in 2013 to play a critical role in advancing Oregon's early childhood system by centering the voices of families and communities more fully as designers of the regional early childhood system. The vision and goals of the Hubs informed *Raise Up Oregon's* first edition in 2018. In the latest version, the Hubs are specifically mentioned and called upon to play a critical role in advancing the early childhood system.

Program Performance

The Early Learning Hubs have demonstrated their commitment to building an effective and coherent regional early childhood system for over ten years. This ongoing commitment is reflected in the Hubs' pivotal role in informing decisions across the agency through their valuable insights. The Hubs are deeply in tune with their communities and are highly knowledgeable on their regions' complexities and aim to strategically fund programs utilizing the dollars provided by DELC to ensure they meet the diverse needs of their region.

Their efforts include submitting quarterly reports and participating in monthly check-ins with the Department of Early Learning and Care staff ensure a constant feedback loop and fostering ongoing communication. The quarterly reports offer insights into Hub activities and progress, aiming to ensure they are meeting the priorities of their region.

The Department of Early Learning and Care is required to complete program evaluation for the Kindergarten Readiness Partnership & Innovation program. The evaluation for 2022, conducted by Portland State University, can be found at: https://www.oregon.gov/delc/Documents/2022%20KPI%20Retrospective%20Report%20FINAL%20FULL%202024-2-21.pdf.

Additionally, an annual report is submitted for Title IV-B2 funds to the Oregon Department of Human Services (ODHS). Title IV-B2 Family Preservation and Family Support Services funds are received by the Oregon Department of Early Learning & Care (DELC) from ODHS. These funds support the provision of community-based family support services in four goal areas: Early Childhood Development/Early Learning; Child Abuse and Neglect Prevention; Adolescent Risk Factors; and Child Poverty.

In 2023, the Early Learning Hubs utilized Title IV-B2 funds to support various programs tailored to their regions' specific needs. These programs provided culturally relevant child development services, comprehensive support from parent educators and family resource coordinators, basic needs assistance, support for migrant families, home visiting services, community engagement events, and more.

2023 Total Number of Children Served (Family Support): 47,678

2023 Total Number of Children Served (Family Preservation): 5,345

Describe the various funding streams that support the program

Funding for the Early Learning Hubs includes an appropriation from the state General Fund, Other Funds – Title IV-B2, funds received from the Oregon Department of Human Services, and Other Funds from the Early Learning Account. Tribal Hub

Program Overview

HB 2055 (2021) directed the Department of Early Learning and Care to establish a Tribal Early Learning Hub to coordinate early learning services provided to American Indian and Alaska Natives (AI/AN) of the nine federally recognized Tribal nations within Oregon's borders. The Tribal Advisory Committee was established to advise the Agency and the Early Learning Council on the role, function, and structure of the Tribal Hub.

Program Funding Request

The 2025-27 Agency Request Budget for the Tribal Hub is to maintain current service level with $664,922 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$664,922	$0	$0	$664,922

Program Description

Per ORS 417.831, the Tribal Advisory Committee (TAC) is responsible for making recommendations to "deliver early care and education services to the Tribal communities of this state in a culturally specific manner." While these recommendations are being developed, the nine federally recognized Tribes within Oregon's borders have each received funding to promote Tribal language and culture preservation and provide early learning activities within their communities. The Tribes have used this funding to provide updated classroom materials for preschoolers, expand cultural programs for young children and their families, increase wages for early educators, implement community outreach events for families with young children, provide training to early learning educators, and implement evidence-based education frameworks across their programs.

To meet the intent of HB 2055 (2021) and the needs of the nine federally recognized Tribes within Oregon's borders, the TAC recommended statutory changes that would replace the Tribal Early Learning Hub with a Tribal Early Learning Plan and Fund. This plan would serve as the statewide early learning and care plan for children prenatal through age 8, families, educators, and providers who are Tribal. The proposed Fund is intended to support the statewide Tribal Early Learning Plan. Together, this program supports and elevates cultural and experiential early learning and care and ensure access to cultural resources and curriculum in early learning spaces. DELC aims to support the early learning vision and direction of the nine federally recognized Tribes within Oregon's borders.

Program Justification and Link to Long Term Outcomes

Federally Recognized Tribes are individual Sovereign Nations with a unique legal relationship between the United States Government and Tribal Governments. This relationship is derived from the political relationship that Tribes have with the federal government and is not based on race. Tribal governments are separate sovereign nations with powers to protect the health, safety, education, and welfare of their members and to govern their lands. The state of Oregon honors Tribal sovereignty and recognizes the right of Tribes to self-determination and self-governance. The nine federally recognized Tribes within Oregon's borders have identified the importance of access to cultural and experiential early learning and care to ensure access to cultural resources and curriculum and early learning spaces. Honoring Tribal Sovereignty and each Tribe's autonomy to identify and meet the unique needs of their educators, caregivers, families and children are core tenets of proposed statutory changes to the Tribal Hub statute.

