

DEQ's Hazardous Waste Program

Hazardous Waste Annual Report Management Method Codes

Management method codes describe the type of hazardous waste management system used to treat, recover, or dispose of a hazardous waste. Select the management method reported on your completed manifest. If H141 is reported, select the final management method and answer 'Yes' to the H141 question on the GM form.

Reclamation and Recovery	
Code	Management Method Code Description
H010	Metals recovery including retorting, smelting, chemical, etc.
S010	The site receiving this waste stored/bulked and transferred the waste to another site for metals recovery including retorting, smelting, chemical, etc.
H011	Mercury recovery (include mercury retorting, bulb/lamp crushing and mercury vapor recovery, thermostat recovery, mercury from medical equipment recovery, mercury car switch recovery, etc.)
S011	The site receiving this waste stored/bulked and transferred the waste to another site for mercury recovery (includes mercury retorting, bulb/lamp crushing and mercury vapor recovery, thermostat recovery, mercury from medical equipment recovery, mercury car switch recovery, etc.)
H015	Deployment/deactivation of airbag waste followed by metals recovery
S015	The site receiving this waste stored/bulked and transferred the waste to another site for deployment/deactivation of airbag waste followed by metals recovery
H020	Solvents recovery (distillation, extraction, etc.)
S020	The site receiving this waste stored/bulked and transferred the waste to another site for solvents recovery
H039	Other recovery or reclamation for reuse including acid regeneration, organics recovery, etc. (specify in comments)
S039	The site receiving this waste stored/bulked and transferred the waste to another site for other recovery or reclamation for reuse including acid regeneration, organics recovery, etc.
H050	Energy recovery at this site - used as fuel (includes on-site fuel blending before energy recovery; report only this code)
S050	The site receiving this waste stored/bulked and transferred the waste to another site for energy recovery (includes on-site fuel blending before energy recovery)
H061	Fuel blending prior to energy recovery at another site (waste generated either on-site or received from off-site)
S061	The site receiving this waste stored/bulked and transferred the waste to another site for fuel blending prior to energy recovery at another site
Destruction or Treatment Prior to Disposal at Another Site	
Code	Management Method Code Description
H040	Incineration - thermal destruction other than use as a fuel (includes any preparation prior to burning)
S040	The site receiving this waste stored/bulked and transferred the waste to another site for incineration; thermal destruction other than use as a fuel
H041	Open burning/open detonation (should be permitted under Subpart X with process code X01)
S041	The site receiving this waste stored/bulked and transferred the waste to another site for open burning/open detonation (should be permitted under Subpart X with process code X01)

H042	Thermal desorption to remove organic contaminants from soil, sludge, or sediment by heating them in a unit called a "thermal desorber" to separate the contaminants.
S042	The site receiving this waste stored/bulked and transferred the waste to another site for thermal desorption to remove organic contaminants from soil, sludge, or sediment by heating them in a unit called a "thermal desorber" to separate the contaminants
H070	Chemical treatment (reduction/destruction/oxidation/precipitation); do not include immediate treatment in an exempted wastewater treatment unit with discharge to a NPDES-POTW
S070	The site receiving this waste stored/bulked and transferred the waste to another site for chemical treatment (reduction / destruction / oxidation / precipitation)
H081	Biological treatment with or without precipitation (includes any preparation or final processes for consolidation or residuals); do not include immediate treatment in an exempted wastewater treatment unit with discharge to a NPDES-POTW
S081	The site receiving this waste stored/bulked and transferred the waste to another site for biological treatment
H090	Polymerization (LDR standard as treatment method)
S090	The site receiving this waste stored/bulked and transferred the waste to another site for polymerization (LDR standard as treatment method)
H100	Physical treatment only (adsorption/absorption/separation/stripping/dewatering); do not include immediate treatment in an exempted wastewater treatment unit with discharge to a NPDES-POTW
S100	The site receiving this waste stored/bulked and transferred the waste to another site for physical treatment only (adsorption / absorption / separation / stripping / dewatering)
H110	Stabilization prior to land disposal at another site (encapsulation/stabilization/fixation)
S110	The site receiving this waste stored/bulked and transferred the waste to another site for stabilization prior to land disposal at another site (encapsulation / stabilization / fixation)
H113	Stabilization to remove hazardous waste characteristics or to achieve delisting levels
S113	The site receiving this waste stored/bulked and transferred the waste to another site for stabilization to remove hazardous waste characteristics or to achieve delisting levels
H120	Combination of chemical, biological, and/or physical treatment; do not include immediate treatment in an exempted wastewater treatment unit with discharge to a NPDES-POTW
S120	The site receiving this waste stored/bulked and transferred the waste to another site for a combination of chemical, biological and/or physical treatment
H121	Neutralization only (no other treatment)
S121	The site receiving this waste stored/bulked and transferred the waste to another site for neutralization only
H122	Evaporation (as the major component of treatment; not reportable as H070, H081, H100 or H120)
S122	The site receiving this waste stored/bulked and transferred the waste to another site for evaporation

Destruction or Treatment Prior to Disposal at Another Site (Continued)	
Code	Management Method Code Description
H129	Other treatment that does not include onsite disposal (specify in comments)
S129	The site receiving this waste stored/bulked and transferred the waste to another site for other treatment that does not include on-site disposal
Disposal	
Code	Management Method Code Description
H130	Surface Impoundment that will be closed as a landfill (with prior treatment and/or stabilization meeting LDR treatment standard)
S130	The site receiving this waste stored/bulked and transferred the waste to another site for surface impoundment that will be closed as a landfill (with prior treatment and/or stabilization meeting LDR treatment standard)
H131	Land treatment or application (with any prior treatment and/or stabilization)
S131	The site receiving this waste stored/bulked and transferred the waste to another site for land treatment or application (with any prior treatment and/or stabilization)
H132	Landfill (with prior treatment and/or stabilization)
S132	The site receiving this waste stored/bulked and transferred the waste to another site for landfill (with prior treatment and/or stabilization)
H134	Deep well or underground injection (with or without treatment; this waste was counted as hazardous waste) Oregon does not allow underground injection
S134	The site receiving this waste stored/bulked and transferred the waste to another site for deep well or underground injection (with or without treatment)
H136	Discharge to sewer/POTW (with prior storage – with or without treatment)
H137	Discharge with NPDES permit (with prior storage – with or without treatment)
H150	Discharge to sewer/POTW or by NPDES - without prior accumulation or storage (Oregon-only management code)
H138	Re-infiltration of treated groundwater – (Oregon-only management code)
Transfer Off-site	
Code	Management Method Code Description
H141	Storage and Transfer - The site receiving this waste stored/bulked and transferred the waste with no reclamation, recovery, destruction, treatment or disposal at that site. [Do not use this code in Item A-5a (source code G25) or Item B-3 (On-site Management) of Form GM].
