

DOING BUSINESS WITH THE OREGON DEPARTMENT OF TRANSPORTATION (ODOT)

Providing a safe and reliable multimodal transportation system that connects people and helps Oregon's communities and economy thrive.

Office of Engagement and Civil Rights (OECR)

Small Business Opportunities

ODOT values small businesses by providing programs and resources that help firms successfully compete for ODOT contracts. For information on ODOT contracting, certification programs, and resources for your business, please visit ODOT's Civil Rights website linked below.

Disadvantaged Business Enterprise (DBE) Program

Through the DBE program, small businesses can compete for contracts funded by federal transportation dollars. To qualify, a business must meet size limits and be majority-owned and managed by people who are socially and economically disadvantaged.

Emerging Small Business (ESB) Program

The ESB Program offers small businesses the ability to compete for contracts limited to ESB firms and empowers them to work in a prime contracting role with ODOT to build capacity and experience.

Small Business Development Program

The program identifies and awards prime transportation construction projects suitable for qualified small businesses.

OECR Contact Information:

OCRinforequest@odot.oregon.gov or (503) 986-4350

External Resource: Certification Office for Business Inclusion and Diversity (COBID)

COBID certifications are required to participate in DBE and ESB and provides unique opportunities for socially and economically resource-limited firms to compete in government contracting.

Goods, Trade Services, and Public Improvement Contracts

Goods are supplies, equipment, materials, or personal property, including any tangible, intangible and intellectual property, and rights and licenses. (e.g. office and janitorial, tools and equipment, building materials, and vehicles or parts.)

Trade services are all remaining services that do not meet the definition of Architectural & Engineering and Related or Personal Services. Trade services often, but not always, emphasize physical rather than intellectual activity. (e.g. troubleshooting and repair, maintenance, electrical, plumbing, janitorial, and computer repair.)

Price Agreements

The Department of Administrative Services (DAS) establishes price agreements for goods and services commonly used by all state agencies. Agencies must purchase these items from established price agreements. OPO may also establish price agreements for ODOT use only.

Personal Services Contracts

Contracts for Personal Services (including Architectural & Engineering, Land Surveying and Related Services, and non-Architectural & Engineering). Competitive Request for Proposal solicitations are used for these contracts. Solicitations are advertised on OregonBuys. For information on obtaining billing rates for personal service contracts, please contact the email or visit the below QR code.

Contracting with ODOT:

Consultant Resources:

Highway Construction Contracts

Construction projects are competitively bid and advertised in the Business Tribune and the Daily Journal of Commerce. For a list of upcoming projects, visit the *Schedule of Upcoming Projects* link below.

Prequalification: ODOT requires prime contractors to be pre-qualified at least 10 days prior to the bid date. For information regarding qualifications, subcontracting opportunities, bidding, obtaining plans, special provisions, bid results, and many other Highway Construction resources, please visit the *Bid and Award* website linked below.

Plans and Bidding Documents: May be downloaded at no cost from the ODOT Electronic Bidding Information Distribution.

How to find contract opportunities:

OregonBuys

OregonBuys is a full procure-to-pay eProcurement solution that automates procurement processes using web-based applications.

Suppliers and vendors may browse OregonBuys as an anonymous user or register to view and download opportunities. A supplier account is required to do business with state agencies and to receive notification of opportunities. Registering in OregonBuys is free.

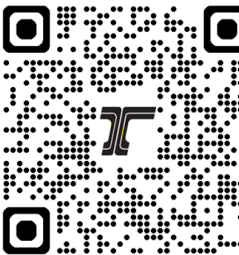

[OregonBuys Website:](#)

Maintenance District Offices

ODOT has 14 maintenance districts across the state. District offices are responsible for the day-to-day operations and maintenance of their roadway sections and facilities, and purchase of products and services up to \$100,000. Opportunities over \$10,000 are advertised on OregonBuys. During emergency procurements, districts may directly award contracts to firms.