The Tribal Early Learning Plan recommended by the Tribal Advisory Committee has the following objectives to meet the educational, child care, and developmental needs and goals for Tribal children prenatal through age eight and their families, which may include, but is not limited to, the following:

- Improve Tribal access to DELC programs;
- Promote Tribal History/Shared History;
- Promote the progression of developmental milestones, honoring language and culture;
- Improve kindergarten readiness and improve literacy and numeracy levels between kindergarten and grade three parents and caregivers, honoring language and culture;
- Build Capacity for Tribal Early Learning Providers and Educators;
- Support Native American language and culture revitalization and preservation;
- Encourage and increase parental and familial engagement in Tribal children's educational, child care, and developmental plans;
- Promote the capacity of programs to involve and engage Tribal parents/caregivers.

Program Performance

The Agency is working with the Tribal Advisory Committee to codify the requirements of a Tribal Early Learning Plan and associated Tribal Early Learning Fund to resource the early learning and care work of the nine federally recognized Tribes within Oregon's borders.

Birth Through Five Literacy Plan

Program Overview

The Department of Early Learning and Care is directed to develop a Birth Through Five (BTF) Literacy Plan to increase access to culturally specific early literacy programs for children from birth to age five, to provide training and coaching for direct service staff in early literacy, and to develop and expand language revitalization efforts by federally recognized Indian tribes in Oregon. The purpose of this Plan is to articulate the ways that many of the Department of Early Learning and Care (DELC) programs already provide support to parents and young children related to comprehensive, holistic early literacy supports, as well as the gaps in services and recommended investments to address identified gaps. Further, the Plan is intended to identify ways to increase the consistency of high-quality culturally and linguistically responsive and developmentally appropriate literacy support to parents and caregivers with young children and to set them up for success when they enter kindergarten.

Program Funding Request

The 2025-27 Agency Request Budget for Birth Through Five Literacy Plan is currently $34,854,001 total funds. Policy Package 580 makes an additional funding request for General Fund.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$24,841,500	$10,012,501	$0	$34,854,001

Program Description Aligned with multiple objectives in *Growing Oregon Together*, the Birth Through Five (BTF) Literacy Plan was enacted through legislation (House Bill 3198) in 2023. The purposes of the Plan are to strengthen culturally specific early literacy supports for children from birth to age five, create more consistency and alignment across programs by providing training and coaching for direct service staff that engage with families and children in early literacy, and support language revitalization efforts by federally recognized Indian Tribes in Oregon. This is achieved by investing in DELC funded programs, the Early Learning Professional Development System, Parenting Supports, and Tribal Nations.

BUDGET NARRATIVE

DELC programs promote early literacy development through culturally specific child and caregiver programming and professional learning for the early educator workforce. These programs leverage several strategies that promote early literacy including:

- **Parenting Education:** Parent education workshops, classes and community events all focus on recognizing parents as each child's first teacher, providing them with tools, resources and supports to meet their child's needs.
- **Home Visiting:** Standalone and complementary home visiting services continue to promote parents as their child's first teachers, with a focus on the mental, behavioral and physical health needs of parents and young children prenatally through age three.
- **Community Need:** It is important to center community voice in understanding what works in different communities. This means being responsive to community need by resourcing innovative programming that meets the needs of diverse communities and align with the goals and outcomes of DELC across professional development, parenting education, kindergarten transition programs, and more.
- **Tribal Language Preservation:** DELC has a government-to-government commitment to support the nine federally recognized Tribes within Oregon's borders to revitalize and preserve Tribal language and culturally sustaining care.
- **Developmentally Appropriate Practice:** The Oregon Department of Education and the Early Learning Division (now DELC) released the Early Learning and Kindergarten Guidelines in 2016. This comprehensive document includes developmentally appropriate practices for preschool and kindergarten and is a tool for ongoing professional development of the shared workforce.

The funds are invested in DELC programs that provide support to parents and young children related to comprehensive, holistic early literacy supports, and in community-based organizations, culturally specific programs, and early learning providers that promote early literacy development for student groups that have historically experienced academic disparities. The funds will also be invested in the Early Learning Professional Development system to promote early literacy development through professional learning opportunities for the early educator workforce and promote best practices in literacy instruction through ongoing coaching support and through the development of training modules.

Children spend most of their lives at home or in the community, so parents and caregivers have a role to play in reinforcing the learning that happens in early learning settings and they must be supported as full partners in their children's literacy development. BTF Literacy funds will be used to increase support to parents and caregivers, through home visiting and parent educational opportunities, to empower them to be partners in their children's literacy skill and knowledge development. Children's literacy development is deepened through their lived experiences, where their unique languages, cultures, and identities are affirmed by families and caregivers who serve as important first teachers.

