

# 2024

## ADA Settlement Agreement Report

As Required per Section 8  
Issued March 31, 2025

(Revised April 23, 2025)

### **ADA Settlement Agreement 2024 Annual Report**

The Oregon Department of Transportation (ODOT) is an Equal employment Opportunity and Affirmative Action Employer.

This information can be made available in alternative format by calling the Americans with Disabilities Act (ADA) program in the Office of Equity and Civil Rights at 855-540-6655; for TTY use 7-1-1 relay services, or email to [ODOT\\_ADA@odot.oregon.gov](mailto:ODOT_ADA@odot.oregon.gov).

ODOT does not discriminate based on disability in admission or access to its programs, services, activities, hiring and employment practices. Questions: 1-877-336-6368 (EEO-ODOT) or through Oregon Relay Service at 7-1-1.

## Introduction

The Oregon Department of Transportation (ODOT) and the Association of Oregon Centers for Independent Living (AOCIL), et al. entered into a 15-year settlement agreement on Nov. 2, 2016, to make state highways more accessible to people with disabilities. Section 8 of that agreement requires ODOT to report annually about its progress on specific tasks.

In keeping with the annual report requirements found within the agreement, ODOT is providing this document as the 2024 Annual Report, the eighth report submitted. This report demonstrates the considerable progress made by the agency in accelerating its remediation of curb ramps and push buttons throughout the state.

ODOT is developing new outreach and public engagement strategies, including hosting Universal Accessibility Advisory Committee (UAAC) meetings, to inform and support disability inclusion for Oregon Department of Transportation's transportation systems, programs and services.

## Section 8 Reporting

The agreement states:

*For each year of this agreement, ODOT will prepare an annual report based upon the work ODOT has performed under this agreement each year and provide information relating to its progress, including:*

- a) List of actions undertaken and completed by ODOT each year pursuant to this agreement.*
- b) Amount expended pursuant to Section 3.*
- c) Number of curb ramp locations remediated, specifically:
  - a. the number of curb ramp locations and actual curb ramps remediated per Section 4 (a) or (b) and their physical locations.*
  - b. the number of curb ramp locations remediated per Section 4 (c), (d), (e), (f), and (g), and their physical locations.**
- d) Number of curb ramp locations remaining to be remediated and their physical locations.*

ODOT continued progress implementing the provisions in the agreement. The following charts provide updated progress through 2024.

Figure 1: ODOT Curb Ramp Remediation through 2024.

The following table summarizes ODOT's curb ramp remediation progress based on categories of curb ramp remediation definitions set out in Section 4, summarized here:

Compliant in Place – Compliant with original baseline.

4(a) – Compliant by installation of a new curb ramp where previously missing.

4(b) – Compliant due to upgrade of an existing curb ramp or sloped area.

4(c) – Compliant by design exception.

4(d) – Compliant due to crosswalk closure.

4(e) – Compliant due to other permissible exception under ADA.

4(f) – Compliant due to right of way availability.

4(g) – Compliant due to other methods or changes with applicable standards.

Table 1: Remediation by ODOT through 2024, by Curb Ramp Category.

| Year | 4(a) | 4(b)  | 4(c) | 4(d) | 4(e) | 4(f) | 4(g) | Total By Year             | Cumulative Total |
|------|------|-------|------|------|------|------|------|---------------------------|------------------|
|      |      |       |      |      |      |      |      | Previously Remediated*    | 8746             |
| 2024 | 302  | 1,506 | 90   | 134  | 0    | 0    | 410  | 2442                      |                  |
|      |      |       |      |      |      |      |      | <b>2024 Updated Total</b> | <b>11,188</b>    |

Note about the table above:

\* Due to a programmatic calculation the previous total was changed from 8,748 in the 2023 Annual Report to 8,746. The remediation reason for two curb ramps were incorrectly moved from their prior assigned year of 2020 to current year, 2024. This change did not affect the overall total remediated it merely shifted the two ramps between years.

As of Dec. 31, 2024, 11,188 ramps in the 2017 Settlement Agreement Curb Ramp Inventory are now compliant.

