

FEE SCHEDULE

Heavy Motor Vehicles and Buses

Registration fees for most motor vehicles required to establish a registration weight are based on this fee schedule. The back of this form contains information on which vehicle types must use this fee schedule and how to determine a vehicle's registration weight. If the vehicle does not already have Oregon registration plates, a plate fee is required. If the vehicle is registered for less than one year, \$2 is added to the registration fee. *Vehicles registered in Multnomah County must also pay an additional \$14 per quarter for county registration fees. Vehicles registered in Washington or Clackamas County must also pay an additional \$7.50 per quarter for county registration fees.

This fee schedule must be used for: trucks and non-commercial buses with a registration weight of more than 10,000 pounds, commercial buses, armored cars, hearses, ambulances, and all self-propelled mobile cranes with a registration weight of more than 8,000 pounds. Armored cars, hearses, ambulances and self-propelled cranes 8,000 pounds or less register for one year.

IMPORTANT NOTICE FOR VEHICLES WITH COMBINED WEIGHT OVER 26,000 POUNDS

Vehicles subject to weight-mile tax through Commerce and Compliance Division (CCD) must be registered with CCD. This applies primarily to vehicles with a registration weight of 26,001 pounds or more. This also applies to Tow/Recovery vehicles hauling property for hire.

If you wish to register or renew a vehicle that has a registration weight of 26,001 pounds or more with DMV, you must certify the vehicle is not subject to weight-mile tax (use Form 735-7015). Certification forms may be obtained online or at your local DMV office. The certification must accompany your registration or renewal application.

Vehicles with registration weights of less than 26,001 pounds may also be subject to weight-mile tax if the vehicle's combined weight is 26,001 pounds or more. For example, this would include tow trucks or a vehicle used exclusively to tow manufactured structures since the towed vehicle or manufactured structure is not included in the registration weight but is part of the combined weight. If the combined weight of your vehicle is 26,001 pounds or more, you must register it with CCD.

All buses, trucks or other motor vehicles with a **registration weight** of more than 10,000 pounds may be registered for 1, 2 or 3 quarters, or for a full year (4 quarters). The quarters run January 1 – March 31, April 1 – June 30, July 1 – September 30 and October 1 – December 31. Tow trucks must register for one year and are registered under a different fee schedule.

Registration Weight:

Trucks

Registration weight for trucks is the total empty weight of the vehicle or all vehicles in a combination (e.g., a truck and any trailers it may pull), plus the total weight of the load carried on that vehicle or combination of vehicles, minus the weight of a camper or the trailing vehicles listed below:

- (1) Trailers with a loaded weight of 8,000 pounds or less.
- (2) Special use trailers, travel trailers, manufactured structures and fixed load vehicles.
- (3) A towed motor vehicle.

Self-Propelled Mobile Cranes

Registration weight for self-propelled mobile cranes is the overall weight of the vehicle plus the weight of any cables, pulleys and the boom.

Motor Buses

Registration weight for motor buses is the unloaded weight plus the unloaded weight of any bus trailer to be used in combination with the vehicle and shall indicate the number of persons, including the driver, to be carried in the vehicle (maximum occupancy), plus the number of persons to be carried on any bus trailer to be used in combination with the vehicle.

Tow and Recovery Vehicles (Tow trucks)

Use tow/recovery fee schedule, Form 735-0153.

Heavy Trailers

Trailers with a loaded weight in excess of 8,000 pounds are registered permanently for a fee of \$10. The loaded weight of heavy trailers is included in the registration weight of the power unit that pulls the trailer.

Maximum Weight

The maximum REGISTRATION WEIGHT per single vehicle or combination of vehicles is 105,500 pounds.

Regardless of registration weight, variance permits must be obtained when operating in excess of 80,000 pounds combined weight for any operation that exceeds the maximum allowable weights as described in ORS 818.020. Unlike registration weight, combined weight includes the weight of any camper, trailing vehicles or their loads. Variance permits may be obtained from CCD Over Dimension Permit Unit, 455 Airport Rd SE, Salem, Oregon 97301. The telephone number is (503) 373-0000 and their website is www.oregon.gov/odot/mct/pages/over-dimension-operations-oregon.aspx.