The BTF Literacy funds will be available for Tribal Nations to develop and expand language revitalization and preservation efforts by federally recognized Indian Tribes in Oregon. This aligns with DELC's strategic plan *Growing Oregon Together* by honoring and recognizing the sovereignty of the nine federally recognized Tribal Nations within Oregon and ensures strong government-to-government relationships to benefit Tribal communities through funding and programs that are designed to meet Tribal early learning needs and goals.

Program Justification and Link to Long Term Outcomes

Brain science tells us that children develop emergent literacy skills from birth, prompting a need to start supporting parents and caregivers and their children well before children begin the K-12 education journey. The first sounds a child may hear or see (signed) are the voices of the people in their home environment, building neural pathways and serving as the initial source of knowledge about language and their world. Families and caregivers are essential first partners in oral language development that cultivates later success in literacy and life. To build this readiness for school and to ensure schools are ready for students, parents and families must be recognized and supported as the first, most important teachers in a child's life. Before a child learns to read and write, they learn to listen and speak in their home language. This aspect of parent engagement was a consistent theme in community engagement conducted by the Governor's Office to inform the development of HB 3198. Implementation of the Birth Through Five Literacy Plan is identified in *Growing Oregon Together* (Goal 1.1.c). The long-term goals and metrics are in development and will be included in the Birth Through Five Literacy Plan submitted to the legislature in December 2024.

Families and communities strengthen school-based learning. Outside of school, children spend most of their lives at home or in the community. Parents and caregivers have a role to play in reinforcing the learning that happens at school as much as possible at home, and they must be supported as full partners in their children's literacy development. Children's literacy learning is deepened through their lived experiences, where their unique languages, cultures, and identities are affirmed by families and caregivers who serve as important first teachers. By providing resources to families in the early years, they will be better supported to strengthen their child's school-based learning in K-12.

Program Performance

In 2023-25, $9.4 million were released in the second year of the biennium through special appropriation. DELC distributed $4.7 million to enhance early literacy activities offered by the Kindergarten Readiness Partnership and Innovation (KPI) program administered by the regional Early Learning Hubs across the state and through a request for application process distributed $4.7 million by leveraging the eligibility requirements of the Early Childhood Equity Fund and also offering sole source applications to the nine federally recognized Indian Tribes in the geographic boundaries of the state of Oregon. Implementation data will be included in the December 2024 BTF Literacy Report. Since this is a new initiative, there is no historical data; program year 2024-2025 will be year one baseline data.

Department of Early Learning and Care

Policy Option Package 580

POP Title: Birth to Five Literacy Expansion

Total Request: $24,841,500 in General Fund appropriation

Purpose

POP 580 will allow the Department of Early Learning and Care to implement the Birth Through Five Literacy Plan to expand grants to additional service provider types, Tribes, and support the Early Learning Professional Development System.

Background

During the 2023 legislative session, the legislature passed HB 3198, creating the Early Literacy Success Initiative, Early Literacy Success Community Grant Program and the Birth Through Five Literacy Plan. The Birth Through Five (BTF) Literacy Plan is administered by the Department of Early Learning and Care.

The BTF Literacy Plan is intended to expand culturally-specific early literacy programs for children from birth through age five, to provide training and coaching for direct service staff in early literacy, and to develop and expand language revitalization efforts by federally recognized Indian Tribes in Oregon. Under the plan, DELC must distribute grants through a newly established Birth Through Five Literacy Fund “that align to the outcomes and indicators that exist across kindergarten readiness and culturally-specific parent and child support programs.” HB 3198, Section 9(3).

The BTF Literacy Plan will include community-informed recommendations for early literacy investments in early learning. While many programs administered by DELC include early literacy strategies, DELC is contracting with a third party to conduct additional, more robust engagement activities to yield additional recommendations for future investment, aligned with the Governor's Early Literacy Success Initiative.

Implementing the BTF Literacy Plan will expand grants to additional service provider types, Tribes, and support the Early Learning Professional Development System. The Early Learning Kindergarten Guidelines 2.0 will be disseminated with associated technical assistance and ongoing community engagement alongside ODE.

How Achieved

BTF Literacy Grants: **$21,841,500**
During the 2023-2025 biennium DELC distributed $9.4 million approved by the legislature as part of the Early Literacy Success Initiative into two DELC programs, the Early Childhood Equity Fund and the Kindergarten Partnership and Innovation Fund. To continue to expand access to literacy and meet the objectives outlined in POP 580 of the total request $21,841,500 will be allocated to support the Birth Through Five Literacy Plan by providing funding to community-based organizations, culturally specific programs, and early learning providers to promote early literacy development for student groups that have historically experienced academic disparities. Funds will be invested in the Early Learning Professional Development system to promote early literacy development through culturally specific child and caregiver programming and professional learning for the early educator workforce; promote best practices in literacy instruction through ongoing coaching support to direct service providers; and develop training modules to provide an "early childhood literacy endorsement" for early learning educators.