## Part (a) Actions completed by ODOT Pursuant to the Agreement through Dec. 31, 2024

Per the agreement, the following includes all required reporting on deliverables for 2024. Not all sections required deliverables during 2024 and as such, sections 6, 10-13 and 16-25 are not addressed in this report.

### Section 1 – Updated Statewide Curb Ramp Inventory

Pursuant to the agreement, ODOT maintains and continues to update in-field curb ramp inventory to track new curb ramps and upgrades of existing curb ramps occurring each year. Data and systems management practices facilitate accurate maintenance of this inventory. The appendices attached reflect updates completed for 2024.

Consistent with this agreement, ODOT will continue to track jurisdictional transfers that occurred each calendar year of the agreement to ensure necessary curb ramp remediation takes place.

## Section 2 – Inventory of Pedestrian Crossing Signals

ODOT continues to make progress on remediation of push buttons. A summary of this inventory and compliance status is provided in the table below.

“Push button” is a general term used throughout this document about locations with push button assets.

“Audible pedestrian signal” is a general term used to reference the type of audio included at the crossing.

Table 2: Pedestrian Push Button Signal Compliance with ADA Standards.

| <b>Pedestrian Push Button Signal Compliance</b>   | <b>Unit Count</b> | <b>Percent of Total</b> |
|---------------------------------------------------|-------------------|-------------------------|
| Compliant                                         | 4,638             | 57%                     |
| Non-Compliant                                     | 3,490             | 43%                     |
| Total Push Buttons included in the ADA Settlement | 8,128             | 100%                    |

Some of these pedestrian signals include audible signals, which are typically added as the result of a request by a member of the public. While not a requirement for the Annual Report, ODOT provides the following summary of pedestrian signals with audible signal status in Table 3.

Table 3: Audible Pedestrian Signals.

| <b>Audible Pedestrian Signals</b>                 | <b>Unit Count</b> | <b>Percent of Total</b> |
|---------------------------------------------------|-------------------|-------------------------|
| With Audible                                      | 1,648             | 20%                     |
| No Audible                                        | 5,595             | 69%                     |
| Unknown                                           | 885               | 11%                     |
| Total Push Buttons included in the ADA Settlement | 8,128             | 100%                    |

ODOT continues to track jurisdictional transfers that include pedestrian signals to ensure that necessary pedestrian signal remediation takes place.

## Section 3 – Initial Commitment for Prioritized Projects (Locations)

As noted in the 2023 Annual Report, ODOT has expended over \$5 million on priority locations and thus met its commitment under Section 3. Other project information may be found at [Transportation Project Tracker](#).

## Section 4 – Remediation of Curb Ramp Inventory

In 2024, ODOT remediated 2,442 curb ramps identified in the updated curb ramp inventory as fair, poor, missing. Remediation details are provided in Part (c) of this report.

ODOT continues its commitment to data quality and processes and will implement improvements as necessary and correct reports when appropriate.

## Section 5 – Remediation of Pedestrian Signals

ODOT continues to maintain its inventory of pedestrian signals and applies its evaluation criteria to ensure compliance with the ADA. ODOT works with its accessibility consultant Cole & Associates (Cole) and other ODOT technical programs to improve design standards and construction requirements. ODOT also provides guidance regarding what work constitutes an “alteration,” requiring signal push button remediation.

In many locations ODOT continues to make progress by addressing pedestrian push button accessibility when constructing curb ramps.

## Section 6 – No Deliverables

As referenced on Page 3, not all sections of the agreement require reporting in this report. ODOT reports that there are no deliverables for 2024 for Section 6.

## Section 7 – Accessibility Consultant

ODOT continues to work with its accessibility consultant, as required under the agreement. Cole reviews ODOT policies, standards, practices, training, forms, and guidance to determine whether ODOT is following applicable standards for curb ramps. Cole provides a concurrence letter acknowledging that ODOT is complying with the applicable standards once these reviews conclude successfully.

In 2024, Cole provided concurrence letters for the following:

- Oregon Department of Transportation Highway Design Manual 2025, Part 100 Design Policies and Procedures, Part 800 Pedestrian Design, and Part 1000 Design Exceptions.
- Revised Technical Bulletin RD21-04(B), Design for Program Funded Curb Ramps Projects.

