To which volume and pages of the public records aforesaid reference is hereby made for a more full and complete description of the said mining claims and of the ground covered thereby.

Reference is made to the proof of labor for the fiscal year 1946-47 filed by George W. Lane upon the said mining claims, for details regarding the status of said claims and the fact that the same are and have been held and worked as one group pursuant to a

program for the common development thereof. That an elaborate prospecting program has been undertaken by the said George W. Lane and his associates for the testing of said ground in connection with which certain expenditures have been made; that a portion of said expenditures are set forth in detail in the said proof of labor filed for 1946-47. That on July 1, 1947, the prospecting and testing operations were in full progress with a substantial crew of men working on the ground; that during the period from July 1, 1947, until August 30, 1947, when the prospecting was suspended for the season, the additional expenditures were made in connection with said prospecting and testing operations which are set forth in detail in the itemized statement furnished to me by George W. Lane and bearing his signature which is attached hereto, marked Exhibit A and by reference thereto made a part hereof; that said itemized statement contains the nature of the work performed, the amount expended for each item thereof and the name of the person performing the same. That all of said expenditures so set forth in said itemized statement represent actual labor and improvements performed upon the ground in connection with the prospecting thereof, and that while as appear s from said statement the work was actually done on the west half of Section 22 and the east half of Section 21, the same was performed as a part of a well defined and established testing program ultimately designed to establish the mineral values in and furnish data for the working of all of the claims in said group. That all of said expenditures were and are proper items to be considered as annual assessment work and improvements for patent upon each and all of the claims included in said group and above described. That the said expenditures as listed therein amount to a total of $2824.35, or sufficient to cover the annual assessment work requirements upon each of the 28 claims included in the group; that such expenditures, however, in fact, represent only a part of the work performed upon said ground during the fiscal year. In addition thereto further work was performed during the spring of the year 1948, as

AMENDED LOCATION NOTICE OF PLACER CLAIM

(BENNETTE by JESSIE M. & ELVIN A.PENROD)

NOTICE IS HEREBY GIVEN, that the undersigned claimants, Jessie M. and Elvin A. Penrod, being both citizens of the United States, over the age of 21 years, and two of the original locators of the mining claim hereinafter mentioned, (the said Jessie M. Penrod having acquired the interest of the remaining original locator) do hereby claim by right of previous discovery and location and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter Six, Title 32 and all subsequent acts supplemental or amendatory thereto and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim, bearing gold and silver, known and named as the Bennette Placer Mining Claim, and being as amended particularly identified, located and described, so far as possible with reference to the legal sub-divisions of the public survey as follows, to-wit:

The west half of the west half of the southwest quarter of Section 14, in Township 10 South, Range 35½, E. W. M. in Baker County, Oregon, containing 40 acres according to the public survey.

The adjoining claims are the Wonder, the Long Race No's 1 and 2 on the west, Channel No. 2 on the north, the Long Race No's 3 and 4 on the east and the Rim on the south. This is the same claim originally located on June 15, 1926, the original location notice thereof appearing of record in Volume J at page 267 of the Records of Placer Locations of Baker County, Oregon.

This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous location and recording in connection

with the program adopted for readjusting the boundaries of and eliminating conflicts between the various claims in that area. As now amended, the location retains the acreage called for by the original location notice (although less than the maximum which the three original locators would have been entitled to claim) and corresponds insofar as is possible and with due regard to the requirements of other adjoining locations with the ground apparently sought to be covered by said original location.

SECOND AMENDED LOCATION NOTICE OF PLACER CLAIM

(SUNSET NO. 1, by JESSIE M. and ELVIN A.PENROD)

NOTICE IS HEREBY GIVEN, that the undersigned claimants, Jessie M. Penrod and Elvin A. Penrod, being both citizens of the United States, over the age of 21 years, and two of the original locators of the mining claim hereinafter mentioned, in spite of the ambiguities and discrepancies in spelling hereinafter mention,(the said Jessie M. Penrod having acquired the interest of the remaining original locator) do hereby claim by right of previous discovery and location, and this second amended location notice, under and in accordance with the revised statutes of the United States, Chapter Six, Title 32 and all subsequent acts supplemental or amendatory thereto and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim, bearing gold and silver, known and named as the Sunset No. 1 Placer Mining Claim, and being as amended particularly identified, located and described, with reference to the legal sub-divisions of the public survey as follows, to-wit:

> The south half of the southeast quarter of the northeast quarter, the north half of the northeast quarter of the southeast quarter of Section 21, and the southwest quarter of the southwest quarter of the northwest quarter, and the northwest quarter of the northwest quarter of the southwest quarter of Section 22, all in Township 10, South of Range 35½, E. This is the same claim originally located on April 17, 1927, the original location notice thereof appearing of record in Volume J at page 345 of the Records of Placer Location of Baker County, Oregon, and a first amended location notice thereof, dated December 20, 1933, appearing of record in Volume K at page 311 of said Records of Placer Locations.

1.