Outside of school, children spend most of their lives at home or in the community. Parents and caregivers have a role to play in reinforcing the learning that happens at school as much as possible at home, and they must be supported as full partners in their children's literacy development. BTF Literacy grants will be used to; increase support to parents and guardians to empower them to be partners in the development of their children's literacy skill and knowledge development; and increase access to early literacy supports that are research-aligned, culturally responsive, and child and family centered. Children's literacy learning is deepened through their lived experiences, where their unique languages, cultures, and identities are affirmed by families and caregivers who serve as important first teachers.

The BTF Grants will include Tribal grants to develop and expand language revitalization and preservation efforts by federally recognized Indian Tribes in Oregon. The Tribal grants align with DELC's strategic plan *Growing Oregon Together* by honoring and recognizing the sovereignty of the nine federally recognized Tribal Nations within Oregon and ensures strong government-to-government relationships to benefit Tribal communities through funding and programs that are designed to meet Tribal early learning needs and goals.

BTF Early Literacy Framework Development and Evaluation: **$800,000**

POP 580 requests $800,00 to consult with literacy experts and community partners to revise and align the Early Learning and Kindergarten Guidelines. The Early Learning and Kindergarten Guidelines were developed in collaboration with the Oregon Department of Education (ODE) and published in 2016. Funding will be used to update and align the guidelines with current kindergarten standards including the Oregon Transformative Social and Emotional (TSEL), Framework and Standards that represent K-12 social and emotional learning expectations for students, adopted in 2023. As well as to extend to infants and toddlers and include developmentally appropriate early literacy practices for early educators to utilize in their classrooms and for other adults that engage with children birth through age five.

Funds will also be used to provide engagement and training sessions throughout the state to build capacity within regions to support ongoing professional development focused on the implementation of the Early Learning and Kindergarten Guidelines and the BTF Literacy Plan. Targeted community engagement will be focused on families from communities that have been historically underserved and partnering with the Tribal Nations to identify additional early literacy needs and goals that will promote and celebrate culture and (where applicable) bi/multilingual literacy development. Community engagements will also inform the revisions to the Early Learning and Kindergarten Guidelines, the learning agenda for research and evaluation, and alignment with ODE initiatives related to early learning and the transition to kindergarten

Dolly Parton's Imagination Library: **$2,200,000**

POP 580 requests $2.2 million to sustain the Dolly Parton's Imagination Library Program in Oregon. Dolly Parton's Imagination Library is dedicated to inspiring a love of reading through book gifting for early learners. The program mails free, high-quality books to the homes of children from birth to age five, no matter the income level of the family, and develops engagement and skills that form the basis of literacy and educational success.

During the 2023 session, the legislature approved $1.7 million in General Funds for the Imagination Library program in the current biennium, and DELC worked with the Dollywood Foundation to establish a contract to operate the Imagination Library of Oregon Program, beginning in the current biennium. The $1.7 million was based on a 15-month program period, with an understanding that it would take time for DELC to contract and set up the program, which launched in May 2024.

Because the goal of the program is expanding access to free books statewide, the cost of the program for 2025-2027 is greater than the $1.7 million originally allocated for the Imagination Library. The agency estimates that a statewide program would cost $3.9 million in total for the 2025-2027 biennium. The $2.2 million increase in price includes the cost of a full two years (scaling from 15 months to 24 months) and an increase in access from 25 percent of eligible children in Oregon registered to 65 percent of eligible children registered for the program. The 65 percent registration target is established by the Dollywood Foundation, which operates the Imagination Library Program.

Other Early Learning Grants

Program Overview

The Other Early Learning Grants includes several smaller grant programs. The larger two are Dolly Parton's Imagination Library (DPIL) and the Child Care Infrastructure Fund (CCIF) technical assistance.

Dolly Parton's Imagination Library is dedicated to inspiring a love of reading through book gifting for early learners. The program mails free, high-quality books to the homes of children from birth to age five, no matter the income level of the family, and develops engagement and skills that form the basis of literacy and educational success.

The Child Care Infrastructure Fund (CCIF) is administered by Business Oregon, working with the Department of Early Learning and Care, other state agencies and private and non-profit entities to implement a grant and loan program to provide financial assistance for child care infrastructure activities. DELC is developing a technical assistance program to support early learning and care programs in applying for CCIF opportunities and has contracted for technical assistance services through First Children's Finance and Northwest Native Chamber.