## Section 8 – Reporting

The contents of this report identify the work ODOT has performed under this agreement each year and provides information relating to its progress.

## Section 9 – Alternate Routes during Construction

ODOT continues to work with the accessibility consultant to update its temporary pedestrian access routes (TPAR) policy to meet applicable standards. In 2024, ODOT staff and the accessibility consultant participated in field reviews and evaluated many in-place routes to ensure they provided appropriate access. The results of the field reviews will be presented to ODOT and will be assessed for potential change in design and training.

When projects are nearing the construction phase, ODOT notifies organizations that serve people with disabilities about TPARs for the projects. These organizations are the Centers for Independent Living, as provided by AOCIL. ODOT also notifies the public and provides opportunities for communication before the construction phase with project open houses where the public can learn more and provide input. Project information is located on the ODOT project page <https://www.oregon.gov/odot/Projects/Pages/default.aspx>.

In 2024, a TPAR design/inspection training was developed and published to Workday Oregon for Oregon work zone designers and inspectors. All ODOT consultant work zone designers and inspectors are now required to take the training as part of a consultant's scope of work. The on-demand TPAR training is also available to staff and the public. ODOT has also provided TPAR training to ODOT inspectors, ADA and Quality Assurance personnel and to interested others in coordination with Oregon State University (OSU) technical engineering educational series.

## Sections 10-13 – No Deliverables

As referenced on Page 3, not all sections of the agreement require reporting in this report. ODOT reports that there are no deliverables for 2024 for Sections 10-13.

## Section 14 – ODOT Oversight

ODOT identified Michael Kimlinger, chief engineer, as a person with access to the ODOT director, as necessary, to be responsible for implementation of processes developed for remediation obligations.

ODOT identified Brenda Gessner, Title VI, ADA and Environmental Justice Program manager based in the Office of Equity and Civil Rights, as ODOT's ADA coordinator with access to the ODOT director, as needed, for processes related to disability rights.

## Section 15 – Public Complaint and Request Process

ODOT follows its process to review and respond to comments, questions, concerns, and requests consistent with this section. Designated ODOT ADA-CQCR coordinators, knowledgeable about ADA requirements and CQCR process timelines, strive to find solutions to barriers identified in CQCRs. Coordinators meet monthly to share expertise, solve complex barriers, and monitor CQCR remediation efforts. CQCR coordinators collaborate with technical staff throughout ODOT. This agency-wide process enhances deeper staff knowledge of barriers encountered and ADA standards and solutions. When ODOT receives a CQCR, an ADA-CQCR coordinator contacts the submitter to acknowledge receipt and gain a clear understanding of the issue(s). The CQCR coordinator will then work to identify an effective solution and follow each case to completion, communicating with the submitter as necessary. If the CQCR is not within ODOT's jurisdiction, ODOT will facilitate contact information for other jurisdictions and transfer the request information to the correct contact(s) for each local program. Where ODOT jurisdiction CQCR solutions require a longer timeframe and planning to address, these locations are retained and noted in Appendix F of the [2023 ODOT ADA Transition Plan](#).

ODOT actively seeks to learn about barriers the public encounters. Any person can submit a CQCR using the designated form on [ODOT's website](#) (<https://www.oregon.gov/odot/ADA/Pages/CQCR.aspx>), calling AskODOT (1-888-275-6368, ext. 7), or [using the Ask ODOT online portal](#). In addition, ODOT staff members who interact with members of the public can provide contact information for reporting barriers or requesting access accommodations.

### CQCR Overview for 2024

ODOT received 77 comments, questions, concerns, or requests during 2024. For each submission, ODOT tracks the subject and location of the request and the steps to identify solutions.

In addition, seven CQCRs received in prior years were resolved in 2024.

The following charts only reflect cases opened in 2024.

The status distribution of CQCRs in Figure 2 is organized by status designation. The designation of "long-term fix" are those reported barriers that involve multiple elements of infrastructure, a significant length of highway, or other challenges at the site that require significant engineering or long-term planning to address. Long-term fix accounts for 4% of the 2024 total.

A request for a wider pedestrian way on the Yaquina Bay Bridge is an example of a long-term fix. This historic signature bridge is hundreds of feet long. While addressing the pedestrian width could be possible, it would require significant engineering and long-term planning to address.