Book C Page 145

The undersigned claimants, Jessie M. Penrod and Elvin A. Penrod, do hereby certify and declare that they are in fact the same and identical individuals appearing as two of the original locators of said claim and joining in both said original and 1st amended location notices; that the said Elvin A. Penrod is the same party named as E. Penrod on the original and 1st amended location notices, and the said Jessie M. Penrod is the same person as Jessie Penrod named in said 1st amended location notice and the same person as J. W. Penrod named in the recorded copy of the original location notice; that such original location notice was prepared in longhand and the recorder in transcribing the same onto the records, apparently mistook the initial "M" for "W" and transcribed it accordingly. There is not and never was any such person as J. W. Penrod joining in the original location of this claim, but the said Jessie M. Penrod, whose initials are J.W. is the party who joined in such original location, together with her deceased husband, A. D. Penrod and her son, the said Elvin or E. Penrod.

This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous location and recording in connection with the program for readjusting the boundaries of and eliminating conflicts between the various claims in that area. This second amended location covers, so far as it is possible, the same and identical ground covered by the 1st amended location with only such adjustments as are necessary to accommodate the boundaries of this claim with the general readjustment program.

AMENDED LOCATION NOTICE OF PLACER CLAIM

(WONDER, by JESSIE M. and ELVIN A. PENROD)

NOTICE IS HEREBY GIVEN, that the undersigned claimants, Jessie M. Penrod and Elvin A. Penrod, being both citizens of the United States, over the age of 21 years, and two or the original locators of the mining claim hereinafter mentioned (the said Jessie M. Penrod having acquired the interests of the remaining original locators), do hereby claim by right of previous discovery and location and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter Six, Title 32, and all subsequent acts supplemental or amendatory thereto and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim, bearing gold and silver, known and named as the Wonder Placer Mining Claim, and being as now amended particularly identified, located and described, with reference to the legal sub-divisions of the public survey as follows, to-wit:

> The south half of the northwest quarter of the southeast quarter, the west half of the northeast quarter of the southeast quarter, the north half of the southwest quarter of the southeast quarter, and the southeast quarter of the southeast quarter of Section 15, in Township 10 South, Range 35½, E. W. M., in Baker County, State of Oregon, containing 100 acres more or less according to the public survey.

This is the same claim originally located on June 15, 1926. The original location notice thereof appearing of record in Volume J, at page 268 of the Records of Placer Locations of Baker County, Oregon, and a second location, or relocation of said claim, (which would presumably be construed as an amendment to the original) is dated August 6, 1938, and appearing of record in Volume L, at page 264 of said Records of Placer Locations. The adjoining claims are the Bennette Placer on the east, Gold Rim Placer on the south and the Blue Mountain Channel No. 1, Blue Mountain Channel No. 2, Long Race 1 and 2 and page 1.

Book C Page 152

Channel No. 1 Placers of the Dodson Group on the west and north.

This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous locations and recordings in connection with the program adopted for readjusting the boundaries of and eliminating conflicts between the various claims in that area. As now amended, this claim covers as much as possible of the ground included within both of the prior locations, after making such adjustments as are necessary in order to eliminate conflicts with other adjoining claims and accomodate the boundaries of the various claims in that area with each other. In making this amendment, claimants have, in order to avoid the possibility of controversy, claimed only the acreage included in the second location (100 acres) rather than the maximum of 120 allowable and claimed under the first.

To which volume and pages of the public records aforesaid reference is hereby made for a more full and complete description of the said mining claims and of the ground covered thereby.

Reference is made to the recitals of prior proofs of labor for details regarding the status of said claims and the fact that the same are and have been held and worked as one group pursuant to a program for the common development thereof. That as will also appear from the recitals of prior proofs of labor during the years since the claims have been located a detailed elaborate prospecting program has been undertaken and carried out. During the fiscal year from July 1, 1948 to July 1, 1949 this prospecting and sampling program was continued under the direction of Mr. Milton Leon, a mining engineer with offices in Tulsa, Oklahoma. He employed a crew, worked upon said property for several months sampling and testing the same by means of shafts, cuts and similar workings in order to demonstrate the mineral values therein looking toward eventual commencement of mining operations thereon. The said Milton Leon has furnished me a detailed statement of the work performed during such fiscal year certified to by his accountant as correct and such statement is attached hereto, marked Exhibit "A" and by reference thereto made a part hereof. That as will appear from said statement a total of $3182.93 was expended upon said claims for such fiscal year, Such amount being more than the $100.00 requirement for each of the 28 claims in the group. That as will appear from the suspension notice filed by George W. Lane, et al, the owners of said property, the said owners have elected to claim the benefit of the moratorium for the fiscal year 1948-49 and as permitted by the suspension Act (Public Law #107, 81st Congress, approved June 17, 1949) the said owners have elected and do now elect to credit the labor and improvements performed during such fiscal year against the labor and improvements required to be performed or made for the year ending at 12 o'clock Meridian on the 1st day of July, 1950 and the labor and improvements above

mentioned are to be so credited so that the annual labor upon said claims have now been fully performed until the fiscal year beginning at 12 o'clock Meridian July 1, 1950 and ending at 12 o'clock Meridian July 1, 1951.