Program Funding Request

The 2025-27 Agency Request Budget for the Other Early Learning Grants is to maintain current service level along with an increased investment in the Dolly Parton Imagination Library requested in POP 580.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$6,971,948	$1,734,399	$0	$8,706,347

Senate Bill 5506 (2023) appropriated $1.7 million General Fund to DELC for the implementation of the DPIL program.

DELC is requesting an additional $2.2 million in POP 580. It is estimated that an additional $2.2 million will cover the cost of program expansion, registering 65% of eligible children age birth to five. The estimated cost to maintain the 65% registration is $4.2 million per biennium thereafter.

Senate Bill 5506 (2023) also provided $5 million in General Fund appropriation for DELC to provide technical assistance to child care providers seeking to access the Child Care Infrastructure Fund (CCIF). CCIF is a competitive statewide grant program focused on providing funds for the establishment, expansion, and improvements of child care facilities across the state. Applicants who operate culturally specific early learning programs will be prioritized for these funds.

Program Description

In the 2023 legislative session, Senate Bill 5506, Section 53, allocated $1.7 million for Dolly Parton's Imagination Library of Oregon program. The established program will increase the reach and access to free books for eligible children, regardless of their family's income or geographic location. Section 54 allocated $5 million to DELC for technical assistance to child care providers who access the Child Care Infrastructure Fund.

Dolly Parton's Imagination Library of Oregon

Overall program funding is a combination of state General Fund and funding from local program partners. The state funds 50% of the cost of the books ($1.15 per child per month) and local program partners are responsible for remaining 50% of the costs of the books ($1.15 per child per month) on an ongoing basis.

Prior to Senate Bill 5506, approximately 50,000 or 25% of eligible children were enrolled in Dolly Parton's Imagination Library through local program partners. With the state funding allocated to operate the program and match the local program partners cost of the books, Oregon is expanding coverage to regions of the state where access to free books is unavailable and increasing enrollment in this evidence-based program. The goal is to reach approximately 50,000 more children birth through age five across the state and bring total coverage to 50% of the eligible population by the end of 2023-25 and reach the 65% enrollment target by the end of 2025-27 biennium. Based on the experience of other states, the Imagination Library expects the program growth to stabilize at 65% percent of all eligible children.

The program is delivered through contracting directly with the Dollywood Foundation to operate Dolly Parton's Imagination Library of Oregon, which includes the following:

- Coordinate Annual Blue Ribbon Book Selection Committee;
- Provide registration database and support;
- Coordinate monthly book order and fulfillment;
- Mail Imagination Library books monthly to registered children's homes;
- Foster growth, development, and sustainability of local programs in communities;
- Fiscal administration of program costs and invoicing for local program partners;
- Create universal access to the program, bringing partners in their communities aimed at ensuring that no children are missed;
- Solicit donations, gifts, and other funding opportunities at many levels to financially support the communities;
- Develop community engagement opportunities for local partners;
- Outcome reporting and performance tracking.

Child Care Infrastructure Fund Technical Assistance Program

The technical assistance funding of $5 million in General Fund is contracted between two organizations, First Children's Finance and Northwest Native Chamber. First Children's Finance (FCF) is a national non-profit organization that has established an Oregon center to provide technical assistance to child care businesses. FCF focuses on the goal of increasing the supply and sustainability of child care programs by offering comprehensive business and financial training, coaching, consulting, technical assistance. Their work is critical in ensuring that child care providers across Oregon, especially those in underserved areas, have the resources and support needed to apply for CCIF funding.

Northwest Native Chamber (NWNC) is focused on serving culturally specific businesses and communities. They offer resources for business startups and connections to other Native American-operated businesses. NWNC provides culturally responsive technical assistance, including legal services, accounting, credit coaching, and human resource support. NWNC's extensive referral network and experience with Business Oregon funds will be instrumental in guiding CCIF grantees to fully leverage this grant opportunity.