Figure 2: CQCR Status at Year End.

The geographic distribution of CQCRs in Figure 3 is organized by region. The designation “all regions” is reserved for those CQCRs involving statewide policies or DMV processes. The designation “other” is reserved for cases that apply to a subset of multiple regions and to cases without clearly defined locations.

Figure 3: Geographic Distribution of CQCRs.

The designation "other" in Figure 4 is reserved for barriers that do not fall within the established categories.

Figure 4: Leading Reasons for CQCR Submission.

## **Sections 16-25 – No Deliverables**

As referenced on Page 3, not all sections of the agreement require reporting in this report. ODOT reports that there are no deliverables for 2024 for Sections 16-25.

## **Section 26 – Transportation Remediation**

The Public Transportation Advisory Committee (PTAC) provides advice to ODOT's Public Transportation Division and Oregon Transportation Commission on transit policies and programs. The committee serves as a forum for discussing and identifying issues and solutions in public transportation.

The committee's ADA Workgroup formed in 2017 in response to the settlement reached between ODOT and the AOCIL. The group gathers input from residents, officials and ODOT staff as it considers barriers and issues people with disabilities face while accessing transit statewide. The PTAC ADA workgroup's priorities and work plan are coordinated with the PTAC.

## **Section 27 – Education and Outreach**

ODOT has met its commitment under Section 27, to report on education and outreach through 2021. Accordingly, ODOT will not report on Section 27 activity in future reports.

This is the conclusion of Part (a).

## **Part (b) Amount Expended Pursuant to Section 3**

As noted in the 2023 Annual Report, ODOT expended over \$5 million on priority locations and thus met its commitment under Section 3 in 2023.

# Part (c) Number of Curb Ramp Locations Remediated

The agreement requires ODOT to report on the number of remediated curb ramps and how they were remediated. The first category to report is the number of curb ramps and their physical locations that were remediated by:

- 4(a) the installation of a new curb ramp at a location where one was previously missing: 302 curb ramps.
- 4(b) upgrading an existing, non-compliant curb ramp to meet applicable standards: 1,506 curb ramps.

(See agreement, Section 4).

A summary of missing and poor curb ramps that were remediated by physical installation is provided in the table below.

Table 4: Curb Ramp Remediation for Categories 4(a) and 4(b), by ODOT Region.

| Section      | Region 1 | Region 2 | Region 3 | Region 4 | Region 5 | Transferred | Total |
|--------------|----------|----------|----------|----------|----------|-------------|-------|
| 4(a)         | 118      | 36       | 42       | 37       | 64       | 5           | 302   |
| 4(b)         | 360      | 301      | 223      | 255      | 340      | 27          | 1,506 |
| <b>Total</b> | 478      | 337      | 265      | 292      | 404      | 32          | 1,808 |

Note: ODOT standards consider “non-compliant curb ramps” to include:

- curb ramps that do not meet one or more of the applicable design standards.
- curb ramps that are needed, but not yet in place (also known as “missing”).
- curb ramps that do not have a properly installed crosswalk closure and documentation.

Collectively, these curb ramps are considered “poor” for accessibility and reported as such. As required by the agreement, ODOT reports on the number of missing and non-compliant curb ramps that were remediated by physically installing new curb ramps or upgrading existing curb ramps under Sections 4(a) and (b).

(See Appendix 1 for physical locations.)

Other categories to report are the number of curb ramps that were remediated by:

- 4(c) determining that there was a design exception because a curb ramp that was fully compliant with all design standards would be technically infeasible: 90 curb ramps.
- 4(d) closing a pedestrian crossing as appropriate with applicable standards: 134 curb ramps.

- 4(e) determining there was another permissible exception to compliance under ADA: 0 curb ramps.
- 4(f) determining right of way availability precluded compliance: 0 curb ramps.
- 4(g) determining the curb ramps were compliant because of other methods or changes to the location: 410 curb ramps.
  - For example, an intersection that included four corners and two pedestrian islands will show a reduction of four curb ramps due to the removal of two pedestrian islands. The new intersection configuration complies with all standards and results in eight remediated curb ramps.
  - For example, curb ramps that were determined “not needed” through further analysis and evaluation are remediated curb ramps. This may be because there is no pedestrian infrastructure in place or it is determined that a crosswalk does not exist.

