I Jerry Lynch, being first duly sworn, say that I am a practical & experienced workman in mines: & that I know the value of labor in & about mines & that I am personally acquainted with those two certain quartz claims known, located & recorded as the Oregon Chief Quartz mining claim & the Banner No 2 Quartz mining claim which was afterward re-located by me M. J. McMahon as the Eureka Quartz mining claim, each of said claims lying and being situate between on what is known as meadow Creek & Lake Creek in Baker County Oregon, and each on the same ledge; that of my own personal knowledge I know that $200.00 worth of work was done on the said claim ($100.00 for each claim) in and for the years of 1887-1888 and 1889. And that I performed the said labor myself to the amount of $100.00 on and for Each of the said claims during each of the said years. That of my own personal knowledge I know that each of said Claims were properly represented, and that $100.00 worth of work was done on Each of said claims in and for the year 1890. That I have seen and examined the said claims after the said work was and and performed there on for the year 1890 and that the work and labor done and performed on each of the said claims for the year 1890 was and is reasonible worth at least the sum of $100.00 on and for each of the said claims. And that no person or persons have any interest whatever in either of the said claims save and except the interest which is owned by myself, and the Estate of James Dougherty, deceased.

Jerry Lynch.

Subscribed and sworn to before me this 2nd day of September 1892

C. A. Johns

The First National Quartz Mine

Filed for Record Dec. 16th 1893 at 8 A M
W.S. Brown Recorder

Notice is hereby given to all whom it may concern, that we the undersigned being citizens of the United States, over the age of twenty one years, having discovered a vein or lode of quartz or rock in place bearing Gold within the limits of the claim hereby located, and have this day, under and in accordance with the Revised Statutes of the United States, Chapter Six Title Thirty two, located Fifteen Hundred linear feet of this vein or lode, with surface ground Six Hundred feet in width, situated in no organized Mining District County of Baker, State of Oregon and known as the First National Quartz Mining Claim extending three hundred feet North from prospect hole to center end stake and 1200 feet South to South center end stake which is 1200 feet from this notice at the discovery or prospect shaft which is 300 feet from North end line; the exterior boundaries of this claim being distinctly marked by reference to some natural object or permanent monument and more particularly described as follows to wit:

Beginning at prospect shaft and running 300 feet to North end center stake; thence 300 feet to N. E. corner; thence 1500 feet to N. W. corner; thence 300 feet to South end center; thence 300 feet to S. W. corner; thence 1500 feet to S. E. corner thence 300 feet to North center end stake; thence 300 feet to prospect shaft. Said claim is located on East side of Second Creek about three hundred feet South of the Burns claim and about 400 feet East of the Hero mine, and we intend to hold and work said claim as provided by local customs and rules of Miners and Mining Statutes of the United States; and we claim all dips, spurs and angles on said claim.

Dated on the ground this 20th day of November 1893

Discovered & Located November 20 1893
