SUSTAINABLE HEALTH CARE COST GROWTH TARGET PROGRAM**

In the Matter of:

The Corvallis Clinic, PC, an Oregon
Professional Corporation

For the Cost Growth Target
measurement period: 2021-2022

Agency No. **CGT-2023-PROV-22**

**NOTICE OF PROPOSED DETERMINATION
AND RIGHT TO REQUEST A HEARING**

Oregon Health Authority's (OHA) Sustainable Health Care Cost Growth Target Program (CGT) is tasked with monitoring the cost of health care in Oregon and holding payers and provider organizations accountable for cost growth that exceeds the annual target with statistical confidence and without an acceptable reason. The CGT is governed by Oregon Revised Statutes (ORS) 442.385 through 442.386 and Oregon Administrative Rules (OAR) Chapter 409, Division 65.

Per ORS 442.386 and OAR 409-065-0035, OHA reviews underlying cost drivers and reasons for cost growth and makes a determination as to whether such conditions or factors, or combination of such conditions or factors, suffices as reasonable cause for an entity to exceed the cost growth target for the measurement period.

Now, therefore, upon due consideration of the circumstances, including the mandatory cost growth target data submissions, supplemental information provided by the entity, and the entirety of OHA's record, OHA enters the following Notice of Proposed Determination.

Procedural History and Findings of Fact

OHA's CGT conducted its cost growth review under OAR 409-065-0035, which requires that OHA conduct analyses to understand potential systematic causes or other factors that might result in payers or provider organizations exceeding the cost growth target. The cost growth target for 2021 through 2025 is 3.4%.¹

The Corvallis Clinic, PC, an Oregon Professional Corporation ("The Corvallis Clinic") is a provider organization in Oregon and was identified as an accountable organization for the 2021-2022 measurement period. To be accountable to the target, provider organizations must have at least 10,000 unique patient lives or 5,000 lives within any one CGT market (Medicaid, Medicare, Commercial) attributed to them across CGT data submissions for the measurement period.²

On or around December 13, 2023, OHA notified The Corvallis Clinic that it had sufficient attributed patient volume to be accountable to the cost growth target. On or around January 10, 2024, OHA generated a data output summary and shared it with The Corvallis Clinic or around January 26, 2024. On or around March 8, 2024, OHA met with The Corvallis Clinic to review data output for the 2023 data cycle and discuss

¹ The cost growth target value for 2021-2025 was established by the Cost Growth Target Implementation Committee, as documented in their January 2021 Recommendations Report.

² Provider inclusion criteria were established by the Cost Growth Target Implementation Committee, as documented in their January 2021 Recommendations Report.

<https://www.oregon.gov/oha/HPA/HP/HCCGBDocs/Cost%20Growth%20Target%20Committee%20Recommendations%20Report%20FINAL%2001.25.21.pdf> OHA publishes the list of provider organizations that meet inclusion criteria every year.

and resolve any data validation concerns. On or around March 8, 2024, OHA completed CGT-1 data validation with The Corvallis Clinic.

On or around May 7, 2024, OHA notified The Corvallis Clinic of the cost growth data that were to be reported publicly in OHA's 2024 Cost Growth Target Annual Report, for the 2021-2022 cost growth measurement period. This report was released publicly on or around May 28, 2024.

On or around August 1, 2024, OHA reissued its 2024 Cost Growth Target Annual Report for the 2021-2022 cost growth measurement period due to data mitigation implemented after an error found in a mandatory data reporter's previously-validated submission. This update resulted in an update to The Corvallis Clinic's 2021-2022 cost growth.

In the corrected report, OHA identified The Corvallis Clinic as having cost growth over the target between calendar years 2021 and 2022 for the following markets: **Medicare Advantage, 6.1%**.

On or around July 25, 2024, OHA notified The Corvallis Clinic that it had exceeded the cost growth target for the 2021-2022 measurement period pursuant to OAR 409-065-0035(3).

OHA did not require The Corvallis Clinic to attend a reasonableness determination meeting, following an initial review of cost growth target data for the period that identified key drivers of cost growth.

Findings of Determining Reasonableness Process

- 1. Increased cost of retail pharmacy:** Over half of The Corvallis Clinic's growth in per member per month costs between 2021-2022 was due to an increase in the amount spent on retail pharmacy for attributed patients. The cost of pharmaceuticals is an ongoing concern in Oregon and nationally. Oregon's Prescription Drug Price Transparency Program [reported](#) that nationally, prescription drug expenditures grew 8.4% in 2022, double the rate increase of other health care expenditures.

PROPOSED DETERMINATION

Following a review of CGT data and additional information on health care spending, OHA has determined that The Corvallis Clinic's health care cost growth for Medicare Advantage from 2021-2022 was:

- **Due to acceptable reason(s).** The Corvallis Clinic will not be held accountable for cost growth in this measurement period and no further action is required for this measurement period.

Please see Attachment 1 for a running summary of The Corvallis Clinic's cost growth performance over time.
