PURPOSE OF THE PROPOSED EXCHANGE OF WATER

Explain in your own words what you propose to accomplish with this exchange application, and why:

If you need additional space, continue on separate piece of paper and attach to application as "Attachment 1".

In order to use water from another source in exchange for supplying replacement water in an equal amount to satisfy prior appropriations from the other (originating) source, at least one of the following criteria must be met (ORS 540.533).

Check the box(es) that applies:

- ☐ The source of the applicant's appropriation under the originating water right to be exchanged is at times insufficient to fully satisfy the appropriation;
- ☐ Better conservation and use of the waters of the state can be accomplished; OR
- ☐ The applicant can develop water for appropriation under a permit for use of water for an instream purpose or a permit for recharging groundwater, but cannot economically convey the water to its point of use.

Please use a separate Part 4 for each water right being exchanged.