(See agreement, Section 4).

A summary of curb ramps remediated by these categories is provided in the table below.

Table 5: Curb Ramp Remediation for Categories 4(c)-4(g), by ODOT Region.

| Section | Region 1 | Region 2 | Region 3 | Region 4 | Region 5 | Transferred | Total |
|---------|----------|----------|----------|----------|----------|-------------|-------|
| 4(c)    | 17       | 36       | 16       | 13       | 7        | 1           | 90    |
| 4(d)    | 46       | 66       | 13       | 2        | 6        | 1           | 134   |
| 4(e)    | 0        | 0        | 0        | 0        | 0        | 0           | 0     |
| 4(f)    | 0        | 0        | 0        | 0        | 0        | 0           | 0     |
| 4(g)    | 101      | 139      | 54       | 45       | 70       | 1           | 410   |

In summary, the total number of curb ramps remediated by all methods listed in Section 4 equals 2,442. A summary of these results is shown in the following table.

(See Appendix 2 for physical locations.)

Table 6: Curb Ramp Remediation, by Category.

| 4(a) | 4(b) | 4(c) | 4(d) | 4(e) | 4(f) | 4(g) | Total |
|------|------|------|------|------|------|------|-------|
| 302  | 1506 | 90   | 134  | 0    | 0    | 410  | 2,442 |

# Part (d) Number of Curb Ramp Locations Remaining to be Remediated and their Physical Locations

ODOT continues to plan curb ramp specific projects. Where applicable, curb ramp remediation is incorporated into other ODOT projects.

Table 7 shows a breakdown of inventory curb ramps subject to the agreement. The breakdown totals include compliant in-place, remediation category (e.g., 4(a)) and non-compliant, by region, following 2024 remediation efforts.

Table 7: Breakdown of Curb Ramps Included in Agreement.

| <b>Remediation Reason</b> | <b>Region 1</b> | <b>Region 2</b> | <b>Region 3</b> | <b>Region 4</b> | <b>Region 5</b> | <b>Transfer</b> | <b>Total</b>  |
|---------------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|---------------|
| Compliant in-place        | 183             | 185             | 62              | 50              | 87              | 34              | 601           |
| 4(a)                      | 281             | 212             | 193             | 159             | 245             | 14              | 1,104         |
| 4(b)                      | 1,149           | 1,464           | 907             | 690             | 1,409           | 97              | 5,716         |
| 4(c)                      | 73              | 137             | 52              | 30              | 32              | 16              | 340           |
| 4(d)                      | 1,085           | 478             | 189             | 74              | 141             | 51              | 2,018         |
| 4(e)                      | 0               | 0               | 0               | 0               | 0               | 0               | 0             |
| 4(f)                      | 0               | 0               | 0               | 0               | 0               | 0               | 0             |
| 4(g)                      | 313             | 383             | 255             | 213             | 233             | 12              | 1,409         |
| <b>Total Compliant</b>    | <b>3,084</b>    | <b>2,859</b>    | <b>1,658</b>    | <b>1,216</b>    | <b>2,147</b>    | <b>224</b>      | <b>11,188</b> |
| Non-Compliant             | 4,364           | 6,457           | 1,779           | 1,061           | 1,457           | 1,028           | 16,146        |
| <b>Totals</b>             | <b>7,448</b>    | <b>9,316</b>    | <b>3,437</b>    | <b>2,277</b>    | <b>3,604</b>    | <b>1,252</b>    | <b>27,334</b> |

Table 8 shows the remaining number of curb ramps, by region, that require remediation.

Table 8: Curb Ramps that Require Remediation.

| <b>Condition</b> | <b>Region 1</b> | <b>Region 2</b> | <b>Region 3</b> | <b>Region 4</b> | <b>Region 5</b> | <b>Transfer</b> | <b>Total</b> |
|------------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|--------------|
| Non-Compliant    | 4,364           | 6,457           | 1,779           | 1,061           | 1,457           | 1,028           | 16,146       |

See Appendix 3 for curb ramps remaining to be remediated and the physical locations.
