

Carina is a free online tool that allows care providers to match with Medicaid and Oregon Project Independence (OPI) in-home care consumers nearby. Use Carina to find full-time, part-time, and temporary care jobs in your area.

To create a free Carina account and find care jobs near you:

1. Go to carina.org/providecare/medicaid/oregon or scan the QR code.
2. Click "Join for Free."
3. Complete sign-up as a "Provider" by entering contact information and your active provider number.
4. Once you complete sign-up, you can search jobs by zip code, view job posts, and message in-home care consumers and case managers.
5. With potential clients, schedule a time to chat on the phone and meet in person for an interview. Once you find the right fit, work with their case manager to confirm your new care role.

If you have any issues, please call 1-855-796-0605 or visit carina.org/contactus/.

Carina is available in thirteen different languages.

Carina is 100% free through a partnership between Carewell SEIU 503, a RISE Partnership program, and labor union SEIU Local 503, as well as the Oregon Home Care Commission (OHCC). All Carina users are verified.

Delivered by RISE Partnership
