

## Key Federal Grant Opportunities in Process or Consideration by ODOE

| Status                            | Title                                                     | Formula or Competitive? | Start date | End date    | ODOE is the lead applicant? |
|-----------------------------------|-----------------------------------------------------------|-------------------------|------------|-------------|-----------------------------|
| Awarded                           | Grid Resilience                                           | Formula                 | 09/01/2022 | 05/31/2031  | Yes                         |
| Awarded                           | IIJA SEP                                                  | Formula                 | 03/28/2022 | 09/30/2028  | Yes                         |
| Awarded                           | EECBG                                                     | Formula                 | 02/01/2023 | 10/31/2026  | Yes                         |
| Awarded                           | RECI – ASHRAE                                             | Competitive             | 12/19/2022 | 12/31/2027  | No                          |
| Awarded                           | Home Energy Rebates – Retrofit (HOMES)                    | Formula                 | 08/28/2023 | 09/30/2031  | Yes                         |
| Awarded                           | Home Energy Rebates – Electrification (HEAR)              | Formula                 | 08/28/2023 | 09/30/2031  | Yes                         |
| Awarded                           | CPRG – Planning Funds – DEQ                               | Formula                 | 03/01/2023 | 07/01/2026  | No                          |
| Awarded                           | Energy Auditor Training Competition                       | Competitive             | 12/15/2023 | 09/30/2027  | Yes                         |
| Awarded                           | CPRG - Implementation Funds                               | Competitive             | 09/30/2023 | 10/31/2029  | No                          |
| Awarded                           | Latest and Zero Building Energy Codes – Formula           | Formula                 | 10/20/2023 | 12/31/2034  | Yes                         |
| Awarded                           | Training for Residential Energy Contractors - Competitive | Competitive             | 01/02/2024 | 12/31/2029  | Yes                         |
| Awarded                           | Training for Residential Energy Contractors - Formula     | Competitive             | 07/17/2023 | 01/31/2028  | Yes                         |
| Program cancelled, ODOE appealing | Solar for All                                             | Competitive             | 06/28/2023 | 10/30/2029  | Yes                         |
| Program cancelled                 | RECI – Earth Advantage                                    | Competitive             | 12/19/2022 | 12/31/2027  | No                          |
| Program cancelled                 | Hydrogen Hub                                              | Competitive             | 01/01/2024 | 05/01/20233 | No                          |

Last updated 4/23/2026

Note: Dates include application time and do not indicate availability of funds or rebates are currently available for all programs. Similarly, some of the opportunities are competitive, and there is no guarantee ODOE will receive an award. All dates presented in the table are subject to change. This slide will be updated on a periodic basis as new information becomes available.

| Stage                            | Grant name                                                     | Grant acronym (if applicable)    | State of Oregon award amount                | Current ODOE award amount | Pass-through amount (if applicable) | Federal Act |
|----------------------------------|----------------------------------------------------------------|----------------------------------|---------------------------------------------|---------------------------|-------------------------------------|-------------|
| Awarded                          | Grid Resilience                                                |                                  | \$50 million                                | \$30.9 million            | \$29.4 million                      | IIJA        |
| Awarded                          | Infrastructure Investment and Jobs Act – State Energy Program  | IIJA - SEP                       | \$5.6 million                               | \$5.6 million             |                                     | IIJA        |
| Awarded                          | Energy Efficiency Conservation Block Grant                     | EECBG                            | \$1.9 million                               | \$1.9 million             | \$1.2 million                       | IIJA        |
| Awarded                          | Resilient and Efficient Codes Implementation (ASHRAE)          | RECI – ASHRAE                    |                                             | \$54,000                  |                                     | IIJA        |
| Awarded                          | Home Energy Rebates – Retrofit (HOMES)                         | HER – Retrofit                   | \$56 million                                | \$56 million              | \$30 million                        | IRA         |
| Awarded                          | Home Energy Rebates – Electrification (HEAR)                   | HER – Electrification            | \$56 million                                | \$56 million              | \$30.7 million                      | IRA         |
| Awarded                          | Climate Pollution Reduction Grants – Planning Funds            | CPRG                             | \$3 million                                 | \$500,000                 |                                     | IRA         |
| Awarded                          | Energy Auditor Training Competition                            | EAT                              | \$1.7 million                               | \$1.7 million             | \$1.6 million                       | IIJA        |
| Awarded                          | Climate Pollution Reduction Grants – Implementation Funds      | CPRG – Implementation            | \$197 million                               | \$39 million              |                                     | IRA         |
| Awarded                          | Latest and Zero Energy Building Codes – Formula                |                                  | \$6.5 million                               | \$500,000                 | \$6.0 million                       | IRA         |
| Awarded                          | Training for Residential Contractors - Formula                 | TREC - Formula                   | \$2 million                                 |                           |                                     | IRA         |
| Program canceled, ODOE appealing | Solar for All                                                  | SFA                              | \$86.6 million                              | \$86.6 million            | \$37.4 million                      | IRA         |
| Program canceled                 | Resilient and Efficient Codes Implementation (Earth Advantage) | RECI – Earth Advantage           |                                             | \$382,000                 |                                     | IIJA        |
| Program canceled                 | Hydrogen Hub                                                   | Pacific Northwest H2 Association | Up to \$1 billion (as part of a consortium) |                           |                                     | IIJA        |
