Tunnel right of Common Crust Mining & Mill Co

Notice is hereby given that the Common Crust Mining and Milling Company a Corporation duly organized under and by the laws of Oregon, is engaged in the Construction of a tunnel, and claims a tunnel right as follows.

Commencing at a point near Common Crust in the County of Baker State of Oregon designated on the surface of the earth by a substantial post, the actual direction of said tunnel now Commenced and to be constructed under this Claim of right is north about ten degrees East. The length thereof is 7½ feet and the width 7 feet and the Course from the Commencement of said tunnel is North about 10 degrees East: and the distance from the point whereon said tunnel Commences to whereon it is proposed to terminate the same is about 3700 feet to a bone tree on Common Crust Hill known as the "Juniper tree" said Juniper tree being on the North boundary of a Claim patented by the United States & deeded to said Company, the location and points of said Tunnel are staked on the surface of the place of Commencement and termination as well as along the line thereof.

Common Crust Mining & Milling Co
By S G Reed
Pres't

State of Oregon }
Multnomah County } ss

I S G Reed being first duly sworn say I am President of the Common Crust Mining & Milling Company

a Corporation duly organized under the laws of the State of Oregon, and that said Company claims a tunnel right for the Construction of a Tunnel Commencing at a point near a Common Crust in the County of Baker State of Oregon designated upon the surface of the earth by a substantial post. The direction in which said Tunnel runs and is to run is north about 10 deg East.

The height thereof is 7½ feet & the width 7 feet; and the distance from the face of said tunnel to the proposed termination thereof is about 3700 feet in the Course above indicated to a tree on Common Crust Hill. Known as the Juniper tree said Juniper tree being on the North boundary of a Claim patented by the United States & deeded to said Company. That the location and points of said tunnel are staked on the surface, at the place of Commencement and termination as well as along the line thereof.

That work upon said tunnel has been performed to the extent of Constructing it about 600 feet. That about $7000.00 has been expended by said Company in prosecuting the work on said tunnel and that it is the bona fide intention of said Company to prosecute the work on the tunnel location as aforesaid with reasonable diligence for the development of a mineral lode and the discovery of veins along the Course of said Tunnel
