Barriers to Entry

Barriers to Implementing Wireless Data

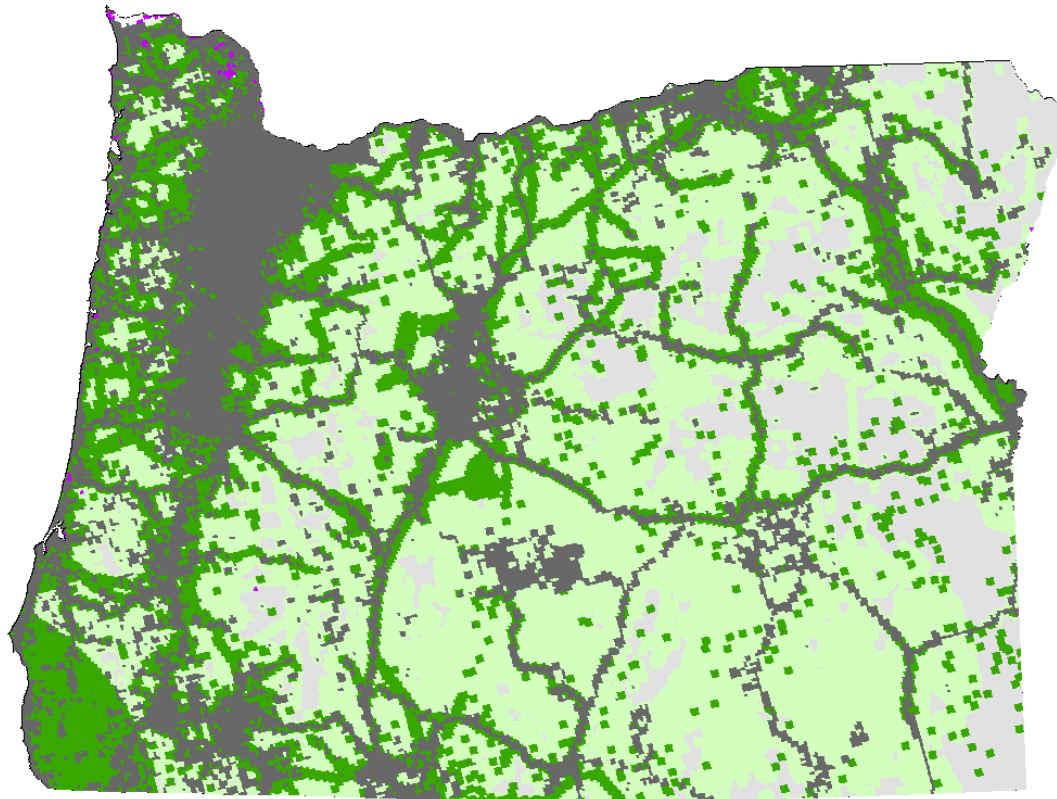

Oregon FirstNet Coverage Objectives Baseline

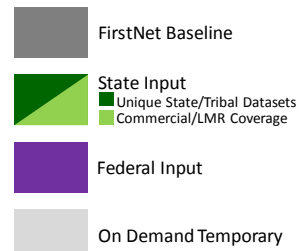

RFP Coverage Objectives

61,866 sq mile increase

As of Sept. 30, 2015 Data Collection v1.0

Coverage Objectives

Current Phasing Document

1. Portions of Oregon that already have high speed cellular data coverage*
2. Upgrading coverage objective areas that are currently served with lower speed coverage*
3. Areas outside current cellular data coverage that FNIO has deemed High Priority*
4. Areas outside current cellular data coverage that FNIO has deemed Medium Priority*
5. Areas outside current cellular data coverage that FNIO has deemed Low Priority*

*Rural buildout targets must be met in all phases

Discussion

- Pros and cons of a more specific phasing document
- What factors should be taken into account?
- What information would be useful for developing a phasing document?
- Questions Ida and Adam can answer?
