

For 2022 Tillamook PUD generated 539 OCFP credits, however we did not monetize any.

Oregon Administrative Rules 340-253-0640:

(11) Annual reporting of utility credit revenue. All electric utilities that receive base or incremental credits must annually report the following items to DEQ no later than April 30th. Failure to file such a report will result in the backstop aggregator or the incremental aggregator receiving credits for that utility until the utility files any past-due reports. Each utility must report the following information, for the prior calendar year:

(a) Total revenue from the sale of base and incremental credits attributable to residential vehicle charging, if applicable in the prior year; **Not Applicable \$0**

(b) For entities whose revenue or expenditures exceed \$250,000 in a given year, the percentages that result when dividing the utility's CFP-related administrative costs, including but not limited to submitting reports, selling credits, and to administer any programs that were funded by CFP revenue from the utility's sale of incremental credits, including but not limited to project management and development and management of contracts to operate such programs by the amount of revenue reported under subsection (a); **Not Applicable**

(c) A description of the programs that were funded by CFP revenue the utility received from its sale of base credits and the amount spent in each category in the prior year; **None for 2022**

(d) A description of the programs that were funded by CFP revenue from incremental credits, the amount spent in each category in the prior year, a description of the class of individuals or listing of organizations that benefited from the programs, and any other data elements that DEQ informs each utility receiving incremental credits that it will require following consultations with the Equity Advisory Committee created under OAR 340-253-0330(12)(j). **None for 2022**

Please let me know if you need any additional information.

Regards,
-Ryan
