PROOF OF LABOR FOR FISCAL YEAR 1946-47.
GEORGE W. LANE, ON LANE NOS. 1 to 28 PLACER MINING CLAIMS.

STATE OF OKLAHOMA,)
(SS:
COUNTY OF TULSA.)

I, George W. Lane, being first duly sworn, on oath depose and say: That I am one of the original locators and co-owners of the mining claims hereinafter mentioned and have been familiar with the mining and prospecting operations and the development work performed thereon from the inception of such locations. I was also the superintendent in charge of the prospecting operations and development work performed upon the ground during the period from July 1, 1946, to July 1, 1947, and have personal knowledge of all the facts herein set forth. I make this proof of labor for the purpose of showing the extent of the labor and improvements performed and made upon the mining claims hereinafter described during said fiscal year, particularly because a portion of said claims was by inadvertence omitted from the suspension notice which I caused to be filed on said claims during the year 1947. This proof of labor is made in order to preserve a formal record of the fact that although as stated a portion of the claims was by inadvertence omitted from the suspension notice the necessary assessment work was in fact done upon all of the claims, particularly including those omitted, during such fiscal year. That none of said claims has either been abandoned or open to re-location at any time.

That the group of claims for which this proof of labor is filed and upon or for the benefit of which the labor and improvements hereinafter mentioned were performed and made during said fiscal year from July 1, 1946, to July 1, 1947, are situated along or in the vicinity of Pine Creek, near Hereford, in Township 12 South, of Range 39 E. W. M., in Baker County, Oregon; the names of said claims and the volumes and pages of the records of placer locations of Baker County, Oregon, where the respective location notices thereof are recorded being as follows:

Lane No. 27	M	470
Lane No. 28	M	470

To which volumes and pages of the public records aforesaid reference is hereby made for a more full and complete description of the said mining claims and of the ground covered thereby.

That all of said mining claims are located in one compact group or body of ground and taken together cover in excess of 4000 acres of contiguous placer mining ground; that it has been the intention of me and my associates in locating and holding said ground to have the same included in one large scale placer operation. That all of said ground is expected to be ultimately worked by means of one large mining plant. From the inception and commencing at a time shortly following the original location of said claims a program of prospecting and development work has been carried out thereon, pursuant to which a large number of shafts, cuts and other excavations have been sunk upon the ground at various places, in accordance with a well defined plan and program to ultimately establish the mineral values contained within the entire area. The shafts now sunk cover practically all of the claims in the group and when the program is completed it is expected that all of said claims

will be thoroughly tested and prospected by means thereof. With particular regard to the Lane Nos. 20 to 28, which were by inadvertence omitted from the suspension notice filed during 1947, these claims are situated upon Sections 21, 9 and 16, said Township and Range; a number of shafts have been sunk upon such claims which, taken and considered with the values shown by the prospecting on surrounding ground, definitely develops the ground within that area and tends toward the improvement and development of the said claims in those sections.

That a portion of the labor and improvements hereafter referred to, amounting to much more than \$100 for each 160 acre claim, was in fact actually done upon the said claims (the Lane Nos. 20 to 28) situated in said three sections.

In connection with said prospecting program it was necessary to prosecute a detailed survey of the ground in order to locate and plat the various shafts and other excavations so as to conduct the prospecting work in accordance with an orderly plan and preserve a proper and detailed record of it. The value of the work performed from the standpoint of future operations is largely dependent upon the preservation and existence of such record.

That during the period from July 1, 1946, to July 1, 1947, the following expenditures were made in connection with the said prospecting, operation and development work upon said mining claims. The names of the men performing the work and a general statement of the work performed, together with the amounts paid each from time to time is set opposite each name:

Paul Reese & S.		
J. Chmidling	Helping survey claims	\$124 00
S. J. Chmidling	Trucking and digging pits	130 00
L. B. Larson	Labor - digging pits	32 00

Lee Frances	Labor	118 00
S. G. Chmidling	Trucking - labor and hauling gravel	120 00

	Tools, shovels and picks, etc.	28 00
L. B. Larson	Labor digging pits and panning	120 00

Book 71 Page 242

Lee Frances	Labor	\$ 60 00
Walter Givens & Helper	Washing gravel, panning and operating sampling machine	170 00
Gus Pearson	Labor	70 00
Geo. W. Lane	Labor and supt. of operations on above work 96 days @ \$10 a day	960 00
	Total	\$3028 80

That all of said expenditures represent actual labor and improvements performed upon the ground and all of the same are proper expenditures to be considered in connection with annual assessment work or improvements for patent upon each and all of said claims including particularly the said claims (Lane Nos. 20 to 28) so inadvertently omitted from the said 1947 suspension notice. As a matter of fact the above expenditures cover only a part of the expenditures upon said ground and if occasion arose further expenditures could be shown in connection with the said operation and considerably increase the above total. That the said expenditures above shown however amount to more than \$100 worth for each of the 28 claims in the group.