Program Justification and Link to Long Term Outcomes

Dolly Parton's Imagination Library of Oregon

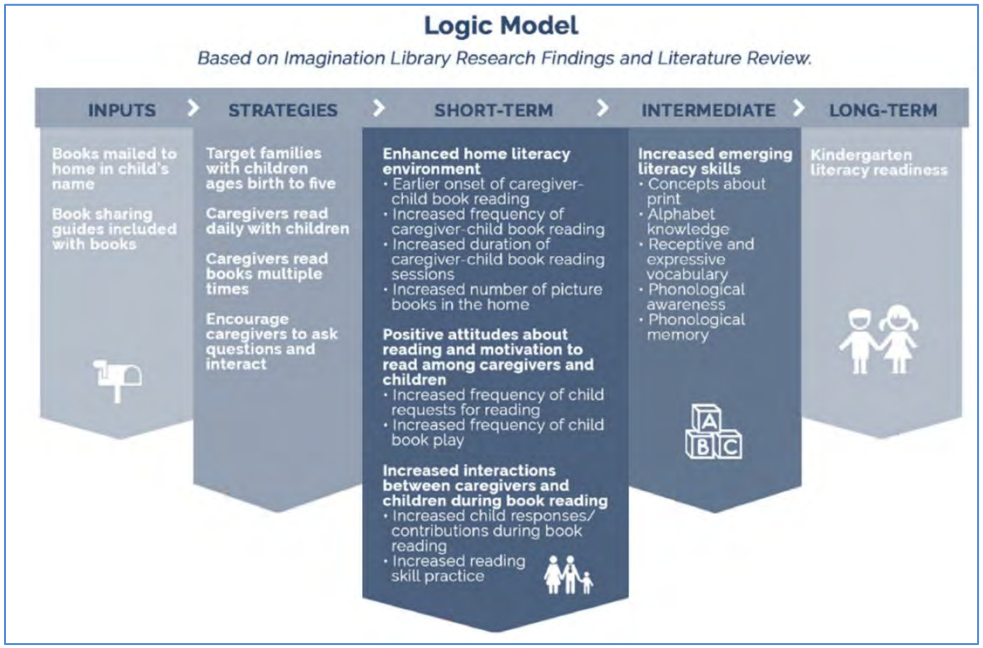
Studies have consistently shown that having books in the home significantly impacts children's educational outcomes. Research has demonstrated that even a small home library can lead to an increase in educational achievement. For example, a study in 2014 found that children from homes with as few as 25 books achieved 2.4 more years of education compared to children from bookless homes, regardless of their parents' education and social status. Moreover, building a child's home library can lead to improved test scores and increase the likelihood of college completion by 19 percent. This same study found that regardless of how many books the family already has, each addition to a home library helps the children get a little farther in school. However, having books in the home has a greater impact on children who come from homes where books are rare (M.D.R. Evans, 2014).

A significant number of children from lower-income families lack access to children's books at home. According to the US Department of Education, approximately 61% of children from lower-income families have no children's books in their homes. In lower-income neighborhoods, the ratio of books to children is one book for every 300 children, far below the ratio of 13 books per child in more affluent neighborhoods. Between 2021 and 2022, the number of households in poverty in Oregon increased by 1,879 (remaining at 12% below the FPL of all households), and the number of the Asset Limited, Income Constrained, Employed (ALICE) households increased more substantially by 17,386 to 33% of all households, a combined 45% (764,160) of households struggling to make ends meet.

In 2009, a study in eastern Tennessee investigated the relationship between Imagination Library students and their kindergarten peers on a Kindergarten Literacy Assessment. The study followed 3,352 children total, with 1,778 children participating in the program and 1,574 not participating in the program. The results revealed a significant difference between the performance of the Imagination Library alumni and the performance of their peers. The alumni scored higher percentages in the advanced performing categories and had lower percentages in the lower performing categories.

The study also compared the two student populations among various demographics found within the group. The subgroups included gender, race, income, and special needs. The results continued to show the students exposed to the Imagination Library outperformed the students who did not access the program.

The studies referenced above are just a fraction of many research projects showing that early reading experiences play a crucial role in preparing children for academic success, as a child's core brain development occurs during the first few years of life, shaping their ability to learn and think critically. Studies have linked greater home reading during the prekindergarten period with the later development of brain areas supporting mental imagery, narrative comprehension, and oral language skills (J. S. Hutton, 2015). Notably, parents who read one picture book with their children every day provide exposure to an estimated 78,000 words per year. Cumulatively, over the 5 years before kindergarten, children from literacy-rich homes hear 1.4 million more words during storybook reading than children who are never read to (J. Logan, 2019). Therefore, early reading experiences are crucial for children's cognitive development.



