

Regional Substance Use & Overdose Prevention Coordinators

Overview: Regional Substance Use & Overdose Prevention Coordinators are community-based subject matter experts who work across the continuum of care spanning prevention, treatment, recovery, surveillance, and response. Oregon Health Authority (OHA) funds 11 regions spanning 23 counties. See the contact list below for more information.

Note: Some of the Coordinators listed below are not directly funded by OHA however, they serve their communities in similar capacities. Not all counties in Oregon have designated Coordinators.

County	Agency	Contact Name	Contact Email
