

Oregon Medical Marijuana Program

REPORTING AND TRACKING REQUIREMENTS FOR MEDICAL MARIJUANA GROWERS

As a registered grower, you are required to comply with reporting and tracking requirements outlined in Oregon Administrative Rule (OAR) 333-008-0630 through 333-008-0638. A full explanation of reporting and tracking can be found at: healthoregon.org/ommpreporting

Most growers are required to use the Cannabis Tracking System (CTS) or the Oregon Medical Marijuana Online System (OMMOS).

To be **exempt** from reporting and tracking, all of the following must be true:

1. You are a patient only growing for yourself at your residence; AND
2. There are two or fewer patients registered at the grow site; AND
3. You are not transferring to a medical processor or dispensary.

To determine if you are required to report and which system to use:

- Sign in to your OMMOS account at ommpsystem.oregon.gov.
- View your reporting designation under the “Grow Sites” tab

CANNABIS TRACKING SYSTEM (CTS) USED TO REPORT DAILY AND ADMINISTERED BY THE OLCC		OREGON MEDICAL MARIJUANA ONLINE SYSTEM (OMMOS) USED TO REPORT MONTHLY TO THE OMMP	
	A grow site where there are 3 or more patients registered.		A grow site where there are 2 or fewer patients registered AND any one of the following are true:
Grow sites required to use CTS must designate a Grow Site Administrator (GSA) and pay the non-refundable annual CTS user fee within 15 days of being notified by the Oregon Medical Marijuana Program (OMMP).		- You are a designated grower for a patient other than yourself. - You are a patient growing for yourself at a grow site address that is not your residence. - You are a patient growing for yourself at your own residence AND indicated on your application that you will be transferring to a medical processor or dispensary.	

An Oregon Department of Agriculture (ODA) licensed scale is required to be used anytime marijuana is weighed for purposes of reporting into CTS or OMMOS. For information on how to license a scale, please contact the ODA Weights and Measures Program at <https://www.oregon.gov/ODA/agriculture/Pages/Cannabis.aspx> or call 503-986-4670.

▲ GROW SITE REPORTING REQUIREMENTS CAN CHANGE ▲

Pursuant to ORS 475C.770 to 475C.919, OAR 333-008-0720 to OAR 333-008-0740, failure to comply may result in your registration card or certificate being revoked or suspended or civil penalties being imposed against you of up to \$500 per day.

MEDICAL MARIJUANA PLANT LIMIT PER PATIENT

A grower may not produce more than the following per patient. The grow site location will further limit the number of plants allowed:

- 6 mature plants
- 12 immature plants 24" or more in height
- 36 immature plants under 24"

MEDICAL MARIJUANA GROW SITE PLANT LIMITS

The number of plants allowed at a grow site is determined by the number of patients being grown for by a registered grower and the location of the grow site. The following are plant maximums by grow site location:

The grow site is located at a patient's residence where the patient or the patient's designated primary caregiver produces marijuana.

This total includes the 4 personal (recreational) marijuana plants permitted under the Oregon Revised Statutes (ORS) 475C.305:

- 12 mature plants
- 24 immature plants (no size limit)

The grow site location is within city limits and zoned residential:

- 12 mature plants
- 24 immature plants over 24"
- 72 immature plants under 24"

The grow site location is within city limits but not zoned residential OR

The grow site location is outside city limits:

- 48 mature plants
- 96 immature plants over 24"
- 288 immature plants under 24"

Plant limits apply to the whole address. An address cannot be artificially subdivided.