Child Care Infrastructure Fund Technical Assistance Program

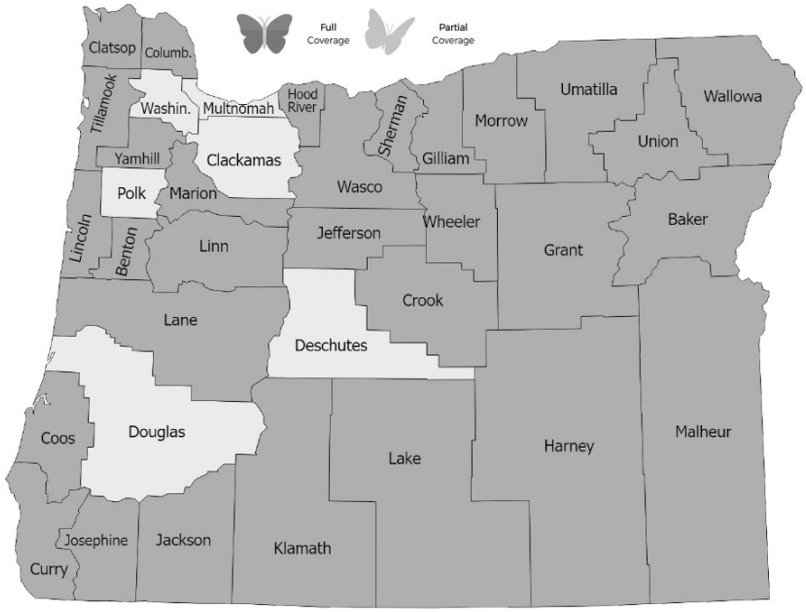
Early educational investments are severely underfunded and there is a shortage of affordable and accessible child care in Oregon. In The 2022 Oregon Child Care Deserts report by Oregon State University's Oregon Child Care Research Partnership, illustrates that there are 6 infants and toddlers for each child care slot that exists. A child care desert exists when there is a community with 3 or more children for a single child care slot. All counties except one are a child care desert for infants and toddlers and half of Oregon's counties are child care deserts for preschool-age children. In addition. early learning and care providers have limited finances to facilitate expansion of their child care environments and this severely limits the growth of child care in the state. High-quality early child care investment promotes regional economic growth by increasing the number of jobs available within the child care and construction workforce sectors and by providing consistent, accessible and reliable care that is necessary to allow parents to participate in the labor force. Quality early learning and care facilities that are developmentally appropriate, inclusive of children with disabilities, culturally relevant and responsive and environmentally healthy support child brain development and the well-being of children and early learning and child care staff. The development and investment in the Child Care Infrastructure Fund directly correlates with the need to provide resources that increase the availability of child care. The technical assistance program will provide business acumen supports to the diverse array of early learning and care programs seeking to apply for CCIF opportunities. Increasing the supply of early learning and care programs and sustaining those programs requires support and expertise in small business development. The funding for the development of the technical assistance program will allow FCF and NWNC to develop resources that directly address the needs of applicants hoping to create a business plan or apply for a planning grant. They are also poised to build resources for programs with complex goals of expanding child care services or opening new locations. The technical assistance will also be focused on supporting applicants once they are awarded funding through CCIF. The most vulnerable time for new child care programs is the first year of operation. FCF and NWNC are developing strategies to support programs in their first two years so they are more likely to sustain their operations.

Program Performance

Dolly Parton Imagination Library of Oregon

The Imagination Library of Oregon does not yet have a history of performance data because the state program was established in 2023-25. There are two main program outcomes that are tracked on an ongoing basis 1) full coverage for every county and zip code and 2) enrollment of 65% of the state's eligible population.

Currently, 30 of 36 counties have countywide program coverage with full coverage for the remaining six projected by the end of 2023-25 (see below). Approximately 70% of children's 0-5 homes are in the six counties that the statewide program will be expanding coverage.



The enrollment of children in the program is also projected to increase to the 65% target as shown below:

Period	Total Registered Children	% Registered Children	Total Program Cost (in millions)
Prior to May 2024	50,000	25%	$0
2023-25 Goal	50,000-100,000	25%-50%	$1.7
2025-27 Goal	100,000-140,000	50%-65%	$3.8
2027-29 Goal and Beyond	140,000	65%	$4.2

Child Care Infrastructure Fund Technical Assistance Program

The technical assistance program does not yet have data on its history of performance. $25 million in Lottery Bonds were sold in May 2024 and will be distributed by Business Oregon's CCIF program this year, and the remaining $25 million in Lottery Bonds will be available in the Spring of 2025. The first CCIF application process was released August 15, 2024. The technical assistance providers were selected by DELC and under contract by July 2024.

First Children's Finance has been actively engaging with child care providers through a series of focus groups aimed at understanding the experiences and challenges faced by those starting up or expanding child care businesses. The initial focus groups have provided valuable insights, including gratitude for the grant programs and a desire for more personalized, one-on-one support. FCF is addressing these needs by tailoring its outreach and technical assistance efforts to the different types and sizes of child care programs in the state. All types of child care programs have been encouraged to submit an application, with the initial round of funding prioritizing culturally specific programs and organizations. In addition to culturally specific programs and organizations, prioritization will be given to programs offering or expanding infant and toddler care, providing extended hour care, those located in child care deserts, and programs accepting subsidies. FCF and NWNC are currently working with early learning and care programs that are applying to expand their services, supporting them to develop plans that are realistic and timely, and connecting them to local resources in their communities so that they are able to meet application requirements.

Northwest Native Chamber is also working closely with Native child care programs to address the unique challenges they face, particularly those in Indigenous communities, where facility renovations often require specialized approaches due to systemic issues on reservations. The supports from each technical assistance provider includes CCIF application support, translation and interpretation support for culturally and linguistically specific child care programs, writing a business plan, creating a budget, business training and resources along with one-on-one consultation.

