RE: Revised Wildlife Baseline Report and comment responses, Grassy Mountain Mine Project

Dear Ms. Lewis:

This letter accompanies the submission of the revised Wildlife Baseline Report, comment spreadsheets and shapefiles uploaded today to the DOGAMI sharesite.

For clarity, each file that must be kept confidential (agency requirement) is labeled CONFIDENTIAL.

USFWS asked for a comprehensive comment spreadsheet to facilitate their review (*3678V.Grassy_Wildlife_USFWS_Comprehensive Comment Response Table 10.9.20.xlsx*). We have also included the specific Federal and State agency spreadsheets. The spreadsheet that addresses the DOGAMI Consolidated Permit Application completeness comments is *3678.Grassy_Wildlife_CPA_StateAgency_comment response table.xlsx* and the spreadsheet that specifically addresses the BLM is *202002_WildlifeBLD_BLMReview_CalicoResponsesReview.xlsx*. Comments from both BLM and DOGAMI are addressed in the revised report uploaded today. All data submitted to DOGAMI today has also been submitted to the BLM for their review.

Please contact me at 775-770-4615, nancy@paramountnevada.com if you have questions or need clarification.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nancy J. Wolverson', is placed over a light gray rectangular background.