Enabling Legislation/Program Authorization

Funding for the Imagination Library of Oregon is authorized by the 2023 Regular Session, Senate Bill 5506, Section 53. The Department has launched the program but is requesting a legislative concept for the 2025 session to formally codify the program in Oregon law.

House Bill 3005 established the Child Care Infrastructure Fund and granted authority for the Department of Early Learning and Care to provide technical assistance to eligible applicants to the CCIF. Funding for DELC technical assistance to child care providers to access the Child Care Infrastructure Fund is authorized by Section 54 of Senate Bill 5506 (2023).

Describe the various funding streams that support the program

The Imagination Library of Oregon and technical assistance program for the Child Care Infrastructure Fund are funded with General Fund. The Other Early Learning Grants program does have some carryforward Other Fund limitation.

Kindergarten Readiness Partnership & Innovation

Program Overview

In their capacity-builder role, Early Learning Hubs work to expand the capacity of regional early childhood systems to be effective, coordinated and coherent while embedding racial, economic, and geographic equity and inclusion. One arm of this capacity-building role is through coordinating investments. The Early Learning Kindergarten Readiness Partnership & Innovation Program (KPI), which flows through the state's 16 Early Learning Hubs, invests in promising models for connecting early learning and K-3 education across the state. This program promotes community and school partnerships that result in measurable increases in children's readiness for and confidence in kindergarten. This program funds direct, collaborative services for families and children preparing to enter kindergarten; alignment and coordination activities for early learning and K-12; and cross sector partnership-building facilitation on a local level that reaches beyond K-12 and early learning.

Program Funding Request

The 2025-27 Agency Request Budget for Kindergarten Readiness Partnership & Innovation is to maintain current service level with $10,048,775 in total funds.

Biennium	General Funds	Other Funds	Federal Funds	Total Funds
2025-27 Agency Request Budget	$10,048,775	$0	$0	$10,048,775

Program Description

Oregon's Kindergarten Readiness Partnership and Innovation Fund (KPI) was authorized by the Oregon Legislature in 2014 to support innovative, community-driven work to improve children's school readiness and success and to reduce opportunity gaps for the state's most vulnerable children. KPI uses a framework for improving these outcomes known as the Prenatal-to-Grade 3 (P-3) approach. The focus of P-3 work is to build a system of aligned, coordinated supports from birth through third grade. Third grade is seen as a key benchmark based on the considerable research that demonstrates children who are meeting academic standards for reading and mathematics in third grade are more likely to be successful in school and to graduate from high school.

The Agency provides KPI funds to the state's 16 Early Learning Hubs ("Hubs"), which are given considerable local flexibility to implement innovative approaches (often blending and braiding other funding sources) in one or more of the following areas:

- Supporting kindergarten readiness skills in the context of strong and supportive relationships;
- Increasing family engagement in children's learning and connecting families and schools as well as families with each other;
- Providing professional development to early learning and/or elementary school professionals to improve knowledge and skills; and/or
- Increasing system alignment, connection, and collaboration between early learning, K-12 and other key partners in the P-3 system.

Early Learning Hubs utilize KPI grant funds for Agency-approved activities designed to promote "Ready Children, Ready Schools, and Ready Communities" for priority families in the region.

Program Justification and Link to Long Term Outcomes

KPI supports the Agency's Raise Up Oregon System Goal 3: All children are thriving in early childhood and beyond and Objective 16: Children and families experience supportive transitions and continuity of services across early learning and care and public education (K-12) settings. KPI supports successful and seamless transitions to kindergarten, which are associated with success during the early elementary years.

In 2017, the Agency contracted with Portland State University to conduct research demonstrating that KPI funds were being used to support the statewide goal of reducing disparities in kindergarten readiness for those from communities who have been historically underserved and under-resourced. Research confirmed that these funds were being used to support schools with larger proportions of economically disadvantaged students, Latino children, and children who are English Language Learners. In 2022, PSU published Eight Years of Kindergarten Readiness Partnership and Innovation: Key Findings and Future Directions. Overall, the data, in the form of surveys to participating families and educators, show that parents and caregivers feel they have improved their ability to support children during the transition into kindergarten. Educators report that shared professional learning opportunities have strengthened alignment between early learning and kindergarten classrooms.

Program Performance

Based on the number of post-KPI-event surveys Hubs collected, the number of families participating in the family engagement activities organized by the Hubs peaked just prior to the pandemic during the 2019-2020 school year. While the number of participating families dropped significantly during the start of the pandemic, data show a steady increase in participation during the 2022-2023 school year. The number of providers participating in the shared professional development events has followed a similar trend with a slight decline in 2022-23 compared with the prior year.

The Department of Early Learning and Care is required to complete a program evaluation. The evaluation for 2022, conducted by Portland State University, can be found at:
